

LAMBDA CHI WINS HOT BATTLE

Good Will Trims the North
College Lads on Wild
Throws and Sleeping
Sickness.

SENTINEL LEAGUERS SHOW UNEXPECTED FORM

Coulman and Ames Make
Redoubtable Battery.

The Lambda Chi baseball team lost to Good Will High, Saturday, to the tune of 4 to 3. Lambda Chi opened auspiciously, dazzling the school boys by their marked superiority. "Scripps" Lyon, the first batter massaged the ball vigorously and finally with the aid of several of the opponents reached third. In those first three innings the collegians managed to collect three runs by dint of great effort but such undue activity soon fatigued them, and when "Hick" Treworgy went to sleep on first and John Laughton rested on his fielding laurels the stars began to fade. The Good Willites now began to break loose. Aided by marvelous exhibitions of acrobatic feats and long distance throwing by Treworgy, Richardson and Laughton they were able to gain the lead. At last "Dirty" Taylor came to the rescue, hurling them back from first base with severe casualties; wounding one man severely.

The game then developed into a pitcher's battle. "Ather" Coulman, now having struck his stride was able to keep the ball away from the rabid infielders. "Ather" ably assisted by Ames his battery mate, quelled the subsequent assaults of the enemy, fanning thirteen and allowing only six hits in the entire game. The "Lam Chis" are now out for revenge and in the near future hope to regain their lost prestige.

PARENT'S CHARGES DEFEAT EASTERNS

Captain Williams Goes Back
For Celebration And Has
It—Weymouth and Odum
Do The Honors.

Colby's baseball team waltzed through to a victory over the fast Brewer Easterners last Saturday on the upstate diamond by the score of 7 to 4. Weymouth was elected to mound duty by Freddie and did splendid work until the latter stages of the game when he was replaced by Odum. The Colby batters decided the fracas in the ninth inning when with a score tied at 4 to 4, the locals pounded out three runs for the verdict.

With the exception of "Babe" Fransen at shortstop, the Colby team looked like a million dollars in the field. "Babe" decided that he had held off his error spree long enough and decided to have it over with before the next state series game came along and proceeded to boot a couple to show his mates it could be done even by the best of them.

They played heads up baseball throughout the thrilling contest and

Echo Election
Wednesday,
June 1st
in the Chapel
Everybody Vote

Y. W. C. A.

Dr. Priscilla Fowle of Newton Theological Seminary was a recent guest at Foss Hall. Dr. Fowle represents the new department of religious education at the Seminary, the purpose of which is to train girls and women to be Sunday School teachers and pastors' assistants.

At the chapel exercises Dr. Fowle outlined the work of the department. She spoke of the need for Christian workers, and the necessity of training for this, as well as for any other work. Christianity must be made more than a thing of church and Sunday, she said, or the United States may follow the road that Greece and Rome did.

Dr. Fowle talked to the cabinet that evening on much the same subject.

At Y. W. C. A. meeting Dr. Fowle elaborated on the topics that she had time only to mention in chapel. She spoke of the need of a good general education for all kinds of Christian workers. She emphasized especially the importance of a knowledge of history and geography, and also, of philosophy and psychology. She gave definite examples of practical things that had been accomplished in different religious schools. Dr. Fowle was an inspiration to all those who heard her, and gave every one a real desire to do something worth while in the world.

The second "guest night" of the Maqua Club was held May 10, in the form of a picnic on the banks of the Messalonskee. Hot dogs were roasted over a huge fire, and after every one had eaten all they could they gathered around the fire, while several of the club girls gave speeches about Camp Maqua, passed around Maine snap shots and sang camp songs.

Those present besides the twelve members of the club were Ida Jones, Dorothy Chaplain, Marguerite Starbird, Helen Dresser, Helen Pierce, Ruth Allen, Marion Brown, Nellie Pottle, Elizabeth Kingsley, Marjorie Lebrooke, Doris Tozier, Eva Alley and Miss Bishop.

