BOARD OF TRUSTEES.

Actions Taken at the Regular Mid-winter Session.

The mid-winter meeting of the Board of Trustees of Colby College was held in the directors' room of the Union Mutual building, Portland, Wednesday, January 29. The meeting was called to order at 10 A. M.

The usual routine reports were received and acted upon, including the annual report of the President to the Trustees.

The matter of principal interest was the presentation of a recommendation of the President and Faculty that the semester, or two-term system, be adopted, together with the adoption of a technical course which will admit graduates of Colby who have taken this course, into the junior class of the Massachusetts Institute of Technology.

The action of the trustees was favorable to the proposed plan, and makes a radical change in the curriculum of Colby. While the details are fairly well developed, there are a number of points which yet remain to be determined in the practical working out of the plan, and until this is done an outline of the whole plan would be untimely. The ECHO is assured that under the new arrangement of the curriculum, not only will strong technical courses be instituted which, as stated above, will be accepted by the Massachusetts Institute of Technology as the equivalent of two years work in that institution, recognized as the best technical school in the country; but the assurance is also given that the other courses in the curriculum are to be strengthened materially. This will, of course, apply to a greater degree in the case of sciences than in the language courses, although all the departments will undergo more or less change.

Under the semester system, the first half-year will end in what is now the middle of the winter term. Instead of three "term" examinations, as now, there will be two sets of examinations, "mid-years" and "finals." The faculty reserves the right, exercised in the past, of giving "quizzes" covering any portion of the work of their classes, from daily recitations to ten or twelve weeks. This will be necessary in some history courses, where given periods of history are covered in a certain number of weeks, at the expiration of which time a "quiz" would be given on the historical period. It will be impossible to make any hard and fast rule; but, in general, it may be said that the examinations will each cover a half-year's work.

An objection frequently urged against the semester system is that, by postponing general examinations to the middle and end of the year, "cramming" is encouraged. In practice, this is found not to be the case, as instructors have an instant remedy in frequent "quizzes."

UPSILON BETA.

Last Degree of the Initiation Ceremonies Given at the Zeta Psi House.

During the past two weeks a noticeable feature of those hurrying to and from recitations has been the presence of a group of freshmen with open umbrellas, presumably to ward off the rays of the winter's sun. Closer scrutiny, however, revealed the fact that this superfluity in one direction was balanced by an unpardonable deficiency in another; for a sudden lapse of memory, which by the way is not so inexcusable when freshmen are concerned, had caused them to forget their neckties. The explanation for all this was later discovered, not in a temporary aberration of mind, but in the freshmen's attempt to prove themselves worthy of being initiated into the mysteries of Upsilon Beta.

At last the sanctum sanctorum was reached and as a culmination of so much necessary preparation, a happy bunch consisting of ten freshmen, an equal number of sophomores, and several men from the upper classes, met last Thursday evening at the Zeta Psi house and celebrated the occasion of conferring the last degree.

After the initiates had been instructed in regard to the secret work of the society, refreshments of ice cream, punch and fancy crackers were served. Amid clouds of smoke from fragrant Havanas the evening was fittingly closed by singing college songs. The following freshmen qualified for admission: Allen, Applebee, Bridges, Ervin, Hogan, Holt, Packard, Rogers, Stinson and Walker.

ARBITRATION BOARD.

The semi-annual meeting of the Maine intercollegiate athletic board, of which Professor Hedman is the Colby member, was held last Saturday at the University Club in Boston.

L. C. Southard, U. of M., '75, was elected president and Professor F. E. Pomeroy of Bates, secretary-treasurer.

Following a discussion of general athletic policies, it was voted to submit to all the athletic associations of colleges belonging to the board the proposition of the appointment by different associations of an alumni commission having power to name officials for all athletic contests between the teams of those colleges represented on the board, thus avoiding all difficulties incident to the prevailing system of postponing appointments until the eve of games, with the unpleasantness resulting therefrom.

This agreement regarding the selection of officials was carefully discussed and the action taken will be approved by all the associations interested.

Andy Applebee, '11, spent Sunday with friends in Old Town.

Cyrus Wheeler, Tufts '10, was the guest of his brother, N. E. Wheeler, '00, from Friday until Monday.

BOSTON ALUMNI.

Over Fifty Graduates Enjoy the Annual Reunion and Banquet.

Many interesting features marked the twenty-seventh annual reunion of the Colby Alumni of Boston and vicinity, held at the American House, last Saturday evening. The large attendance gave opportunity for the delightful exchange of reminiscence and the meeting was one of the jolliest ever held by the association.

