CONCERT—FRIDAY EVENING.—The Maine State Musical Association, which has been in session at this place since Tuesday morning, proposes to give its first Concert on Friday evening, under the direction of Professors Baker and Adams, assisted by Prof. Tracy, pianist of Bangor, and Mrs. Hattie C. Long, soprano, of Boston. . . .

Our citizens have not forgotten the rich musical entertainment afforded by these concerts, at a former session of the Association here; and with such attractions as the distinguished names mentioned above, will doubtless give the Association a good house. . . .

Who was the man who suffered his poor old horse to lie in a maimed and dying condition by the roadside, during the three days of the Fair? Find out his name and pass it round. . . .

An Ancient Landmark.

The following revolutionary document, sent us by a friend in an old copy of the Somerset Journal, speaks in the true spirit of its time. The first signature is that of the father of the faithful postmaster at Kendall's Mills; and probably the others will meet the eyes of their descendants of an equally active but more peaceful day. . . .

We the subscribers, inhabitants of the town of Georgetown, [Maine] having taken into our serious consideration the precarious state of the liberties of North America, and more especially the present distressed condition of this insulted province, embarrassed as it is by several of the British Parliament, tending to the entire subversion of our natural and charter rights; among which is the act for blocking up the harbor of Boston; and being fully sensible of our indispensable duty to lay hold on every means in our power to preserve and recover the much injured constitution of our country; and conscious at the same time of no alternative between the horrors of slavery, or the carnage and desolation of a civil war, and a suspension of all commercial intercourse with the island of Great Britain; Do, in the presence of Almighty God, solemnly and in good faith, covenant and engage with each other, Ist, That from henceforth we will suspend all commercial intercourse with the said island of Great Britain, until the said act for blocking up the said harbor be repealed; and a full restoration of our charter rights be obtained. . . .

2dly, That there may be the less temptation to others to continue in the said, now dangerous commerce, we do in like manner solemnly covenant that we will not buy, purchase or consume, in any manner whatever, any goods, wares or merchandise which shall arrive in America from Great Britain, aforesaid, from and after the last day of August next ensuing. And in order as much as in us lies to prevent our being interrupted and defeated in this only peaceable measure, enter d into for the recovery and preservation of our rights, we agree to break off all trade, commerce and dealings whatever, with all persons, who preferring their own private interest to the salvation of their now perishing country, shall still continue to import goods from Great Britain, or shall purchase of those who do import. . . .

3dly, That such persons may not have it in their power to impose upon us by any pretence whatever, we further agree to purchase no article of merchandise from them, who shall not have signed this, or a similar covenant, or will not produce an oath, certified by a magistrate to be by them taken to the following purpose: viz. I, of in the county of do solemnly swear that the goods I have now on hand, and propose for sale, have not, to the best of my knowledge, been imported from Great Britain, into any part of America since the last day of August, one thousand seven hundred and seventy-four, and that I will not, contrary to the spirit of an agreement entering into through this province import or purchase any goods as aforesaid, until the port or harbour of Boston shall be opened, and we are fully restored to the free use of our constitutional rights. . . .

Witness our hands, June. 1774. THOMAS M'FADEN, DAVID HUNT, WILLIAM LOW, DANIEL TUCKER, ABRAHAM LARRY. We invite special attention to the advertisement of Messrs. G. W. Warren, Barry & Co., to be found in another column. This is an old firm, and the inducements they offer to the trade, in the shape of bargains in Dry Goods, are second to none offered in Boston. . . .

LOCKET FOUND.—A small gold locket, with miniature, was found on the show ground, on Wednesday, which the owner can have by applying to Jos. Percival. . . .

SOUTH KENNEBEC AGRICULTURAL SOCIETY hold their exhibition at Gardiner on the 23d, 24th and 25th inst. The first day is assigned to neat stock, the second to horses; and the third to ladies' equestrian exercises, balloon ascension, reports, &c. . . .

FIRE AT KENDALL'S MILLS.—A dryhouse for lumber was burnt Thursday morning. We do not hear the amount of loss; which must have been very great but for the successful efforts of Victor Engine Co., who prevented the fire extending beyond the dryhouse in which it first appeared. . . .

