This Newspaper is brought to you for free and open access by the Waterville Materials at Digital Commons @ Colby. It has been accepted for inclusion in The Eastern Mail (Waterville, Maine) by an authorized administrator of Digital Commons @ Colby.

Not one out of five of your braves, immolated in vain, shall see Albion or Gallia again. But I will tell you in what manner Sevastopol is to be taken. It is at Warsaw that Sevastopol is to be taken!

The Eastern Mail.

WATERVILLE, DEC. 14, 1854.

AGENTS FOR THE MAIL. Y. P. PLAZER, American Newspaper Agent is Agent for this paper and is authorized to take Advertisements and Subscriptions at the same rates as required by us. His office are at Boston's Building, Corner No. 10 State St., Boston.

The Steady old Borough of Kendall's Mills. So the National Magazine titles our good neighbors up the Kennebec; though nearer home they have credit for about as much of the practical 'Young America' as can be made to bear upon business.

Waterville College. The Kennebec Journal, in noticing the annual catalogue of Waterville College—the receipt of a copy of which, very neatly printed in Boston, it is our pleasure to acknowledge—has the following among other liberal and appropriate remarks:

We were surprised in glancing over the list of professorships, to notice that there is no one for the modern languages. In this day it is far more necessary than formerly that the modern languages should constitute a part of every finished education. We do not suppose this study is omitted, of course, but it has to be distributed as an additional burden upon the other departments, which already have enough labor of their own.

The objects which engross the notice of the stranger, and the minds of the citizens, are the railroads which are about effecting a junction here. The narrow gauge from Augusta to Skowhegan crosses the broad gauge from Waterville to Bangor, at Kendall's Mills. This has the practical effect of giving the place two termini, and must bring in a large amount of business when they are in complete operation.

The bridge on which the Pen. & Ken. road crosses here, is one of the largest and best in the country. It has 11 piers, is 2112 feet long, contains 600,000 ft of lumber, and cost, including rails, about 60,000 dollars. It has an upward grade, from east to west, of 10 ft, and is 56 feet above the water, at the highest place.

There is no end to the water power in and around Waterville. If manufactures continue to increase as they have, in the United States, Waterville and vicinity must be one of the busiest portions of the habitable earth.

We are indebted to Dr. D. Burbank, whom of this precinct, but now a dweller by the far off Pacific, for late California papers. We understand that he is coining money rapidly by his operations on the 'dental formations' of the people of San Francisco and parts adjacent.

KNOW-NOTHINGS IN CONGRESS. The prevailing epidemic has broken out in Congress. On Tuesday, Mr. Sillers, of Maryland, gave notice of his intention to introduce a bill to prevent the enlistment of persons of foreign birth in the Army and Navy of the United States; also, to prevent the emigration to this country of foreign paupers and convicts, and to increase the revenues of the government.

JOHN MITCHELL.—This famous gentleman threatens to leave the country if the Know-Notthings do not cease their operations. In a letter to a Know-Nothing friend he says: "As for my personal interest in the affair, it is true, that at San Francisco, a year ago, I declared my intention of becoming a citizen of this Republic; not being then aware of any serious objection on the part of the majority of

Senate and Mr. Sillers in the House, the new party will not wait for champions the present session.—[Am. Citizen.]

These are by no means, in our opinion, the only strong men and true who will sustain the 'American Idea' in the present Congress. If all who have received their election, directly or indirectly, at the hands of the Know-Notthings, are true either to themselves or to their constituents, the number will control the legislative power in ordinary cases. How is it with the Maine delegation? With a single exception, who in that delegation does not count the American party as his immediate constituency?—and who among them would hope for a re-election after openly opposing or neglecting their principles? In the exception alluded to, nobody doubts that, unless the representative sustains the great principles and objects around which the people have at last rallied, another man will take his place when the ballot-box again comes round.

THE DANIEL WEBSTER ESTATE.—The debts due from the deceased amount to \$185,230.88: the charges of administration amount to \$2500; the personal estate is valued at \$28,522.10. The real estate was appraised at \$85,000, and is included in the supposed amount of about \$30,000. License was therefore asked to sell all or so much of the real estate as shall raise the sum of 109,206.78 for the payment of said debts and charges.

LEGISLATIVE PAPERS. THURSDAY WEEKLY AGE.—This useful Legislative sheet will be published during the session of the Legislature, on Tuesday, Thursday and Saturday, at \$1 the session.