At last week's meeting Louise Tilley, who is the president of the Y. W. C. A. gave a report of the national convention that she attended this spring at Hot Springs, Arizona. The bigness of the Y. W. C. A. and the fact that we are a part of the national and world Y. W. C. A. was the one impression that Miss Tilley brought home to the Y. W. C. A. here.

The morning sessions of the convention were held from 9.30 to 12 o'clock. From 2 o'clock until 5, the student assembly meetings were held, and the evening sessions, from 8 until 10. Miss Maud Roydon addressed the morning sessions with "The Woman in the World's Future" as her theme. "The entire world is linked up together. We cannot live by ourselves any longer," said Miss Roydon.

Sunday the lecture subject was "The Business of Peace," which was really the whole theme of the convention. The way in which women can help bring about this world peace was emphasized.

Monday the industrial girls and students had charge of the convention, something that never before happened at a Y. W. C. A. convention.

Emily Gordon, a Wellesley senior, presided over the student assembly meetings. The sessions were occupied mostly with business, but after this a new policy is to be adopted by which the students can conduct their own work.

A new budget was drawn up of over \$1,000,000. On account of lack of funds many of the expenses had to be cut down, which reduced the number of home secretaries, the work in the far east, and the money spent for posters and pamphlets. Miss Tilley spoke of how badly every one felt that such an important work should be retarded for lack of funds, and expressed the wish that our Y. W. C. A. should raise all the money possible for it.

On Friday night after dinner a letter was read from Miss Joan Kennedy, who is one of the five representatives of the students of the United States at the World Student Christian Federation Conference in Peking, China. Miss Kennedy is a Senior at Mt. Holyoke. She left America in the month of February and will return in June. The letter was written between Yokohama and Kyoto, and told of many interesting places and people. It is hoped that Miss Kennedy will be at Camp Maqua to give a full report of her experiences.

JOHN COYNE WINS HALLOWELLS

Eulogy on Wilson Takes
Fifty Dollars in Annual
Contest—McDonald Run-
ner-up.

John A. Coyne won fifty dollars and the thirteenth annual Hallowell Prize Speaking Contest last Monday night according to the judgment of the Hon. Frank Redington, Rev. E. Griffith, and Judge Charles W. Atchley. William J. McDonald received the second prize—\$25, while third and fourth—\$15 and \$10 went to Marlin D. Farnum and Merton E. Laverty, respectively.

President Roberts presided, and a fairly good audience really enjoyed themselves at the annual event.

The program was as follows: William J. McDonald began the festivities with a plea for "Commercial Reciprocity with Canada." Because of geographical, political and racial conditions, he urged in a well thought out argument that the two countries have done with artificial barriers to trade. A multiplicity of gestures seemed to detract from an otherwise good effect.

Marlin D. Farnum told of the need that exists today for trained medical missionaries. He graphically contrasted the fortune of civilized Americans with the terrible plight of afflicted savages. In America, he said, there is one doctor to every six hundred people; in China, there is one doctor to every four hundred thousand inhabitants.

John A. Coyne spoke quietly, but very effectively indeed of "Wilson's Place in History." With a compelling sincerity, he gripped his audience while he spoke of the man whom he believes to be one of the few great men in our history. He closed his speech with a story of the ovation given ex-President Wilson at the burial of the unknown soldier.

Ivan M. Richardson made a strong plea for clean sport, for doing away with professionalism that masquerades under false names. He stated that many men today live a lie when they claim to be amateurs and compete with men of that class, and he urged that American colleges clean up the present state of affairs.

"Colby in History" was the subject of Tilson F. Maynard, who cited great Colby alumni as lasting proof of the position the college holds today in the world. Those qualities which his graduates showed, he declared, should be present today in the undergraduates.

Merton E. Laverty told of the romance of paper-making. He told of the hard conditions which workers have to undergo in order to secure the paper which everyone uses so thoughtlessly. And with that example, he spoke of other cases where we thoughtlessly use invention secured by other people's suffering.

Everett C. Marston urged that Colby men try harder to gain a true Colby spirit. He claimed that friendship and comradeship on the campus is largely an illusion. Less egotism, he said, will solve the problem.

