Health Services in Downeast Maine

by Jillian Howell
Colby College

This map depicts the various health service centers, including Red Cross service stations, hospitals, and EMS stations located within Hancock and Washington Counties in Downeast Maine. Each type of health service facility is represented with a different symbol, and each symbol approximates the location of the facility. Emergency roads, as well as Maine’s complete transportation network are represented in order to show access to these health service centers.

All data was retrieved from the Maine Office of GIS and ESRI. Coordinate system: NAD 1983 UTM Zone 19N.
Layers from MEGIS include:
- e911rds layer: vector digital data, 1:24,000 scale, originated by Maine Public Utilities Commission (MEPUC), Maine Emergency Services Communications Bureau (EMSCB), Maine Office of Geographic Information Systems (MEGIS)
- hospital layer: vector digital data, 1:24,000 scale, originated by Techni Graphic Systems.