Among the resolves adopted at the Banks Convention at Worgester, on Monday last was the following: Resolved, That as free sons of free fires the cause of oppressed Kansas is our cause; that the 'Dred Scott' decision is a flagrant outrage upon State sovereignty deserving of the universal condemnation of the American people; that the recent astounding assumption of James Buchanan, President of the United States, that slavery legally exists to-day in Kansas, merits the earnest reprobation of every patriotic man in the land—and that we here declare ourselves irrevocably opposed to Slavery, in every form and color; and in favor of freedom and free labor, wherever man lives throughout God's heritage. . . .

VISITORS.—The train from Bangor this morning enlivened our streets with a company of Sabbath School excursionists, with their teachers from Newport. They were conducted to Town Hall, where good counsel and good living contributed to make up a good time. . . .

The Tiverton Bank, Providence, R. I., has been temporarily enjoined on the application of the Bank Commissioners. The Bank is owned out of the State, and its circulation is in the West. The Farmer's Bank, Providence, has been temporarily enjoined on application of the Bank Commissioners. . . .

SUSPECTED MURDER IN LOWELL.—The body of Maria T. Hall has been found in the Pawtucket Canal at Lowell, under suspicious circumstances. The girl was 17 years old, and her mother and sister live in the rear of 'Barnes' Folly,' on Morrismack street. . . .

The Citizen says that she left home on Friday evening, telling her folks that she should be absent only a short time. Mr. Isaac Page of the Guard Locks, and watchman Cotton heard a female scream that evening, in the direction of the spot where the body was found, and they proceeded in search of the cause. . . .

AT NEW YORK, SEPT. 14. There is nothing definite in regard to the Atlantic Telegraphic Cable. The details of the Indian mutiny team with further atrocities. The French papers publish a dispatch affirming that mutiny had showed itself in Bombay, but had been suppressed. . . .

CHINA.—A correspondent of the London Times gives the following as the course resolved upon by Lord Elgin: He will proceed with a fleet of six vessels to the mouth of the Pei Ho, near Peking, when he will transmit to the Emperor a letter requiring him, within a specified time, either to recognize or repudiate the acts of his officers at Canton. . . .

The London Times states that 15,000 men of the militia are to be called out, and fifteen second battalions of the line formed, instead of the regiments sent to India, also that an additional force of artillery is to be sent to India. . . .

It is stated in the London News that four cavalry regiments lately embarked from London for the East Indies, are provided with Sharpe and American breech loading carbines. The Montieur announces that diplomatic relations between the representatives of France, Russia, Prussia, and Sardinia, on the one part, and the Porte on the other, were resumed at Constantinople on the 29th ult. . . .

It is rumored that the East India Company have appealed to the government for 6 more regiments to be sent out immediately. This will raise the European force in India, after allowing for contingences, to eighty thousand men. . . .

LATER BY THE PERSIA.—New York, Sept. 15.—Eleven more regiments are under orders for India. The Paris Pays denies the reported occupation of Formosa by the United States. The Court of Assizes of Paris has condemned Ledru Rollin, Mazzini and others, to deportation. . . .

The Spanish papers deny the existence of a secret treaty between the United States and Mexico. The Russian troops are concentrating on the Austrian frontier, to prevent interference with the affairs of the Principality. The steamer Ripan has arrived at Southampton from Calcutta, with a number of fugitives from the massacre of Meerut, including the American missionary, Mr. Hay, and family. They narrowly escaped death at Meerut. . . .

THE GRASSHOPPERS.—Some prophetic person has called the horroscope of the verdure of the western, middle and the eastern states. It is to be inevitably eat up by the army of grasshoppers now devastating the fields of Minnesota. . . .

JENNY remarked to her grandmother that old Mrs. Cranshaw had the appearance of a person with one foot in the grave. 'Well, really, upon my word,' said the aunt, 'I thought I noticed she walked a little lame, lately.' . . .

Why is a printer like a hen? Because he sets while, catches out newspapers, and lays his type in the case. The fellow who perpetrated the above is a bad egg. . . .

