with more power to command and ability to plan than any man I ever served under; cool to excess when others lose nerve; always hopeful, always undisturbed, never failing to accomplish what he undertakes just as he expects to. I have known him intimately—have been a part of his household for two years, and am not mistaken in my estimate of his character."

For best statement of Farming Operations, showing the amount invested in lands, stock and tools—the cost of the several crops grown on the farm, the amount of labor expended on the farm and what portion of it was for improvement, and also the entire estimated value of the crops and income of the farm, \$8; 2d, best, \$5.

Com.—Officers of the Society. In addition to the above premiums, liberal notices and gratuities will be given for any article, implement, or machine that will facilitate and lessen the labor of the farmer, or that of his wife and family.

All manufactured articles must be produced within the limits of the Society to entitle them to the premiums; but any article deemed worthy, though of foreign production, will receive the attention and commendation of the Committees.

Superintendent of Exhibitions.—L. E. Crommett. Marshal.—John A. Juddkins.

Rules and Regulations. Entries of animals and Articles for the premiums may be made with the Secretary, any time previous to the first day of the Show, and must be made at any rate before 11 o'clock of said day, as at that hour the papers will pass into the hands of the committees, after which entries will not be received. Blanks, to be filled by competitors, may be had of the Secretary when the entries are made, which must be returned to him before the awards are made by the committees.

The attention of competitors is invited to the following requirement of the law:—It shall be the duty of every society applying for the bounty of the State to require of all competitors for premiums either upon animals, crops, dairy products, improvement of soils or manures, a full and accurate statement of the process or method of rearing, managing, producing and accomplishing the same, together with its cost and value, with a view of showing the profits or benefits derived or expected therefrom.

All animals except trotting horses must be on the ground and in the places assigned by the Marshals by 10 o'clock on the first day of the show, and competitors must remain with their animals until the committees have completed their examination.

No person will be allowed to draw a premium on animals not his own, nor if misrepresentations are made in regard to age, &c. Hay will be furnished for the Stock on the Show Ground.

Arrangements have been made with the Ticonic, Winslow and Fairfield Bridges, for the free passage of stock, and one driver with each lot.

Entries of Crops and Manures must be made with the Secretary before the first Monday in November; and the statements required by law must be furnished before any awards will be made.

Arrangements will be made at the Town Hall, for the exhibition of manufactured and such other articles as may be presented; and a competent committee will have charge of them to take proper care and arrange them in the best manner for exhibition; and all articles entered for premium or exhibition, must be in the hands of the committee at the Hall at or before 2 o'clock of the first day of the Show, and must remain in their places until 4 o'clock of the second, and must be exhibited without the name of the owner. At the time of making the entry, the Secretary will furnish a number for each article, which must be permanently attached.

All Manufactured Articles must be produced within the limits of the Society to entitle them to the premiums; but any article deemed worthy, although of foreign production, will receive the attention and commendation of the committees.

All committees on Stock are requested to report themselves promptly to the Trustees or Marshals, who will show them the animals to be examined. The Committees on articles at the Hall will be in session at 2 o'clock, and close their examination on the first day of the Show, and spectators will not be admitted while the committees are making their examination.

The Hall will be opened to the public at 7 o'clock on Tuesday evening, and also at 9 o'clock on Wednesday and continue open thro' the day.

Wednesday afternoon the adjudging committees will report their awards, and such other business will be transacted as may properly come before the Society.

The payment of one dollar constitutes a person a member of the Society, and entitles him to all its privileges, which are—a free ticket to the Show and Fair for himself, his wife and minor children, and the use of the library for one year.

Tickets of admission, to persons not members, to the Show Ground and Fair, 25 cts. or to either of them 15 cts. Ladies and carriage free to Show Ground.

License for the occupancy of land, for the sale of merchandise or refreshments, two dollars for each square rod, and no license granted for a less sum. Per order,

DANIEL B. WING, Secretary.

Our Village Schools. The public schools in this village began operations for the year the present week, with the exception of the High School, which opened two weeks earlier.

It is known that the High School is taught in the Academy building, in pursuance of a vote of the District, and in accordance with an arrangement made for the purpose with the Preceptor of the Academy.

One reason for adopting this arrangement for the High School was the wish to have the means of providing another Grammar School.

