

Woodlot Ownership in Maine

0 25 50 Kilometers

This map was created by Will Tyson using ArcGIS 9.2, and shows woodlot ownership in Maine. It differentiates between varying forms of private and public, as well as industrial ownership. The layers displaying hillshade and water features are provided by the Maine office of GIS. The layer displaying woodlot ownership is provided by the James W. Sewall Company. The map is projected in UTM zone 19, NAD 83.

Woodlot Owners	
Yellow	Industrial
Orange	Federal
Dark Red	State
Green	Conservation NGO
Light Green	Large Non-Industrial Private Forest
Pale Green	Small Non-Industrial Private Forest
