## GENERAL STATEMENT

COLBY is a Christian college of sound academic standing and strongly democratic principles. Old in tradition and young in spirit, it is one of the distinguished group of small New England liberal arts colleges. The first charter was granted in 1813 by the General Court of Massachusetts which established the Maine Literary and Theological Institution. Waterville was finally selected as the seat of learning and in June, 1818, Rev. Jeremiah Chaplin, with his family and seven students from Danvers, Mass., sailed from Boston to Augusta by sloop and then transferred to long boats which made their way up the river to Waterville.

In 1820, the District of Maine became a separate state and one of the first acts of the new legislature was to grant this institution the power to confer collegiate degrees. The following year the name was changed to Waterville College.

Mr. Gardner Colby, a Boston merchant and prominent Baptist layman, made a pledge of \$50,000 conditional upon the securing of \$100,000 from other sources. This was accomplished and the college entered upon a new era of prosperity. In gratitude for this and other large benefactions from Mr. Colby, the name of the college was changed in 1866 to Colby University, being amended in 1899 to Colby College.

In 1871, women were admitted, Colby thus becoming one of the first coeducational colleges in New England. In 1890, the system of coordinate divisions for men and women was adopted.

Dr. Franklin W. Johnson was elected the fifteenth President on November 17, 1928. In June, 1930, the trustees voted to move the college because the present site offers insufficient opportunity for development. The Mayflower Hill site, nearly a square mile in area, was given to the college for this purpose by the citizens of Waterville in April, 1931. At least \$3,000,000 will be needed to construct the new buildings and a program has been launched which aims to attain this sum.

The campus borders on the Kennebec River and contains the main educational buildings, residential halls, and the athletic plant. Just off the campus, on College Avenue and Main Place, are the President's House, the residences for women students, the Alumnae Building, the Men's Infirmary, and the Delta Kappa Epsilon and Phi Delta Theta fraternity houses.

Champlin Hall (1836) is named after President James T. Champlin, D.D., LL.D., in recognition of his distinguished service while at the head

of the college. It occupies a central position on the campus and contains offices, classrooms, and the college store.

Chemical Hall (1898) contains in addition to the chemical laboratories several classrooms and the principal administrative offices.

Coburn Hall (1872) is so named in acknowledgment of benefactions from one of Colby's most liberal friends, Hon. Abner Coburn. The building is given over entirely to the departments of natural sciences and psychology.

Memorial Hall (1869) was erected in honor of the alumni who fell in the service of their country during the Civil War. It contains the Library and Chapel. The building is rich in that it is the repository of numerous material tributes to alumni, friends, and former officers of the college.

Shannon Observatory and Physical Laboratory (1889) is a gift from an honored and generous alumnus, Hon. Richard Cutts Shannon, LL.D., '62. The studies in physical science and astronomy are carried on in this building.

The athletic facilities, at the northern end of the campus, consist of the Men's Gymnasium (1880), Seaverns Field (1920), Woodman Stadium (1922), and the Field House (1930). The Woodman Stadium is a gift from Mrs. Eleanora S. Woodman, and was erected in honor of the alumni who served in the World War. Seaverns Field is named for its donor, Charles F. T. Seaverns, '01.

Chaplin Hall (1822), or North College, named for Colby's first President, Rev. Jeremiah Chaplin, D.D., is occupied by the Delta Upsilon and Lambda Chi Alpha fraternities, each having the use of one half of the building. South College (1821) is shared in a similar way by the Alpha Tau Omega and Zeta Psi fraternities.

Roberts Hall (1911) named for the late President Arthur J. Roberts, LL.D., '90, and Hedman Hall (1915) bearing the name of the late Professor John Hedman, '95, are used as freshman dormitories. The two buildings are of the same design and the rooms are arranged in comfortable suites.

Foss Hall (1904), the gift of Mrs. Eliza Foss Dexter, is the main residence for women students. In addition to a number of single and double rooms, the building is equipped with a recreation room, a reading room, a dining hall, a women's infirmary, and the administrative offices of the Women's Division.

Four smaller residential halls—Mary Low Hall, Foster House, Mower House, and Dutton House—complete the living accommodations for women students.

Each of five fraternities occupies a separate residence; three of these are on College Avenue and two on Elm Street.

A well equipped Men's Infirmary, under the supervision of a registered nurse, is maintained by the college at 25 College Avenue.

The Alumnae Building (1928) was given to the college by Colby women, the donor of the largest individual amount being Professor Florence E. Dunn, Litt.D. '96. The building is used as a social center as well as for housing the health and physical education facilities for women students. It contains an excellent gymnasium, social rooms, kitchen, dining room, and dramatic art equipment.

There are many student organizations at the college. Some of these are closely related to the academic and others to the social side of the college life. The Phi Beta Kappa Society is represented by a chapter, Beta Chapter of Maine, the charter being granted in 1895. Other organizations of a scholastic nature include curriculum clubs and chapters of various national and local honorary fraternities. Fifteen Hellenic fraternities and sororities have local chapters, in addition to which there are numerous other clubs and organizations of a social nature. The extra-curricular religious activities center about the Boardman Society, the Y. M. C. A. and the Y. W. C. A. The student government is represented by the Student Council (Men's Division) and the Student League (Women's Division). More complete descriptions of student organizations and the administrative regulations governing student life at the college are to be found in The Colby Gray Book.

# ENTRANCE\*

## SUBJECT REQUIREMENTS

Henceforth Colby College will offer only one degree, Bachelor of Arts. The requirements for admission are therefore uniform for all candidates, and are as follows:

### FIFTEEN UNITS OF SECONDARY SCHOOL CREDIT

A unit is defined as a subject pursued successfully five periods a week for a full school year, with the exception that four years of English count as only three units.

#### *Required Units*

English . . . . .	3	Algebra . . . . .	1
Foreign Language . . . . .	3 or 4	Plane Geometry . . . . .	1
Three units of one language or two units of each of two languages.		Natural Science . . . . .	1
		Social Science . . . . .	1

#### *Elective Units*

The remaining units necessary to make a total of fifteen may be in any subjects accredited for graduation from an approved secondary school.

NOTE: Foreign languages in which entrance units may be offered are Latin, Greek, French, German, and Spanish. A candidate offering at least three units of Latin in addition to three units of Modern Foreign Language may ignore the requirements in natural and social sciences. Candidates offering only two units of foreign language may, in 1933 and 1934, be admitted at the discretion of the Dean, provided their general school record is sufficiently high. A single unit in a foreign language, representing only one year's study, may not be counted toward the foreign language requirement, but may be counted among the elective units.

## METHODS OF ADMISSION

### PLAN 1

Complete certificate covering fifteen entrance units, as specified above, signed by the principal of a school which is accredited by the New England College Entrance Certificate Board, or of a school outside New England accredited by the accrediting agency of the region in which the school is located.

\*NOTE: Correspondence regarding the admission of men should be addressed to the Dean of the Men's Division; women, to the Dean of the Women's Division.

(New England schools not now accredited should, if desiring the certificate privilege, apply to the secretary of the board, Professor Frank Nicolson, Wesleyan University, Middletown, Conn., before April first.)

#### PLAN 2

Certificate covering at least eight (8) units and examinations of the College Entrance Examination Board or of Colby College in all subjects necessary to complete the total of fifteen units.

#### PLAN 3

Examinations in all required and elective subjects necessary to present a total of fifteen units. These examinations may extend over a period of three or four years, and may be either Colby entrance examinations or those of the College Entrance Examination Board.

#### PLAN 4

Colby College comprehensive examinations in three fundamental subjects: English, Mathematics (Algebra and Plane Geometry) and Foreign Language. These examinations must be taken at one time, but in case of partial failure in the spring examinations the candidate will be permitted to repeat the failed examinations in the fall without being obliged to repeat the examination already passed. This plan assumes that the candidate has covered the fifteen required and elective units necessary for admission.

#### TRANSFER

Colby College has no fixed policy concerning the admission of applicants who desire to transfer from another college. Each such case is treated on its merits. Applicants must submit a transcript of record, including entrance credits, and a statement of honorable dismissal. The Committee on Standing will then act on the case and inform the applicant whether he can be admitted and with how much advanced credit toward graduation. This regulation applies also to applicants from junior colleges.

#### SPECIAL

Adult persons desiring to take a few special courses, but not candidates for the degree, may be admitted at the discretion of the Dean.

#### PROCEDURE OF ADMISSION

1. The prospective applicant should first write to the Dean of the Men's Division or to the Dean of the Women's Division, requesting an application blank.

2. Upon receipt of the blank, the applicant should fill it out carefully and send it to the Dean together with the application fee of ten dollars. (This fee will be returned if the applicant is refused admission, or if for any reason the application is withdrawn previous to September first.)

3. The Dean will communicate with the principal of the applicant's school concerning the method by which admission must be sought. After securing this information the Dean will inform the applicant whether he or she is entitled to certification or must take certain entrance examinations.

4. Applicants who must take entrance examinations will be given specific instructions concerning the time, place, and subjects. Results of examinations will be given to applicants, not in percentage figures but as "Honors", "Passed", or "Failed".

5. When an applicant has completed the requirements for admission and is deemed satisfactory in health and character, he or she will receive a letter entitling him or her to admission to the freshman class.

6. Each applicant will receive instructions about room, board, equipment, Freshman Week, curriculum, and other matters before college opens in September.

#### ENTRANCE EXAMINATIONS

The spring examinations may be taken either at the college or at the secondary school, with the permission of the principal. In 1934 these examinations will be held on May 21, 22, and 23, according to a pre-arranged schedule.

The fall examinations may be taken at the college only. In 1934 they will be held on September 21, 22, and 24.

# GRADUATION REQUIREMENTS

I. The Faculty will recommend the conferring of the degree of Bachelor of Arts by the Board of Trustees upon those students who have successfully completed, under all the conditions specified below, 124 semester hours of approved study with credit for 196 quality points. The number of quality points for each course is the number of semester hours of credit multiplied by an index number for the mark (A=4, B=3, C=2, D=1).