FOREIGNERS.—The Bible affords us about as good lessons in morality as the mushroom Solomons of our day. In Leviticus, 19th chapter, 33d and 34th verses, we find the following directions on the proper treatment of foreigners: "If a stranger sojourn with thee in your land, ye shall not vex him; but the stranger that dwelleth with you shall be unto you as one born among you, and thou shalt love him as thyself, for ye were strangers in the land of Egypt. I am the Lord your God."

THE BEALE CASE. The dentists of New York have had a second conference in reference to the case of Dr. Beale, the Philadelphia dentist recently sentenced to state prison for alleged abuse of a female patient while under the influence of chloroform. Many cases were cited in which an amative effect had been produced by the administration of ether and chloroform, and in some of which the delusive notions entertained when under the influence of the anesthetic agent had been continued some time after. A very strong opinion generally was pronounced against the wisdom or propriety of administering either chloroform or ether in dental practice.

MAN KILLED.—On Sunday last, a disturbance occurred on board the ship "Golden Horn," at Wiscasset, in which a sailor was shot through the heart by the carpenter of the ship, James Tubbets, a young man belonging in Wiscasset. We understand that the deceased made a brutal and unprovoked assault on Mr. T., and that the pistol was fired strictly in self defence. A coroner's inquest was in session yesterday, whose verdict we have not yet learned.

MAN KILLED.—On Sunday last, a disturbance occurred on board the ship "Golden Horn," at Wiscasset, in which a sailor was shot through the heart by the carpenter of the ship, James Tubbets, a young man belonging in Wiscasset. We understand that the deceased made a brutal and unprovoked assault on Mr. T., and that the pistol was fired strictly in self defence. A coroner's inquest was in session yesterday, whose verdict we have not yet learned.

TAKEN BY SURPRISE.—A letter from San Francisco to Mr. R. R. Harris, of this city, from his brother, relates a curious incident that occurred here a short time since, which we do not recollect having seen in print. Her Britannic Majesty's exploring ship Plover arrived at San Francisco a short time since from the Polar Sea, where she had been ice bound since 1847.

THE ACCIDENT OF THE GRAND TRUNK RAILROAD.—We regret to state that Mrs. Taylor, the lady who was so badly burned by the accident on the above road on Friday week, died on Sunday morning. Great hopes were at one time entertained of her recovery, and unremitting attention and acknowledged medical skill were not without their promise of success. But she gradually sank under her injuries.—[Port. Adv.]

FRENCHMAN ON A TIME.—On Thursday evening last, about six o'clock, Peter Gronyer, a frisky Frenchman, with too much spirit on board disdaining the slow and uncertain locomotion of his cowardly legs, took possession of the valuable horse and sleigh of Messrs. L. Appleton, Esq., standing on Main street, and made off. The team was soon missed and search made. Officer L. D. Higgins, after beating about all night, found the team at Morrills stable in Vassie, but could not find Gronyer. The latter left the team with the boy to hold, and not coming back, it was put up at the stable. As Gronyer was not seen, it is supposed under the great pressure from within, he exploded.—[Bangor Jour.]

THE DISAPPEARANCE OF MISS MOORE.—The Rochester people seem to be getting a little incredulous with regard to the fate of the missing Miss Moore, and think that their enthusiasm in the matter has run ahead of their judgement. At a hearing for investigation before the mayor of that city, on Saturday last, evidence was adduced conclusively showing that Miss Moore was in that city at a store, on the evening of the 14th of November, in company with another woman, about half past seven o'clock. She was also seen with the same person, not far from the same hour, on Main street, going down town. A strong presumption arises that she has not been murdered, but has left town with the unknown woman in whose company she was last seen.

THE DANIEL WEBSTER ESTATE.—The debts due from the deceased amount to \$185,230.88: the charges of administration amount to \$2500; the personal estate is valued at \$28,522.10. The real estate was appraised at \$85,000, and is included in the supposed amount of about \$30,000. License was therefore asked to sell all or so much of the real estate as shall raise the sum of 109,206.78 for the payment of said debts and charges.