President Herbert S. Weaver, '82, presided and with him at the head table were President White, Hon. Warren C. Philbrook '82 and Stanley H. Holmes '87, superintendent of schools at New Britain, Conn. During the evening there was furnished an excellent musical program by eight members of the Apollo club led by a Colby alumnus, H. N. Emerson '82.

President White spoke of the election of Judge Cornish as president of the Board of Trustees and of the honor that has come to Dr. George Otis Smith in his elevation to the directorship of the U. S. Geological Survey.

He also discussed the prospects of a bright future for Colby, paid high compliments to her professors, and touched upon the development of the chapter house idea and the introduction of semi-technical courses.

A committee was appointed to prepare resolutions upon the death of W. H. Furber, '82, late master of the Prescott School, Charleston.

A letter regretting his inability to be present and conveying his congratulations was read from Professor William Mathews '35, of Boston, the oldest living graduate of Colby.

George R. Parker, an alumnus of Brown, brought the greetings of his college to Colby. A letter from Dr. Julian D. Taylor was read and received with applause. Professor Hedman talked of the curriculum, Stanley H. Holmes paid a high tribute to Colby for its influences, and Hon. Warren C. Philbrook spoke in an interesting way of the future of Colby.

The officers for the ensuing year were elected as follows: President, J. Colby Bassett '95; vice-presidents, Allen P. Soule '79 and Irving O. Palmer '87; secretary-treasurer, Harry W. Foss, '96; executive committee, H. A. Denison '82, E. L. Getchell '96, H. D. McLellan '95, H. M. Ford '84, W. B. Farr '87, J. S. Lynch '94, Woodman Bradbury '87, B. C. Richardson '98, B. P. Holbrook '98, B. C. Hinds '83, Lincoln Owen '98 and H. W. Dunn '96.

Mandolin Club.

The following men have been chosen for this season's Mandolin Club: first mandolin, Mathews '08, Guptill '09, Carey '10, Blake '11, Perry '11; second mandolin, Gould '08, Allen '09, Plummer '09, Allen '11, Rideout '11; guitar, Chandler '09.

Manager Guptill of the Musical Clubs has announced the following dates: Feb. 27, Livermore Falls; Feb. 28, Wilton; March 6, Skowhegan.

Next term the Clubs will go to Rockland, Camden and Tenant's Harbor.

COLBY WINS.

The Return Game With Maine Won by a Spurt at the Finish.

On Saturday evening, February 1, Colby played a return game of basketball with the University of Maine winning by the score of 22 to 13. The game was close and exciting throughout. At the end of the first half Maine led 11 to 8 but during the early part of the second half Colby tied the score and by brilliant work towards the end of the game won out by a good margin.

The game was fast and although fouls were frequent, not unnecessarily rough. It was hard fought throughout by both teams and neither had any perceptible advantage until toward the end of the second half when Colby made her rally.

To pick the star performers on Colby's team would be impossible. Blake and McLellan made the most goals but every man on the team put up a first class game and the credit for the victory belongs about equally to the five players.

Maine had developed in team work further than the Colby team, and there had a slight advantage. The home team showed a great improvement in that respect however over the work in the New Hampshire game, two weeks ago, and with a little more practice will undoubtedly equal any of its opponents.

The first half opened with a rush. Neither side was able to score. Maine fouled and Blake missed the goal. After a number of shots, most of them made by the home team, Blake dropped the ball into the basket for the first goal of the game. McLellan got another and a foul was called on Colby. Scales missed his shot, but Wadsworth scored for Maine. A double foul was called but neither team scored. Scales scored one on a foul by McLellan and Blake missed another chance on a foul by Black. Black made a goal from the floor and followed it with a foul. McLellan scored the point for Colby. Scales shot a basket from the floor and immediately after shot two baskets on fouls by Colby. Black made two points and McLellan made one on a foul. Blake got one and McLellan missed a shot on a foul by Maine. Time was called with the score 11 to 8 in Maine's favor.

The second half started with a double foul but neither side scored. A foul was called on French and Blake made his point. Both teams fouled several times and each made two points as a result. The score was tied. At this point it seemed as if Colby sent a new team onto the floor. Every man woke up and was everywhere on the floor. Tribou and Blake made goals in succession. Black fouled twice and Blake made one point. McLellan dropped the ball into the basket twice after some of the fastest playing ever

The sympathy of the entire college world is extended to the Cornell chapter of the Alpha Tau Omega fraternity, one of whose members was burned to death in the fire which destroyed its chapter house last Friday evening.

