GENERAL STATEMENT

THE PURPOSE OF COLBY COLLEGE

Colby is distinctly a college of liberal arts. It has no professional schools and no strictly vocational courses. It does prepare for business careers through the offerings of an adequately staffed and long established Department of Business Administration. It does prepare for secondary school teaching by offering systematic courses in education as a part of the curriculum. It gives thorough preparation for graduate work in such fields as medicine, law, social service, engineering, etc. At Colby College, however, regardless of what preparation a student seeks, he must also secure a general education. Colby holds that vocational skill and professional knowledge are not enough and this belief is shared by the best professional schools themselves. To assist young people in obtaining a liberal education—the education that liberates, and broadens both the knowledge and the emotional attitudes of men and women—is the purpose of Colby College and its faculty.

LOCATION

Colby College is situated at Waterville, Maine, in the center of the State and in what is known as the Belgrade Lakes region. It is about eighty miles northeast of Portland, and some fifty miles west of Bangor. The state capital, Augusta, is twenty miles to the southwest. Waterville is a small industrial city of 15,000 population with cotton goods, worsteds, paper, and wood fibre products as its principal industries. It is a trading center for a large farming region and in the summer welcomes thousands who vacation in the vicinity.

The college itself is located on College Avenue; on the west bank of the Kennebec River and immediately north of the business section of the city. The Maine Central Railroad Station is directly opposite the college, and the Portland-Bangor highway borders the campus.

THE COLLEGE PLANT

The present campus on which are the principal academic buildings and men’s residence halls is the original site of the college. Like many other colleges Colby has expanded by extension into neighboring parts of the city so that college buildings now extend down the Avenue toward the business section and across to other streets.
On the campus proper are Memorial Hall, containing the Chapel and the Library; Chemical Hall, housing the Department of Chemistry and the Administrative Offices; Champlin Hall, a recitation and office building; Coburn Hall, in which are the Departments of Biology, Geology, and Psychology; Shannon Hall, housing the Department of Physics; two dormitories exclusively for freshmen, Hedman and Roberts Halls; two former dormitories now housing the fraternities of Zeta Psi, Alpha Tau Omega, Delta Upsilon, and Lambda Chi Alpha; the Men's Gymnasium, Field House, and athletic field with a commodious concrete stand.

The women's division is located on the west side of College Avenue. The principal dormitory is Foss Hall; the smaller dormitories are Mary Low Hall, Mower House, Dutton House, and Foster House. The Alumnae Building, gift of the women graduates, is a center for athletics, dramatics, art and recreation. Across the Avenue are Alden House and Boutelle House, residences which have recently been converted into women's dormitories.

Also on College Avenue are located the President's House; the fraternity houses of Phi Delta Theta, Delta Kappa Epsilon, and Tau Delta Phi; Taylor House, a dormitory for freshman men; and the Men's Infirmary. The Kappa Delta Rho fraternity house is located at the southern end of Elm Street.

THE NEW SITE

In June, 1930, the trustees voted to move the college to a site two miles west of the present campus on a beautiful elevation called Mayflower Hill. This new site, nearly a square mile in area, was given to the college by the citizens of Waterville. Construction of the new buildings is progressing as rapidly as funds can be secured. The chapel, gift of the late George Horace Lorimer, '98, of the Saturday Evening Post, has already been erected, and foundations have been laid for several other buildings.

This ambitious project to move an entire college has captivated the imagination of the country. During the summer of 1938 several thousand persons from all over the United States and from many foreign countries visited the site and inspected the beautiful model.

While the trustees have set no date for the completion of the project the college expects to be operating at Mayflower Hill within a very few years.

HISTORY

The beginnings of Colby College date back to 1813, when the General Court of Massachusetts granted a charter to the Maine Literary and Theological Institution. In June, 1818, Rev. Jeremiah Chaplin, a Baptist
clergyman, with his family and seven students from Danvers, Massachu­
setts, sailed from Boston to Waterville for the purpose of establishing a college. In 1820, one of the first acts of the new State of Maine was to grant the institution the power to confer collegiate degrees, and in the next year the name was changed to Waterville College.

In 1866 the name was changed to Colby in honor of Hon. Gardner Colby, a Boston merchant and prominent Baptist layman, who had been a generous benefactor. In 1871 women were admitted, and in 1890 the present system of coordinate divisions for men and women was established.

The college always has been alert in adjusting its life, curricula and policies to changing conditions and demands in higher education when the administration's considered judgment has indicated change as wise. It has been consistently associated with the distinguished colleges of liberal arts in the New England area.

ADMISSION*

The requirements for admission are uniform for all candidates, and are as follows.

FIFTEEN UNITS OF SECONDARY SCHOOL CREDIT

A unit is defined as a subject pursued successfully five periods a week for a full school year, with the exception that four years of English count as only three units.

**Required Units**

</tbody>
</table>

**Elective Units**

The remaining units necessary to make a total of fifteen may be in any subjects accredited for graduation from an approved secondary school.

**Note:** Foreign languages in which entrance units may be offered are Latin, Greek, French, German, and Spanish. A candidate offering at least three units of Latin in addition to three units of Modern Foreign Language may ignore the requirements in natural and social sciences. Candidates offering only two units of foreign language, may be admitted at the discretion of the Dean, provided their general school record is sufficiently high. A single unit in foreign language, representing only one year's study, may not be counted toward the foreign language requirement, but may be counted among the elective units.

Entrance deficiencies may be made up by examination or by taking in college three extra hours for each unit of deficiency. No applicant is granted admission with more than two units of deficiency. In each case the method of making up entrance deficiencies is arranged with the Dean.

METHODS OF ADMISSION

**Plan 1**

Complete certificate covering fifteen entrance units, as specified above, signed by the principal of a school which is accredited by the New England College Entrance Certificate Board, or of a school outside New England accredited by the accrediting agency of the region in which the school is located.

**Note:** Correspondence regarding the admission of men should be addressed to the Dean of the Men's Division; women, to the Dean of the Women's Division.
(New England schools not now accredited should, if desiring the certificate privilege, apply to the secretary of the board, Professor Frank Nicolson, Wesleyan University, Middletown, Conn., before April first.)

**PLAN 2**

Certificate covering at least eight (8) units and examinations of the College Entrance Examination Board or of Colby College in all subjects necessary to complete the total of fifteen units.

**PLAN 3**

Examinations in all required and elective subjects necessary to present a total of fifteen units. These examinations may extend over a period of three or four years, and may be either Colby entrance examinations or those of the College Entrance Examination Board.

**PLAN 4**

Colby College comprehensive examinations in four fundamental subjects. One of these examinations must be in English; one, in a foreign language; one, in algebra, geometry, physics, chemistry or biology; the fourth examination shall be in history or an additional examination in language or science, or mathematics. These examinations must be taken at one time, but in case of partial failure in the spring examinations the candidate will be permitted to repeat the failed examinations in the fall without being obliged to repeat the examinations already passed. This plan assumes that the candidate has covered the fifteen required and elective units necessary for admission.

**TRANSFER**

Colby College has no fixed policy concerning the admission of applicants who desire to transfer from another college. Each such case is treated on its merits. Applicants must submit a transcript of record, including entrance credits, and a statement of honorable dismissal. The Committee on Standing will then act on the case and inform the applicant whether he can be admitted and with how much advanced credit toward graduation. This regulation applies also to applicants from junior colleges.

**SPECIAL**

Adult persons desiring to take a few special courses, but not candidates for the degree, may be admitted at the discretion of the Dean.

**PROCEDURE OF ADMISSION**

1. The prospective applicant should first write to the Dean of the Men's Division or to the Dean of the Women's Division, requesting an application blank.
ADMISSION

2. Upon receipt of the blank, the applicant should fill it out carefully and send it to the Dean. Reservation of a dormitory room requires a room deposit of ten dollars with this application. If a candidate withdraws prior to September 1st, the room deposit will be refunded.

3. The Dean will communicate with the principal of the applicant's school concerning the method by which admission must be sought. After securing this information the Dean will inform the applicant whether he or she is entitled to certification or must take certain entrance examinations.

4. Applicants who must take entrance examinations will be given specific instructions concerning the time, place, and subjects. Results of examinations will be given to applicants, not in percentage figures but as "Honors", "Passed", or "Failed".

5. When an applicant has completed the requirements for admission and is deemed satisfactory in health and character, he or she will receive a formal notification.

6. Each applicant will receive instructions about room, board, equipment, Freshman Week, curriculum, and other matters before college opens in September.

ENTRANCE EXAMINATIONS

SPRING

The spring examinations may be taken either at the college or at the secondary school, with the permission of the principal. In 1939 these examinations will be held on May 22, 23, 24, according to the following schedule:

**Monday, May 22**

9 A.M. to 12 M.
2 to 5 P.M.
Latin
History

**Tuesday, May 23**

9 A.M. to 12 M.
2 to 5 P.M.
English
French, German, Spanish

**Wednesday, May 24**

9 to 11 A.M.
11 A.M. to 1 P.M.
2 to 5 P.M.
Algebra
Geometry, Trigonometry
Chemistry, Physics, Biology

FALL

The fall examinations may be taken at the college only. In 1939 they will be held on September 19, 20, 21, and 22, in accordance with the following schedule:
Tuesday, September 19
9 A.M. to 12 M. Biology, Chemistry, Geometry, Physics
2 to 5 P.M. History

Wednesday, September 20
9 A.M. to 12 M. English
2 to 5 P.M. Algebra

Thursday, September 21
9 A.M. to 12 M. Latin

Friday September 22
2 to 5 P.M. French, German, Spanish

FRESHMAN ORIENTATION

The first official exercises of the college year are known as the Freshman Orientation Program, or Freshman Week, and take place during the six days preceding the first classes. Attendance is required of all members of the entering class. The purpose of this program is two-fold: (1) to carry out the details of registration, election of courses, modern language placement tests, psychological tests, medical and physical examinations, instruction in the use of the Library, and so on; (2) to help the new students get acquainted with each other and adjusted to the college environment and to familiarize them with the traditions and ideals of Colby College, this being accomplished by picnics, athletic periods, evening social events, a reception, a Freshman Sunday chapel service, student activities meetings, and discussion groups on campus problems. The Freshman Week program for the college year 1939-40 will begin at 4 P.M. Thursday, September 21. A detailed program will be sent to each entering student prior to that date.
GRADUATION REQUIREMENTS

Each student is responsible for meeting all requirements herewith published, and must not expect to be relieved of disabilities resulting from his oversight or carelessness.

I. The Faculty will recommend the conferring of the degree of Bachelor of Arts by the Board of Trustees upon those students who have successfully completed, under all the conditions specified below, 124 semester hours of approved study with credit for 196 quality points. A semester hour is one period of class work per week for one semester. The number of quality points for each course is the number of semester hours of credit multiplied by an index number for the mark (A=4, B=3, C=2, D=1).