II. There are the following fixed requirements:

1. English Composition in the Freshman Year.
2. English Literature or Classical Literature in the Sophomore Year.
3. One year course in each of two of the following: Biology, Chemistry, Geology, Mathematics, Physics.
4. Two year courses in Social Science, selected from the following: Business Administration, Economics and Sociology, Education and Psychology, History and Political Science, Philosophy, Religion. This requirement must be completed by the end of the Sophomore Year, except that students majoring in science may defer one social science until the Junior Year.
5. Modern Foreign Language. A reading knowledge (Course 3-4 or its equivalent) of either French or German, *and* one additional year (any college course or its equivalent) of either French or German are required for graduation. This requirement may be fulfilled:

- (1) by offering at entrance three units of either French or German, *and* two units of the other;\*
- (2) by offering at entrance three units of either French or German,\* *and* by taking in college one additional year of either French or German;
- (3) by offering at entrance two units of either French or German,\* *and* by taking in college one more year of the language offered, *and* one additional year of either French or German, *or* by taking in college two years of the language not offered at entrance;
- (4) when no modern foreign language is offered at entrance, by taking in college Courses 1-2 and 3-4 of either French or German, *and* one additional year of either French or German.

\*In addition, a student will be required, at the opening of the Freshman Year, to pass an achievement examination in the language (or languages) offered at entrance.

6. Physical Education is required in the Freshman and Sophomore Years. One semester hour of credit is given for the completion of each semester's work.

III. Not later than the end of the Freshman Year each student is required to select a field of concentration known as his major subject. The general requirements for a major are as follows:

1. Every student must take at least eight semester courses in some one subject, with the provision that departments offering a total of only six semester courses may permit two semester courses in a related subject to count toward a major. Majors are not permitted in a subject in which fewer than six semester courses are offered.
2. Each department designates the specific courses and the number exceeding eight semesters demanded for a major in that department.
3. At the end of the Sophomore Year students whose marks average lower than C in the courses completed toward a major are not permitted to continue the major in that department. If a student finds it impossible to secure any major because of this requirement he may be permitted to remain in college for such time as the Dean shall approve without intent of securing a degree.
4. In the Junior and Senior Years three-fifths of a student's program is determined by the major department, but may include courses not specifically in that department. Two-fifths of the program in Junior and Senior Years is elective.

IV. Failed courses which can be made up only by repetition must be repeated in the immediately ensuing year.

#### V. Curriculum by Years

##### *Freshman Year*

English 1-2  
 Modern Foreign Language  
 Science or Mathematics  
 Social Science  
 Physical Education

Elective chosen from the following: Biology 1-2; Business Administration 01-02; Chemistry 1-2; Economics 01-02; Educational Guidance 1, 2; Geology 1-2; Greek 1-2; History 01, 02; Latin 1-2 or 11-12; Mathematics 01-02 or 1-2; Physics 1-2; Religion 1-2; and certain additional courses in Modern Foreign Language.

##### *Sophomore Year*

English 11-12 or Latin 11-12  
 Science or Mathematics  
 Social Science\*

\*Students majoring in science may postpone the requirement in social science until the Junior Year.

Course in the major subject, if not already included in one of the three courses already named; otherwise a free elective.

Modern Foreign Language, if necessary to meet the requirement; otherwise a free elective.

Physical Education

#### *Junior Year*

3 courses determined by the major department.

2 electives, one of which must be in Modern Foreign Language if that requirement has not already been met.

#### *Senior Year*

3 courses determined by the major department.

2 electives, one of which must be in Modern Foreign Language if that requirement has not already been met.

Those who meet these requirements with specially high rank will be awarded the degree with distinction. The Bachelor's Degree with Distinction is awarded in three grades: with Distinction (*cum laude*), with High Distinction (*magna cum laude*), with Highest Distinction (*summa cum laude*).

**CUM LAUDE.** Students who attain a rank between eighty-eight and ninety-two percent throughout their college course will be recommended for a degree *cum laude*.

**MAGNA CUM LAUDE.** Students who attain a rank between ninety-two and ninety-five percent throughout their college course will be recommended for a degree *magna cum laude*.

**SUMMA CUM LAUDE.** Students who attain a rank of ninety-five percent or more throughout their college course will be recommended for the degree *summa cum laude*.

**MARKED DISTINCTION.** If at any time a student who has not obtained one of the *cum laude* grades should attain a rank of ninety-five percent in any department, such student may upon recommendation of the head of that department and at the discretion of the Faculty, be mentioned on the Commencement Program as having attained *Marked Distinction* in that particular department.

#### FOR THE CLASSES OF 1934, 1935, 1936

I. The Faculty will recommend the conferring of the Bachelor's degree by the Board of Trustees upon those students who have successfully completed, under all the conditions specified below 120 semester hours of approved study with credit for 196 quality points.

## II. Courses are classified in three groups:

GROUP A	GROUP B	GROUP C
<i>Language and Literature</i>	<i>History and Social Sciences</i>	<i>Physical and Natural Sciences and Mathematics</i>
BIBLICAL LITERATURE (Religion 1, 2)	ART	BIOLOGY
BIBLIOGRAPHY	BUSINESS ADM'N.	CHEMISTRY
ENGLISH	ECONOMICS	GEOLOGY
FRENCH	EDUCATION	MATHEMATICS
GERMAN	GREEK CIVILIZATION (Greek 15, 16)	PHYSICS
GREEK (Except Greek 15, 16)	HISTORY	
LATIN	PHILOSOPHY	
PUBLIC SPEAKING	PSYCHOLOGY	
SPANISH	POLITICAL SCIENCE	
	RELIGION (Except Religion 1, 2)	
	SOCIOLOGY	

*In addition to courses specifically required below* each candidate for graduation must take at least two one-year courses in each group, except that in Group C candidates for the B.S. degree need take only one one-year course.

A Major or a Minor in any group will satisfy that group requirement.

III. From among the courses in *one* of these groups, the student must, at the time of the election of his Sophomore courses, select a Major subject. Candidates for the degree will be required to complete before graduation a minimum of 24 semester hours in this Major subject. This work must be arranged with the student's adviser—the head of the department in which the major subject is to be taken,—and may be begun only after his approval has been gained.

Students may "major" only in those subjects in which the college offers at least three full years' work. If a fourth year's course in that subject is not offered the adviser may approve a year's work in a closely related subject.

A student who has not offered sufficient work in Latin to satisfy the entrance requirement of *three* years in that subject, but who desires to pursue the course leading to the B.A. degree, may do so by electing three years of Greek in college (i. e., one year in addition to two years of Elementary and Intermediate Greek).

But neither Greek 1-2, nor any other elementary Freshman language course (English Composition 1-2, French 1-2, German 1-2, or Spanish 1-2), may be counted among courses in the major or minor subjects.

IV. At the time of the election of the Major subject, an allied Minor, previously approved by the adviser must be selected, in which a minimum of 12 semester hours must be completed by all candidates for the bachelor's degree.

V. *Two* years of *one* modern language must be taken in college.

VI. The following courses are required of all candidates for the degree:

English Composition 1-2.

Physical Education 1-2, 3-4, (also Educational Guidance 1-2, for women).

Greek 5, 6 or 7, 8, or 11, 12, }  
                                   *or*                                    } for B.A. only

Latin 1-2

Chemistry 1-2

Mathematics 1-2 }  
                           *and*                                    } for B.S. only

Physics 1-2

VII. Of the courses just listed, all elementary courses except Chemistry *must* be taken in the Freshman year.

# DEGREES

## 1. BACHELOR OF ARTS AND BACHELOR OF SCIENCE

The degrees of Bachelor of Arts and Bachelor of Science are conferred by the Board of Trustees, on the recommendation of the Faculty, upon those who have met the conditions specified under Graduation Requirements.

## 2. MASTER OF ARTS

A candidate for the degree of Master of Arts must be a graduate of this College or of an institution of similar rank. He must furnish to the faculty committee on graduate students and to the head of the department in which he pursues his major courses satisfactory evidence, such as a transcript of his undergraduate record, that he is fully prepared to undertake graduate study. He must register on or before October first; consultation with the Faculty should precede that date.

Before he can be recommended for the degree, the candidate must fulfill the following requirements:

1. A candidate must pursue the equivalent of five courses of graduate study. Of these, three courses must be in the department of his major subject, and two courses in a minor subject which is closely related to his major department. The major subject must be one in which the student has completed at least twelve semester hours as an undergraduate. Under no circumstances are elementary courses in either major or minor subjects acceptable in fulfilling the requirements for this degree.

2. A candidate for this degree must submit a thesis not later than the fifteenth of May of the year in which he desires to be examined for the degree. This thesis must be approved by the head of the department in which the student pursues his major subject, and by the faculty committee on graduate students. Two typewritten copies of this thesis must be deposited with the librarian on or before June first.

3. The tuition fee is the same as for undergraduates, payable under the same regulations, including the deposit of a registration fee of \$50. In addition the candidate must pay a diploma fee of \$10. In courses that require the use of laboratories, a laboratory fee is charged.

4. A candidate for this degree must spend at least one academic year in residence at this college. A candidate who is permitted to serve as an assistant in any department of the college is required to spend at least two academic years in residence.

5. A candidate will not be recommended for this degree, unless he maintains in each of his courses a grade of "B" or better.

6. Courses taken, after graduation, in other institutions of approved standing by a candidate for this degree may be submitted for approval to the faculty committee on graduate students and to the head of the department in which the student takes his major courses; and if approved, such courses may be offered in place of part of the requirements set forth above; provided such courses are directly related to the major or minor subject of the candidate, and provided that in them a grade of "B" or better has been maintained. The granting of credit for graduate courses pursued in other institutions does not remove the residence requirement of one year.

## STANDING

To remain in college, all regular students must pass three courses each semester.

Whenever, in the judgment of the Faculty, a student has proved himself unable or unwilling to do college work, such student may be required to withdraw from college.

The President and the Dean are empowered to take disciplinary action, even to the extent of requiring withdrawal from college, when offenses against regulations or customs warrant such action.

A student's class standing is determined by the number of semester hours with which he is credited on the Registrar's records. A student having less than the required number of semester hours at the end of any semester is demoted to the next lower class.

The requirements are

For Sophomore standing	24 hours
For Junior standing	54 hours
For Senior standing	84 hours

The requirement for the degree is 124 hours and 196 quality points, including credit for all specific and major requirements and two years of Physical Education.

The index of quality points is as follows:

- A = 4 multiplied by the hour credits for the course
- B = 3 multiplied by the hour credits for the course
- C = 2 multiplied by the hour credits for the course
- D = 1 multiplied by the hour credits for the course

A semester mark of "F" means that a course has been failed and must be repeated or have another course substituted for it. A mark of "F" cannot be made up by examination.

A conditional mark of "E", covering percentage marks between 50 and 59, is used in the first semester of a few continuous courses specifically designated by the departments. The deficiency thus indicated may be made up by such quality of work in the second semester as the department shall demand. The following are the only courses to which this rule applies:

Biology 1	History 15
Business Administration 1	Mathematics 01, 1, 9, 13
Economics 1	Physics 1
English 7	Psychology 1
French 1, 3, and 5	Public Speaking 5, 7, 9, and 11
German 1, 3, 5, and 7	Sociology 1
Greek 1 and 3	

A mark of Incomplete must be made up within limits prescribed by the instructor; otherwise the mark will be changed to "F". In any event after the expiration of a year, the Registrar will change an Incomplete mark to "F".

