TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following subjects and books :—

Geography — Ancient and Modern.
English Grammar.

MATHEMATICS.

Arithmetic.
Algebra — to Equations of the Second Degree in Davies' Bourdon.

LATIN.

Grammar — Harkness' preferred.
Cæsar — Four Books.
Sallust — Catiline.
Virgil — Six books of the Æneid.
Cicero — Six orations.
Composition — As far as Part III. of Harkness' Introduction.

GREEK.

Grammar — Hadley's preferred.
Xenophon's Anabasis — Three books or an equivalent.

Students are reminded that proficiency in English spelling is presumed. The attentive reading of some manual of Greek and Roman history is recommended.

Candidates for advanced standing are examined in the preparatory studies, and in the various studies to which the class they propose to enter have attended. Those who are admitted from other Colleges must present certificates of regular dismission.

The Regular Examination for Admission will take place at Champlin Hall on Tuesday before Commencement, at eight o'clock A.M. The examination will be partly oral and partly written. A second examination will be held on the first day of the first term, at the same place and hour.

TESTIMONIALS.—Satisfactory testimonials of good moral character are required.

SELECT COURSE.

Individuals of suitable age and attainments will be allowed to pursue a Partial Course, for any length of time not less than one year, selecting such studies as they may desire. They will be required to recite with the regular College Classes at least twice a day, and to continue through the term any study commenced. They will have access to the Libraries and Lectures, and on leaving the Institution will be entitled to a certificate of their respective acquirements in the studies on which they have passed an examination.

ADMISSION OF WOMEN.

The courses of study are now open to young women, on the same terms as to young men.

Textes Classiques, XVIII^E et XIX^E Siècles.

German : Comfort's German Course,
Adler's German Reader,
Schiller's Wilhelm Tell.

DEPARTMENT OF NATURAL PHILOSOPHY AND ASTRONOMY.

Instruction in this department is supplemented by lectures and the most approved apparatus. Classes are allowed frequent opportunities for observations with the astronomical instruments at the Observatory of the University, which is located on an eminence near the College buildings.

DEPARTMENT OF CHEMISTRY AND NATURAL HISTORY.

In this department, instruction is given by lectures, very fully illustrated with experiments and specimens.

The class work consists of recitations from the lectures, supplemented by an approved text-book. Practical instruction is afforded to students in Chemistry, who are assisted to repeat for themselves the experiments given with the lectures. In Geology and Natural History, the examination of specimens and illustrative diagrams forms an important part of the instruction.

LIBRARIES.

The Library of the University contains about 11,000 well-selected volumes, to which additions are made from the income of the Library Fund, and from the Colby Fund, of \$500 per annum, in addition to gifts from various sources. Each of the Students' Literary Societies has a miscellaneous library of about 3,000 volumes.

GYMNASIUM.

The Gymnasium is open to all the students, at the small charge of one dollar per term, and affords the required facilities for physical training.

TERMS AND VACATIONS.

Commencement is on the fourth Wednesday in July.

The first term begins five weeks from Commencement Day, and continues fifteen weeks. The second term begins eight weeks after the close of the first, and continues twelve weeks. The third term begins one week after the close of the second, and continues till Commencement. The intervening periods of five and eight weeks and one week are vacations.

No student is allowed to be absent a term, nor to leave town during term time, without permission from the President. *Special attention is called to the fact that no student can be absent from the regular college exercises, even for a few days, without serious loss.*

EXAMINATIONS.

There is a public examination of all the classes at the close of each term, partly oral and partly written. The final examination of the Senior Class occurs five weeks before Commencement.

EXHIBITION.

There is an exhibition of the Senior Class at the end of the first term, at which honorary parts, consisting of English, Greek, French and Latin versions are assigned to members of the Junior Class, whose rank is such as to entitle them to the distinction.

PRIZE DECLAMATIONS.

There is a Prize Declamation of the Sophomore Class at the end of the Spring Term, and of the Junior Class, speaking original articles, at the end of the Summer Term.

At those declamations, in the last academic year, the prizes were awarded as follows:—

Junior Declamation: First Prize to Mr. Theodore F. White. Second Prize to Mr. Charles E. Williams.

Sophomore Declamation: First Prize to Mr. Herbert Tilden. Second Prize to Miss Mary C. Low.

The Prize for the best Composition at the Senior Exhibition of the Class of 1873, was awarded to Mr. Fred Fuller.

EXPENSES.

The following is an estimate of the necessary expenses of a student, not including furniture, books, apparel, traveling, and board in vacations:—

Tuition, Room-rent and use of Library...	\$41 00	\$41 00
Incidental expenses	5 00	5 00
Board from \$2 50 to \$3 50 per week	97 50	136 50
Fuel, Washing and Lights.....	15 00	20 00
Amount.....	\$158 50	\$202 50

Students provide for themselves furniture, fuel, lights, and text-books. Books and furniture may be sold when the student has no further use for them. In this case the expense will be light.

TERM BILLS.

There is kept an accurate account of each student's absences from all exercises upon which his attendance is required; also, of his general conduct and scholarship. This account, in connection with the regular term bill, embracing the charges for Tuition, Room-rent, use of Library and Incidentals, is sent to the student's parent or guardian, at the close of each term.

Bills must be promptly paid at the commencement of the succeeding term. In case of failure, bonds must be given to the Treasurer, and even with bonds, no student will be allowed to proceed with his class, who has more than two bills unpaid.

Persons admitted to advanced standing, if not from another College, are required to pay back tuition; but no matriculation fee is exacted in any case.

AID TO STUDENTS.