II. There are the following fixed requirements:

1. English Composition in the Freshman Year.
2. American, Classical or English Literature in the Sophomore Year.
3. One year-course in each of two of the following: Biology, Chemistry, Geology, Mathematics, Physics.
4. Two year-courses in Social Studies, selected from the following: Business Administration, Economics and Sociology, Education and Psychology, History and Government, Philosophy, Religion. This requirement must be completed by the end of the Sophomore Year, except that students majoring in science may defer one social science until the Junior Year.
5. Before a student becomes a candidate for a degree, he must show his proficiency in one foreign language by passing a Reading Knowledge Examination.

This requirement should generally be met at the end of the sophomore year in college. It may be done sooner, even upon entrance (in September), provided the student has had adequate preparation. Students who have had less than three years of a language in preparatory school should not plan on taking the examination without further study of the language in college.

A student should be able to pass the Reading Knowledge Examination upon completion of French 4, German 4, Greek 4 or 12, Latin 2, or Spanish 4 in college, but a student weak in languages frequently needs to take an additional year before he can pass the examination.

The Reading Knowledge Examinations do not involve grammar and composition work; they are solely a test of the student's ability to read the written language with understanding. The examinations are approximately two hours in length, and consist of two parts: one for accurate translation of the foreign language.
into English, and one for comprehension. These examinations are held in May and September, and at the College only.

NOTE: Students who present themselves for the Reading Knowledge Examinations in French, German, or Spanish are expected to have completed Course 4 at Colby College or its equivalent, three years' successful study of the language in preparatory school. Students who have failed a Reading Knowledge Examination must present written evidence of adequate further preparation before repeating the examination. The Department reserves the right to reject an examination paper from any student who has not complied with these requirements.

Students who look forward to graduate study are warned that the minimum language requirement for graduation at Colby may not give them the proficiency in languages required by the graduate school of their choice. The majority of graduate schools require a reading knowledge of both French and German of all candidates for the doctorate, and some graduate schools require Latin, French, and German of candidates in the fields of language and literature. Students who contemplate graduate work should consult the Dean as early as possible in their course in order to learn what will be expected of them.

6. Physical Education is required in the Freshman and Sophomore Years. One semester hour of credit is given for the completion of each semester's work; quality points are not granted for work in required physical education.

III. Not later than the end of the Freshman Year each student is required to select a field of concentration known as his major subject. The general requirements for a major are as follows:

1. Every student must take at least eight semester courses in some one subject, with the provision that departments offering a total of only six semester courses may permit two semester courses in a related subject to count toward a major. Majors are not permitted in a subject in which fewer than six semester courses are offered.

2. Each department designates the specific courses and the number exceeding eight semesters demanded for a major in that department.

3. At the end of the Sophomore Year students whose marks average lower than C in the courses completed toward a major are not permitted to continue concentrating in that subject. If a student finds it impossible to secure any major because of this requirement he may be permitted to remain in college for such time as the Dean shall approve without intent of securing a degree.

4. In the Junior and Senior Years three-fifths of a student's program is determined by the major department, but may include courses not specifically in that department. Two-fifths of the program in Junior and Senior Years is elective.

Requirements for majoring in specific subjects are, in general, to be found in the catalogue preceding the descriptions of the courses offered.
GRADUATION REQUIREMENTS

by the several departments. Some programs are more specific than others but all conform to the general pattern described in part V of the graduation requirements. Some students intend their undergraduate work to be a definite preparation for further professional study, and special curricular principles have been formulated to govern the programs of study pursued by these students.

In the Women's Division the Dean is adviser to all Freshmen. In the Men's Division the student is, upon entrance, assigned to a faculty adviser, who assists the Dean in directing the student's work during the first year.

Each upper classman's adviser is the head of the department in which the student is concentrating. At the end of the Freshman year the student selects the subject in which he will do his major concentration. Under the present curriculum, a student's work centers around his major subject, especially during Junior and Senior years. Frequent conference with the adviser is therefore imperative.

For students concentrating in:

- Biology
- Business Administration
- Chemistry
- Economics and Sociology
- Education and Psychology
- English
- Geology
- Greek and Latin
- History
- Mathematics
- Modern Foreign Languages
- Philosophy
- Physics
- Public Speaking
- Religion

IV. Failed courses which can be made up only by repetition must be repeated in the immediately ensuing year.
V. Curriculum by Years

Freshman Year

English Composition
Foreign Language, unless requirement has been met
Science or Mathematics
Social Science
Physical Education
Elective chosen from the following: Art 1, 2; Biology 1-2; Chemistry 1-2; Geology 1, 2; Greek 1-2; History 01, 02; Latin 1-2; History 01, 02; Latin 01-02, 1-2, 3-4, or 11-12; Mathematics 01-02, 1-2, or 1a-2a; Music 1-2; Physics 1-2; Public Speaking; Religion 1-2; Social Studies 1-2; and certain additional courses in Modern Foreign Language.

Sophomore Year

American, Classical or English Literature
Science or Mathematics
Social Science*
Course in the major subject, if not already included in one of the three courses already named; otherwise a free elective.
Foreign Language, if necessary to meet the requirement; otherwise a free elective.
Physical Education

*Students majoring in science may postpone the requirement in social science until the Junior Year.

Junior Year

3 courses determined by the major department.
2 electives, one of which must be in Foreign Language if that requirement has not already been met.

Senior Year

3 courses determined by the major department.
2 electives, one of which must be in Foreign Language if that requirement has not already been met.

Those who meet these requirements with specially high rank will be awarded the degree with distinction. The Bachelor's Degree with Distinction is awarded in three grades: with Distinction (cum laude), with High Distinction (magna cum laude), with Highest Distinction (summa cum laude).

Cum Laude. Students who attain a rank between eighty-eight and ninety-two percent throughout their college course will be recommended for a degree cum laude.

Magna Cum Laude. Students who attain a rank between ninety-two and ninety-five percent throughout their college course will be recommended for a degree magna cum laude.
Summa Cum Laude. Students who attain a rank of ninety-five percent or more throughout their college course will be recommended for the degree *summa cum laude*.

Marked Distinction. If at any time a student who has not obtained one of the *cum laude* grades should attain a rank of ninety-five percent in any department, such student may upon recommendation of the head of that department and at the discretion of the Faculty, be mentioned on the Commencement Program as having attained *Marked Distinction* in that particular department.
DEGREES

1. BACHELOR OF ARTS

The degree of Bachelor of Arts is conferred by the Board of Trustees, on the recommendation of the Faculty, upon those who have met the conditions specified under Graduation Requirements.

2 MASTER OF ARTS IN TEACHING

The degree of Master of Arts in Teaching will be conferred upon students who have acquired professional training in teaching and have met all the requirements of the Department of Education, as specified below.

GENERAL STATEMENT

Recognizing that the training of secondary-school teachers is a matter of increasing importance, Colby College seeks to interest able young people in teaching as a profession, and provides careful and skilled training for those who wish to meet the certification requirements of State Departments of Education. It is also intended to prepare students to meet the growing demand of modern school systems for teachers who hold the Master’s degree. This professional work is conducted on a graduate level and is distinct from undergraduate courses in Education.

A candidate for the Master’s degree must be a graduate of this college or of a college of similar rank. If he is a graduate from a college other than Colby, a candidate must furnish the Registrar with a certified transcript of his undergraduate record. Normally, a candidate will be admitted to graduate study only on the condition that he has attained an average mark of "B" (80) or better in the subject or subjects which he wishes to teach.

Prospective secondary-school teachers, in addition to good health, a pleasing personality, and a broad cultural background in the arts and sciences, need (1) an adequate mastery of subject matter in two fields, and (2) specific professional preparation. It is believed that emphasis in teacher training should be laid not only upon methods of instruction but also upon the study of educational psychology and mental hygiene, the measurement of pupil achievements and the recognition of individual differences, the significance of education to both the individual and society, and the special problems of American secondary education.

In addition to the graduate courses specified below, supplementary work as indicated by the Department of Education must be completed by
each candidate for this degree. All quantitative statements of require-
ments are designedly omitted here. For each applicant for the degree a
special table of required work will be drafted upon the basis of the
undergraduate work the candidate has already completed and the pre-
liminary professional undergraduate courses that have been followed.

One full resident year is the minimum time in which these requirements
can be met. The candidate who cannot devote full time to meeting them
must expect to spend more than one year in qualifying for the degree.

The tuition and laboratory fees are the same as for undergraduates and
are payable under the same regulations. The diploma fee is $10. For
registration information see page 28.

COURSES:

**Observation and Practice Teaching (one semester required except
for experienced teachers).**

**Advanced Educational Psychology**

**Educational Tests and Measurements**

**Social Theory of Education**

**Principles of Secondary Education**

**Elements of Educational Statistics**

**Vocational and Educational Guidance**

**School Administration and Supervision Seminar**

**Special Methods Courses**

**Courses in Subject Fields**

**General Examinations**

1. **General Examination in Teaching-Subject.**

Candidates will be required to pass a General Examination, covering
the field as a whole, in at least one subject which they expect to teach.
This examination will be of sufficient scope to test the student’s mastery
not only of factual material and fundamental skills, but also his general
understanding of the interrelations of such parts or divisions of the subject
as are usually studied in separate courses. This examination will be given
by the head of the college department in whose field the subject lies. A
mark of B (80) or better will be required for credit. If such an examina-
tion, or its equivalent has already been satisfactorily taken, certification to
that effect will serve in lieu of this requirement.
2. General Examination in Educational Fundamentals.

Similar to the above in purpose, content, and standards, a General Examination in educational fundamentals will be given by the Education Department. This examination will be required of all students and will be given at the conclusion of the candidate’s work for the Master’s degree.

Experience in teaching will not be accepted as a substitute for either of these General Examinations.

REGISTRATION*

Registration consists of preparing and filing certain records with the Registrar; specific instructions are issued at each registration period. Freshmen are required to register at an appointed time during Freshman Week. Upperclassmen must register on the day preceding the beginning of the academic year. Registration for either semester is not permitted later than ten calendar days following the beginning of classes.

Preceding registration for a semester’s work the student must have paid to the College Treasurer certain fees which are credited as advance payments on the semester bill.

Unless, prior to Registration Day, a student secures permission from the Registrar to register late, a fine of one dollar for each day of delay will be charged on the student’s semester bill, five dollars being the maximum fine imposed.

WITHDRAWAL

Official withdrawal from the College may be effected only by filing with the Registrar a notice of withdrawal. Students may secure blank notices from the Deans. No refunds will be made by the Treasurer unless withdrawal is made according to the established regulations.

*See pp. 36-41, inc.
ELECTION OF COURSES

All regular students must select their programs of study using part V of the graduation requirements as a guide; they must meet all degree requirements and elect a minimum of fifteen hours a week.

The program for each Freshman is determined by correspondence followed by a personal conference on registration day.

In the spring Freshmen, Sophomores, and Juniors must elect courses for the following year. Failure to elect courses at this time will cause the student considerable inconvenience, including a fine of two dollars before any subsequent election will be permitted.

With the approval of the adviser, voluntary changes in a student's program may be made during the first six class days of a semester and a fee of one dollar per voluntary change will be charged on the semester bill; involuntary changes may be made without penalty. After the tenth day following the day on which classes begin in either semester no student shall change from one course to another; but at any time during the semester a student may drop a course with the consent of both adviser and Dean, in which case a mark of "Dr" shall be entered upon the record.