Entrance deficiencies may be made up by examination or by taking in college three extra hours for each unit of deficiency. No applicant is granted admission with more than two units of deficiency. In each case the method of making up entrance deficiencies is arranged with the Dean.

At the end of the first half of each semester the faculty issues, through the Registrar's office, mid-semester warnings, both major and minor. These warnings are sent to the student, to his parents, and to his adviser. For each mark reported below 60 the student is given a major warning; for each mark reported as barely passing but in danger of becoming a final failure the student is given a minor warning. Only major warnings affect a student's eligibility for extra-curricular activities.

## SYSTEM OF MARKS

There is no fixed weight for final examinations in computing a student's final mark. The final examination must, however, count less than half in the whole computation. In most courses it counts from one-fourth to one-third.

Marks are reported to students in letters according to the following scale:

- A=90 to 100 per cent
- B=80 to 89 per cent
- C=70 to 79 per cent
- D=60 to 69 per cent
- F=below 60 per cent and failure.
- E=50 to 59 per cent (in "E" courses only)
- abs=absent from final examination
- cr=credit
- inc=incomplete

# CURRICULA

All regular students must select their programs of study using part V of the graduation requirements (page 22) as a guide; they must meet all degree requirements and elect a minimum of fifteen hours a week.

## REGISTRATION

Freshmen are required to register on the first Monday of the college year. Upper-classmen must register on the first Thursday of the college year. A fine of five dollars is charged for late registration unless the student has previously been excused by the Dean. Preceding registration the student must have paid to the College Treasurer a registration fee of fifty dollars, which is credited as an advance payment on the first semester bill.

On the Monday preceding the beginning of the second semester all students must again register after the payment of a second semester registration fee of fifty dollars, which is credited as an advance payment on the second semester bill.

## ELECTION OF COURSES

The program for each Freshman is determined by correspondence followed by a personal conference on registration day.

In the spring Freshmen, Sophomores, and Juniors must elect studies for the following year on a designated day preceding final examinations. Failure to elect studies at this time places upon the offender a fine of \$5, which must be paid before any subsequent election of studies will be permitted.

With the approval of the adviser, changes in a student's program may be made on registration day and during the following week. After the expiration of one week, however, changes may be made only with the consent of both the adviser and the Dean, and then only with the understanding that the student must accept a mark of "F" in the course which he drops. This rule shall not, however, apply to Freshmen in their first semester; for they may make changes without penalty during the first three weeks, provided they have the consent of the Dean.

A student who drops a course without permission shall be placed on probation for the remainder of the semester and shall receive a mark of "F" in the course.

At the Registrar's Office the student can get standard forms upon which to make application for changing courses or dropping a course.

### EXTRA COURSES

With the consent of adviser and Dean a student may elect one, but only one, additional course in excess of the normal program of five courses (exclusive of required work in physical education) provided that the student (1) has had at least one semester in college, (2) has passed at least four courses in the immediately preceding semester, and (3) has obtained an average of at least C in all courses passed in the immediately preceding semester.

If, on the advice of his adviser or instructor concerned, a student repeats in addition to a regular schedule a course already passed, he shall not be charged the customary extra-course fee.

### ADVISERS

The Dean is adviser to all Freshmen in the division concerned.

Each upper classman's adviser is the head of his major department. At the end of the Freshman year the student selects the subject in which he will do his major concentration. Under the new curriculum, a student's work centers around his major subject, especially during Junior and Senior years. Frequent conference with the adviser is therefore imperative.

### MAJORS

Requirements for majoring in specific subjects are, in general, to be found in the catalogue preceding the descriptions of the courses offered by the several departments. Some programs are more specific than others but all conform to the general pattern described in part V of the graduation requirements (page 22). Some students intend their undergraduate work to be a definite preparation for further professional study.

Medical schools, especially, require very definite undergraduate studies. Special curricular principles have been formulated to govern the programs of study pursued by students having professional study definitely in view. Students planning to pursue studies in engineering should major in mathematics, physics or chemistry, and elect a number of courses in English, history, and economics for breadth. Students preparing for law or government service will find it well to concentrate their studies in history or economics, and the courses offered in the field of business provide a general preparation for commercial vocations. Teaching is a popular vocation for college graduates.

In order to teach in a secondary school one must be a graduate of a college or four-year normal school. (It is no longer possible for a student to interrupt his college work by teaching in a high school for a year or two before completing the college course).

The requirements for professional certification are set forth on page 62. Particular attention should be paid to the *Note* just preceding the description of courses.

Students who do not intend to prepare before graduation for the professional certificate (requiring 18 hours), but who plan to take part of the professional work while in college, should enroll during their senior year in Education 5 (General Methods) and either Education 6 (Principles of Secondary Education) or a teacher's course in their teaching subject, if such a course is provided. These are specifically professional courses and should, *without exception*, be taken by every candidate for a secondary school position.

All students who are planning to become teachers should build a broad cultural foundation while in college and should take at least the introductory courses in English literature (survey), sociology, economics, European and American history, and political science. Elementary biology is essential for successful achievement in the courses in psychology and education; the languages contribute a generalized linguistic skill and a cultural content when carried far enough to become real intellectual instruments.

The teacher needs also an acquaintance with the concepts, methods, and intellectual standards of mathematics and the natural sciences. In addition, he will find in philosophy, religion, and art a unifying perspective and an integrating system of values.

The number of applicants at all medical schools so far exceeds the capacity of the schools, that everywhere students of four years' preparation are given preference. Students coming to Colby to prepare for medicine are therefore urged to take the full four years' course. Pre-medical courses are definitely prescribed by the medical school, and students should plan their college work with the advice of the Departments of Chemistry and Biology.

# FEES AND EXPENSES

## TUITION

For all except special students the tuition charge is \$100 per semester or \$200 a year. Should a regular student be allowed to take more than five three-hour courses, he will be charged \$20 a semester for each extra course.

Special students who are allowed to take less than five courses are charged \$20 a semester for each course taken.

Of this tuition fee, \$50 must be paid in advance to the Treasurer of the College on or before Registration Days of each semester in September and February. Until a receipt for this advance payment is obtained from the Treasurer, a student may neither register nor enroll in any college classes. The amounts thus deposited will be credited toward the payment of the first and second semester bills.

## DEPARTMENTAL FEES

Laboratory fees are charged in science courses as follows:

Biology 1, 2, 3, 4 .....	\$3.00 a semester
Biology 5, 6, 7, 8.....	5.00 a semester
Biology 9, 10.....	1.00 a semester
Chemistry 1, 2, 3, 4.....	6.00 a semester
Chemistry 5, 6, 7, 8, 11, 12.....	7.00 a semester
Chemistry 9, 10, 15, 16, 17, 18.....	8.00 a semester
Education 4 .....	2.00 a semester
Geology 1, 2, 3, 4, 5, 6.....	3.00 a semester
Physical Education (Locker Fee) <i>Men's Division</i>	1.50 a semester
Physical Education 1, 2, 3, 4, 5, 6 <i>Women's Div..</i>	1.50 a semester
Physics 1, 2.....	3.00 a semester
Physics 5, 6, 9, 10, 11, 12.....	5.00 a semester
Psychology 1, 2, 10.....	2.00 a semester

Library fees are charged in departments as follows:

English Composition and Literature.....	1.50 a semester
History and Political Science.....	1.50 a semester

## STUDENT ACTIVITIES FEE

Each student of the Men's Division is required to pay \$12 charged on the first semester's bill and \$14 charged on the second semester's bill for support of student activities, allotted as follows: First Semester, Athletic Association \$7.50, Colby *Echo* \$2.00, Class Dues \$1.00, Y. M. C. A. \$1.00,

Debating Society 50 cents; Second Semester, Athletic Association \$7.50, Colby *Oracle* \$5.00, Y. M. C. A. \$1.00, Debating Society 50 cents. Allotment designations do not appear on the bills. There is rather a blanket designation: "Student Activities Fee". This fee is compulsory, and no portion of it is deductible for any reason.

Each student of the Women's Division is required to pay \$7.50 charged on the first semester's bill and \$6.00 charged on the second semester's bill, allotted as follows: First Semester, Colby *Echo* \$2.00, Y. W. C. A. \$1.00, Student League \$2.00, Class Dues \$2.00, Debating Society 50 cents; Second Semester, Colby *Oracle* \$5.00, Y. W. C. A. \$1.00

### HEALTH FEE

Each student of the Men's Division is charged a Health Fee of \$8.00 per year, \$4.00 of which is charged on each semester's bill. In return for this fee the student receives the following services:

A thorough physical and medical examination.

As many visits at the daily sick call as he shall find necessary.

Initial visits of the College Physician at the student's residence if the student is unable to attend sick call.

A total, during the college year, of ten days' free service at the infirmary, including all necessary attendance of the College Physician.

Each student of the Women's Division is charged a Health Fee of \$5.00 per year, \$2.50 of which is charged on each semester's bill. In return for this fee each student receives the following services:

Medical examination.

As many visits at the daily sick call as she shall find necessary.

Use of the Woodman Infirmary under the usual regulations, including a charge of ten cents a meal for tray service and the actual cost of laundry.

Initial visits of the College Physician at the student's residence if the student is unable to attend sick call.

All necessary attendance upon the student by the College Physician whenever the student is confined to Woodman Infirmary.

### DIPLOMA FEE

There will be a Diploma Fee of \$5 for each graduating Senior. This fee will be charged upon the final semester's bill.

### ROOMS AND BOARD: MEN'S DIVISION

Hedman and Roberts Halls are reserved for Freshmen. The rent is \$50 per occupant for each semester. Plans of these dormitories will be sent on application to the Dean.

North College, South College, and 31 College Avenue are occupied by fraternities. Each fraternity is charged a flat rental which the college collects from all occupants on a pro rata basis. Freshmen are not permitted to live in fraternity houses.

The college has no general dormitory for upper classmen. Fraternities housed in college buildings are usually glad to permit non-fraternity upper-classmen to occupy rooms without affiliation with the fraternity. The Dean's office also keeps a file of approved private rooms in the city, the rental of which ranges from \$2.50 to \$4.00 per week.

The college does not operate a dining hall for men. Table board may be obtained at fraternity houses or in the city at prices ranging from \$5.00 to \$7.00 per week.