Percy G. Bantley claimed that Prohibition is the greatest benefit to the United States since the Emancipation Proclamation, and urged that every American citizen loyally support the law as a part of his duty.

PROF. HANNAY'S BIBLE CLASS ENDS

The ten week course of study of the Gospel of John under the leadership of Dr. Neilson C. Hannay came to a close Monday evening. In the study of this Fourth Gospel which is often called "the college man's Gospel," the question of authorship, purpose, source and style of John were considered together with the question of the time and place of its writing. Then a list of fifty essential details of the Gospel were given and each of these details carefully considered. The enrollment of the class was sixteen and the average attendance was seven. At the conclusion of Monday's lecture, the members of the class presented Dr. Hannay with a gold-pannel in appreciation of his efficient and inspiring leadership.

NEW ENGLAND GAMES RESULT IN A TIE

Colby Sends Seven Men to
Worcester but Fails to
Win a Point.

The 36th annual championship games of the New England Intercollegiate Athletic Association held at Worcester Polytechnic Institute Friday and Saturday, May 19 and 20, ended in a tie. Massachusetts Institute of Technology, champion for the last five years, and Boston College each gathered 24 points in the closest contest in the long history of these games. There was a brisk wind which held back athletes from making new records, except in the case of R. H. Clark of Amherst who set a new mark in the High Jump with a leap of 6 feet and 3-4 inches.

Twenty colleges competed in fourteen events. Colby sent down seven men: Capt. Kemp, Maynard, McGarry, Hearon, Paine, Mgr. MacIntire, and Coach Ryan. Kemp was the only Colby man to qualify for the finals.

NEW ENGLAND TENNIS TOURNAMENT STARTS

The annual tournaments for the New England Singles and Doubles Championships began Monday morning at the Chestnut Hill courts of the Longwood Cricket club. The dope indicates that Dartmouth should successfully defend her titles. Colby is represented by Captain Gow, State Champion, and Sackett who with Gow holds the doubles championship of Maine. These two men are entered in both the singles and doubles tournaments. They can be relied upon to give a good account of themselves and it will take some mighty fine tennis to beat them. The drawings have been made and the schedule is as follows:

Singles.
First round—Gow of Colby vs. Prescott of Williams; Scott of M. I. T. vs. Stanley of Bates; Carver of M. I. T. vs. Leland of Wesleyan; Jones of Brown vs. Rowse of Williams.

Second round—Saunders of Dartmouth vs. G. W. Bennett of Brown; Schweicker of Wesleyan vs. Partridge of Bowdoin; Plympton of Amherst vs. Richardson of Boston University; Carleton of Dartmouth vs. Bishop of Bowdoin; C. W. Bennett of Amherst vs. Sackett of Colby; Davis of Boston University vs. Roberts of Bates.

Doubles.
First round—Saunders and Howe of Dartmouth vs. Rowse and Prescott of Williams; Carver and Scott of M. I. T. vs. Richardson and Davis of Boston University.

Second round—Stanley and Roberts of Bates vs. Partridge and Bishop of Bowdoin; Titus and Bennett of Amherst vs. winners of match between Dartmouth and Williams; Gow and Sackett of Colby vs. winners of match between M. I. T. and B. U.; Leland and Schweicker of Wesleyan vs. Jones and Bennett of Brown.

My dentist has an eagle eye, And vicious tools he hacks with, He's clever but I've come to think He'd make a better blacksmith.

PHILADELPHIA College of OSTEOPATHY

Incorporated 1899

Located in modern medical center of America; up-to-date laboratories for study of chemistry, physiology, biology, anatomy, physics, hygiene, bacteriology, surgery, etc., connected with the new and thoroughly equipped Osteopathic Hospital of Philadelphia; unexcelled facilities for clinical experience.

Four years' course of study, with required attendance at clinics and internship in the Osteopathic Hospital of Philadelphia, leads to Degree, Doctor of Osteopathy; graduates admitted to State Board Examinations (including those of New York) and practice successfully throughout the United States and many foreign countries.