A student who drops a course without permission shall be placed on probation for the remainder of the semester and shall receive a mark of "F" in the course.

At the Registrar's Office the student can get standard forms upon which to make application for changing courses or dropping a course.

EXTRA COURSES

With the consent of adviser and Dean a student may elect one, but only one, extra course in excess of the normal program of five courses (exclusive of the required work in physical education) provided that the student (1) has had at least one semester in college, and (2) has obtained an average rank of at least 70 in any four courses taken in the immediately preceding semester. An extra course may not be started after the date set as a limit to change courses.

If, on the advice of his adviser or instructor concerned, a student repeats in addition to a regular schedule a course already passed, he shall not be charged the customary extra-course fee.
STANDING

A student's class standing is determined by the number of semester hours with which he is credited on the Registrar's records. A student having less than the required number of semester hours at the end of any year is demoted to the next lower class.

The requirements are

- For Sophomore standing: 24 semester hours
- For Junior standing: 54 semester hours
- For Senior standing: 84 semester hours

At the end of the first half of each semester the faculty issues, through the Registrar's office, mid-semester warnings, both major and minor. These warnings are sent to the student, to his parents, and to his adviser. For each mark reported below 60 the student is given a major warning; for each mark reported as barely passing but in danger of becoming a final failure the student is given a minor warning. Only major warnings affect a student's eligibility for extra-curricular activities.

At the end of each semester the faculty issues, through the Registrar's office, final marks. These are reported to students, and to their parents and advisers.

Whenever a student's academic record shows serious deficiency, the question of the student's retention or dismissal is determined by the Committee on Standing, in which the faculty has vested complete power to deal with such cases.

The President and the Dean are empowered to take disciplinary action, even to the extent of requiring withdrawal from college, when offenses against regulations or customs warrant such action.

There is no fixed method for computing a student's final mark in a course; the final examination must, however, count less than half in the whole computation.

Marks are reported to students in letters according to the following scale:

- "A" means that the quality of work done by a student was, in percentage, between 90 and 100; "B", 80 and 89; "C", 70 and 79; "D", 60 and 69.

A conditional mark of "E", covering percentage marks between 50 and 59, is used in the first semester of a few continuous courses specifically designated by the departments. The deficiency thus indicated may be made up by such quality of work in the second semester as the depart-
ment shall demand. The following are the only courses to which this rule applies:

- Biology 1
- Business Administration 1
- Economics 1
- English 7
- French 1, 03, 3, 05, 5, and 7
- German 01, 1, 03, 3, 05, 5, and 7
- Greek 1 and 3
- History 01
- Mathematics 01, 1, 1a, 9, and 13
- Physics 1
- Psychology 1
- Public Speaking 5, 7, 9, and 11
- Social Studies 1
- Sociology 1
- Spanish 1 and 3

A mark of “F” means that a course has been failed and must be repeated or have another course substituted for it. A mark of “F” cannot be made up by examination.

A mark of “Abs” is given when a student is absent from the final examination. A student should make up such a deficiency immediately; after the expiration of one semester a mark of “Abs” is changed to “F”.

The mark “Cr” shows that a student has been awarded credit, but no mark, for the work of a course.

A mark of “Dr” indicates that a student has dropped the course from his schedule with permission.

The mark “Inc” means that a student’s work in a course has been unfinished; this work must be made up within limits prescribed by the instructor; otherwise the mark will be changed to “F”. In any event after the expiration of a semester the Registrar will change an “Inc” to “F”.

The letter “R” is used together with an appropriate mark when a student has repeated a course.

SUMMER SCHOOL CREDITS

1. Only six semester hours shall be credited toward the Colby degree for work done by a student in any one summer.

2. Not more than a total of twelve semester hours shall be credited toward the Colby degree for all summer school work done by a student.

3. Previous to enrolling for summer school courses for which the student expects credit toward the Colby degree, the student must obtain on a form provided for the purpose the approval of the Dean for the specific courses which the student intends to take at summer school.

4. The Deans are instructed not to approve a total of more than two hours of summer school credit in the field of physical education.

5. If the student’s proposed summer school work involves prospective credit in his college major, the approval of the adviser as well as the Dean is necessary.
6. If the student’s proposed summer school work involves prospective credit for a course specifically required for graduation, the approval of the head of the department offering the course at Colby is necessary as well as the approval of the Dean.

7. Summer school marks lower than C shall not be credited, because the general rule concerning marks transferred from another college forbids credit for marks lower than C.

ATTENDANCE AND ABSENCES

1. General
   a. All absences are recorded by the instructors and reported to the Deans. Excuses for absence are granted by the Deans only. Excuses for illness are granted by the Deans when the illness is certified by a member of the college medical service. Announced written quizzes or examinations missed because of absence may be made up only if the absence has been excused.
   b. Unexcused absence from a student’s last class immediately preceding or first class immediately following a college holiday or vacation shall subject the absentee to a fine of $2.00 for each such absence. The Dean is required to exclude the student from classes unless payment is made.

2. Freshman First Semester
   a. During their first semester of attendance at Colby, all Freshmen are allowed two unexcused absences in each course without penalty, provided the absences do not violate the provisions of either section of Rule 1. On the occasion of a third unexcused absence in any course, the Dean shall warn the Freshman that, in the event of any further unexcused absence in the particular course concerned, the student will be dropped from the course without privilege of reinstatement, and a mark of “F” entered in the Registrar’s record. A fourth unexcused absence shall cause the Dean to impose this penalty.
   b. This rule shall apply to transfer students during their first semester at Colby.

3. Upperclass Students Earning 36 Or More Points
   For all upperclass students who, in the immediately preceding semester, have failed in no course and have earned a total of 36 quality points in not more than five courses for that semester, attendance at classes is re-

garded as their own responsibility. Such freedom of action is, however, definitely subject to the following qualifications:

a. Such students are subject to the provisions of both sections of Rule 1, requiring their attendance at all announced quizzes and examinations, and at the last class before and first class after a college holiday or vacation.

b. If in the opinion of the instructor of a course, a student is abusing the privileges granted in this section to such an extent as to cause possible failure in that course, the instructor may notify the Dean to that effect. The Dean shall thereupon warn the student that, in the event of any further unexcused absence in the particular course concerned, the student will be dropped from the course without privilege of reinstatement and a mark of “F” entered on the Registrar’s record. Any further unexcused absence shall cause the Dean to impose this penalty.

4. FRESHMAN SECOND SEMESTER

Rule 3 in its entirety shall apply to Freshmen in their second semester.

5. UPPERCLASS STUDENTS EARNING LESS THAN 36 POINTS

a. Upperclass students who failed one or more courses or who earned less than 36 quality points in the immediately preceding semester are allowed two unexcused absences from each course without penalty. On the occasion of a third unexcused absence in any course the Dean shall warn the student that in the event of any further unexcused absence in the particular course concerned, the student will be dropped from the course without privilege of reinstatement, and a mark of “F” will be entered on the Registrar’s record. A fourth unexcused absence shall cause the Dean to impose this penalty.

b. This rule shall apply also to Freshmen in their second semester.

6. TARDINESS

Excuses for tardiness must be made to the instructor at the end of the class hour in which the tardiness occurs. The instructor has authority to excuse the tardiness or to report it to the Dean as an absence.
EXAMINATIONS

Students must understand the importance of college examinations. In many courses there are no such things as recitations and daily marks; the various examinations, quizzes, and reports provide the only marks for the course. Especially important is the final examination given at the end of each semester in a course. The fact that the college sets aside a period of ten days at the end of each semester for these final examinations shows their importance in the judgment of the faculty. So-called hour examinations and shorter quizzes may be given at the discretion of each instructor, but the final semester examinations are given in accordance with a schedule issued by the Registrar.

No student may be excused from final examination except for illness or grave home emergency, and then only with the understanding that the examination will be taken at the next available opportunity. In very unusual circumstances, with the consent of the Dean, the student may be permitted to accept in lieu of final examination a constructive mark equal to 75% of his average mark in the course without the examination.

Extra-curricular activities, athletic or otherwise, are not permitted to conflict with final examinations.

Students detected cheating in any quizzes or examinations may, at the discretion of the instructor, be dismissed from the course and receive a mark of "F". If the case is known to be the student’s second offense in college, the instructor and the Dean must report the case to the Faculty. In the case of a first offense the instructor has the option of reporting the case to the Faculty or of settling it himself. Whenever an instructor takes action on a case of cheating he must report his decision to the Dean as a matter of record.

ELIGIBILITY

A student shall be ineligible to represent the college in any public way if:

1. He is a special student.
2. He is carrying less than 15 semester hours
3. He has at the beginning of any semester total deficiencies of more than six semester hours. Ineligibility declared at the close of the first semester shall take effect one month after the registration day of the second semester.
ELIGIBILITY

1. A student whose ineligibility is caused by one or more marks of "E" at the end of a semester may regain eligibility at the following mid-semester if at that time he has no major warning in any subject.

(b) A student with more than six hours of deficiency may regain eligibility after one semester provided he secures at least 36 quality points in that one semester.

4. He is a freshman who at the beginning of the second semester has total deficiencies of more than five semester hours.

5. He has more than two major warnings at mid-semester, in which case he shall be ineligible for the remainder of the semester.

6. He has been dropped from and later readmitted to college, or has been permanently demoted to a lower class, in which cases he cannot regain eligibility until the expiration of a calendar year, which must include one semester's work in college subsequent to the date of suspension or demotion, in which semester the student must have obtained at least twelve semester hours of credit.

7. He is a transfer student accepted into advanced standing from another four-year college, for he is thus affected by the so-called "one year rule" making him ineligible for one year after admission into Colby College.

(a) A transfer student who has completed a terminal course at another institution of higher education, for work in which Colby College grants transfer credit, shall be eligible on the same basis as students of the same class standing who began their college work at Colby.

(b) A transfer student accepted into freshman standing from any sort of higher institution is eligible for freshman competition only during his entire first year at Colby.

8. He is on probation, in which case the ineligibility shall be co-extensive with the length of probation.
FEES AND EXPENSES

TUITION

For regular students who entered college not later than September, 1936, the tuition charge for five courses is $200.00 a year, plus a registration fee of $10.00, a total of $210.00. Of this amount $110.00 must be paid to the Treasurer of the College before registration in September, and $100.00 before the first day of the second semester in February. The charge for each extra course is $20.00 a semester.

For regular students who entered college in September, 1937, and thereafter, the tuition charge for five courses is $250.00 a year. Of this amount $125.00 must be paid to the Treasurer of the College before registration in September, and $125.00 before the first day of the second semester in February. The charge for each extra course is $25.00 a semester.

Certain financial aid awards are credited against tuition. Holders of such awards are notified how to apply these credits.

Special students who are allowed to take fewer than five courses are charged $20.00 a semester for each course taken, if they entered college not later than September, 1936; they are charged $25.00 a semester for each course taken, if they entered college in September, 1937, or later.