#### ROOMS AND BOARD: WOMEN'S DIVISION

Room rent and board for students living in Foss Hall and Mower House is \$158.00 a semester; and for those in Mary Low Hall, Dutton House, Foster House, \$153.00 a semester.

If a student be compelled by illness or other necessity to leave college before the end of a semester, the charge for that semester is \$15 a week for the time spent in college. No deduction is made for absence except in cases of prolonged illness.

The items listed above do not include clothing, laundry, travel, recreation, and membership in a social fraternity.

## PAYMENT OF BILLS

As previously explained, every student is required to pay a registration fee of fifty dollars at the beginning of each semester.

The regular college bill is issued once each semester. The first semester bill is presented about October fifteenth and is due in ten days; the second semester bill is presented on February fifteenth and is likewise due in ten days. The gross bill contains the semester charges for tuition, room rent, fees, and (in the women's division) board. The net bill (the amount due) is the gross bill less credits for advance payment and scholarship aid.

Students must understand that the Treasurer of the College has absolute authority concerning the collection of college bills. Only the Treasurer is empowered to grant extension of payment beyond the date due. Neither the Dean nor the President is permitted to interfere with the Treasurer's regulations. Students needing extension of part of a semester's bill must herefore make all such arrangements directly with the Treasurer. Unless payment is made in exact accordance with the Treasurer's specific understanding with the student, the regulations of the Trustees require the Treasurer to demand that the Dean exclude the student from classes until payment is made.

No student will be granted a degree until all bills due the College have been paid. The marks of any student owing bills to the College will be withheld.

Any student who does not return athletic equipment belonging to the College Athletic Association shall be charged a reasonable price for the same. The charges shall be considered and treated as other college bills and shall be collected by the Treasurer of the College and credited to the account of the Association.

## FINANCIAL AID

Financial assistance is available to men and women students in three forms: scholarships, loans, and employment.

### SCHOLARSHIPS

Scholarships are awarded under a competitive system that is based on scholastic rank, character, and financial need. Regulations governing application and awards are set forth in a special circular on "Scholarships."

### LOANS

By a special arrangement with a local bank the College is able to negotiate small loans to meet emergency needs of students. Each loan is usually restricted to \$50 and falls due within a short period. Under certain circumstances renewals are permitted, and it is sometimes possible for a student to negotiate more than one such loan, but the total amount loaned to any one student must not exceed \$200. Detailed regulations concerning these emergency loans are set forth in a circular on "Regulations Concerning Loans".

### SPECIAL LOANS FOR WOMEN

A limited number of women students may, by consulting the Dean of Women, be directed to small loan funds operated by the Treasurer of the

College and by the Alumnae Scholarship Committee. The Benjamin Loan Fund averages about \$200. Small loans may sometimes be secured from the Educational Committee of the Waterville Woman's Club, the State Federation of Women's Clubs, the Student Aid Committee of the Daughters of the American Revolution, and the Waterville Business and Professional Women's Club. The Waterville Branch of the American Association of University Women lends \$100 a year to a local student.

## EMPLOYMENT FOR MEN

### EMPLOYMENT AT THE COLLEGE FOR FRESHMEN

In the Department of Buildings and Grounds a few jobs are each year reserved for Freshmen. These jobs are usually for one semester only. The compensation is table board for the duration of the job. For these jobs application should be made to the Dean in connection with the procedure of admission. No job is promised until entrance requirements have been met in full. Because the number of these jobs is few, they are usually absorbed by applicants whose entrance requirements have been completed by July first.

### FOR UPPER-CLASSMEN

While most regular jobs in the Department of Grounds and Buildings are reserved for Freshmen, there are a few such jobs for upper-classmen. For these jobs, as well as for part-time work, upper-classmen should apply to the Superintendent of Grounds and Buildings.

Employment as student assistant is also available in several departments of the college, including the college library. For work of this sort application should be made to the head of the department.

A few jobs for men are available in the kitchen at the Women's Division. For these jobs application should be made to the Dietitian of the Women's Division.

### EMPLOYMENT IN THE CITY

In normal times it is possible to secure part-time work at business and industrial establishments, restaurants, boarding houses, and homes in the city. The college cannot guarantee such employment, but the Dean's office keeps a list of all employment opportunities reported by prospective employers and a list of students needing work.

## EMPLOYMENT FOR WOMEN

Women students may earn from fifty cents to three dollars a week by doing domestic work in the serving and dining room. The amount paid is approximately 25 cents an hour; thus, to earn \$3.00 a week, a girl works about 12 hours, or a little less than two hours a day. Girls who desire such work should make application for it when they apply for admission to college. There is usually enough for all who really need it. These earnings may be supplemented by working by the hour in local families, where the duties are taking care of children, serving meals, and doing other forms of light housework. A committee of the Y. W. C. A. cooperates with the Dean's office in conducting a placement bureau for such work. Many girls who are helping to pay their college expenses work at hotels or camps during the summer.

## SCHOLARSHIP AID

The Committee on Scholarship Aid announces a change in policy effective with award of scholarships to be made for the year 1934-35. Hitherto all general scholarships have been awarded for the second semester; the number of scholarships has varied and the individual awards have fallen as low as thirty dollars. In short, while the total amount available for scholarship aid has been fixed, the individual awards have been determined largely in accordance with the number of deserving applicants. It has been simply a problem in division.

Beginning with 1934-35, scholarships will be awarded for the entire year. The entire scholarship fund will be divided into a fixed number of designated scholarships. These will be assigned to applicants who, in the opinion of the committee, best combine the qualities of scholarship, character, and financial need. The new plan will mean that awards will be fewer but larger. The whole attitude toward scholarships should thus be changed. Instead of feeling that a scholarship is to be had simply for the asking, the Colby student will come to look upon a scholarship as a reward of merit to be won in competition with others. The denial of a scholarship will not mark a student as undeserving of aid; it will merely indicate that, in the judgment of the committee, other students are considered more deserving.

## DETAILS OF THE NEW PLAN

### I. SCHOLARSHIPS FOR THE THREE UPPER CLASSES

1. Awards are to be made for the entire year before the opening of college in the fall.

2. Awards will be payable in two equal installments on the two semester bills, except that the second installment will be withheld if the student's first semester record is unsatisfactory.

3. Applications, on forms secured at the Dean's offices, must be submitted between April 1 and May 1. Applicants who have filed complete forms in December, 1933, for the 1933-34 awards may apply for 1934-35 awards by filing renewal form.

4. Not later than June first the committee will decide on tentative awards, but the decisions will not then be announced.

5. After the second semester marks have been recorded, the Deans are empowered to make final awards to all students on the tentative list who have fulfilled the regulations laid down by the committee when the tentative awards are made.

6. Not later than July first the Deans shall inform individual students of their awards.

7. On October first the list of awards shall be released for publication.

Scholarships open to upperclassmen are as follows:

*Men's Division*

- 4 paying Full Tuition of \$200 each.
- 25 paying Half Tuition of \$100 each.
- 50 of \$50 each

*Women's Division*

- 4 paying Full Tuition of \$200 each.
- 9 paying Half Tuition of \$100 each.
- 26 of \$50 each.

## II. SCHOLARSHIPS FOR FRESHMEN

Under the new plan the regular scholarships open to Freshmen will be Competitive Entrance Scholarships for applicants from Maine Schools, and the long-established special scholarships for students from designated schools.

### 1. Competitive Entrance Scholarships

Beginning with 1934-35, in addition to the existing requirements in this competition, all applicants will be assembled at Waterville on a designated day in May, when they will be given a general psychological test and will be individually interviewed by the committee.

These Competitive Entrance Scholarships are as follows:

*Men's Division*

- 4 paying Full Tuition of \$200 each.
- 4 paying Half Tuition of \$100 each.

*Women's Division*

- 3 paying Full Tuition of \$200 each.
- 2 paying Half Tuition of \$100 each.

Detailed information about this competition may be secured from the Committee on Scholarships. All applications must be made not later than May first.

## 2. Scholarships for Designated Schools.

Scholarships of \$100 each to one man and one woman of high standing entering Colby College from Coburn Classical Institute, Higgins Classical Institute, Maine Central Institute, Ricker Classical Institute, and to one man of high standing from Hebron Academy. These scholarships are awarded upon recommendation of the principal of the school.

Other scholarships available for Freshmen are made up from a small fund placed at the disposal of the Deans. Since the total amount of this fund is only a few hundred dollars, not more than five or six Freshmen, in addition to winners of competitive scholarships and the preparatory school scholarships, can expect scholarship aid; and these five or six must be applicants of superior quality. In all instances, Freshman scholarships will be based on the applicant's qualifications.

## HALF TUITION FOR CHILDREN OF BAPTIST CLERGYMEN

The College has formerly made regular scholarship grants of \$100 a year to every student who is the son or daughter of a Baptist clergyman. Beginning with 1934-35 the College will charge such students half tuition only, the remission of the remaining half being equivalent to a scholarship of \$100. It will be understood that recipients of this remission are not eligible to apply for further scholarship aid.

# COURSES OF INSTRUCTION

1934-1935

COURSES RUNNING THROUGH THE YEAR ARE GIVEN A DOUBLE NUMBER WITH A HYPHEN: E.G., BIOLOGY 1-2.

SEMESTER COURSES ARE INDICATED BY SINGLE NUMBERS, ODD NUMBERS BEING USED IN GENERAL FOR FIRST SEMESTER COURSES, EVEN NUMBERS IN GENERAL FOR SECOND SEMESTER COURSES.

UNLESS OTHERWISE STATED SEMESTER COURSES COUNT 3 SEMESTER HOURS AND COURSES RUNNING THROUGH THE YEAR 6 SEMESTER HOURS.

BRACKETED COURSES WILL NOT BE GIVEN IN 1934-1935.

It is advisable that students complete Public Speaking 5-6 before electing this course.