By the liberality of the friends of the College, there are upwards of sixty scholarships, the income of which may be given to such deserving students as shall be selected by the Founders or by the Faculty. And, in addition, the institution offers the following

Honorary Aid.

1. Twenty Dollars on the first term bill cancelled for the student best fitted for college; also the same amount on all subsequent bills through his course, in case he needs the aid and maintains a high rank in his class.

2. Twenty Dollars on the first term bill cancelled for the best of not less than six from the same school. Also on the second bill, and on the first and second bills in each year, on the same conditions as above.

3. Twenty Dollars on the first term bill cancelled for the best of not less than four from the same school; and on the first bill in each subsequent year, on the same conditions as above.

But no school shall be entitled to more than one prize; the first prize will not be awarded except in cases of marked excellence; nor shall any one receive a prize who is not well prepared for college.

SPECIAL REGULATIONS.

1. Any deficiencies in the studies preparatory for college must be made up by the beginning of the second term.

2. Students are considered absent at the beginning of a term, until they present themselves at their recitations, and will be fined for such absence, unless they obtain an excuse for the same from the President.

3. Students declared deficient in any study, at the end

of a term, must make up such deficiency by the opening of the next term.

4. No student can be examined with his class, who has not recited with them at least one-third of the time.

5. No student who is unexamined in the studies of any two terms, can proceed with his class till he has been examined on one of these terms.

6. Examinations on deficiencies must always take place on the first day of the term.

7. Irregularity in attendance at recitations will be noticed, first, by an admonition from the teacher; then, if continued, from the President; and if not corrected on admonition, the student will be suspended for the term, or discharged from the college altogether, as the case may seem to demand.

8. Any student, changing his room, without permission from the President, will be subject to a fine, or such other penalty as the Faculty may think suited to the case.

9. If any student shall fail to hand his composition to the proper officer at the time appointed for it to be read, he will not be allowed to proceed with his class till it is handed in.

10. All excuses for absences from college exercises are to be presented in writing to the officer superintending the exercises, always before Wednesday evening in each week.

PUBLIC WORSHIP.

A religious service of prayer, reading of the scriptures and singing, is held in the College Chapel every morning at 9 o'clock, and all the students are required to be present.

All undergraduates are expected to observe reverently the Sabbath and to attend public worship. Where they shall attend shall be determined by the election of each one, if of age; if under age, by the election of parent or guardian.

GENERAL INFORMATION.

For the information of those not acquainted with the College, the following facts are mentioned:—

Waterville is one of the most healthful as well as beautiful villages in Maine. Never has any epidemic disease prevailed among the students. The climate is especially favorable for study.

The expense of a Collegiate Course is here reduced to an inconsiderable sum per annum. The cost of an education in our large colleges is every year becoming more burdensome, and in the case of many is a positive interdict to the benefits which they offer. The terms are so arranged that students who desire can teach school during the winter.

It is regarded an advantage to the College that it is not located in a city. While it must be conceded that a city affords pre-eminent facilities for professional culture, it seems equally clear that the studies of a College course can be more advantageously pursued in the quiet of a village.

The temptations of city life, which so often prove too strong for young men during the critical period of College days, are here escaped. The "Maine Law," restricting the sale of intoxicating liquors, is enforced. The moral tone of the community is high, and the social influences refining.

Special interest is felt by the Faculty in the religious condition of those under their care. Thorough discipline of the intellect is rigidly insisted upon in order to the culture of the spiritual part of our nature. That education is regarded as fatally defective which has not this for its ultimate aim. It is not forgotten that the College was founded as a Christian institution.

Parents desiring that their sons should be under special oversight, are requested to communicate their desire to the President by letter.

THE BUILDINGS.

Chaplin Hall, so named in memory of the venerated first President, Rev. JEREMIAH CHAPLIN, D.D., has recently been so thoroughly renovated as to be substantially a new building. It furnishes the dormitories for the students, and is heated throughout with steam.

Champlin Hall, so named in recognition of the distinguished services of the late President, Rev. J. T. CHAMPLIN, D.D., LL.D., supplies the large, well-ventilated, and cheerful recitation-rooms.

Coburn Hall, so named as an acknowledgment of the benefactions of one of the most liberal friends of the college, Hon. ABNER COBURN, is entirely devoted to the use of the Department of Chemistry and Natural History. The building is of rough quarry-stone, with granite trimmings, the walls being 56 by 48 feet, and 41 feet high. On the first floor are the Lecture room, Laboratories and Apparatus rooms. On the second floor are work-rooms for students in Natural History, and a Hall supplied with elegant cases for the exhibition of specimens. A gallery, more spacious than the main floor, surrounds the Hall. The Cabinet is of unusual excellence for purposes of instruction, and is especially rich in the departments of Conchology and Ornithology.

Memorial Hall, so named in honor of the Alumni of the College who fell in the service of their country during the late civil war, is built of stone and surmounted by a tower eighty feet in height. The eastern wing of the building contains the University Library, 44 feet by 54, and 20 feet high, furnished with double alcoves and shelves for 30,000 volumes. The west wing contains, on the first floor, the College Chapel, 40 by 58 feet in dimensions. Above this is the Hall of the Alumni, in which is the Memorial Tablet, surmounted by a copy, in marble, of Thorwaldsen's Lion of Lucerne.

PREPARATORY DEPARTMENT.

The Waterville Classical Institute is under the control of the Trustees of the University. It is conducted by J. H. HANSON, LL.D., and has, for many years, sustained a high reputation for the excellence and thoroughness of the instruction given. The rates of tuition are from \$5.00 to \$6.00 per term. The average number of pupils last year was 165.

Candidates from this school, with others who may be present at the time, will be examined for admission to the College, on Saturday, June 27.