Involuntary special students who take more than three courses shall be charged the extra-curricular fees regardless of the number of courses taken, but for the courses themselves the charges shall be the same per course rate as for extra courses.

Voluntary special students not taking more than three courses shall not be charged extra-curricular fees.

Students who have already paid four full years of tuition, and have already attended college four full years, but need further courses to complete graduation requirements, shall be charged the same per course rate as for extra courses, and shall not be charged the extra-curricular fees.

Regular students who have not already paid four full years of tuition, and have not already attended college four full years, shall be charged the full tuition rate per year, even though they take fewer than five courses, and they shall be charged the extra-curricular fees.

DEPARTMENTAL FEES

Laboratory fees are charged in science courses as follows:

Biology 1, 2, 3, 4, 9 .................. $3.00 a semester
Biology 5, 6, 7, 8 .................. 5.00 a semester
Chemistry 1, 2, 3, 4 .................. 6.00 a semester
FEES AND EXPENSES

Chemistry 5, 6, 7, 8, 11, 12 ................. 7.00 a semester
Chemistry 9, 10, 15, 16, 17, 18 ................. 8.00 a semester
*Chemistry breakage deposit ........ 5.00 per course per year
Geology 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 ............. 3.00 a semester
Physics 1, 2 ........................................ 5.00 a semester
Physics 3, 4, 7, 8, 9, 10, 11, 12 .............. 6.00 a semester

STUDENT ACTIVITIES FEE

The following activity fees have been voted by the student body; they are compulsory and no portions are deductible for any reason. On term bills they are charged as "Student Activities Fees"—no allotment designations are shown.

Each student of the Men's Division is required to pay $14.00 charged on the first semester's bill and $14.00 charged on the second semester's bill for support of student activities, allotted as follows: First Semester, Athletic Fee $7.50, Colby Echo $2.00, Class Dues $1.00, S. C. A. $1.00, Debating Society 50 cents, Musical Clubs $1.00; White Mule $1.00; Second Semester, Athletic Fee $7.50, Colby Oracle $5.00, S. C. A. $1.00, Debating Society 50 cents.

Each student of the Women's Division is required to pay $11.50 charged on the first semester's bill and $8.50 charged on the second semester's bill allotted as follows: First Semester, Athletic Fee $2.50, Colby Echo $2.00, S. C. A. $1.00, Student League $1.50, Class Dues $2.00, Debating Society 50 cents, Musical Clubs $1.00, White Mule $1.00; Second Semester, Athletic Fee $2.50, Colby Oracle $5.00, S. C. A. $1.00.

HEALTH FEE

Each student of the Men's Division is charged a Health Fee of $8.00 per year, $4.00 of which is charged on each semester's bill. In return for this fee the student receives the following services:

A thorough physical and medical examination.
As many visits at the daily sick call as he shall find necessary.
Initial visits of the College Physician at the student's residence if the student is unable to attend sick call.
A total, during the college year, of ten days' free service at the infirmary including all necessary attendance of the College Physician. Meals are charged at the rate of 35 cents each.

Each student of the Women's Division is charged a Health Fee of $8.00 per year, $4.00 of which is charged on each semester's bill. In return for this fee the student receives the following services:

*Unused balance is refunded.
A thorough physical and medical examination.
As many visits at the daily sick call as she shall find necessary.
Use of the Woodman Infirmary under the usual regulations, including a charge of ten cents a meal for tray service and the actual cost of laundry.
Initial visits of the College Physician at the student's residence if the student is unable to attend sick call.
All necessary attendance upon the student by the College Physician whenever the student is confined to Woodman Infirmary.

LOCKER AND PHYSICAL EDUCATION FEE
Freshman and Sophomore men, and all women students are charged $1.50 per semester.

DIPLOMA FEE
There will be a Diploma Fee of $5.00 for each graduating Senior. This fee will be charged upon the final semester's bill.

ROOMS AND BOARD: MEN'S DIVISION
Hedman and Roberts Halls are reserved for Freshmen. The rent is $50.00 per occupant for each semester. Plans of these dormitories will be sent on application to the Dean of the Men's Division.
Taylor House is a dormitory for Freshmen and upper-classmen; the rent is $50.00 per occupant per semester.
North College, South College, and 31 College Avenue are occupied by fraternities. Each fraternity is charged a flat rental which the college collects from all occupants on a pro rata basis. Freshmen are not permitted to live in fraternity houses.
The college has no dormitory exclusively for upper-classmen. Fraternities housed in college buildings are usually glad to permit non-fraternity upper-classmen to occupy rooms without affiliation with the fraternity. The Dean's office also keeps a file of approved private rooms in the city, the rental of which ranges from $2.50 to $4.00 per week.
The college does not operate a dining hall for men. Table board may be obtained at fraternity houses or in the city at prices ranging from $5.00 to $7.00 per week. Students are advised to secure board at fraternity houses or at boarding houses approved by college officials.

ROOMS AND BOARD: WOMEN'S DIVISION
All women students not living at home or with relatives are required to live in one of the college residence halls. Any exceptions to this regulation—which exceptions could occur only if girls needed to work their room and board—must be arranged in consultation with the Dean of the Women's Division. Room and board is $162.00 a semester.

### PAYMENT OF BILLS

Payment of college expenses must be made four times a year, as follows:

1. Payment of the first semester's tuition before registration in September. No formal bill is issued for this item. In order to avoid delay and confusion on registration day, this payment should be made at least one week in advance. A student may neither register nor enroll in any class until he presents a receipt from the Treasurer.

2. The first semester's bill for room rent (if a college room is occupied), board (in the women's division only), fees, and fines is issued about October 15 and is payable early in November.
3. The second semester’s tuition is payable before the first day of
the second semester in February; a notification is issued prior to
the date due.

4. The second semester’s bill for room rent, board fees, and fines
is issued about February 15, and is payable early in March.

Students and their parents must understand that the Treasurer of the
College has absolute authority concerning the collection of college bills.
No other officer of the college is permitted to interfere with the Treasurer’s regulations. The Treasurer cannot permit deferred payment of the tuition fees at the beginning of each semester, but he can at his discretion grant partial extensions for a brief period on the bills due in November and March. Students needing such extension must make all arrangements directly with the Treasurer. Unless payment is made in exact accordance with the Treasurer’s specific understanding with the student, the regulations of the Trustees require the Treasurer to demand that the Dean exclude the student from classes until payment is made, and a fine of two dollars will be imposed for one’s neglect to arrange with the Treasurer prior to date due, for a plan of payment. Because of this regulation, annoyance and embarrassment may be avoided if students and parents will see that on each of the four annual occasions when college payments are due, these payments be made at least a week in advance. All payments, including the tuition fee in September, may be paid by mail. Checks should be made out to The Treasurer of Colby College.

No student will be granted a degree until all bills due the College have been paid. The marks of any student owing bills to the College will be withheld.

Any student who does not return athletic equipment belonging to the College Athletic Association shall be charged a reasonable price for the same. The charges shall be considered and treated as other college bills and shall be collected by the Treasurer of the College and credited to the account of the Association.

REFUNDS*

Whenever a student withdraws, either voluntarily or involuntarily, refund for table board will be made pro-rata.

Refunds will not be made for fees and incidental charges after the semester bill has been issued.

Whenever a student is required to withdraw because of misconduct or unsatisfactory scholarship, no refund of tuition or room rent will be made.

*See page 28 for withdrawal procedure.
In case of voluntary withdrawal, refund of tuition and room rent will be made according to the following table:

From registration day until the expiration of two weeks ................................................................. 80% refunded
Between two and four weeks ................................................................. 60% refunded
Between four and six weeks ................................................................. 40% refunded
Between six and eight weeks ................................................................. 20% refunded
After eight weeks ................................................................. no refund

FINANCIAL AID

Financial aid annually awarded by Colby College to deserving students amounts to $42,000. The aid is chiefly of three types: scholarships, Woodman Fund grants, and employment. All awards of aid are made by the Committee on Financial Aid. Detailed information is contained in a special circular entitled "Financial Aid", which will be supplied upon request.

Elective for students who have completed Public Speaking 5-6 and 7-8.

13. INTERCOLLEGIATE DEBATE. Hours and place to be arranged.

Students of the College interested in intercollegiate debate will be invited to elect this course and to become members of the Debate Squad. The work of the course consists of a study of debate propositions, preparation of team briefs, presentation of arguments, and participation in intercollegiate debates. Membership in the national forensic society of Phi Kappa Delta, the Maine Alpha Chapter of which has been established at Colby, is conditioned upon membership in the Squad and participation in intercollegiate debates.

Credit of one semester is granted to students who satisfactorily complete the work of the course, but such credit is not granted until the student has completed the senior year and has been a member of the Squad during his residence in the College.

Elective for all students.

It is advisable that students complete Public Speaking 5-6 before electing this course.

MODERN LANGUAGES

ASSOCIATE PROFESSORS McCoy, HELIE, Strong; ASSISTANT PROFESSOR Smith; and Mr. Bither

The aim of the Department is two-fold: linguistic and cultural. The linguistic aim is to give the student a knowledge of the languages sufficient to enable him to read, write, and speak them with ordinary facility and understanding. The cultural aim is to acquaint the student with the customs and life, the history, literature and art, of the French, German and Spanish peoples.

NOTE: Prerequisite for the work of the second semester of all courses in the Department of Modern Languages numbered 01-8:

1. A student must receive a grade of at least fifty percent in the first semester’s work in order to be allowed to continue with the work of the second semester. A student whose work has fallen between 50 and 59 in the first semester will be given the grade of E. He will receive credit for this work if he passes the work of the second semester.

2. If a student who has passed the first semester’s work with a grade of less than seventy per cent fails to complete the course by passing the work of the second semester, he will be expected to repeat the first semester’s work before attempting again the work of the second semester.

Elective for Freshmen and Sophomores.

**Assistant Professor Rush.**

**Library**

During recent years it has come to be recognized that the provision of adequate library facilities and service is one of the most important obligations which a college bears to its students. Increasingly, the library has become, in fact, as well as in name, "the heart of the college"; today there is scarcely an aim or function carried on by our institutions of higher education which is not in some measure aided or supported by library activities. Thus the library fills a fundamental educational and cultural role, not merely by supplying materials for required or supplementary reading in connection with course work, but also by the stimulation of interest in contemporary civilization, the compilation of bibliographies, the preparation of exhibits, and the provision of recreational reading in
the form of non-academic literature on many subjects. Colby is constantly striving to expand and improve its Library, and to widen and make more inclusive the service rendered by it. The Library staff gives instruction in the use of books and bibliographical tools to develop independent use of libraries during college and in later life.

The Library, centrally located in Memorial Hall, contains at present ninety-seven thousand volumes, and is growing at the rate of about three thousand volumes a year. The Library receives more than three hundred periodicals, including many important publications from foreign countries, and is a depository for the publications of the United States Government.

A handbook, "How to Use the Library" is issued without charge to all students. In this handbook readers will find the library rules and valuable information concerning the use of library materials.

That certificate is granted to college graduates who have completed in college or in graduate or summer school, eighteen semester hours in Psychology and Education (not more than six hours in psychological courses). These certification requirements must be met in full before appointments to any teaching position in the public secondary schools of Maine is possible.