## MODERN LANGUAGES

ASSOCIATE PROFESSORS MCCOY, HELIE, AND STRONG, AND  
MESSRS. SMITH AND BITHER

*The aim of the Department is two-fold: linguistic and cultural. The linguistic aim is to give the student a knowledge of the languages sufficient to enable him to read, write, and speak them with ordinary facility and understanding. The cultural aim is to acquaint the student with the customs and life, the history, literature and art, of the French, German, and Spanish peoples.*

NOTE: Prerequisite for the work of the second semester of all courses in the Department of Modern Languages numbered 1-8:

(1) *A student must receive a grade of at least fifty per cent in the first semester's work in order to be allowed to continue with the work of the second semester. A student whose work has fallen between 50 and 59 in the first semester will be given the grade of E. He will receive credit for this work if he passes the work of the second semester.*

(2) *If a student who has passed the first semester's work with a grade of less than seventy per cent fails to complete the course by passing the work of the second semester, he will be expected to repeat the first semester's work before attempting again the work of the second semester.*

*The College, through this Department, has undertaken to meet in full the minimum requirements established by the Maine State Department of Education for preparation for the Professional Secondary Certificate. That certificate is granted to college graduates who have completed eighteen semester hours in Psychology and Education.*

*Although the holder of a diploma from an accredited college may obtain a teaching position in a public high school, the requirements for a professional certificate must be met either before graduation or within a stated time, not more than two years, after beginning to teach. Candidates for positions as Directors of Physical Education are required to obtain a special certificate, which is based upon completion of a special course of instruction. This requirement may be met by completing course 5-6 under the Department of Physical Education (see page 75).*

NOTE.—No student will be permitted to take more than two full courses (12 semester hours) in Education in any one year. One (1) additional semester hour, beyond this maximum, may be taken in Practice Teaching (Education 10) by qualified Seniors.

*Special methods courses for prospective teachers, e.g., English 24, Mathematics 12, French 22, or Latin 10, may be included among the courses in Education offered for certification.*

*A scholarship average of at least 80 for the last two years of work in the student's major teaching subjects will be required for recommendation for a state certificate.*

## EDUCATION

1. HISTORY OF EDUCATION IN EUROPE. First Semester: Monday, Wednesday, Friday, 2.30, Coburn 32.

Modern education as the outcome of a long series of historical events in which present-day ideals, standards, modes of teaching, and methods of educational organization and administration have slowly evolved.

Elective for Juniors and Seniors; Sophomores by permission.

ASSISTANT PROFESSOR HAYNES.

2. HISTORY OF EDUCATION IN THE UNITED STATES. Second Semester: Monday, Wednesday, Friday, 2.30; Coburn 32.

The genetic relationship of American education with its European sources and the development of education in the United States from its colonial beginnings, through the periods of state and national growth, to the development of present-day methods, curricula, and aims. A survey of the major problems in American education.

Elective for Juniors and Seniors; Sophomores by permission.

ASSISTANT PROFESSOR HAYNES.

3. SOCIAL PRINCIPLES OF EDUCATION. First Semester: Monday, Wednesday, Friday, 11.25, Coburn 32.

The basic elements in the social and ethical theory of education, contemporary educational conditions, and the function of education in social and individual life.

Elective for Juniors and Seniors.

PROFESSOR COLGAN.

4. EDUCATIONAL PSYCHOLOGY (LEARNING PROCESS). Second Semester: Monday, Wednesday, Friday, 11.25, Coburn 32.

Applications of the principles of general psychology to the problems of education with special reference to the psychology of the learning process.

Elective for Juniors and Seniors.

PROFESSOR COLGAN.

5. GENERAL METHODS OF HIGH-SCHOOL TEACHING. First Semester: Tuesday, Thursday, Saturday, 11.25, Coburn 32.

The learning and teaching processes in their relation to methods of classroom instruction and management; the relationships of school, teacher, and community; professional and ethical standards of the teacher; discipline, drill, and other phases of class instruction; the use of the question; the lesson plan; directed study; problems of the novice in teaching; and observation of secondary-school teaching.

Elective for Seniors.

PROFESSOR COLGAN.

6. PRINCIPLES OF SECONDARY EDUCATION. Second Semester: Tuesday, Thursday, Saturday, 11.25, Coburn 32.

The problems involved in the analysis of the secondary-school population; individual differences of pupils; the major historical phases of the secondary-school as an institution; its aims and functions; the program of studies; critique of current practices; general phases of organization and administration.

Elective for Seniors.

Education 5 and 6 are open only to those who intend to teach after graduation.

PROFESSOR COLGAN.

#### 10. OBSERVATION AND PRACTICE TEACHING.

A special course for a limited number of qualified students. It includes a period of intensive daily observation of schoolroom procedure, followed by at least five weeks of part-time (or two weeks of full time) actual teaching under supervision.

One to three semester-hours credit.

### PSYCHOLOGY

*Students intending to major in psychology should take Psychology 1, 2, 3, 4, 10, Education 4, Biology 1-2 or Sociology 1-2, and Mathematics 01-02. Physics 1-2, 5-6, and a good reading knowledge of French and German will prove especially valuable for graduate research work.*

1. GENERAL PSYCHOLOGY. First Semester: Lectures, Monday, Wednesday 9; Discussion-quiz sections:—Friday at 9; Thursday, Friday, or Saturday at 10.25; Coburn 32.

A study of human nature and behavior. Description and analysis of consciousness, habit, memory, learning, emotion, will, thought, personality, and the interrelations of heredity and environment. Presentation of fundamental theories and an application of psychological principles to the various situations of life.

Elective for Juniors and Seniors, and for Sophomores majoring in the social sciences.

Biology 1-2 is highly desirable as preparation for this course.

PROFESSOR COLGAN.

2. APPLIED PSYCHOLOGY. Second Semester: at the same hours and place.

A continuation of Psychology 1, expanding into a brief survey of the use of psychological principles in medicine, law, industry, education, art, religion, and science; concluding with a study of the mechanisms of character formation and the fundamentals of mental hygiene.

Elective for students who have taken Psychology 1.

PROFESSOR COLGAN.

3. CHILD STUDY. First Semester: Tuesday, Thursday, Saturday, 8; Coburn 32.

A study of child development from the pre-natal period to adolescence, with special reference to adaptation to environment as a factor in conditioning physical, mental, moral, emotional and social growth.

The course is intended for women students interested in parenthood, social work, and in the pre-school, kindergarten, and primary child.

Elective for students who have completed Biology 1-2 and Psychology 1. Psychology 1 may be taken concurrently.

MISS FOSTER.

4. ADOLESCENT PSYCHOLOGY. Second Semester: Tuesday, Thursday, Saturday, 8; Coburn 32.

A continuation of Psychology 3, with special emphasis on case studies of normal and abnormal adolescents. This course will be supplementary to the course in educational psychology for students interested in the problems of adolescents.

Elective for students who have completed Psychology 1.

MISS FOSTER.

10. EXPERIMENTAL PSYCHOLOGY. First and Second Semesters: Section A, Monday, Wednesday, 2.30-4.30; Section B, Tuesday, Thursday, 2.30-4.30; Coburn 31.

The application of scientific methods to the study of mental processes.

Elective for Juniors and Seniors who have attained an average mark of C or better in Psychology 1.

PROFESSOR COLGAN.

MISS FOSTER.

## EDUCATIONAL GUIDANCE

1. INDIVIDUAL GUIDANCE. First Semester: Monday, Wednesday, Friday, 1.30, Coburn 32.

Problems of college life, especially those concerned with unaccustomed forms of academic life; analysis of correct study habits; rules for mental and physical health.

Elective for women of the Freshman class.

MISS FOSTER.

2. SOCIAL GUIDANCE. Second Semester: Monday, Wednesday, Friday, 1.30, Coburn 32.

Contemporary social and vocational problems which confront women; the historical significance of these problems and their specific relationship to student life.

Elective for women of the Freshman class.

MISS FOSTER.

## PHILOSOPHY

ASSISTANT PROFESSOR HAYNES

*A student majoring in philosophy will take the eight courses offered in the department or Philosophy 1-2, 3 and 4, Psychology 1 and 2, and either Philosophy 5 and 6 or 7 and 8.*

1-2. THE FUNDAMENTALS OF PHILOSOPHY. Monday, Wednesday, Friday, 10.25, Champlin 13.

The philosophic approach to life, the value of philosophy; the relation of philosophy to science, art, and religion; the test of truth; the origin and nature of the universe; cosmic evolution; purpose; pessimism and optimism; materialism, dualism, and idealism; singularism and pluralism; the existence of God; the self, its nature and place; freedom; the higher values of life, aesthetic, moral, religious.

Elective for Sophomores, Juniors, and Seniors.

3. THE HISTORY OF GREEK PHILOSOPHY. First Semester: Monday, Wednesday, Friday, 9, Coburn 12.

The philosophy of the pre-Socratic age, of that of Socrates, Plato, and Aristotle, and of ethical schools after Socrates—the Cyrenaics, the Cynics, the Epicureans, and the Stoics.

Elective for Sophomores, Juniors, and Seniors.

4. THE HISTORY OF MODERN PHILOSOPHY. Second Semester: Monday, Wednesday, Friday, 9, Coburn 12.

The systems of the greater philosophers from Descartes to Dewey.  
Elective for Sophomores, Juniors, and Seniors.

5. THE PHILOSOPHY OF IDEALISM. First Semester: Tuesday, Thursday, and Saturday, 10.25, Coburn 13.

The more important types of philosophy, such as materialism, dualism, pantheism, and new realism, closing with a study of the types of idealism and their moral and religious implications.

Elective for Sophomores, Juniors, and Seniors.

6. THE PHILOSOPHY OF RELIGION. Second Semester: Tuesday, Thursday, and Saturday, 10.25, Coburn 13.

The nature of religion; the relation of religion to science; the problem of evil; the existence of God; the conservation of values and the immortality of the soul.

Elective for Sophomores, Juniors, and Seniors.

7. ETHICS. First Semester: Tuesday, Thursday, Saturday, 9, Coburn 12.

The general theory of ethics. Nature and scope. The rise and development of man's moral nature; duty; moral law; conscience. Theories of the highest goods; happiness; self-realization; the social self. Values, their nature and ground; their organization and conservation.

Elective for Sophomores, Juniors, and Seniors.

8. ETHICS. Second Semester: Tuesday, Thursday, Saturday, 9, Coburn 12.

Personal and social ethics. Individual aspects of ethics; health and efficiency; sex, love, and marriage, vocation, sacrifice and altruism. Social aspects; the social relations of the self; the family and the state; property and industry; liberty and law; democracy; social betterment; morality and religion; emphases of the Christian ethical ideal.

Elective for Sophomores, Juniors, and Seniors.

## RELIGION

ASSISTANT PROFESSOR NEWMAN

*Courses in the Philosophy of Religion (Phil. 6) and in Biblical Greek (Greek 11-12) will count with the courses here listed toward a major in Religion.*

1. BIBLICAL LITERATURE: OLD TESTAMENT. First Semester: Tuesday, Thursday, Saturday, 8, Champlin 31.

The literature of the Old Testament and its historical development; the writings of the Hebrew prophets, poets, story-tellers, historians, apocalyptists, and law-makers; special attention to the civilization behind the literature and to the problems that called forth these writings.

Elective for all students.