Extensive Hospitalization; Standard four-year High School course. Students desiring to qualify for practice in Pennsylvania require credit for a year's work in each of the sciences, biology, physics and chemistry. College preparatory work is valuable, but not essential to success in medicine, and is, therefore, not insisted. Four years in the Philadelphia College of Osteopathy will fit you for your profession. Next term opens September 12, 1922.

For catalog and other literature address: The Registrar, Box 2, Spring Garden at 10th Street, Philadelphia, Pa.

COMMENCEMENT PREPARATIONS BEING RUSHED TO COMPLETION

Plans to Rival Centennial Being Made By
General Committee—Class of 1892 to Present
Gift to College—Details Being Attended to
by Experts—Willows to be Renovated.

The meeting of the general committee at Augusta, last Saturday, assures for Colby this year, a commencement that will stand in the annals of the college, second only to the great centennial celebration of two years ago. Indeed, with many of the features of the big celebration being reenacted this year, it is possible that some of the preparations will be even more complete, from the experience of that event.

One event this year that eclipses in some ways anything ever held in the history of the college will be the dedication of the new track and stadium. With the best athletic field in the state, it is peculiarly fitting that that service should be impressive. One of the most appropriate ceremonies, strange to say, will be the procession. Beginning at Memorial hall, and passing through it—a building erected in honor of the sons of Colby who died in the civil war—the parade will pass to the athletic field before the stadium, erected as a memorial for the men who fought in the world war. The seniors will take part in this festive array, dressed in academic garb.

Arrived at the stadium, after the speeches by Judge Cornish and the donor, the class of 1892 will present a huge flag and flagstaff to the college. This flagstaff is to be imbedded in concrete and placed directly in front of the middle of the stadium. Next Monday, May 29, the immense timber is to be towed up the Kennebec as far as Hallowell, and from there it will be taken to Waterville sometime during the week on a Central Maine Power Company truck. Mr. Frank B. Nichols, '92, of Bath is overseeing the arrangements.

Professor Libby has just announced the man who is to deliver the Board-

man anniversary address, Sunday evening, June 18. It is to be the Rev. Charles Coffin Tilley, '76, of Jefferson, Me. Rev. Mr. Tilley has had a long and noble career. He graduated at Newton Theological Institution in 1879, and since then he has filled some very important pastorates in Maine and Massachusetts. His father was a member of the class of 1840, so that he is peculiarly fitted up the past with the present in a very gracious manner.

A ceremony not previously announced will occur Sunday afternoon, when President Roberts and a group of men chosen from the college will replant the Boardman willows. The program of the occasion has not been announced, but the service is to be performed with appropriate rites. The new trees are to be set out from scions of the original willows. Previous to commencement, a group of experts will completely overhaul the old willows, tearing out the dead wood and making them look like the real willows which we see in pictures.

Among the miscellaneous features of commencement will be the decorations and illuminations. These were some of the most important parts of the centennial and as the same man—Richard A. Harlow, '12, is to have charge this year, the accomplishment will doubtless be duplicated this year. The Central Maine Power Company is to do the work again, and instructions have been given that the lighting shall be just as complete as it was two years ago.

In like manner, the committee has secured the official stenographer for the supreme court to take down every lecture and address at the exercises, in its entirety. This will insure a full and complete history of the biggest event in two years.

PROF. EDWARDS CALLS OFF CIRCUS

Long Awaited Event Not
to be Held This Spring—
Several Causes Contribute
to Coach's Decision.

The great Colby circus is all off. Although it had been hoped up to a few days ago that the great event might take place, Prof. Edwards has finally decided that it will be impossible to surmount the many difficulties of presenting such a performance in this part of the country at the present time.

In the first place, transportation conditions are bad and great delays might be encountered in bringing the animals to Waterville. As several carloads of animals were to be brought, if they should all die along the wayside from lack of food and water the college would suffer a severe financial loss. Moreover, the poor transportation condition would be a big hindrance in bringing the crowds from Portland, Bangor, Skowhogan, Fairfield and other centers from which great numbers of people would attend.