Accordingly we now have in the village three Grammar Schools, instead of two only, as heretofore. Or perhaps a better way of stating the fact is, that we now have One Complete Grammar School, arranged in three divisions classes, or smaller schools, each having its own teacher, and assembled in a separate place, but disposed severally one above another, in such a way that the pupil, in order to go through the Grammar School course, must begin with the lowest class, and finish with the highest, and spend at least a year in each.

This classification has, further, the great recommendation of relieving the two primary schools, taught at the two extremities of the village, by Miss Stackpole and Miss White, both of which were before very much crowded.

It has transferred from each of these schools about twenty pupils to the school of Miss Bemis.

Such is the new arrangement for the schools in this village. In the judgment of the School Committee, the teachers are all well qualified and faithful, and they believe, that if all the parents in the village lend their indispensable aid and co-operation, the schools will become highly efficient and useful.

TALK TO THE PEOPLE. Messrs. Bradbury and Libby, of Augusta, and "Friend Samuel Taylor, of Fairfield," addressed a "democratic meeting" at Hunter's Mills on Thursday afternoon, at 2 o'clock.

On Friday evening Lewis Barker, Esq., of Stetson, will address the people at Kendall's Mills. On Saturday evening, at Town Hall, Waterville, Hon. W. B. S. Moor will address the democratic caucus, called to nominate a candidate for representative in the legislature. The Union caucus occurs at 4 o'clock afternoon of the same day.

VICTORY AT LAST.—Our friend Boothby, at the Lower Depot, enables us to crow over all creation, by exhibiting a hen's egg weighing 4 1-4 ounces, and measuring 9 1-2 inches in its longest and 6 3-8 in its shortest circumference. No more to be said in the egg contest—unless the Farmer produces another goose egg.

RAN INTO.—A man whose name we didn't learn, while driving up Main-st., on Thursday, at a very rapid rate, ran into a load of wood, and was induced thereby to turn a summersault of great diameter, while his horse spent the interval in smashing the buggy. The man escaped with a badly bruised hand. "A spirited horse, I guess," said John, while helping to gather up the fragments;—"And a spirited driver too!" added somebody.

FALLING UPON THEIR OWN SWORDS.—If the really honest democrats, in all this section, could see and examine the principal arguments of the Augusta Age, and kindred papers, we should certainly regard it as an advantage to

the Union cause. But this cannot be—honest men don't want it. So we are willing to put some of its main arguments into their hands. Its last number is its last campaign sheet, and contains

OUR TABLE.

THE LONDON QUARTERLY.—The contents of the July number are as follows:—The Resources and Future of Austria; Natural History of the Bible; Glacial Theories; Our Colonial System; Washington Irving; Modern Spiritualism; Sacred Trees and Flowers; Roba di Roma; The Nile—Speke and Grant.

FACT, FUN, AND FANCY.

Dr. De Grand of Havana, mentions ice as an infallible specific for cholera. It should be eaten as soon as the sore throat commences. It is said by him to be a specific even when the disease has attained great intensity.

Artemus Ward has gone to California where he has an engagement to lecture six nights.

The Leviston Journal mentions that twenty-five cars loaded with cattle passed over the Maine Central railroad Monday in one train. An immense number of cattle are being transported from this State, this fall.

Mrs. Daniel Wright, of Leviston has spun quite a parcel of cotton yarn from cotton raised by her in the house from seed planted early last spring. Cotton raising in Maine is quite an idea.

PARTY GOOD.—While the Masons were enroute for Greenfield the other day, an inquisitive countryman at one of the stations, after evening the Knights Templars for a moment, inquired with much concern "whether all them Brigadier Generals were going home on a furlough?" — Portsmouth Chronicle.

A loyal generous hearted Irishman in New York, proposes that the rebuilding of Colored Orphan Asylum in Boston be now turning all needy soldiers, (who can get their money) with much concern "whether all them Brigadier Generals were going home on a furlough?"

An enraged parent had jerked his provoking son across his knee, and was operating on the exposed portion of the mother's person with great violence when the young one dug into the parental legs with his venomous little teeth. "Blazes! what are you biting me for?" "Well, who beguned this 'ere war?"

The nearest countdown we believe is as follows: "Why is the busiest of the world?" The answer is: "Because it is in the midst of bias; it is in hell, and all the others are in purgatory."

The Utica Telegraph has fished up a man in that city so mean that he is biting the ends of his fingers to save the amount of the new tax on cut-nails.

IMPORTANT TO DISABLED SOLDIERS.—Palmer & Co., of Boston are now furnishing all needy soldiers, (who can show their discharge papers) with artificial legs, of the best quality free of charge. Government pays the bills.