Candidates for positions as Directors of Physical Education are required to obtain a special certificate, which is based upon completion of a special course of instruc-
COURSES OF INSTRUCTION

This requirement may be met by completing course 5-6 under the Department of Physical Education and a year-course in Biology or Physiology.

NOTE.—No student will be permitted to take more than two full courses (12 semester hours) in Education in any one year.

Special methods courses for prospective teachers, e.g., English 23, 24, Mathematics 12, French 22, or Latin 10, may be included among the courses in Education offered for certification.

A scholarship average of at least 8 for the last two years of work in the student’s major teaching subjects will be required for recommendation.

Beginning 1938-39 a program of graduate study leading to the degree of Master of Arts in Teaching will be offered. See page 28 for details.

EDUCATION

1. ORIENTATION IN EDUCATION. First Semester: Monday, Wednesday, Friday, 2.30. Alumnae Building.

An introduction and survey which interprets modern education as the outcome of a long series of historical events in which present-day ideals, standards, modes of teaching, and methods of educational organization and administration have slowly evolved.

Elective for Juniors; Seniors and Sophomores with permission of instructor.

ASSISTANT PROFESSOR MORSE.

The genetic relationship of American education with its European sources and the development of education in the United States from its colonial beginnings, through the periods of state and national growth, to the development of present-day methods, curricular, and aims. A survey of the major problems in American education.

Elective for Juniors; Seniors and Sophomores with permission of instructor.

ASSISTANT PROFESSOR MORSE.

3. GENERAL METHODS OF HIGH-SCHOOL TEACHING. First Semester: Tuesday, Thursday, Saturday, 11.25, Chemical 24.

The learning and teaching processes in their relation to methods of classroom instruction and management; the relationships of school, teacher, and community; professional and ethical standards of the teacher; discipline, drill, and other phases of class instruction; the use of the question; the lesson plan; directed study; problems of the novice in teaching; and observation of secondary-school teaching.

Elective for Seniors, only, who desire to make teaching their profession.

ASSISTANT PROFESSOR MORSE.

An introductory course in the fundamental principles and laws of psychology applied to education; a background for the work in general and special methods courses.

ASSISTANT PROFESSOR MORSE.

5. PROBLEMS IN EDUCATION. Second Semester. Hours and place to be arranged.

Elective for high ranking Seniors whose training and experience qualify them for the independent study of special problems.

ASSISTANT PROFESSOR MORSE.

Professor COLGAN.
GRADUATE COURSES IN EDUCATION

Courses leading to the educational practitioner's degree of Master of Arts in Teaching will be given by President Johnson and Professors Colgan, Warren, and Morse. A general statement and the list of these courses are presented on pp. 28-30.

PSYCHOLOGY

Students intending to major in psychology should take Psychology 1, 2, 3, 4, 5.6, 9, 10, Education 3, Biology 1-2 or Sociology 1-2, and Mathematics 61-62. Advanced courses in Physics and a good reading knowledge of French and German will prove especially valuable for graduate research work.

By consultation a psychology-sociology major can be arranged.

Pre-medical students should elect Psychology 1, 2.

1. GENERAL PSYCHOLOGY. First Semester: Lectures. Monday, Wednesday 9; Discussion-quiz section:—Friday or Saturday at 9; Thursday or Friday at 10.25; Coburn 32.

A study of human nature and behavior. Description and analysis of such behavior forms as consciousness, habit, memory, learning, emotion, will, thought; concepts of personality, and the interrelations of heredity and environment. Presentation of fundamental theories and an application of psychological principles to the various situations of life.

Elective for Juniors and Seniors, and for Sophomores majoring in the social sciences.

Biology 1-2 is highly desirable as preparation for this course.

PROFESSOR COLGAN.

2. APPLIED PSYCHOLOGY. Second Semester: Lectures. Monday, Wednesday, 9; Discussion-quiz sections:—Friday or Saturday at 9; Thursday or Friday at 10.25; Coburn 32.

A continuation of Psychology 1, expanding into a brief survey of the use of psychological principles in medicine, law, industry, education, art, religion and science; concluding with a study of the mechanisms of character formation and the fundamentals of mental hygiene.

Elective for students who have taken Psychology 1.

PROFESSOR COLGAN.

3. CHILD PSYCHOLOGY. First Semester: Tuesday, Thursday, Saturday, 8; Alumnae Building.

A study of child development from the pre-natal period to adolescence.

The course is intended for students interested in parenthood, social work, or teaching.

Elective for Juniors and Seniors.

ASSISTANT PROFESSOR MORSE.

4. ADOLESCENT PSYCHOLOGY. Second Semester: Tuesday, Thursday, Saturday, 8; Alumnae Building.

A continuation of Psychology 3, with special emphasis on the principles of adolescent psychology. This course will be supplementary to the course in educational psychology for students interested in the problems of adolescents.

Elective for Juniors and Seniors.

ASSISTANT PROFESSOR MORSE.
5-6. **EXPERIMENTAL PSYCHOLOGY.** Tuesday, Thursday, 2-30-4.30; Coburn 31.

The application of scientific methods to the study of mental processes.

Elective for Juniors and Seniors who have attained an average mark of C or better in Psychology 1. Mathematics 01-02 is practically indispensable as preparation for this course.

**PROFESSOR COLGAN.**

9-10. **SEMINAR IN PSYCHOLOGY.** Hours and place to be arranged.

Elective for students whose training and experience qualify them for research and experimental work in psychology.

**PROFESSOR COLGAN.**

---

**PHILOSOPHY**

**ASSISTANT PROFESSOR HAYNES**

*A student majoring in philosophy will take the eight courses offered in the department or Philosophy 1, 2, 3 and 4, Psychology 1 and 2, and either Philosophy 5 and 6, or 7 and 8.*

1. **THE FUNDAMENTALS OF PHILOSOPHY.** Monday, Wednesday, Friday, 10.25, Champlin 13.

The philosophic approach to life: the value of philosophy; the relation of philosophy to science, art, and religion: the test of truth; the origin and nature of the universe: cosmic evolution; purpose; pessimism and optimism; materialism, dualism, and idealism; singularism and pluralism; the existence of God; the self, its nature and place; freedom: the higher values of life, aesthetic, moral, religious.

Elective for Sophomores, Juniors, and Seniors.

2. **THE HISTORY OF GREEK PHILOSOPHY.** First Semester: Monday, Wednesday, Friday, 9, Champlin 31.

The philosophy of the pre-Socratic age, of that of Socrates, Plato, and Aristotle, and of ethical schools after Socrates—the Cyrenaics, the Cynics, the Epicureans, and the Stoics.

Elective for Sophomores, Juniors, and Seniors.

3. **THE HISTORY OF MODERN PHILOSOPHY.** Second Semester: Monday, Wednesday, Friday, 9, Champlin 31.

The systems of the greater philosophers from the Renaissance to the present; early scientific philosophers—Bruno, Bacon, Hobbes; the rationalists—Descartes, Spinoza, Leibniz; the English empiricists—Locke, Berkeley, Hume; idealism on the continent—Kant, Hegel, Fichte, Schelling, Schopenhauer; Spencer and evolutionism; Comte and positivism; Nietzsche: recent idealism, realism, and pragmatism.

Elective for Sophomores, Juniors, and Seniors.

4. **THE PHILOSOPHY OF IDEALISM.** First Semester: Tuesday, Thursday, Saturday, 10.25, Champlin 13.

The more important types of philosophy, such as materialism, dualism, pantheism, and new realism, closing with a study of the types of idealism and their moral and religious implications.

Elective for Sophomores, Juniors, and Seniors.

5. **THE PHILOSOPHY OF RELIGION.** Second Semester: Tuesday, Thursday, Saturday, 10.25, Champlin 13.

The nature of religion, its truth, and its values; the relation of religion to science; the nature and significance of human personality; the problem of evil; the idea and existence of God; the conservation of values and immortality.

Elective for Sophomores, Juniors, and Seniors.
7. **Ethics.** First Semester: Tuesday, Thursday, Saturday, 9, Champlin 31.

The general theory of ethics: nature and scope. The rise and development of man's moral nature; duty; moral law; conscience. Theories of the highest good; happiness; self-realization; the social self. Values, their nature and ground; their organization and conservation.

Elective for Sophomores, Juniors, and Seniors.

8. **Ethics.** Second Semester: Tuesday, Thursday, Saturday, 9, Champlin 31.

Personal and social ethics. Individual aspects of ethics: health and efficiency, sex, love, marriage, vocation, sacrifice and altruism. Social aspects: the social relations of the self; the family and the state; property and industry; liberty and law; democracy; social betterment; morality and religion; emphases of the Christian ethical ideal.

Elective for Sophomores, Juniors, and Seniors.

**Religion**

**Associate Professor Newman**

_Courses in the Philosophy of Religion (Phil. 6) and in Biblical Greek (Greek 11-12) will count with the courses here listed toward a major in Religion._

1. **Biblical Literature: Old Testament.** First Semester: Tuesday, Thursday, Saturday, 9, Champlin 31.

The literature of the Old Testament in its historical development; the writings of the Hebrew prophets, poets, story-tellers, historians, apologists, and law-makers; special attention to the civilization behind the literature and to the problems that called forth these writings.

Elective for all students.

The Gospels, Epistles, and other New Testament writings; the lives of Jesus and Paul, and the rise of the Christian church. The source material of Christianity will be closely linked to the life and problems of the Christian church and the Mediterranean world of the first and second Christian centuries.

Elective for all students.

3-4. **History of Religions.** Tuesday, Thursday, Saturday, 11.25, Champlin 23.

Elective for Sophomores, Juniors, and Seniors.

5. **Psychology of Religion.** First Semester: Thursday 3.30-5.30, Champlin 34.

Racial beginnings and development of religious consciousness; growth of a child's knowledge of God; religion of adolescence; the experience of worship, mysticism, conversion; belief in God and immortality.

Elective for students approved by instructor.

6. **Introduction to Religious Education.** Second Semester: Thursday, 3.30-5.30, Champlin 34.
COURSES OF INSTRUCTION

History of religious education; curriculum; principles, organization, and supervision; character education; religious drama, art, and literature; experiments; cooperation with local churches.
Elective for students approved by instructor.

7. THE SOCIAL TEACHINGS OF THE PROPHETS, JESUS, AND PAUL, AND MODERN SOCIAL PROBLEMS
First Semester: Monday, Wednesday, Friday, 11.25, Champlin 34.
Intensive study of the fundamental social teaching of Judaism and Christianity.
Application to the leading current social problems.
Elective for Juniors and Seniors.

8. CONTEMPORARY RELIGION.
Second Semester: Monday, Wednesday, Friday, 11.25, Champlin 34.
Modern trends in world religions; representative religious groups in America; contemporary cults; current literature; social implications.
Elective for Juniors and Seniors.

9. LIFE AND TEACHING OF JESUS.
An intensive study of the Gospels and of lives of Jesus. Special attention will be given to Jesus' teaching about God, worth of the individual, the kingdom of God, social relations and immortality.