2. BIBLICAL LITERATURE: NEW TESTAMENT. Second Semester: Tuesday, Thursday, Saturday, 8, Champlin 31.

The Gospels, Epistles, and other New Testament writings; the lives of Jesus and Paul, and the rise of the Christian Church. The source material of Christianity will be closely linked to the life and problems of the Christian Church and the Mediterranean World of the first and second Christian Centuries.

Elective for all students.

[3-4. HISTORY OF RELIGIONS.]

5-6. RELIGIOUS EDUCATION AND PSYCHOLOGY. Tuesday, Thursday, Saturday, 9, Coburn 13.

The child's native equipment, his use of this equipment in acquiring a knowledge of God, and his religious development based on this knowledge; the psychology of early, middle and later adolescence; the religious adjustment of these periods; the racial beginnings and development of religious ideas and experiences. Curricular material; principles of religious psychology applied to educational methods, organization, curriculum, supervision, and measurements in the church schools and other schools of religion; experiments and programs in the home, school, church, community and state; character education.

Elective for those approved by the instructor.

[7. THE SOCIAL TEACHINGS OF THE PROPHETS, JESUS AND PAUL, AND MODERN SOCIAL PROBLEMS.]

[8. CONTEMPORARY RELIGION.]

9-10. RELIGIOUS BIOGRAPHY (A seminar). Monday, Wednesday, Friday, 8, Champlin 24.

An intensive study of Jesus: the world in which he lived; the sources of our knowledge; the life and teaching of Jesus; an evaluation of modern literature about him; the value of art in interpreting him; the meaning of his life and teaching to us. An extensive study of the biographies of religious persons.

Elective for Sophomores, Juniors, and Seniors.

## MATHEMATICS; PHYSICAL AND NATURAL SCIENCES

### MATHEMATICS

PROFESSORS ASHCRAFT AND RUNNALS, ASSISTANT PROFESSOR WARREN, AND MR. GALBRAITH

01-02. MATHEMATICS PREPARATORY TO STATISTICS AND FINANCE. Section A, Monday, Wednesday, Friday, 9, Chemical 28; Section B, Tuesday, Thursday, Saturday, 9, Chemical 28.

Topics in logarithms, graphs, interpolation, equations, probability, calculus, and curve fitting.

For Freshmen intending to major in social science.

ASSISTANT PROFESSOR WARREN.

1-2. **ELEMENTARY FUNCTIONS.** Section A, Monday, Wednesday, Friday, 9, Chemical 27; Section B, Tuesday, Thursday, Saturday, 9, Chemical 27.

Algebra, trigonometry, and analytic geometry.

Required of Freshmen who intend to major in Mathematics, Physics or Chemistry.

PROFESSOR ASHCRAFT.

3-4. **ELEMENTARY DIFFERENTIAL AND INTEGRAL CALCULUS.** Section A, Monday, Wednesday, Friday, 8, Chemical 27; Section B, Monday, Wednesday, Friday, 8, Champlin 23.

Differentiation of simple and complex functions; maxima and minima; integration with applications; theorems of Taylor and Maclaurin; partial and total derivatives.

*Required of students majoring in Mathematics.*

Elective for students who have completed Mathematics 2.

PROFESSOR ASHCRAFT.

MR. GALBRAITH.

5. **ADVANCED CALCULUS.** First Semester: Monday, Wednesday, Friday, 10.25, Chemical 27.

Topics in advanced calculus and solid analytic geometry.

*Required of students majoring in Mathematics.*

Elective for students who have completed Mathematics 4.

PROFESSOR ASHCRAFT.

6. **DIFFERENTIAL EQUATIONS.** Second Semester: Monday, Wednesday, Friday, 10.25, Chemical 27.

First and second order differential equations with applications.

*Required of students majoring in Mathematics.*

Elective for students who have completed Mathematics 5.

PROFESSOR ASHCRAFT.

7-8. **ANALYSIS.** Hours to be arranged at the convenience of the instructor and students.

Elective for students who have completed Mathematics 6.

MR. GALBRAITH.

9-10. **GEOMETRY.** Monday, Wednesday, Friday, 11.25, Champlin 23.

A sequel to elementary plane and solid geometry; modern synthetic geometry.

*Required of students majoring in Mathematics.*

Elective for students who have completed Mathematics 02 or 2.

MR. GALBRAITH.

11. **HIGHER ALGEBRA.** First Semester: Tuesday, Thursday, Saturday, 10.25, Chemical 27.

Special topics in algebra; determinants, series, symmetric functions, the cubic, the biquadratic, eliminants and covariants.

Elective for students who have completed Mathematics 4.

PROFESSOR ASHCRAFT.

12. THE TEACHING OF MATHEMATICS IN THE SECONDARY SCHOOL.  
Second Semester: Tuesday, Thursday, Saturday, 10.25, Chemical 27.

A professional course dealing with methods of teaching. The history of mathematics and a consideration of its purposes and values in the secondary school. Secondary texts will be studied and discussed and each student will do some demonstration teaching.

Elective for Seniors who have completed Mathematics 4.

PROFESSOR RUNNALS.

13-14. MECHANICS. Tuesday, Thursday, Saturday, 10.25, Champ-  
lin 23.

The principles of dynamics; statics and kinetics with applications.

Elective for students who have completed Mathematics 4.

MR. GALBRAITH.

15. STATISTICS. First Semester: Monday, Wednesday, Friday, 10.25,  
Champlin 23.

The underlying principles of statistics and their applications to various fields.

Elective for students who have completed Mathematics 02 or 2.

MR. GALBRAITH.

18. ASTRONOMY. Second Semester: Monday, Wednesday, Friday, 10.25,  
Champlin 23.

The solar system; theories of its origin and development. Stars, comets and meteors, nebulae, and galactic systems.

MR. GALBRAITH.

## PHYSICS

PROFESSOR WHEELER AND ASSISTANT PROFESSOR STANLEY

*The following courses in Physics are designed to meet the needs (a) of students who desire to acquire a knowledge of a fundamental science as a part of a liberal education, (b) of prospective teachers of science in secondary schools, (c) of students whose majors are in subjects related to Physics or whose later work in Medicine or other subjects will require Physics as a prerequisite, (d) of those students who wish to major in Physics in preparation for further work in an Engineering or Graduate School or in Industrial Physics.*

*The student who intends to major in Physics should consult the Head of the Department, as early in his career as possible, concerning which courses in this and allied subjects should be taken to meet his requirements.*

1-2. GENERAL PHYSICS. Lectures: Section A, Tuesday, Thursday, 9; Section B, Tuesday, Thursday, 10.25; Laboratory: Section I, Monday, 1.30-3.30; II, Tuesday, 1.30-3.30; III, Wednesday, 1.30-3.30; one recitation each week: Monday, 10.25; Friday, 1.30; Saturday, 10.25; or Saturday, 11.25.

The fundamentals of mechanics, heat, and sound; electricity, light, and modern physics.

High school Physics is desirable but not required.

*Four semester hours credit per semester.*

Elective for Freshmen, Sophomores, and Juniors.

PROFESSOR WHEELER.

ASSISTANT PROFESSOR STANLEY.

5-6. EXPERIMENTAL PHYSICS. Section A, Tuesday, Thursday, Saturday, 8-9.50; Section B, Tuesday, Thursday, Saturday, 10.25-12.15.

Laws of Geometrical Optics and their application through the measurement of *length* to optical instruments and the eye; uniformly accelerated motion involving length and *time*, statics of concurrent and non-concurrent *forces*, friction, equal-arm balance; *quantity* of *electricity* and electrical nature and properties of matter including the structure of the atom, elasticity, viscosity and surface tension; *temperature* measurement and temperature coefficients of gases, resistance, etc., calorimetry, hygrometry, heat of combustion. *Energy phenomena* as related to the dynamics of translation and rotation, mass, moment of inertia, the mechanical equivalent of heat, vector and scalar *field phenomena* as related to gravitation, electrostatics magnetism, electromagnetic radiation; general principles of *flow phenomena* of liquids, heat, electricity and the quasi flow phenomena of magnetic flux and total electric displacement, and related measurements of thermal conductivity, electric resistance, current, electromotive force, etc.; *periodic phenomena* including simple harmonic motion, wave motion and measurements involving the simple pendulum, torsion pendulum, wave, velocity, resonators, wave-length of light, polarized light; *electronic phenomena* and atomic physics as related to electronic constants, atomic dynamics, kinetic theory of gases, vacuum tube and photoelectric tube measurements.

Elective for students who have completed Physics 1-2.

PROFESSOR WHEELER.

[7. HEAT AND THERMODYNAMICS.]

[8. THEORY OF LIGHT.]

9-10. MAGNETISM AND ELECTRICITY. Monday, Wednesday, 9; Laboratory hours, Friday, 3.30-5.30.

Magnetic elements and measurements; testing magnetic properties of iron; measurements of resistance and temperature coefficient of resistance; measurements of electromotive force, self and mutual inductance, and capacity; insulation and capacity tests; electrolytic conduction; conduction of electricity through gases, testing of rectifying and amplifying vacuum tubes; elementary theories of alternating currents; electrical oscillations and radiation, thermoelectricity, photoelectricity.

Elective for students who have taken or are taking Mathematics 3-4 and Physics 5-6.

PROFESSOR WHEELER.

ASSISTANT PROFESSOR STANLEY.

11-12. ELECTRICAL ENGINEERING. Wednesday, Friday, 8; Laboratory hours, Thursday, 1.30-3.30.

Electric and magnetic circuits; the laws of electromagnetism; design, use, and protection of electrical measuring instruments; laboratory determinations of the operating characteristics of direct current machinery. Laws of alternating current circuits; theory and operating characteristics including practical testing of alternating current machinery; electrical waves and oscillations; photoelectric circuits; telegraph, telephone, and radio communication.

Elective for students who have taken Physics 9-10.

ASSISTANT PROFESSOR STANLEY.

13. RADIOACTIVITY. First Semester: Monday, Wednesday, Friday, 11.25.

Radioactive substances; ionization of gases; methods of measurement of radiations from radioactive bodies; alpha, beta, and gamma rays; properties of these radiations; continuous production and decay of radioactive matter, theory of successive transformations; production of helium, general survey of uranium, actinium, and thorium and their known products; general results and relations.

Elective for students who have completed Mathematics 4 and Physics 1-2.

PROFESSOR WHEELER.

14. ATOMIC PHYSICS. Second Semester: Monday, Wednesday, Friday, 11.25.

Atomic nature of matter and of electricity; origin of the quantum theory; electromagnetic theory of light; atomic structure; origin of spectra; x-rays; thermionic and photoelectric effects; relativity; wave aspects of matter; astrophysics.