Mr. Alexander Blair, of Richmond, committed suicide by hanging on Wednesday last. No cause assigned.

The Union men of Richmond have nominated Capt. A. Deering, as Representative to the Legislature.

Universitat Convocation.—The annual session of the United States Union Convention will commence in Portland next Tuesday and continue until Friday.

The Knickerbocker Baptist Association will meet in Waterville on Tuesday next.

War of Redemption.

Good news comes to us from East Tennessee. Gen. Burnside captured Knoxville on the 4th inst., and Gen. Rosecrans has obtained possession of Chattanooga, with but little resistance on the part of the rebels. A confederate regiment was captured in a body and many prisoners besides. The two generals are now acting in concert. The rebel army is said to be about 50,000 strong, but badly disorganized. East Tennessee is now free from rebel domination, never more to be surrendered to them we trust.

We have also good tidings from Charleston. After a terrific bombardment, the rebels evacuated Forts Wagner and Gregg and the whole of Morris Island, with a loss of 75 men, and the doomed city may now be regarded as truly at our mercy. The inhabitants, it is said, are anxious to surrender but Beauregard will not consent. Sumter is a mere heap of ruins, with the rebel flag still flying on one corner, and the secession say that it will be blown up when our forces attempt to take possession.

Gen. Averill, in a recent expedition to White Sulphur Springs, Va., destroyed some salt works and a rebel camp, and took a number of prisoners, including several officers. His loss was about a hundred in killed and wounded.

The gunboats Satellite and Reliance, recently captured at the mouth of the Rappahannock by the rebels, have been destroyed by Gen. Kilpatrick.

The negro regiments on the Mississippi are filling up rapidly.

A formidable expedition is organizing for the federal occupation of Texas, partly with a view to checkmate the designs of Louis Napoleon. The projected movement against Mobile has been given up for the present.

Gen. Blunt has routed the rebel force under Gens. Steele and Cooper, in Arkansas, capturing and destroying their commissary depot. Blunt, at last accounts, was marching on Fort Smith.

The people of Kansas, maddened by the recent outrages, are threatening to invade Missouri and exterminate the disloyal citizens.

Serious trouble is anticipated unless government interferes.

Many are apprehensive of serious trouble with the French Emperor, where policy is said to lean more and more in favor of the Confederate States.

Peace meetings continue to be held in North Carolina.

LATER.—We have official confirmation of the capture of Forts Gregg and Wagner, with 19 pieces of artillery and a large supply of excellent ammunition. At last accounts the monitors were busy with batteries Beauregard and Bee. A shell from one of our monitors exploded in the magazine of Fort Moultrie, seriously damaging the eastern parapet.

Gen. Frazier, with 2000 men, and 14 pieces of artillery, surrendered Cumberland Gap to a detachment of Burnside's army, on the 9th, without firing a gun. There was great rejoicing in Knoxville and all through East Tennessee at the presence of our troops.

Gen. Blunt has captured Fort Smith in Arkansas, again routing the rebels. They have evacuated Little Rock, and it is said are fortifying at Fort Washington.

PRO-DIGIOUS.—Who ever saw a feathered cat? an animal, in shape a cat, but covered with feathers from the tip of her nose to the end of her tail? We saw one recently, and a venomous little beast it was—snapping and snarling about the room and making itself very disagreeable generally. We felt better when relieved of its presence.

P.S.—The Professor of Natural History needn't rush in now to inquire where this strange phenomenon may be seen, but we will give him our mode of getting one up. Let him eat two hard apples, hastily, just before going to bed, and we'll warrant him a vision of a feathered cat—or some other strange bird.

TAKE NOTICE.—By a special order of the court of Hymen, no man, young or old, will hereafter be allowed to take a wife from Waterville, unless he subscribes for the Mail, for her comfort and consolation in the new home to which he shall carry her.

DAN CURTIS, Clerk.

FARMERS.—Read over the list of premiums, offered by the Agricultural Society, and prepare to bring in something for your neighbors to look at. The excitement of the election will soon be over; and having saved the country politically, you will then have leisure to attend to its agricultural interests.

WHAT TO DO WITH A 'GREEN BACK'—There is, just now, a way of using one of Uncle Samuel's paper Dollars, so as to get back the worth of it in a single year. Everybody has heard of Seth Boyden's wonderful new strawberry.