A second reason according to Prof. Edwards is that it would be dangerous to put up a main tent of such size as would be necessary for the Colby shows in a climate subject to such violent storms and winds as we have in Maine. It was just a year ago that a tornado struck Waterville, and if such an event should happen while the circus was going on the result would be indeed calamitous.

CAMPUS CHAT

Professor Henry W. Brown gave an address Sunday to the Senior class of Good Will. "Pa" Brown has many calls for his services. He is to give the Memorial address at Oakland, this year. He is also to give graduation addresses at Hobson Academy, Mount Desert High School, New Hampton (N. H.), Institute, Shrewsbury, (Mass.) High School, and Norwood, (Mass.) High School.

THE NEW BOARD.

The next issue of this paper will be managed by the new board. We do not know who that new board will be, but we do know that no matter who takes it up, if they are chosen from the present associate and assistant editors, they are perfectly capable of filling their position.

Probably never before have the assistants done as much work as they have on this volume. They have done much, willingly. No great crowds have cheered them on; few people knew what any of the men were doing. The men deserve real praise, for their efforts.

The new board will need very much support. Contributions would help out. May the college give that support to the end that next year's may be the best college paper in Maine.

VOLUME TWENTY-FIVE.

Volume Twenty-five of THE COLBY ECHO is at an end so far as we are concerned. We have toiled, we have toiled hard, sometimes though not so often as we would now wish, we have done our best. The board has put in much work at difficult times, often. It deserves your appreciation for its attempts, at least.

The student body has co-operated this year with the editors, in a way unusual. Never before has the paper been bought so nearly unanimously. Never before have more men contributed to the paper. Among those who have especially helped us are: William F. Cushman, Henry D. Teague, John L. Dunstan, Forrest M. Royal, Clifford Penslee and Meyer Chafetz.

The editorial policy this year has been somewhat absent, perhaps. We had no precedents to follow; doubtless it will be well if future editors pay no attention to this year's example. We have said, as nearly as possible, what we believed at the time. Because to every question there are two sides, both of which we sometimes see, our remarks may not have always appeared consistent. We have tried, however, to talk about a bigger, better, Colby, in which the students would be real men and women.

We have perhaps criticized too much; we may have been unduly given to destructive criticism; we may have meddled in that which did not concern us; if we did anything to make people think even a little we are satisfied, though we be blamed over so much.

Our innovations—Our Mail Bag, Mon Who Made Colby, Tragedies of Real Life, Aunt Betsy's Corner, Poetry, and all the rest, have met with varying success. Every year must see changes. Our Mail Bag, if it has the right kind of support should always be worthwhile. It need hardly appear in every issue.

Campana Chant has died and shown faint signs of life on several occasions. From our own experience, we believe that constant, unrelenting,

ceaseless, continued prompting by the various fraternity presidents or other powers, will secure proper notice of the doings of the men of the college. As long as the fraternities elect the men, the men should be responsible to the fraternities.

So end our words of wisdom—or folly. We know more about running the paper than ever before, but the job never looked so big to us. Bear with our successor even as you have borne with us.

THE YEAR PAST.

With this, the last issue of THE ECHO under the present board, the temptation to look back over the year past is too strong to resist.

With the assurance of seniors who have not yet taken the big plunge, we like to congratulate ourselves whenever possible. We, today, look back on a last year in college and call it good.

It has not been a championship year. Outside of the stadium and track, few of the dreams of the past have been realized. But the road to the realization of all our dreams, seems clearer and brighter than ever before. The present senior class has not had all the improvements and privileges that it once hoped for. But that class has helped what it could to bring those improvements for future classes.

And no one would have it otherwise. We have had the joy of work and hope for the future, and is not that after all the greater happiness?

In the present scheme of things, the part of the undergraduate in a greater and bigger Colby, is limited. He must cooperate, but the initiative must always come from the faculty or the alumni. The greatest achievements of the year have come about this way.