Elective for students who have completed Physics 13.

PROFESSOR WHEELER.

## CHEMISTRY

PROFESSOR PARMENTER, ASSOCIATE PROFESSOR WEEKS, AND MR. KELLEY

*The student who intends to major in Chemistry should consult the Head of the Department upon entering college, as to which courses in this and allied subjects should be taken to meet his requirements.*

1-2. GENERAL CHEMISTRY. Wednesday, Friday, 11.25; Laboratory: Section I, Monday, 10.25-12.15; II, Tuesday, 1.30-3.30; III, Thursday, 1.30-3.30; one quiz period each week, Monday, 9, or 1.30; or Tuesday 9, or 11.25.

History, occurrence, distribution, preparation, properties, and uses of the elements and their principal compounds; theoretical and historical chemistry. Lectures and recitations with lecture-table experiments; individual laboratory work in which the student prepares the principal elements and their compounds, and studies their properties.

*Four semester hours credit per semester.*

Elective for Freshmen, Sophomores, and Juniors.

PROFESSOR PARMENTER.

ASSOCIATE PROFESSOR WEEKS.

MR. KELLEY.

[3. HOUSEHOLD CHEMISTRY.]

[4. CHEMISTRY OF FOOD AND NUTRITION.]

5. QUALITATIVE ANALYSIS. First Semester: Section A, Tuesday, Thursday, Saturday, 10.25-12.15; Section B, Monday, Wednesday, Friday, 2.30-4.30.

The reactions and detection of the metallic and non-metallic ions and radicals, based upon the theory of ionization and mass action; experience in analyzing alloys, minerals, and technical products.

Elective for students who have passed Chemistry 1-2.

MR. KELLEY.

6. ELEMENTARY PHYSICAL CHEMISTRY. Second Semester: Section A: Tuesday, Thursday, Saturday, 10.25-12.15; Section B: Monday, Wednesday, Friday, 2.30-4.30.

The fundamentals of theoretical chemistry based upon quantitative measurements. Elective for students who have passed Chemistry 5.

MR. KELLEY.

7-8. QUANTITATIVE ANALYSIS. Tuesday, Thursday, Saturday, 8-10.

Theoretical and practical instruction in quantitative analysis as illustrated by selected gravimetric, volumetric and electro-chemical methods; the use of the analytical balance; methods of weighing and calibration.

Elective for students who have passed or are taking Chemistry 5, 6.

PROFESSOR PARMENTER.

9-10. ORGANIC CHEMISTRY. Monday, Wednesday, Friday, 2.30-4.30.

The preparation, reactions, properties, and structure of the aliphatic and carbocyclic hydrocarbons and their derivatives.

Elective for students who have passed or are taking Chemistry 5, 6.

*Four semester hours credit per semester.*

ASSOCIATE PROFESSOR WEEKS.

11-12. PHYSICAL CHEMISTRY. Wednesday, Friday, 10.25; Laboratory hours, Tuesday, 3.30-5.30.

The theories, fundamental laws, and methods of physical chemistry, including stoichiometry; gases, liquids and solids; generalizations and applications of the phase rule; thermochemistry and photochemistry; colloid chemistry; law of mass action; theories of solutions; chemical kinetics and equilibrium; catalysis; electrochemistry; radioactivity and atomic structure.

NOTE: *Students may elect Chemistry 7-8, 9-10, and 11-12 simultaneously.*

ASSOCIATE PROFESSOR WEEKS.

13-14. INDUSTRIAL CHEMISTRY. Monday, Wednesday, Friday, 8.

The more important applications of organic, inorganic and physical chemistry to industrial processes; the contributions of chemistry to the development and requirements of modern industry and society.

Elective for students who have passed Chemistry 5, 6.

MR. KELLEY.

15. QUANTITATIVE ANALYSIS, ADVANCED. First Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

Selected methods in gravimetric, volumetric, gasometric, and electrochemical analysis; the use of physical-chemical apparatus.

Elective for Seniors who have passed Chemistry 7-8.

PROFESSOR PARMENTER.

16. TECHNICAL ANALYSIS. Second Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

Continuation of Chemistry 15. The quantitative study of technical, agricultural, and industrial products; the analysis of iron and steel, lubricating oils, food, paint, soap, and fertilizer; the complete analysis of coal by bomb-calorimeter methods; water analysis for industrial and potable purposes.

Elective for Seniors who have passed Chemistry 7-8.

PROFESSOR PARMENTER.

17-18. ORGANIC CHEMISTRY, ADVANCED. Wednesday, Friday, 1.30-2.30; Laboratory hours, Monday, 1.30-5.30.

The more important general reactions of organic chemistry; special reactions of interest to the advanced student; reading of papers in the chemical literature and reports on special subjects. Laboratory work consists of more difficult preparations than those made in Chemistry 9-10; the preparations will be taken from a number of the more important laboratory manuals and from the original literature.

Elective for students who have passed Chemistry 9-10.

ASSOCIATE PROFESSOR WEEKS.

## BIOLOGY

PROFESSOR CHESTER AND MISS BELCHER

*Students who intend to enter medical school are advised to take Biology 1-2, 5-6, 7, 8.*

*Students who major in the department are advised to take Biology 1-2, 3-4, 7, 8, 9, 10.*

*If one expects to receive recommendation for teaching Biology in the secondary school it will be necessary to take Biology 1-2 and 3-4. This represents the minimum for such preparation. In addition, prospective teachers are advised to take Biology 9.*

1-2. GENERAL BIOLOGY. Section A, Monday, Wednesday, Friday, 10.25; Section B, Monday, Wednesday, Friday, 11.25; Demonstration Periods: I, Monday, 1.30-2.30; II, Monday, 2.30-3.30; III, Tuesday, 1.30-2.30; IV, Tuesday, 2.30-3.30; V, Wednesday, 1.30-2.30; VI, Wednesday, 2.30-3.30.

Introduction to the biological sciences; the general biological principles associated with plant and animal life.

Elective for Freshmen and Sophomores.

PROFESSOR CHESTER.  
MISS BELCHER.

3-4. BOTANY. Tuesday, Thursday, 8; Laboratory, Thursday, 1.30-3.30.

The structure, development, physiology and ecology of the flowering plant; the type study of various plants, illustrating their evolutionary history; field excursions.

Elective for students who have had Biology 1-2.

PROFESSOR CHESTER.

5-6. VERTEBRATE ANATOMY. Monday, Wednesday, Friday, 8-10.

The structure of the vertebrate animal; the fish, the amphibian and the mammal. Elective for Sophomores, Juniors, and Seniors who have taken Biology 1-2.

MISS BELCHER.

7. BIOLOGICAL METHODS AND HISTOLOGY. First Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

Biological methods of preparation of material for study; of keeping permanent records of the same; the fundamental tissues.

Elective for Juniors and Seniors who have taken Biology 1-2.

PROFESSOR CHESTER.  
MISS BELCHER.

8. EMBRYOLOGY. Second Semester: Tuesday, Thursday, Saturday, 10.25-12.15.

The development of the chick and other vertebrates.

PROFESSOR CHESTER.  
MISS BELCHER.

9. GENERAL ZOOLOGY. First Semester: Monday, Wednesday, Friday, 8. Laboratory, hours to be arranged.

Study of the invertebrates.

Elective for Juniors and Seniors who have taken Biology 1-2.

PROFESSOR CHESTER.

10. EVOLUTIONARY BIOLOGY. Second Semester: Monday, Wednesday, Friday, 8.

Elective for Juniors and Seniors who have taken Biology 1-2.

PROFESSOR CHESTER.

## GEOLOGY

PROFESSOR PERKINS

1-2. GENERAL GEOLOGY. Section A, Wednesday, Friday, 8; Section B, Wednesday, Friday, 9; Section C, Wednesday, Friday, 10.25; Laboratory Section I, Monday, 1.30-3.30; II, Tuesday, 1.30-3.30; III, Wednesday, 1.30-3.30.

The topographic forms of the earth's surface, including their structure, origin and development; for those who wish a cultural knowledge of geology, and for those who may later teach physical geography in high school.

Elective for Freshmen, Sophomores, Juniors, and Seniors. Prerequisite for other courses in the department.

3. PHYSICAL GEOLOGY. First Semester: Tuesday, Thursday, 8; Laboratory, Friday, 1.30-3.30.

Rocks of the earth's crust, including their composition, origin and structure; those features of the rocks which are of use in interpreting the past history of the earth.

Elective for students who have had Geology 1-2, and for Seniors with the consent of the instructor.

4. ADVANCED STRUCTURAL AND HISTORICAL GEOLOGY. Second Semester: Tuesday, Thursday, 8; Laboratory, Friday, 1.30-3.30.

The structures and historical geology of typical regions.

5-6. MINERALOGY AND ECONOMIC GEOLOGY. Tuesday, Thursday, Saturday, 10.25-12.15.

Crystallography, physical and determinative mineralogy, and the economic geology of minerals; collecting trips to some of the mineral localities of the State.

[7-8. GEOLOGICAL RESEARCH.]

## PHYSICAL EDUCATION

### MEN'S DIVISION

PROFESSOR EDWARDS

#### *Practical Work*

1-2. PHYSICAL EDUCATION. Section A: Monday, Wednesday, Friday, 3.30; Section B: Monday, Wednesday, Friday, 4.30.

*Required of all Freshmen.*

3-4. PHYSICAL EDUCATION. Section A: Monday, Wednesday, Friday, 10.25; Section B: Tuesday, Thursday, Saturday, 10.25; Section C: Tuesday, Thursday, Saturday, 11.25.

This work for Freshmen and Sophomores consists of seasonal out-of-door games such as soccer, snowshoeing and skiing, playground baseball, group games—also gymnasium work such as calisthenics, marching, posture exercises, etc. In cases where it is deemed advisable individual work will be assigned. Physical and medical examinations of all members of the classes are made at the beginning and close of each year. Men may elect any of the accredited sports and receive credit for the practical work if their assignments are properly carried out. The elections must be made on the basis of a semester's work so as not to interfere with the formation of the classes.

*Required of all Sophomores.*

#### *Theoretical Work*

5-6. PRINCIPLES OF PHYSICAL EDUCATION. Monday, Wednesday, Friday, 8, Coburn 12.

A course for definite study of principles in physical education dealing with—The History of Physical Education; Principles of Play; Objectives, Outlines, Adjustment, and Administration of Physical Education in Public Schools; Systems of Physical Education and Corrective Gymnastics.