From all accounts, it is a marvelous thing—the berries nearly as large as hens' eggs, and as good as they are large. Dealers were after it; offering as high as \$3000 for the plants, to speculate upon; but we are glad to know that the enterprising publisher of the American Agriculturist got the start of them, and bought up all the plants, and is multiplying them in order to give them away to his subscribers!

This is in effect a free gift, to the public—for the Agriculturist, costing only a dollar a year, is of itself worth many dollars to every one, as we can testify, having ourselves been a reader of it. To those unacquainted with it, we would say that the Agriculturist is a large Journal, of 32 pages in every number, is beautifully got up, and is illustrated with many pleasing and instructive engravings, which are alone worth the whole cost. The pages are literally filled with good things—plain, practical, reliable information upon everything connected with the work of the Household, the Garden, and the Farm,

including a very pleasing and instructive Department for Children and Youth that is hardly surpassed by any of the professedly Children's Magazines. The thousands of useful hints and suggestions in the Agriculturist, all prepared by practical working men and women who know what they are talking about—can not fail to be worth many dollars to every reader, whether residing in City, Village, or Country. There are special reasons for subscribing now: First, The rule for distributing the Strawberry plants is 'first come first served'; and Second, every new subscriber for the 23d annual Volume that is, for all of 1864, will get the remaining numbers of this year free. Take our advice, then, and send a dollar at once to the Publisher, (ORANGE JUDD, 41 Park Row, N.Y. City), and secure the paper, and the extra numbers, and also an early place in the great Strawberry list. If the plants are to come to you by mail, as they can safely do, send an extra five cents to cover the mailing. Those desiring to see the Agriculturist, before subscribing, can get a post paid copy; by sending a dime to the publisher, as above.

Penobscot Musical Association.—The sixteenth annual session of this association will be held in Norombega Hall, Bangor, commencing on Tuesday, the 22d inst., and continuing four days, under the direction of L. O. Emerson, Esq., of Boston, a musical composer of some note, who has had several years of successful experience in conducting musical associations. We learn that free return tickets will be given to those in attendance who go by railroad.

The severe frost and drouth at the west has seriously damaged the corn crop, and the market is tending upward.

Thirty-five lives were lost on the 28th ult, by the foundering of the steamer Sunbeam, on Lake Superior.

The U. S. Steamer Vanderbilt arrived at Rio Janeiro on the 14th ult. This information disposes of the absurd report that the Vanderbilt had been captured by the pirate Alabama.

FIRES IN NEWPORT.—On Saturday last, a tannery at East Newport, owned by Shaw

Brothers, was consumed by fire; and about two o'clock this morning the dwelling house and out buildings of Mr. George Wilson were burned, a portion of the furniture, only, being saved.

Loss, about \$1,500, with an insurance of \$400. It is supposed to be the work of an incendiary.

The store of B. and M. M. Swan, of Augusta, was entered on Thursday night of last week, and robbed of a hundred dollars worth of jewelry, watches, &c.

Mr. Wm. H. Blair, formerly of our village, we notice, has established himself in business at Bath.

Cumings' Point, the extreme westerly point of Morris Island, which is now in possession of our troops, is within three miles and three-quarters of the wharves at Charleston. It is distant one mile and a half from Fort Sumter and one mile and three-quarters from Fort Johnson, the next important defensive position of the rebels.

The Americans have at last become involved in the Japanese troubles. The steamer Pembroke having been fired into, the U. S. Steamer Wyoming sunk two Japanese steamers and bombarded Simonski.—The same batteries and vessels fired upon a British vessel, and in return a village was destroyed, with several forts and batteries.

Our townsman, Rev. W. A. P. Dillingham, an old democrat, is doing good service on the stump during this important political campaign.

For two or three nights, during the present week we have had slight frosts, but no serious damage was done.

CATTLE AND SHEEP.—The N. E. Farmer, which, by the way, makes the best report of the Brighton, Cambridge and Medford markets, quotes first quality beeves at \$8.25; 2d, 7.00 to 7.25; extra, a very few northern, 8.50 to 8.75. About the usual quantity at market. Of 2140 head, 744 were from Maine, 461 from Vermont, and 302 from N. H. Of 82,500 sheep, 1,526 were from Maine, and 3,885 from Vt. Of cattle from Me., Thomas Gage drove 20; John A. Judkins 17; Luke Brown 30. J. A. Judkins drove 117 lambs. The best lots of fat sheep sold for \$3.33 to \$4; one lot fair old sheep and lambs at \$3; one lot small lambs at \$2.50; one lot nicely fattened from Vt. averaging 100 lbs. each, sold for 5 1-2 cts. a pound.

soldiers of the army of Gen. Banks were dying from yellow fever. On the contrary, good health prevails both in the army and in the city of New Orleans.