10. RELIGIOUS BIOGRAPHY.
An intensive study of selected biographies of religious people to discover their philosophy of life.

ART HISTORY
DR. FINCH

1. PREHISTORIC, ORIENTAL, AND GREEK ART. First Semester: Monday, Wednesday, Friday, 10.25, Champlin 31.
A survey of the history of art from the beginnings through the Hellenistic period, with special attention to classical Greek art.

2. ROMAN, MEDIAEVAL, AND MODERN ART. Second Semester: Monday, Wednesday, Friday, 10.25, Champlin 31.
A survey of the history of art from the Etruscans to modern times, with special emphasis on the art of the Roman Empire.

MUSIC
MR. THOMAS

1-2. PRINCIPLES OF MUSICAL THEORY. Monday, Wednesday, Friday, 1.30, Music Room.
No previous musical experience required. Recommended for Glee Club members.
3-4. **HISTORY OF THE LITERATURE OF MUSIC.** Monday, Wednesday, Friday, 3.30, Music Room.

Survey of the history and the development of musical systems and forms; the lives and contributions of the great composers.

Prerequisite: Music 1-2, or a demonstration by the student of a thorough knowledge of the principles of musical theory.

Note: Qualified students will be granted credit of one semester-hour per semester for satisfactory participation in the work of the glee club or orchestra; such credit, however, will not be given for the first two semesters' work which is probationary. A student entering as a freshman in September, 1935, may, therefore, earn as many as six semester-hours in music by participating in approved musical activities for four years (eight semesters).

**DIVISION OF SCIENCE**

*Chairman: Professor Ashcraft*

**MATHEMATICS**

**Professors Ashcraft and Runnals:** Associate Professor Warren and Assistant Professor Schoenberg

**01-02. INTRODUCTION TO STATISTICS.** Tuesday, Thursday, 2.00-3.15, Chemical 14.

Fundamentals of statistical methods: central tendency, dispersion, reliability, curve fitting, correlation, trend analysis, and graphical devices.

Required of Freshmen who intend to major in Economics or Sociology.

**Associate Professor Warren.**

**1-2. ELEMENTARY FUNCTIONS.** Section A, Monday, Wednesday, Friday 9, Chemical 27; Section B, Tuesday, Thursday, Saturday, 9, Chemical 27.

The elements of algebra, trigonometry, and analytic geometry with special emphasis on the concept of function. A foundation for further study in mathematics and the mathematical sciences.

Required of Freshman who intend to major in Mathematics, Physics or Chemistry.

**Professor Ashcraft.**

**1a-2a. NON-TECHNICAL MATHEMATICS.** Monday, Wednesday, Friday, 8, Champlin 23.

This course is designed for non-science majors wishing to study one year, only, of college mathematics. The topics discussed will not be chosen for their possible utility, but for their suitability in illustrating the nature of various fields of elementary mathematics.

Elective for Freshmen and Sophomores.

**Assistant Professor Schoenberg.**

**3-4. ELEMENTARY DIFFERENTIAL AND INTEGRAL CALCULUS.** Monday, Wednesday, Friday, 8, Chemical 27.

Differentiation of functions; maxima and minima; integration with applications; theorems of Taylor and Maclaurin; partial and total derivatives.

**COURSES OF INSTRUCTION**

*Required of Sophomores majoring in Mathematics.*

Elective for students who have completed Mathematics 2.

**Professor Ashcraft.**

5-6. **Advanced Calculus.** First Semester: Tuesday, Thursday, Saturday, 10:25, Chemical 27.

The more advanced topics of calculus, including power series, line and surface integrals, vector calculus, ordinary and partial differential equations, and an elementary discussion of Fourier series.

*Required of students majoring in Mathematics.*  
Elective for students who have completed Mathematics 4.

**Professor Ashcraft.**

**Assistant Professor Schoenberg.**

9-10. **Geometry.** Tuesday, Thursday, Saturday, 9, Champlin 23.

Topics chosen to suit the needs of the students from the analytic geometry of planes, lines, and quadric surfaces in Euclidean three dimensional space with emphasis on the use of determinants and matrices; sequel to elementary plane and solid geometry by metric and projective methods.

*Required of Sophomores majoring in Mathematics.*  
Elective for students who have completed Mathematics 2.

**Assistant Professor Schoenberg.**

11. **Higher Algebra.** First Semester: Monday, Wednesday, Friday, 10:25, Chemical 27.

Special topics in algebra, determinants, series, symmetric functions, the cubic, the biquadratic, eliminants and covariants.

Elective for students who have completed Mathematics 4.

**Professor Ashcraft.**

12. **The Teaching of Mathematics in the Secondary School.**  
Second Semester: Monday, Wednesday, Friday, 10:25, Chemical 27.

A professional course dealing with methods of teaching. The history of mathematics and a consideration of its purposes and values in the secondary school. Secondary texts will be studied and discussed and each student will do some demonstration teaching.

Elective for students who have completed Mathematics 4.

**Professor Runnals.**

13-14. **Mechanics.** Hours and place to be arranged.

The principles of the kinematics, statics, and dynamics of particles and rigid bodies.

Elective for students who have completed or are taking Mathematics 5-6.

**Assistant Professor Schoenberg.**

[15. **Probability and Statistics.**]

Elements of the theory of probabilities up to and including Bernoulli’s Theorem and Laplace’s integral formula; geometrical probabilities: distribution functions; description of statistical data as to features of central tendency.

21-22. **Special Topics.** Hours and place to be arranged.

The content will be varied from year to year to suit the needs of students. Such topics as elements of the theory of functions of a real or complex variable, theory of equations, theory of numbers, or theory of groups will be considered.

Elective with consent of instructor, for students majoring in Mathematics.

**Assistant Professor Schoenberg.**
PHYSICS

Professor Wheeler and Assistant Professor Stanley

The following courses in Physics are designed to meet the needs (a) of students who desire to acquire a knowledge of a fundamental science as a part of a liberal education, (b) of prospective teachers of science in secondary schools, (c) of students whose majors are in subjects related to Physics or whose later work in Medicine or other subjects will require Physics as a prerequisite, (d) of those students who wish to major in Physics in preparation for further work in an Engineering or Graduate School or in Industrial Physics.

Students who plan to take more than one year of Physics should, in general, take Mathematics 1-2 not later than Physics 1-2.

The student who intends to major in Physics should consult the Head of the Department, as early in his career as possible, concerning which courses in this and allied subjects should be taken to meet his requirements.

All classes in Physics meet in Shannon Hall.

1.2. General Physics. Lectures: Section A, Tuesday, Thursday, 9; Section B, Tuesday, Thursday, 10.25; Laboratory: Section I, Monday, 1.30-3.30; II, Tuesday, 1.30-3.30; III, Wednesday, 1.30-3.30; one recitation each week; Monday, 10.25; Friday, 1.30; Saturday, 9; or Saturday, 10.25.

The fundamentals of mechanics, heat, and sound; electricity, light, and modern physics.

High school Physics is desirable but not required.

Four semester hours credit per semester.

Elective for Freshmen, Sophomores, and Juniors.

Professor Wheeler.

Assistant Professor Stanley.

3. Elementary Modern Physics. First Semester: Section A, Tuesday, Thursday, 9; Section B, Tuesday, Thursday, 10.25; Laboratory Sections, Saturday, 8-9.50 or 10.25-12.15.

The more important experimental facts on which modern atomic structure theory is based; kinetic theory of gases, thermionic and photoelectric effects, conduction of electricity through gases, Bohr's theory, Compton effect, etc.

Elective for students who have completed Physics 1-2.

Professor Wheeler.

4. Theory of Light. Second Semester: Section A, Tuesday, Thursday, 9; Section B, Tuesday, Thursday, 10.25; Laboratory Sections, Saturday, 8-9.50 or 10.25-12.15.

The more important parts of geometrical and physical optics; optical instruments, interference, diffraction, polarization, and spectroscopy.

Elective for students who have completed Physics 3.

Professor Wheeler.

The fundamental principles of mechanics and properties of matter accompanied by laboratory experiments, with emphasis on the quantitative aspects of topics treated, and on the unity of thought and method of applying fundamental principles to actual experiments.

Elective for students who have completed Physics 3, 4 and have taken or are taking Mathematics 3-4.

Professor Wheeler.

The laws of radiation, specific heat, kinetic theory of gases, Van der Waal’s equation, Joule Thomson effect, liquefaction of gases. Carnot’s cycle and other cycles of heat engines. Planck’s quantum theory and laws of thermodynamics. Elective for students who have completed Physics 7 and have taken or are taking Mathematics 4.

Professor Wheeler.

9-10. Magnetism and Electricity. Monday, Wednesday, 9; Laboratory, Thursday, 1.30-3.30.

Magnetic elements and measurements; testing magnetic properties of iron; measurements of resistance and temperature coefficient of resistance; measurements of electromotive force, self and mutual inductance, and capacity; insulation and capacity tests; electrolytic conduction; conduction of electricity through gases, testing of rectifying and amplifying vacuum tubes; elementary theory of alternating currents, electrical oscillations and radiation, thermo-electricity, photo-electricity. Elective for students who have taken or are taking Mathematics 3-4 and Physics 3, 4.

Professor Wheeler.
Assistant Professor Stanley.

11-12. Direct and Alternating Currents. Monday, Wednesday, 8; Laboratory, Thursday, 1.30-3.30.

Electric and magnetic circuits; the laws of electromagnetism; design, use, and protection of electrical measuring instruments; laboratory determinations of the operating characteristics of direct current machinery. Laws of alternating current circuits; theory and operating characteristics including practical testing of alternating current machinery; electrical waves and oscillations; photoelectric circuits; telegraph, telephone, and radio communication. Elective for students who have taken Physics 9-10.

Assistant Professor Stanley.

Historical sketch; electromagnetic theory of light; thermionic and photoelectric effects; origin and development of the quantum theory; origin of spectra; vector and other models of the atom; X-rays. Radioactivity; methods of measurement of radiations from radioactive substances; alpha, beta and gamma rays; theory of successive transformations; the nucleus and its disintegration; wave theory of matter. Occasional laboratory experiments. Elective for students who have completed Mathematics 3-4 and have taken or are taking Physics 9-10.

CHEMISTRY

Professor Parmenter, Associate Professor Weeks, and Dr. Ray.

The student who intends to major in Chemistry should, upon entering college, consult the Head of the Department as to which courses in chemistry and allied subjects should be taken to meet his requirements. Students majoring in chemistry, but not as a preparation for medical school, are required, in general, to take Chemistry 1-2, 3, 6, 7-8, 9-10, 11-12; they elect such of the more advanced courses as best meet their needs. The courses in Chemistry and allied subjects which must be taken by a pre-medical student depend upon the requirements of the medical school which the student wishes to enter. Students preparing for medicine are advised to elect Chemistry 1-2, 3, 6, 7-8, 9-10, and if possible 11-12 in order to meet the requirements of the better medical schools. All classes in Chemistry meet in Chemical Hall.
1-2. **General Chemistry.** Wednesday, Friday, 11.25; Laboratory: Section I, Monday, 10.25-12.15; II, Tuesday, 1.30-3.30; III, Thursday, 1.30-3.30; one quiz period each week, Monday, 9 or 1.30; or Tuesday, 9 or 11.25.