TO YOUNG MEN.—We extract the following beautiful paragraph from the Baccalaureate Address lately delivered before the Graduating Class of Rutgers' College, by the Hon. Theodore Frelinghuysen, and commend it to the perusal of the young: "Resolve to do something useful, honorable, dutiful, and do it heartily. Repel the thought that you can, and therefore may, live above labor, and without work. Among the most pitiful objects in society, is the man whose mind has been trained by education—who has learned how to think, and the value of his immortal Powers, and with all these noble faculties cultivated and prepared for an honorable activity, ignobly sits down to nothing; and, of course, to nothing; with no influence over the public mind,—with no interests in the concerns of his neighborhood,—to be regarded as a drone, without object or character, with no effort to put forth to help the right, or defeat the wrong. Who can think with any calmness of such a miserable career? And however it may be with you in active enterprise, never permit your influence to be in hostility to the cause of truth and virtue. So live, that with the Christian poet, you may truthfully say that—'If your country stand not by your shield, At least your follies have not wrought her fall.'"

R. R. ACCIDENT.—We learn by Mr. Cushman, the gentlemanly Superintendent of the Androscoggin Railroad, that a somewhat serious accident happened to Saturday morning's train from Livermore Falls. The train consisted of two engines and several cars, and was going at the rate of about thirty miles an hour, when, near Leeds centre both engines were mysteriously thrown from the track and badly stove, being damaged to the amount of about \$1500. One of the engineers, Mr. Josiah Littlefield, was slightly injured. What threw the engines off is not known. It could have been the snow, for the train had passed through snow twice as deep the same morning. Mr. Cushman inclines to the opinion that it was caused by obstructions purposely laid on the track, partly from the fact that a similar though unsuccessful attempt was made near the same spot but a short time since.

RARE & SUCCESSFUL SURGICAL OPERATION.—On the 3d of the present month, Mr. Alphonso Bickford, of Palmyra, Me., had his chest tapped, and the almost incredible amount of nine pints of fluid, in all its characteristics resembling pus, taken therefrom! The operation was performed by Dr. J. C. Manson, of Pittsfield, advised and assisted by Dr. Benson, of Newport. The fluid was situated in the left side of the chest, and consequently the heart very much displaced; so much so, that it could be distinctly felt beating two inches on the right of the Sternum, or medium line of the body. It however gradually receded during the operation, and after the entire evacuation, was found beating in nearly its natural position. The patient immediately began to amend, and is at present doing well. His case has for some time past been considered hopeless, but there is now a prospect of his recovery.

OF THE CASO BILL THE PORTLAND ADVERTISER SAYS:—"They are not 'an exact imitation of the genuine.' Nearly all of the genuine bills now in circulation, have a check back in red ink, covering a large proportion of the back, which the counterfeiters have not. Let this fact be kept in mind and it will only be necessary to look at the back of the bill to determine its character."

ANOTHER VICTIM.—John A. Hussey, who was in the cabin with Mr. Wing, the expressman, at the time the steamer Ocean was burnt, died at the hospital yesterday, from the effect of burns and bruises which he received. He was rescued by the boats of the Canada, and taken to the hospital the same night, where he received every possible attention until the time of his death. He was 35 years of age, and a native of Demeritsville, Me.

CHICAGO, A FEW DAYS SINCE, A MAN was found hanging by the heels to the top of a fence. His face had turned black and he was dead. While climbing over the fence he had slipped and caught his foot between two of the pickets. In his struggles to release himself, he had torn off his coat and vest. The muscular contractions all over his body were very great. He had probably hung there several hours.

THE GOVERNORSHIP OF UTAH.—From the best information within our reach, after due enquiry, we are satisfied that there is not a single application for this vacant office, of great importance! Only think of it—the governorship of a U. States Territory going a begging for want of somebody who will take! Nevertheless, we are under the conviction that it has been determined who to appoint, and that the appointment will be very shortly made.—[Washington Stars.]

THE MISSISSIPPI.—The Mississippi had encountered a typhoon, and has sustained some damage. The stay of the Mississippi at Simoda was about ten days. The intercourse of her officers with the officers and people of Japan, was marked with much confidence on the part of the Japanese, and almost by the entire absence of the restraint and apparent suspicion which had been evinced on the occasion of the Mississippi's former visits. No restraint or suspicion was manifested, and commercial prospects were cheering.

THE EASTERN MAIL, AN INDEPENDENT FAMILY NEWSPAPER. Published every Thursday by MAXIM AND WING, EDITORS AND PROPRIETORS.