An exchange paper says the most dignified, glorious and lovely work of nature is woman—the next, man—the third, the horse, the dog, and the pig. . . .

THE MAN WHO BROKE THE TELEGRAPHIC CABLE.—Professor Morse writes a perfectly clear explanation of the cause of the breaking of the Atlantic telegraphic cable, and fixes the blame of the disaster upon Mr. Bright, the head engineer, who had the laying of the cable under his sole direction. . . .

At the Dental Convention at Boston recently, some of the Dentists asserted that the main use of saleratus and cream of tartar in the manufacture of bread, and Dr. Baker fully agreed with the facts which are stated, and gave the results of some experiments which he had made by soaking teeth in a solution of saleratus. . . .

MAN WHO BROKE THE TELEGRAPHIC CABLE.—A Boston correspondent of the New York Post gives some information respecting the monument which it is proposed to erect at Plymouth, Mass., in commemoration of the landing of the Pilgrim Fathers. . . .

is spoken of in enthusiastic terms.

The monument is to be colossal, worthy to commemorate an event so national, and world-wide, even in its consequences. The correspondent of the Post thus describes it: 'The statue is to be of granite; for marble would not stand the rigors of the inhospitable climate that the pilgrims had to face, and bronze would be too expensive; besides no bronze figure of the magnitude of Billings' Faith has ever been erected; the great statue of Bavaria, at Munich, the largest bronze statue in the world, is only thirty-five feet high, I believe. . . .

THE TELEGRAPH CABLE.—The London Times, speaking of the accident, says: 'The Directors, as we have been given to understand, have resolved to renew the attempt in October. . . .

A FOUNDLING.—On Wednesday night last, about 11 o'clock, a female child, about a year old, was left in the yard of Mr. B. Libby, . . .

A MEDICINE, scientifically and skillfully compounded, which makes no undue pretensions, and is recommended by citizens of the highest respectability, deserves the patronage of the public. . . .

AN ART COMPARISON.—Rev. James Freeman Clarke, in a letter to the Boston Courier, compares the Union saviors of that establishment to the timid old gentleman in Plautus who cried out; 'I am killed, I am dead, I am murdered! Where shall I run? Where shall I run? Catch him! Hold him! Who will catch? Whom will be catch? I don't know. I see nothing.' . . .

BYARD TAYLOR.—We are sorry to see that the genius of Bayard Taylor is running to the surface. He is becoming a mere 'literal chronicler of outward signs. His recent letters from the North of Europe are as arid and superficial as the soil over which he trod. . . .

SUDDEN DEATH.—Mr. William Pillsbury, of Augusta, died very suddenly, on Wednesday morning, of disease of the heart. He was about 60 years of age. . . .

Sydney Smith was dining at Highgate one day, where he met with the Rector of Hornsby, who was very learned, very rich, and very religious. The Rector, like a good man as he was, reflected very severely upon the improvidence of the poor, and also upon their increasing numbers, which he considered a great evil. . . .

THE FEMALE TOILETTE.—Dickens thinks that a lady should not neglect her toilette, even though advanced in life and the mother of sundry grown up and rather lust daughters. . . .

There is no reason why the should never enter the family circle with rumpled hair, soiled cap, or unfastened gown. The prettiest woman in the world would be spoiled by such sins in her toilette. . . .

It is suggested that Martin Farphan Tupper's last sonnet on the Atlantic cable was the real cause of the break. Nothing on earth could stand that: . . .

POSTSCRIPT. Just as we go to press we get the Portland Advertiser, with the following painful telegraphic announcement: 'The Central America Lost! Over 400 Passengers Found!' . . .

Charleston, Sept. 17.—The steamship Thos. Swan, from New York has arrived here and reports, having spoken on the 15th inst., about 15 miles north of Cape Hatteras, the Norwegian barque Eloise, which had on board forty passengers of the steamship Central America, who stated that the Central America foundered on the 12th inst., with 500 passengers on board; only 60 of whom were saved. . . .

WARNING.—Sheriff McFadden has just received a telegraphic despatch warning him to look out for horse-thieves and pickpockets from abroad. . . .
