Deer Wintering Areas in relation to Water Bodies and Land Cover in Maine

Displays four classes of land cover: developed land, crop and farmland, forests, and other land cover in Maine. Also displays lakes/water bodies and deer wintering areas, and includes county boundaries. Features a MELCD_2004_Landcover layer, reclassified into 4 simple groups using the the reclassify tool in ArcToolbox's spatial analyst options. The lake layer is labelled, and the labels have been converted to annotations.

Projected Coordinate System: NAD_1983_UTM_Zone_19N
Projection: Transverse Mercator
