## COLBY LOSES TO NEW HAMPSHIRE

By bunching her runs in the opening innings New Hampshire was able to win a victory over the Colby nine, at Durham, last Saturday. Howard started on the mound for Colby, but was replaced by Daniels.

Three runs were let in by errors in the Colby infield. The Durham players got two runs in the first inning, thru three bases on balls and a hit. Champaign's double, with the bases full in the second, brought in three runs more.

In the fourth Colby began to hit the ball and scored four runs. Sherwood took the place of Kroog, the New Hampshire twirler, in the fifth. In the sixth, Ferguson replaced Lampher, who was forced to retire with a split finger. Butler's hitting featured for New Hampshire, and that of Moran and Ferguson for the Blue and Gray.

## PRESS OF THE CITY JOB PRINT

Every Colby student who can possibly do so, should be at the Maine Intercollegiate Track Meet at Brunswick, next Saturday. By our presence, at least, we can show our appreciation of the way the track men have worked for Colby this year. Colby, as usual, enters the meet "a dark horse." Mike Ryan is making no rash assertions. But those of us who have seen Mike produce winning relay teams know that there is something behind his noncommittal answers. He has worked the track men hard, and under the most adverse conditions. Mike has a peculiar way of handing out surprises,—especially to the other colleges. Don't miss the meet at Brunswick!

## OFFICIAL ANNOUNCEMENT

Examinations for entrance into the Diplomatic and Consular Services of the United States will be held at Washington, D. C., in June and July next. The examination for entrance into the Consular Service will be held beginning June 27. That for entrance into the Diplomatic Service will be held beginning July 11.

The diplomatic examination is held to obtain men eligible for appointment as Third Secretaries in the Diplomatic Service. The consular examination is held to obtain eligibles for the positions of Consul, Vice Consul of career, Consular Assistant, and Student Interpreter. These positions are starting points in the diplomatic and consular careers. Appointment as Student Interpreter is the beginning of a somewhat specialized service, affording an opportunity to learn an Oriental language (Japanese, Chinese, or Turkish).

Full particulars may be obtained with respect to both the Diplomatic and Consular Services and the entrance examinations by addressing the Secretary of State, Washington, D. C.

Each service imposes a strict discipline upon its members. They must perform without question the duties assigned to them by the Secretary of State and proceed without demur to whatever parts of the world they may be ordered. Long hours and hard work are frequently the rule. Officers are also expected to perform, and do perform, their duty without regard for discomfort or personal danger.

The reward of the Foreign Service is not a money reward. The money compensations allowed at present in the Diplomatic Service are inadequate and those in the Consular Service are not comparable with the salaries attained by the conspicuously successful in business. Improvements in these respects are in time a certainty. The appeal, however, is not to those who seek only material gain.

The Foreign Service offers instead the cultural advantages of foreign travel, active contact with leaders in other lands, and the opportunity of distinguished patriotic achievement. It offers the spiritual gratification to be found in the path of public service and responsibility.

On Friday evening one of the traditions of the Women's Division was carried out in the Senior Dinner which was held at Foss Hall. It is customary to have such an affair every year. Special Class songs are written and sung for the occasion and different tables "sing others" up or "down" as the case may be. After the dinner all classes joined in a snake dance thru the Hall and down to "Mary Lowe." Upon return to Foss Hall the dancers disbanded after cheering Colby the "long way."

The Junior class has decided upon May 25th as Ivy Day. Rehearsals for the play are being carried on under the direction of Miss Flood. Mrs. Andrews, assisted by Miss McLoen, is directing the dances.

## What Makes the Firefly Glow?

**Y**OU can hold a firefly in your hand; you can boil water with an electric lamp. Nature long ago evolved the "cold light." The firefly, according to Ives and Coblentz, radiates ninety-six percent light and only four percent heat. Man's best lamp radiates more than ninety percent heat.

An English physicist once said that if we knew the firefly's secret, a boy turning a crank could light up a whole street. Great as is the advance in lighting that has been made through research within the last twenty years, man wastes far too much energy in obtaining light.

This problem of the "cold light" cannot be solved merely by trying to improve existing power-generating machinery and existing lamps. We should still be burning candles if chemists and physicists had confined their researches to the improvement of materials and methods for making candles.

For these reasons, the Research Laboratories of the General Electric Company are not limited in the scope of their investigations. Research consists in framing questions of the right kind and in finding the answers, no matter where they may lead.

What makes the firefly glow? How does a firefly's light differ in color from that of an electric arc, and why? The answers to such questions may or may not be of practical value, but of this we may be sure—it is by dovetailing the results of "theoretical" investigations along many widely separated lines that we arrive at most of our modern "practical" discoveries.

What will be the light of the future? Will it be like that of the firefly or like that of the dial on a luminous watch? Will it be produced in a lamp at present undreamed of, or will it come from something resembling our present incandescent lamp? The answers to these questions will depend much more upon the results of research in pure science than upon strictly commercial research.

**BIG TIME MAY 19TH!**

Two weeks from this coming Thursday! Reserve that date, allow no conflicts! The first annual "Y" night will be held at the Haines, on May 19, for the benefit of the Silver Bay Fund. A program including the Colby Centennial Movies, a sparkling skit, a feature film, and comic picture will be presented and on one in college can afford to miss it. This is going to be a real old Colby jamboree! That's recommendation enough.

This is the first gun or a live program for the Spring—come across for the "Y".