At the Boston Athletic Association meet held last Saturday, U. of M. won her relay race from the University of Vermont, while Bowdoin was defeated by the Amherst team. Whitte-kind of Bates was a close second in one of the three preliminary heats of the 440-yard run.

The plan of the proposed intercollegiate commission for the selection of officials to referee contests between the three colleges which are members of the M. I. A. A. will appeal to those interested as an excellent solution of a problem which has caused considerable difficulty in the past. The agreement will not affect Bowdoin, however, and the usual controversy will be experienced in selecting officials for the games with that college.

BOARD OF TRUSTEES.

(Continued from page 1.)

Among the advantages of the semester system is the fact that it removes the strain of examinations from the time just before the holiday recesses, when the average college man is thinking more of home than books.

As adopted by most colleges, the semester system carries with it a "cut" system, by which five unexcused absences each semester are allowed in each course. For "cuts" beyond five, illness requiring the services of a physician is the only excuse.

The impression seems to be more or less general that the adoption of the semester system is in no sense "letting down the bars." More and even better work will be required of Colby students in the future than in the past.

The action of the Trustees at their meeting last Wednesday certainly marks a turning point in the history of the college.

Preliminary to the college game and between the halves, Waterville High and Colby Freshmen again tried conclusions, the freshmen winning, 20 to 12.

The game was fast but not as rough as the first one played. The high school started out to have things its own way, Beede and Jones both scoring in the first few minutes of play. Irving made one for the freshmen but followed it with a foul and Jones scored again for the high school. Irving made another and Bridges missed his shot on a foul by the high school. Vail made a goal but it didn't count. He followed it with another however and Pierce made one. Jones got one on a foul by the freshmen. Pierce made two and Bridges one just as time was called for the half to end. The score was 14 to 8 in favor of the freshmen.

At the opening of the second half Jones shot one from the floor and another on a foul by the freshmen. Bridges shot two baskets and the freshmen fouled. Jones got his point. Bridges made one more and Jones missed his shot on a foul by the freshmen. Time was called with the score, freshmen 20, high school 12.

CLEANING AND PRESSING

An Unpleasant Office.

The task assigned to the bellboy at a small New England hotel was no sinecure, and he realized it, for the old gentleman who had requested that he be awakened for an early breakfast was extremely deaf.

"I don't know what I'll do about the man in No. 41 that wanted to go off on the 7 o'clock train," the bellboy announced breathlessly to the proprietress.

"Haven't you waked him up yet?" demanded that brisk person.

"I've waked him three times," said the boy sulkily, "but he hasn't heard me yet. Everybody else has, though, on that floor. I know, because they've all hollered to me to stop battering on their doors."—Youth's Companion.

The Harvard Medical School

Boston, Mass.

With the completion of the new buildings, which were dedicated September 25th, 1906, this school now has facilities and equipment for teaching and research in the various branches of medicine probably unequalled in this country. Of the five buildings, four are devoted entirely to laboratory teaching and research. Numerous hospitals afford abundant opportunities for clinical instruction in medicine and surgery.

COURSE FOR THE DEGREE OF M. D.

A four years' course, open to bachelors of arts, literature or science and to persons of equivalent standing, leads to the degree of M. D. The studies of the fourth year are wholly elective they include laboratory subjects, general medicine, general surgery and the special clinical branches.

The next school year extends from October 1, 1908, to June 24.
The diploma of Colby College is accepted for admission.

WITHOUT A CHAPERON.

By C. F. Potter in "The Watchman."

She went one day to college

Did Miss Sophia Stone

With quantities of baggage, but

Without a chaperon.

Her age was—over twenty:

She thought herself quite grown;

She didn't know she couldn't go

Without a chaperon.

One day she went out walking,

She started out alone

But met a friend and walked with him

Without a chaperon.

The matron heard about it,

And "sat on" Sophy Stone

For walking with a horrid man

Without a chaperon.

Poor Sophy cried and ran to

The room she called her own,

And vowed that never would she go

Without a chaperon.

One night the "Sem" was burning:

The flames on Sophy shone;

She thought she'd reach the other place

Without a chaperon.

A youth climbed through the window

To save Miss Sophy Stone.

"Kind sir," she said, "I dare not go

Without a chaperon."

In vain he tried to save her;

She could but shriek and moan,

And so they died together there

Without a chaperon.