History, occurrence, distribution, preparation, properties, and uses of the elements and their principal compounds; theoretical and historical chemistry. Lectures and recitations with lecture-table experiments; individual laboratory work in which the student prepares the principal elements and their compounds, and studies their properties.

Each laboratory section is conducted in two divisions.

Division A is designed for those who have had a course in Chemistry and who would in the opinion of the Department profit by experimental work of a more advanced nature. Division B, for those who have not had a course in Chemistry.

Four semester hours credit per semester.

Elective for Freshmen, Sophomores, and Juniors.

**Professor Parmenter.**

**Associate Professor Weeks.**

---

5. **Qualitative Analysis.** First Semester: Section A. Tuesday, Thursday, Saturday, 10.25-12.15; Section B. Monday, Wednesday, Friday 2.30-4.30.

The reactions and detection of the metallic and non-metallic ions and radicals, based upon the theory of ionization and mass action; experience in analyzing alloys, minerals, and technical products.

Elective for students who have passed Chemistry 1-2.

**DR. RAY.**

6. **Chemical Principles.** Second Semester: Section A: Tuesday, Thursday, Saturday, 10.25-12.15; Section B: Monday, Wednesday, Friday, 2.30-4.30.

The fundamentals of theoretical chemistry based upon quantitative measurements. Elective for students who have passed Chemistry 5.

**DR. RAY.**

7-8. **Quantitative Analysis.** Tuesday, Thursday, Saturday, 8-10.

Theoretical and practical instruction in quantitative analysis as illustrated by selected gravimetric, volumetric and electro-chemical methods; the use of the analytical balance; methods of weighing and calibration.

Elective for students who have passed or are taking Chemistry 5, 6.

**Professor Parmenter.**

The preparation, reactions, properties, and structure of the aliphatic, carbo-cyclic and heterocyclic compounds.

Four semester hours credit per semester.

Elective for students who have passed or are taking Chemistry 5, 6.

**Associate Professor Weeks.**

11-12. **Physical Chemistry.** Wednesday, Friday, 10.25; Laboratory hours, Tuesday, 2.30-4.30.

The theories, fundamental laws and methods of physical chemistry, including stoichiometry; gases, liquids and solids; generalizations and applications of the phase rule; thermochemistry and photochemistry; colloid chemistry; law of mass action; theories of solutions; chemical kinetics and equilibrium; catalysis; electrochemistry; radioactivity and atomic structure.

**Note:** Students may elect Chemistry 7-8, 9-10, and 11-12 simultaneously.

**DR. RAY.**
13-14. **APPLIED CHEMISTRY.** Monday, Wednesday, Friday, 8.

The more important applications of organic, inorganic and physical chemistry to industrial processes; the contributions of chemistry to the development and requirements of modern industry and society.

Elective for students who have passed Chemistry 5, 6.

**DR. RAY.**

15. **QUANTITATIVE ANALYSIS, ADVANCED.** First Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

Selected methods in gravimetric, volumetric, gasometric, and electrochemical analysis; the use of physical-chemical apparatus.

Elective for Seniors who have passed Chemistry 7-8.

**PROFESSOR PARMENTER.**

16. **TECHNICAL ANALYSIS.** Second Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

Continuation of Chemistry 15. The quantitative study of technical, agricultural, and industrial products; the analysis of iron and steel, lubricating oils, food, paint, soap, and fertilizer; the complete analysis of coal by bomb-calorimeter methods; water analysis for industrial and potable purposes.

Elective for Seniors who have passed Chemistry 7-8.

**PROFESSOR PARMENTER.**

17-18. **ORGANIC CHEMISTRY, ADVANCED.** Wednesday, Friday, 1.30-2.30; Laboratory hours, Monday, 1.30-5.30.

The more important general reactions of organic chemistry; special reactions of interest to the advanced student; reading of papers in the chemical literature and reports on special subjects. Laboratory work consists of more difficult preparations than those made in Chemistry 9-10; the preparations will be taken from a number of the more important laboratory manuals and from the original literature.

Elective for students who have passed Chemistry 9-10.

**ASSOCIATE PROFESSOR WEEKS.**

**BIOLOGY**

**PROFESSOR CHESTER AND INSTRUCTOR**

Students who major in biology must take eight semester courses in addition to Biology 1-2; these courses must include Biology 3-4, 9-10 and 14. Students preparing for graduate study in Biology should elect at least two years of work in mathematics, two in physics and four in chemistry. Students wishing to be recommended for teaching Biology in the secondary schools must elect Biology 1-2, 3-4 and 9-10.

All classes in Biology are held in Coburn Hall.

1-2. **GENERAL BIOLOGY.** Section A, Monday, Wednesday, Friday, 10.25; Section B, Monday, Wednesday, Friday, 11.25; Demonstration Periods: I, Monday, 1.30-2.30; II, Monday, 2.30-3.30; III, Tuesday, 1.30-2.30; IV, Tuesday, 2.30-3.30; V, Wednesday, 1.30-2.30; VI, Wednesday, 2.30-3.30.

The metabolism of the frog and its application to man; the irritability of protoplasm as it has found expression in the complex nervous systems of frog and man;
the biology of the lower organisms leading into multicellularity and its expression in hydra and the earthworm leading up to the economy of the lower organisms in nature. The development of animals, heredity, and evolution.

Elective for Freshmen and Sophomores.

**Professor Chester, Instructor.**

[3-4. Botany.]
A fairly intensive study of the higher plants followed by a type study of the various larger groups.
Elective for students who have taken Biology 1-2.

**5-6. Vertebrate Anatomy.** Monday, Wednesday, Friday, 8-10.
The structure of the vertebrate animal; the fish, the amphibian and the mammal.
Elective for Sophomores, Juniors, and Seniors who have taken Biology 1-2.

**Professor Chester, Instructor.**

**7-8. Biological Technique and Development.** Tuesday, Thursday, Saturday, 10.25-12.15.
Methods of preparation of materials for study; keeping records; the fundamental tissues, and tissues of the digestive and excretory systems; development more or less like the subject-matter included in Kellicott's General Embryology; frog development up to the neural tube stage; chick development up to the thirty-six hour stage; and comparative anatomy of the membranes of chick and mammal.

**Professor Chester, Instructor.**

**9-10. General Zoology.** Tuesday, Thursday, 8; Laboratory, Thursday, 1.30-3.30.
The natural history of the lower and higher animals.
Elective for students who have taken Biology 1-2.

**Professor Chester, Instructor.**

**11-12. Genetics, Eugenics and Evolution.** Monday, Wednesday, Friday, 8.
Elective for Juniors and Seniors who have taken Biology 1-2.

**Professor Chester.**

**14. Biological Seminar.** Second Semester: Hours to be arranged.
Required of Seniors majoring in Biology.

**Professor Chester.**

**GEOLOGY**

**Associate Professor Lougee**

All classes in Geology meet in Coburn Hall.
Geology 1, 2 prerequisite to courses 3-10, inclusive.
Courses 1-10 inclusive are required for a major. Students intending to major in Geology should consult the Head of the Department about allied subjects for their particular needs.

**1. Physical Geology.** First Semester: Tuesday, Thursday, 10.25; Laboratory Section I. Monday, 1.30-3.30; II, Tuesday, 1.30-3.30; III, Wednesday, 1.30-3.30.
The topographic forms of the earth's surface and the natural agencies which produce them—rivers, ground water, glaciers, wind, shore agencies, volcanism, and forces of crustal deformation. Geology of the Waterville region.
Elective for all students.
2. **Historical Geology.** Second Semester: Tuesday, Thursday, 10.25; Laboratory Section I, Monday, 1.30-3.30; II, Tuesday, 1.30-3.30; III, Wednesday, 1.30-3.30.

   The history and structure of the earth, and the record of life in the geologic past. Fossils and their significance in dating geologic records. Local field trips.

3. **Mineralogy.** First Semester: Monday, Wednesday, 11.25; Friday, 1.30-3.30.

   Crystallography, chemical analysis, and methods of determination of minerals. Collecting trips to nearby mineral localities.
   (For Seniors only. Also given in 1940-41.)

4. **Economic Geology.**

   A survey of the occurrence and production of the world’s economically important metallic and non-metallic resources.

5. **Paleontology.**

   An introduction to the study of fossils as clues to the geologic past, and their bearing on the theory of evolution of living forms.

   The geologic structure, geomorphic history, and physiographic divisions of the United States.

7. **Glacial Geology.** First Semester: Monday, Wednesday, 9; Friday, 3.30-5.30.

   Mechanics of ice; history and deposits of the Glacial Period with special attention to features in Maine.

8. **Petrology.** Second Semester: Monday, Wednesday, Friday, 9.

   Rocks of the earth’s crust, their origin, structure and composition. Studies of local outcrops in the field.

9. **Structural Geology.** First Semester: Monday, Wednesday, 10.25, Thursday, 1.30-3.30.

   Geologic field methods, interpretation of geologic maps; application of geology to engineering problems; the use of surveying instruments in constructing topographic maps.

10. **Applied Geology.** Second Semester: Monday, Wednesday, 10.25; Thursday, 1.30-3.30.

   Geological science in modern life: mining, quarrying, geophysical prospecting, ground water resources, soil conservation, structural problems of dams, tunnels, etc. Geology 9 is prerequisite to Geology 10.
DIVISION OF HEALTH AND PHYSICAL EDUCATION

Chairman: Professor Loeb

ASSOCIATE PROFESSOR LOEBS; ASSISTANT PROFESSORS ROUNDY, MILLETT, AND McCOY; DR. PIPER, DR. HARDY, MR. PERKINS, AND MISS DUFFY

HEALTH SERVICE

The College Physician maintains regular office hours each day for medical consultation and service to all students. Every student is given a careful health examination during the first week of the college year, and advised how to maintain his health and increase his physical efficiency.

It is desirable wherever possible that all remediable defects of vision and all conditions of throat, nose, teeth or other parts of the body which might interfere with normal student activities be corrected before the student comes to college. Students with physical disabilities and weaknesses will be advised by the College Physician to enter upon a program of mild activity, rest, or corrective exercises.

DR. PIPER.
DR. HARDY.

HEALTH INSTRUCTION

Attendance at lectures on Personal and Community Hygiene is required of all students for one hour per week during the first semester of their freshman year. These lectures will be delivered by members of the Faculty and by special outside lecturers.

Men’s Division, Friday, 2:30, Shannon 12. Women’s Division, hour and place to be arranged.

PHYSICAL EDUCATION FOR MEN

All Freshmen and Sophomores are required to participate three hours per week in some form of physical education activity. As a substitution for this requirement, all men who are physically fit may participate in the more strenuous athletic games and sports subject to the rules and regulations of the Faculty, College Physician, Council on Athletics, and Intramural Council. This department offers the opportunity for each student to learn new physical education activities or to become more skilled in those in which he has some aptitude. A wide range of activities is offered each season from which the student may select his program. Emphasis is placed on those activities which have carry-over values in using wisely the leisure time of post-college years. The department sponsors a wide range of activities in both its intramural and intercollegiate programs and students participating in these programs will receive physical education credit.

