## COLBY, 9; BATES, 4.

In the last college game of the season, Colby outclassed the Bates team, on Alumni Field, Wednesday afternoon, by the score of 9 to 4, and thereby tied with Maine for second place in the final inter-collegiate standing. Both teams played loosely throughout, although Colby's errors were not so frequent nor so costly as were her opponent's. Bates used three pitchers and the Colby batters landed hard on all of them. Anderson was relieved in the fifth by Stinson, who lasted only the rest of the inning. Linquist then finished the game. James pitched well, especially in the pinches. The batting of Captain Reed, who played his last game for Colby, was the prominent feature. Robbins replaced James with one out in the ninth, and two scores were made off his delivery.

The score follows:

## MAINE CENTRAL INSTITUTE WINS FINAL DEBATE.

The final debate in the Goodwin Inter-scholastic Debating League was held at the First Baptist church, Friday evening, June 6. Good Will High school had the affirmative, and Maine Central Institute the negative side of the question, "Resolved, That Further Restriction of Immigration is Desirable."

The board of judges, consisting of David Jack, '14, Dr. F. E. Wolfe, and Carroll N. Perkins, Esq., gave their decision in favor of Maine Central Institute. Donald W. Ellis, '13, President of the Colby Debating Society, acted as the presiding officer. The coaches, from the class in Debating, were: Good Will High, Leo G. Shesong, '13; Maine Central Institute, George F. Sturtevant, '16.

Everett Bucknam was the first speaker for the affirmative. After outlining the question for debate he showed that a large percentage of foreigners coming into this country are of criminal make-up. He defined the word "restriction" as meaning a reduction in numbers, and this meaning was used throughout the debate.

Frederick Willey was the first speaker for the negative. He gave a brief history of the question, and said that the negative side would show that the present laws are sufficient, if enforced, and that the political, economical, and social conditions do not demand further restrictions. He further showed that political conditions are not disrupted by the immigrants.

Harold Wyman, the second speaker for the affirmative, showed that it is almost impossible for the uneducated foreigners to assimilate American customs—that they prefer to live in localities by themselves.

The second speaker for the negative, Merle McAllister, argued that the economical conditions of the country show a need of the foreigners, and that laboring conditions are not interfered with by them.

The final speaker for the affirmative was Cecil Russell. He showed what the foreigners are doing for our trade unions; that they are unreasonable, and hard to deal with; and that they do injure the laborers of our own country. He also showed that there are more accidents, and a higher death rate among the foreign than among the native element of the United States, due to the ignorance and the low type of ancestry of the former.

Roland Eaton was the last speaker for the negative. He maintained that social conditions are being improved, and that the immigrant is not the cause of present day troubles.

#### MINISTERIAL ASSOCIATION.

The final meeting of the year of the Ministerial Association was held at Roberts Hall, Monday evening. Professor Brown gave an interesting lecture, the closing one of a course before the Association. Officers elected for the ensuing year were:

President, Chester F. Wood, '14; Vice-president, Arthur D. Gillingham, '14; Secretary, Vernelle W. Dyer, '15; Treasurer, Robert C. Joudry, '16.

#### HISTORY PRIZE.

AWARDED TO MISS MEROE FARNSWORTH MORSE OF COLBY COLLEGE.

Word has just been received from the President of the Society of Colonial Dames of the State of Maine, that the annual prize of fifty dollars, known as the Mary Floyd Neely Memorial Prize, which is offered by the Society for the best essay upon some topic in the colonial history of Maine, has been awarded for the year 1913, to Miss Meroe Farnsworth Morse, a member of the present Senior Class of Colby College. The subject of the essay is:—"Maine's Part in the Revolution."

This is an annual prize offered by the Colonial Dames of Maine to the women of the colleges of Maine who are pursuing courses in History, and is awarded to the competitor who produces the best research upon a topic selected by the Society. This is the eighth consecutive time this prize has been won by a Colby student.

Miss Morse, the winner of the prize of 1913, was born in Waterville, Maine, the daughter of Howard C. and Ella Marston Morse. She fitted for college at Coburn Classical Institute, where she graduated in 1909; then entered Colby College in the fall of the same year, and will graduate this month with the class of 1913.

The successful article is an historical research of about six thousand words in length, and is based upon a thorough and careful study of the resources found in the libraries of this state, and has involved several months of careful preparation. The article is illustrated with maps and diagrams. Miss Morse's paper was accorded high praise by the Committee of Award for the general excellence of her work and the thoroughness and accuracy with which it was executed.

With this issue, the ECHO ends its sixteenth year of existence. Whatever it may have chronicled during other years, this year it has had the opportunity of recording the happenings of one of the most eventful years that Colby has ever enjoyed. Varying fortunes have come to the college during the session just ending. Generous financial assistance has been received; promising, loyal sons have prospered, and in their prosperity have reflected credit upon their Alma Mater; the various departments of Colby's activities have been alert, and have made themselves prominent; and the scholastic standard of the college has been raised to even a higher level than that of former times. But, hand in hand with all these things which makes the true Colby heart glad, has come that greatest depressor of human spirits, Death. During the eight months just passed, a number of the choicest sons and firmest friends of Colby College have been taken away. A happy year, and a prosperous one, it has also

been a sad one. Colby has progressed, it is true, but it would almost seem as though each step had been marked by the loss of the finest, and best that the college possessed.

Colby's baseball season has ended, so far as championship games are concerned, and the college finds itself tied for second place in the intercollegiate series. This is a creditable showing indeed, and praise must be given Coach Daley for his untiring work. Colby has a respectable position in the series this year, besides a promising team for next season.

## ARTHUR KENELM WINSLOW.

Once again, Colby is mourning the loss of a loyal son. Arthur Kenelm Winslow, of the class of 1907, died Thursday afternoon, as the result of an accident sustained the day before, while riding a bicycle near an electric railway track at Forestown, N. J. He was taken to the Memorial Hospital at Morristown, where an operation was performed. That evening it was thought that he would recover, but he soon lapsed into unconsciousness, and never awoke. The body was taken to Saco for burial.

Mr. Winslow was born in Saco, the son of Mr. and Mrs. Burton H. Winslow. At the time of his death, he was a little over twenty-seven years of age. He was graduated from Thornton Academy in 1903, with highest rank. Entering Colby the following September, he took the examination prize of fifty dollars. Throughout his college course he distinguished himself by his scholastic ability, and at commencement, in 1907, was given Phi Beta Kappa honors. He took an active part in the religious life of the college, and was prominent in Y. M. C. A. work. For two years he was a member of the glee club. He was Sopomore class poet, Junior class orator, and took second prize in the Junior Exhibition. Besides taking part in several activities, he served as business manager of the ECHO, and was elected to membership in Upsilon Beta. He was a member of the Delta Kappa Epsilon fraternity.

Upon graduation, Mr. Winslow took a position with the firm of Charles Scribner's Sons. Failing health compelled him

to abandon this, and after spending some time at work in the open air, he became a teacher at Higgins Classical Institute. Poor health again compelled him to take out-of-door employment, and somewhat later he accepted a position with the Dupont Powder Company, at Kenil, N. J., where he remained until his death.
