Atlas of Maine
Animal Shelters and Humane Societies

Kate Hamre
Colby College Environmental Studies
March 14, 2013

This map shows the locations of humane societies and animal shelters in Maine. County data and base map come from the Maine Office of GIS. All data are projected using NAD 1983 UTM Zone 19N. Animal welfare locations from www.animalsheltersinmaine.com were grouped by zip code and plotted using the latitude and longitude coordinates of the respective zip codes. Animal shelters and humane societies were grouped together for the purpose of this map. Municipalities with more shelters are represented by larger circles on the map.
