This Contents is brought to you for free and open access by the Colby College Archives at Digital Commons @ Colby. It has been accepted for inclusion in Colby Magazine by an authorized editor of Digital Commons @ Colby.

FEATURES

12/Green Acres

From a “green” summit to a residence hall dedicated to environmental awareness to state-of-the-art construction, the Colby community is collaborating to understand and confront environmental issues.

18/Listen

Colby alumni and faculty composers use the medium of music to express their artistic ideas.

22/Assessing the SAT

Old or new, the SAT (or the ACT) is a mandatory part of any Colby application. Read why the College sees the standardized test as one of several important criteria for admission.

28/A Question of Humanity

Lt. General Roméo Dallaire asks the West to consider its role in the genocide in Rwanda.

The Right Note

Composer Anna Bridges '99 was drawn from the lab to the keyboard and now follows her musical muse.

Pollution Science

In a university lab in Berkeley, Calif., Tim Bertram '00 worries about air quality in rural New England. Bertram is studying ways pollutants travel from region to region.

Ahead of Their Time

Selected area high school students enroll in Colby courses every year as part of an agreement between the College and the community. Read about their first experience in a college classroom.