The required program is offered in four one-semester courses (1, 2, 3, 4) which include instruction and practice in the fundamentals and skills of the following: touch football, soccer, tennis, golf, horse-shoes, outdoor track, volleyball, basketball, handball, baseball, badminton, ping pong, boxing, fencing, winter sports, etc.

One semester hour of credit is granted for the satisfactory completion of each of the four courses, Physical Education 1, 2, 3, 4. Students may attend classes at the following hours: Monday, Wednesday, Friday, 10.25 or 11.25; or Tuesday, Thursday, Saturday, 10.25 or 11.25.
PHYSICAL EDUCATION FOR WOMEN

All Freshmen and Sophomores are required to participate three hours per week in some form of physical education activity.
Juniors and Seniors may participate in physical education activities through the W. A. A. program. Fencing may be elected.

1-2. Physical Education. Section A. Monday, Wednesday, Friday, 1.30; Section B. Monday, Wednesday, Friday, 2.30; Section C. Monday, Wednesday, Friday, 3.30.
Orientation in sports and athletic skills. The activities will include hockey, tennis, correctives, basketball, dancing, winter sports, volleyball, archery, minor sports, and a Spring team sport.
During the second semester one-third of the course is devoted to hygiene.
 Required of all Freshmen
One semester hour credit per semester.

Miss Duffy.

3-4. Physical Education. Section A. Tuesday, Thursday, Saturday, 9; Section B. Tuesday, Thursday, Saturday, 10.25; Section C. Tuesday, Thursday, Saturday, 11.25.
Students are permitted choices of activities, with concentration on a few sports; one each season, except riding and bowling which may be taken once per week during the appropriate season.
Fall season: hockey, tennis, archery, riding.
Winter season: Winter sports, dancing, volleyball, basketball, badminton, correctives, bowling, and minor sports.
Spring season: tennis, archery, baseball, golf, riding, speedball.
 Required of all Sophomores.
One semester hour credit per semester.

Miss Duffy.

PROFESSIONAL HEALTH AND PHYSICAL EDUCATION

The department offers professional training to those students who are interested in the teacher-coach position in public and private schools. These courses not only embody training in the coaching of athletic sports, but also emphasize training in Health Education and Physical Education for students who have already met their Physical Education requirements and who are interested in the securing of a Non-professional Physical Education Certificate.

5. The Organization and Teaching of Physical Education Activities. First Semester: Monday, Wednesday, Friday, 8, Coburn 13.
Practical and theoretical work in those activities included in the modern program of physical education and athletics; the treatment of athletic injuries and a study of the State course of study in Physical Education.
Elective for Seniors.

Associate Professor Loeb's.

6. The Administration of Health and Physical Education.
Second Semester: Monday, Wednesday, Friday, 8, Coburn 13.
Administrative policies and standards pertaining to the execution of a program of Health and Physical Education: schedules, grading, staff, construction of equipment, intramural athletics, supervising, interscholastic athletics, health service, health supervision, health instruction; the scientific principles upon which these programs are administered.
Elective for Seniors.

Associate Professor Loeb's.

Chemistry classes meet in Chemical Hall; all Biology and Geology classes, in Coburn Hall; all Physics in the Shannon Building.

Courses running through the year are given a double number with a hyphen; e.g., Biology 1-2.

Semester courses are indicated by single numbers, odd numbers being used in general for first semester, numbers in general for second semester courses.
PRIZES

1. ALBION WOODBURY SMALL PRIZES.

Prizes amounting to one hundred dollars, derived from a fund given by Lina Small Harris of Chicago, in memory of her father, Albion Woodbury Small, of the class of 1876, former President of Colby and late Professor of Sociology and Dean of the Graduate School of the University of Chicago, are available for students pursuing work in the field of economics and sociology.

These prizes will be given to the students in the Men's or Women's Division who present the best essays on some subject to be announced by the Department of Economics.

In 1938 these prizes were awarded to Joyce Margaret Perry, '38, and Janet E. Lowell, '38.

2. COBURN PRIZES.

Special prizes aggregating one hundred dollars, the gift of Helen Louise Coburn, of the class of 1877, are awarded to the best speakers in a public contest open to all members of the Women's Division.

In 1938 first prize was awarded to Julie Haskell, '38; second, to Violet Merle Hamilton, '39; third, to Muriel Lydia Farnham, '40; fourth, to Dorothy Wall Goodwin, '37.

3. COMMENCEMENT PRIZES.

A prize of fifteen dollars is awarded on Commencement Day to the Commencement Speaker in the Men's Division, and a similar prize to the Commencement Speaker in the Women's Division, for excellence in English Composition.

In 1938 these prizes were awarded to Edith Loretta Barron, '38, and Alfred Walter Beerbaum, '38.

4. CONDON MEDAL.

The gift of the late Randall J. Condon, of the class of 1886, awarded to the member of the Senior class who by vote of his classmates and with the approval of the Faculty is deemed to have been the best college citizen.

In 1938 the medal was awarded to John Silas Pullen, '38.

5. FOSTER MEMORIAL GREEK PRIZES.

A prize of twenty dollars, in memory of the late Professor John B. Foster, is awarded to a student in the Men's Division for marked excellence in interpreting Greek authors. A similar prize is offered in the
Women's Division. These prizes are awarded at the end of the college course upon a basis of not less than four semester-courses.

In 1938 these prizes were not awarded.

6. LELIA M. FORSTER PRIZES.

From the income of the Lelia M. Forster Fund awards are made annually to the young man and the young woman "of the preceding entering class who have shown the character and ideals the most likely to benefit society".

In 1938 these prizes were awarded to Robert White Pullen, '41, and Dorothy Jane Emerson, '41.

7. GERMAN PRIZES.

A first prize of ten dollars and a second prize of five dollars are awarded to members of the Men's Division for excellence in German courses. Similar prizes are awarded in the Women's Division.

In 1938 first prize in the Men's Division was awarded to Myron Garland Berry, '40; second, to Ernest Cummings Marriner, Jr., '40; in the Women's Division first prize was awarded to Merlyne Magnus, '39; second, to Margaret Louise Johnson, '40.

8. GOODWIN PUBLIC SPEAKING PRIZES.

Special prizes aggregating one hundred dollars, given by Matie E. Goodwin of Skowhegan in memory of her husband, Hon. Forrest Goodwin, of the class of 1887, are awarded to students in the Men's Division for excellence in the delivery of original addresses.

In 1938 first prize was awarded to Earl Wentworth Higgins, '39; second, to Nathanael Mann Guptill, '39; third, to Howard Avery Miller, '40; fourth, to Alfred Walter Beerbaum, '38.

9. HALLOWELL PUBLIC SPEAKING PRIZES.

Special prizes aggregating one hundred dollars, given in memory of Judge Florentius Merrill Hallowell, of the class of 1877, are awarded to the four best speakers among the students of the Men's Division.

In 1938 first prize was awarded to Wilson Collins Piper, '39; second, to Nathanael Mann Guptill, '39; third, to Leon Tobin, '40; fourth, divided between Edwin Herbert Shuman, '38, and Ernest Cummings Marriner, Jr., '40.

10. HAMLIN PRIZES.

A first prize of ten dollars and a second prize of five dollars are awarded to the two best speakers in the Freshman Hamlin Prize Speaking Contest, Men's Division, for excellence in public reading. Similar prizes are awarded in the Women's Division.
In 1938 first prize in the Men's Division was awarded to John Edward Hawes, '41; second, to Walter Ward Webber, '41; first prize in the Women's Division was awarded to Elizabeth Adaline Buckner, '41; second, to Barbara Marie Skehan, '41.

11. **MARY L. CARVER PRIZE FOR POETRY.**

A prize of fifty dollars is offered to the student in the Women's Division for an original poem of merit in the English language. No limitation is placed upon the form or nature of the poems submitted.

In 1938 this prize was awarded to Elizabeth Freeman Newell, '38, for her poem, "November Afternoon".

12. **MURRAY DEBATING PRIZES.**

The sum of one hundred dollars is now made available each year to the College through a bequest of the late George Edwin Murray, of the class of 1879, and is awarded in prizes of $50, $25, $15, and $10, for the four students in Public Speaking 5-6 who are judged the best debaters in a public contest.

In 1938 first prize was awarded to James Joseph Williams, '39; second, to Nathanael Mann Guptill, '39; third, to Kenneth Raymond Bickford, '38; fourth, to Wilson Collins Piper, '39.

13. **SOPHOMORE DECLAMATION PRIZES.**

A first prize of ten dollars and a second prize of five dollars are awarded to the two best speakers in the Sophomore Declamation, Men's Division, for excellence in declamation. Similar prizes are awarded in the Women's Division.

In 1938 first prize in the Men's Division was awarded to Howard Avery Miller, '40; second, to Leon Tobin, '40; first prize in the Women's Division was awarded to Edna Irene Slater, '40; second, to Muriel Lydia Farnham, '40.

14. **SOLOMON GALLERT ENGLISH PRIZE.**

A prize of twenty-five dollars, given by Mrs. Joseph L. B. Meyer in memory of Solomon Gallert, of the class of 1888, is awarded yearly for excellence in English.

In 1938 this prize was awarded to Ernestine Faith Wilson, '39, for her essay, "Puritanism and 'The Last Puritan'".

15. **MARSTON MORSE PRIZES.**

Two prizes of fifteen dollars each, given by Marston Morse, of the class of 1914, are awarded annually to two students who show excellence in exposition of some phase of mathematics, physics, or astronomy. The
awards are based on clarity, interest of the presentation in the field chosen, and understanding of the subject.

In 1938 the Mathematics prize was awarded to William Caswell Carter, '38; the Physics prize was awarded to Frederick Barbour Oleson, '38.

16. JULIUS LEVINE EXTEMPORANEOUS SPEAKING PRIZES.

Special prizes aggregating one hundred dollars, given by Lewis Lester Levine, of the class of 1916, in memory of his father, Julius Levine, are awarded for excellence in extemporaneous speaking.

In 1938 first prize was awarded to Nathanael Mann Guptill, '39; second and third were divided between Alfred Walter Beerbaum, '38, and Kenneth Raymond Bickford, '38; fourth, to Ernest Cummings Marriner, Jr., '40.

17. MONTGOMERY INTERCOLLEGIATE PUBLIC SPEAKING PRIZES.

In addition to these prizes offered to students in the college, special prizes aggregating one hundred dollars, the gift of Mr. Job H. Montgomery, of Camden, Maine, are awarded to young men attending preparatory schools in Maine, New Hampshire, and Massachusetts, for general excellence in declamation in a public contest held at Colby College.

In 1938 first prize was awarded to Heinz Rettig, '39, Worcester High School of Commerce (Mass.); second, to Seldon Martin, '39, Hartland Academy; third and fourth prizes divided between Raymond Lacombe, '38, Waterville High School; Edward Malley, '39, North High, Worcester (Mass.); Frank C.