The second semester's work carries on into Anthropometry; Records; First Aid and Massage; Training Problems; Community Recreation; Competitive Physical Training; Leadership Training in Physical Education.

Laboratory work will be required of all men at which time they will have an opportunity to develop the practical side of the problems which are taken up in theory.

This course will be open only to Seniors who have already met their requirements in Physical Education and who are interested in the securing of a special State Teacher's Certificate

## WOMEN'S DIVISION

MISSES VAN NORMAN AND FOSTER

*Practical Work*

1-2. PHYSICAL EDUCATION. Section A, Monday, Wednesday, Friday, 2.30; Section B, Monday, Wednesday, Friday, 3.30.

Fall Season—Hockey, tennis, archery.

Winter Season—Gymnastics, tumbling and stunts, folk dancing, volley ball, basketball, winter sports.

Spring Season—Speedball, tennis, archery.

Written quizzes and tests on official sport rules and technique are given at the close of each season.

In cases where less strenuous exercise is prescribed by the physician a special program with special tests is arranged.

*Required of all Freshmen.*

MISS VAN NORMAN.

3-4. PHYSICAL EDUCATION. Section A, Tuesday, Thursday, Saturday, 10.25; Section B, Tuesday, Thursday, Saturday, 11.25.

Fall Season—Hockey, tennis, archery.

All Chemistry classes meet in Chemical Hall; all Biology and Geology classes, in Coburn Hall; all Physics classes, in the Shannon Building.

Courses running through the year are given a double number with a hyphen; e.g., Biology 1-2.

Semester courses are indicated by single numbers, odd numbers being used in general for first semester, even numbers in general for second semester courses.

## PRIZES

The college annually awards fifteen prizes to undergraduates in recognition of excellence in their work.

### 1. ALBION WOODBURY SMALL PRIZES.

Prizes amounting to one hundred dollars, derived from a fund given by Lina Small Harris of Chicago, in memory of her father, Albion Woodbury Small, of the class of 1876, former President of Colby and late Professor of Sociology and Dean of the Graduate School of the University of Chicago, are available for students pursuing work in the field of economics and sociology.

These prizes will be given to the students in the Men's or Women's Division who present the best essays on some subject to be announced by the Department of Economics.

In 1933 these prizes were not awarded.

### 2. COBURN PRIZES.

Special prizes aggregating one hundred dollars, the gift of Helen Louise Coburn, of the class of 1877, are awarded to the best speakers in a public contest open to all members of the Women's Division.

In 1933 first prize was awarded to Sybil Lee Wolman, '34; second prize, to Lois Blanche Crowell, '34; third prize, to Elizabeth Emery Hailey, '33; fourth prize, to Bertha Almyra Whittaker, '35.

### 3. COMMENCEMENT PRIZES.

A prize of fifteen dollars is awarded on Commencement Day to the Commencement Speaker in the Men's Division, and a similar prize to the Commencement Speaker in the Women's Division, for excellence in English Composition.

In 1933 these prizes were awarded to Donald Hosea Rhoades, '33 and Ruth Weston, '33.

### 4. CONDON MEDAL.

The gift of the late Randall J. Condon, of the class of 1886, awarded to the member of the senior class who by vote of his classmates and with the approval of the Faculty is deemed to have been the best college citizen.

In 1933 the medal was awarded to William Malcolm Wilson, '33.

#### 5. FOSTER MEMORIAL GREEK PRIZES.

A prize of twenty dollars, in memory of the late Professor John B. Foster, is awarded to a student in the Men's Division for marked excellence in interpreting Greek authors. A similar prize is offered in the Women's Division. These prizes are awarded at the end of the college course upon a basis of not less than four semester-courses.

In 1933 these prizes were not awarded.

#### 6. FRESHMAN SCHOLARSHIP PRIZES.

A first prize of fifty dollars and a second prize of twenty-five dollars are awarded to those two members of the Freshman Class, Men's Division, and similar prizes to members of the Freshman Class, Women's Division, who have maintained the highest average in their courses during the Freshman year.

In 1933 first prizes were awarded to Oliver Chapman Mellen, '36, and Edythe Diane Silverman, '36; second prizes, to Joseph Bernard O'Toole, Jr., '36, and Charlotte Montgomery Howland, '36, and Helen Lucile Jones, '36.

#### 7. GERMAN PRIZES.

A first prize of ten dollars and a second prize of five dollars are awarded to members of the Men's Division for excellence in German courses. Similar prizes are awarded in the Women's Division.

In 1933 first prizes were awarded to Arne Olof Lindberg, '36, and Ruth Weston, '33; second prizes, to Donald Hosea Rhoades, '33, and Dorothy Elaine Washburn, '35.

#### 8. GOODWIN PUBLIC SPEAKING PRIZES.

Special prizes aggregating one hundred dollars, given by Matie E. Goodwin of Skowhegan in memory of her husband, Hon. Forrest Goodwin, class of 1887, are awarded to students in the Men's Division for excellence in the delivery of original addresses.

In 1933 first prize was awarded to Sumner Peter Mills, Jr., '34; second prize, to Leon Alvah Bradbury, '33; third prize, to John James Pullen, '35; fourth prize, to Horace Purinton Daggett, '33.

#### 9. HALLOWELL PUBLIC SPEAKING PRIZES.

Special prizes aggregating one hundred dollars, the gift of Florentius Merrill Hallowell, of the class of 1877, are awarded to the four best speakers among the students electing Public Speaking 5-6.

In 1933 first prize was awarded to John James Pullen, '35; second prize,

to Ralph Nathanson, '34; third prize, to Irving Martin Malsch, '33; fourth prize, to Alvin Lombard Vose, '35.

#### 10. HAMLIN PRIZES.

A first prize of ten dollars and a second prize of five dollars are awarded to the best two speakers in the Freshman Hamlin Prize Speaking Contest, Men's Division, for excellence in public reading. Similar prizes are awarded in the Women's Division.

In 1933 first prizes were awarded to Robert Edmund Jenkins, '36, and Amy Thompson, '36; second prizes, to Oliver Chapman Mellen, '36, and Agnes Cooper Carlyle, '36.

#### 11. MARY L. CARVER PRIZE FOR POETRY.

A prize of fifty dollars is offered to the student in the Women's Division for an original poem of merit in the English language. No limitation is placed upon the form or nature of the poems submitted.

In 1933 this prize was awarded to Rebecca Mary Chester, '33, for her poem "The Search".

#### 12. MURRAY DEBATING PRIZES.

The sum of one hundred dollars, the gift of George Edwin Murray, of the class of 1879, of Lawrence, Massachusetts, is awarded to the six public debaters chosen from among the students electing Public Speaking 5-6. Seventy-five dollars is given to the winning team to be divided equally among the three speakers; twenty-five dollars is given to the losing team to be equally divided among the three speakers.

In 1933 the winning team was composed of Stanley Chester Hersey, '33, John Warren Hunt, '35, and Martin T. Storms, '34, representing the affirmative; the losing team, Donald Milton Bither, '34, Theophile Stanley Krawiec, '35, and Horace Purinton Daggett, '33, representing the negative.

#### 13. SOPHOMORE DECLAMATION PRIZES.

A first prize of ten dollars and a second prize of five dollars are awarded to the best two speakers in the Sophomore Declamation, Men's Division, for excellence in declamation. Similar prizes are awarded in the Women's Division.

In 1933 first prizes were awarded to Maurice Krinsky, '35, and Eleanor Eldora Shaw, '35; second prizes, to Edward John Gurney, Jr., '35, and Ruth Rachel Toabe, '35.

#### 14. SOLOMON GALLERT ENGLISH PRIZE.

A prize of twenty-five dollars, given by Mrs. Joseph L. B. Meyer in memory of Solomon Gallert, of the class of 1888, is awarded yearly for excellence in English.

In 1933 this prize was awarded to Catharine Frazee Wakefield, '34, for "The Anglo-Saxon Philosophy in Beowulf and Thomas Hardy".

#### 15. MARSTON MORSE PRIZES.

A first prize of fifteen dollars and a second prize of ten dollars, given by Marston Morse, of the class of 1914, are awarded annually to two students who show excellence in exposition of some phase of mathematics, physics, or astronomy. The awards are based on clarity, interest of the presentation in the field chosen, and understanding of the subject.

In 1933 first prize was awarded to Geraldine Frances Foster, '33; second prize, to Isabel Johnson Miller, '33.

#### LYFORD PUBLIC SPEAKING PRIZES.

In addition to these prizes offered to students in the college, special prizes aggregating one hundred dollars, the gift of Will Hartwell Lyford, of the class of 1879, of Chicago, Illinois, are awarded to young men attending preparatory schools in Maine, New Hampshire, and Massachusetts, for general excellence in declamation in a public contest held at Colby College.

In 1933 first prize was awarded to Howard Small, Corinna Union Academy; second and third prizes were divided between Edward Segal, Worcester, Massachusetts, High School, and Robert Kurson, Bangor High School; fourth prize, to Willard Libby, Coburn Classical Institute.

## ARTHUR JEREMIAH ROBERTS LECTURE FOUNDATION

On June 21, 1906, the late Hon. William Wallace Stetson gave the College a trust fund, to be known as the Arthur Jeremiah Roberts Lecture Foundation, the income of which amounting to two hundred dollars a year, is to be expended by the Trustees named in the trust agreement for the maintenance of a lecture course in the College. The speakers are to be chosen by the Trustees of the Foundation, and, in the language of the agreement, must be persons "who have done something worthy of mention, who have a message, and who can deliver it in such a manner as will be helpful to college students."

Among these lectures at the college have been William Jennings Bryan; Hugh Walpole, English novelist and critic; George Herbert Palmer, educator and philosopher; Cecil Roberts, English poet and novelist; Rollo Walter Brown, essayist and critic of American life; Edward Abner Thompson, dramatic reader; Edward H. Sothorn, Shakespearean actor; Count Tolstoy; and others.

## THE COLBY CONCERT SERIES

In the autumn of 1929, growing out of a desire on the part of a group of Colby undergraduates for the privilege of listening to professional concerts, there was formed the Colby Concert Board, a committee of six undergraduates who, with their faculty adviser, bring to the college each year a course of concerts known as the Colby Concert Series.

The members of the Board for 1933-34 are: Francis B. Smith, '34, chairman; Barbara Z. White, '34; George C. Putnam, '34; Kathryn A. Herrick, '35; Francis Barnes, '36; Winnifred Y. White, '36.

It has been a practice to present three concerts annually in the winter months. There have been programs by singers, violinists, chamber-music ensembles, pianists, etc. The price of admission to the concerts for Colby students is very low.