OUR TABLE. LANT'S ALMANAC for 1885. Boston: John P. Jewett & Co. This was when the almanac was clearly printed, dingy looking stuff—was usually left to hang on a nail in store or workshop, or by the farmer's kitchen chimney, in which latter situation it was generally surrendered to the care of the good old grandmother, who regularly doled out the valuable information found in its pages, for the benefit of the whole family.

THE NATIONAL MAGAZINE for December.—Here we have the closing number of another volume of this excellent magazine, and like all of its predecessors, it is elegantly printed and beautifully embellished, with the filling of the choicest kind. It contains a biographical sketch of King, the sculptor, with a portrait—a continuation of Luther and the Reformation, with fine illustrations—a continuation of a Trip from St. Petersburg to Constantinople, illustrated—Plymouth, the Pilgrims and Puritans, illustrated—the Religious Scarcer of the Age—Wines and Geology—the Orestesian Tribes and Schamyl—Homer and Christmas, by the Elder Pope, finely illustrated, and many other articles, which we will not stay to enumerate. A new volume will commence with the next number, and now is a good time for every body to examine this work and learn its merits. We have enjoyed its acquaintance for some time, and there is no magazine we would more confidently recommend for the family. Published by Currier & Phillips, New York, at \$2 a year.

BLACKWOOD'S EMERALD MAGAZINE for November has the following table of contents—Turkey and its Population, Civilization—The Census, The Secret Agent, Color in Nature and Art, Latin Verification, The Influence of Gold upon the Commercial and Social Condition of the World—part 1, Peace and War, The Waterbury History.—The November number contains the following articles:—The Wonders of the Shore, Popular Education in Scotland, Milman's History of Latin Christianity, The Insoluble Problem, Kaye's Life of Lord Metcalfe, Sicily, Holland on Mental Physiology, Electro Biology, etc. Annotated Edition of English Poets—William Cowper, Progress and Prospects of the War.

THE MONTHLY INSTRUCTOR for December has just been received. The little folks, for whose especial use and pleasure it is designed, will be glad to see it, and will find a rich treat in its pictures, stories, etc. Published by James Gould & Co., Washington, at Boston, at \$1 a year.

of all; there is a 'ring of the true metal' about it that cannot be mistaken. 'Please take the three dollars enclosed, and settle my bill on your account. My regards to the man on the Wing, and also the one with the cane.' 'Just send a receipt for the 'putty.' When most it's convenient for you; The half of it pays for the old year, The balance may go on the new.

One of the greatest luxuries of life, is to pay a bill. And yet there are some people who never indulge in the thing at all. Let such turn square round and try on a few. The democratic party, in Massachusetts, have discovered the meaning of the mysterious initials, K. N. In their efforts to do this, they mean considerably larger into a cocked hat.

There is a man in New York so opposed to Catholicism, that he won't travel on cross-roads. He is the same man that won't eat beef for fear that it might be a portion of the Pope's last Bull. Rather singular—to see a boarding school miss a 'frail' of the territory, and to see a man who is all the while in a hurry, a few months previous, Education is a great thing.

Rather singular—to see a boarding school miss a 'frail' of the territory, and to see a man who is all the while in a hurry, a few months previous, Education is a great thing.

MRS. HARRIS—Physician, located in Waterville, and may be found at her residence, opposite the Elmwood Hotel, ready to attend all who may desire her Professional services. Refers to Dr. M. W. Cornell, Dr. C. Rolfe, Professor in the Maine Medical School, and Dr. H. M. Mosely, Philadelphia.

Dr. Ordway's Honor Discovery and Blood Purifier, For the cure of every Humor, from a common pimple to the worst scurf or skin disease. Also for all diseases having their origin in impure blood, and vitiated humors in the system, such as Rheumatism, Head-ache, Jaundice, etc.

What I Know of Lyon's Katharon. In the Fall of 1882 I was solicited to purchase a quantity of this article, but being unacquainted with its merits declined doing so.

OPINIONS OF THE MEDICAL FACULTY. The opinion of William Perry, M. D., Exeter, N. H. For Cough, Croup and Consumption. I have witnessed the effects of the VIOLET PULMONARY BATH, and have no hesitancy in expressing my belief that it is a safe, convenient, and very efficacious medicine.