It is understood that on the occasion of the recent visit of Secretary Seward and the diplomats north, the foreign gentlemen were utterly amazed at the large numbers of men whom they every where met, and at the apparently little impression made by the war upon the business of the country.

Winfield S. Norcross, of Monmouth, and James Wharf, of Madison, were before Judge Ware, at Bath, on Thursday last, charged with obstructing the progress of the draft in this city, by engaging in conspiracy to defraud the Government. Each pleaded guilty, their counsel stating some mitigating circumstances that induced the Judge to lessen the severity of the sentence. Norcross was sentenced to pay \$300, and Wharf \$500, and stand committed until the same is paid. [Maine Farmer.]

LATERALS ON GRAPE VINES. Every vineyardist knows that his vines produce in summer what are known as laterals; viz: branches springing from the axils of the leaves. If they are allowed to have their own way they sometimes prevent the natural extension of the canes, and fill up the trellis with a showy but useless mass of wood and leaves.

To obviate this some vine-dressers cut out or pull off the laterals, and then keep up this treatment all summer long. Is there not a serious objection to this? One office of the lateral is to elaborate and send down nutriment for the infant bud at its base, which bud is destined to be fruit bud of the next year. Now, if we pull off this lateral, we weaken the bud and unfit it for its work the succeeding year; often we cause it to break and send out several weak and watery shoots the present year, & so spoil it for subsequent use.

Instead, therefore, of pulling it off, a better way is to pinch off its extremities as soon as it has formed two leaves. If it sta after this, nip off its new growth, and so keep it in check, but do not altogether destroy it. In the fall cut it off. — [Agriculturist.]

A NEW CAVALRY REGIMENT IN MAINE. The Maine Farmer states that Gov. Coburn has been authorized by the War Department to raise a new cavalry regiment to be composed principally of veteran soldiers, who will receive a bounty of \$402 from the United States Government and \$100 from the State. This regiment is to be in lieu of the third regiment of veteran infantry, or in addition thereto, as the Government may prefer. It is proposed to have the regiment ready for the field by the 1st of December.

LATEST FROM THE WAR.—The forces of Rosecrans and Burnside are still actively pursuing the rebels. Gen. Burnside has sent in his resignation, having long had a desire to do so, and feeling that he can now do so with honor.

An unfounded rumor of the capture of Charleston brought gold down in a hurry, but it has since rallied somewhat.

NOTICES.

[From the Richmond Whig.] The Charleston Courier makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of California, for the preservation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by expelling and evacuating dirt. It is said that the great success of the Plantation Bitters of Dr. Drake, which previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of California Bark which it contained as one of its principal ingredients. In our confederation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now that these Bitters cannot be obtained, a substitute should be prepared. We understand our government has opened negotiations with Dr. Drake, through a secret agent, but with what result we do not know.

We are exceedingly obliged to the Richmond Whig for its remembrance of 'Auld Lang Syne,' but we can assure 'Our Government' that the Plantation Bitters are not for sale at any secret agents; North or South. There are probably several other things that 'Our Government' will yet want.

We know that we have the best and most popular medicine in the world. We are afraid to show what it is composed of. Physicians are compelled to recommend it.

CALIFORNIA BARK has been celebrated for over two hundred years, and was sold by King of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

TOM AND THE BANTAMS. A TRUE STORY.

When we little folks were a talking together the other night, somebody chanced to mention that he had shot a cat. Two young ladies, who had just calmly read in the newspaper of the slaughter of a few hundred Union soldiers, immediately gave a slight shriek, and declared that the murder of the poor cat was 'cruel, shameful, and outrageous!'

of all the day's mishaps. The next thing to be attended to were our poor, neglected banties. I knew that John, our old colored man, was too kindhearted not to have fed them in my absence, but felt sure they had missed me for all that.

thee when thou art going to talk, that it will restrain thee from swearing—as thou, perhaps, knowest, my friend, that we Quakers never swear.' The young man cheerfully assented to the proposal, and accompanied the Quaker to his house, where, after changing his clothes, he took his departure in the garb of a Quaker, and went on his way rejoicing.

BRUSHED UP! Having cleaned and brushed up the inside a little, we now invite the attention of our friends and the public to