Through the new professor in physical education, Colby this year possessed a hockey and basketball team, very creditable indeed. And next year should be even better. The football and baseball teams were an improvement, the extent of which can not now be measured. If the track debacle shall prove productive of tangible results, if it never happens again—this year's calamity will be worth while.

In the field of non-athletic activities, Colby's record is still brighter. Their twelve decision debates, besides the two judgeless affairs. No one need comment on such a record. Fourteen men took part in intercollegiate debates. No college anywhere has a prouder record than Colby.

The Musical clubs this year have done better financially and otherwise than before for some time. From every place they gave concerts, the finest of reports have come.

The publications have been increased in number with the publication of THE TORCH until Colby stands up with any college of her size, anywhere. THE ORACLE and the COLBIANA both appear to be a real credit to the college.

Socially, the year has been as usual. The few gymnasium dances may or may not form a precedent for more and better relations between the two divisions. Time only can tell.

No one can accurately determine how the year has gone so far as the studies are concerned. The new professors have proved themselves eminently capable men. Popularity is not always a criterion of worth, yet the new professors may well feel proud that they are liked and respected by the student body. More work seems to be done throughout the college than at any time during the past three years.

In all then, it has been a great year—a year of glorious hopes and fine achievement—a year to look back on with yearning, with regret, and with pride.

A LITTLE LIFE, WE PRAY.

Some years ago, the Druid society gave the college a cup. It was given for scholarship and was to go each year to the fraternity whose men did the best work for the past year.

This year the cup has not yet been awarded. The reason is that the present Druid society has not yet seen fit to perform the one duty that is theirs—to make out and hand to the registrar a list of the men in each fraternity. Such an act would require about ten minutes of the time of six men. It would mean that the Druid cup would be awarded this year.

If this work is not done soon, Professor Trefethen will not be able to compute the ranks and the sole visible work of the junior society for men will remain undone.

"What course is Higgins in?"
"Engineering in the College of Dentistry."

"How come engineering in the College of Dentistry?"
"He studies bridge work."

NEW BROADCASTING RADIO STATION

A radio broadcasting station, more powerful than any now sending out programs, has been installed by the General Electric Company at its plant in Schenectady, N. Y.

From the roof of a five story factory building, two towers 183 feet high and spaced 350 feet apart, support an antenna at such height as to give the wireless waves unobstructed freedom to travel equally well at a speed of 186,000 feet per second in all directions.

This station has not been regularly operated nor has advance announcement been made of the impromptu or test programs sent out, which would cause amateurs to be listening, yet, letters have been received from such distant points as Cedar Rapids, Iowa, Minneapolis and Santa Clara, Cuba, the latter place 1450 miles distance, announcing that the programs have been heard. These reports come from operators who, in an evening's experimenting with their receiving sets, have accidentally come upon the waves from Schenectady and are no indication of the distance this station may be heard.

Broadcasting stations, with but a fraction of the power of the G-E station, have been heard at distances of 2000 miles or more under favorable atmospheric conditions.

The General Electric station has been licensed to operate on a 360 meter wave length under the call letters of W. G. Y. It is equipped with the most modern of radio apparatus, including the multiple tuned antenna which, because of its many advantages, has been installed in Radio Central, the world's most powerful commercial station at Rocky Point, L. I., and other transoceanic stations of the Radio Corporation of America.

A three room studio, where the programs are produced, is located in a Company's office building, 3000 feet from the transmitting station. One room is used as a reception room for the artists, where they may sit and chat until their time on the program arrives without danger of interfering with what is going on in the studio. The second room is the studio, where a concert grand piano, victrola, an organ and other equipment for the artists are to be found. Here a number of portable microphones, which are commonly known as pick up devices can be shifted about to locations best suited for the reception of announcements, musical numbers, or whatever may be sent out. In the room on the opposite side of the studio is apparatus for amplifying the sound waves before they are transmitted by wires to the broadcasting station.

A switchboard in the studio, which lights a red light when the station is in operation thus warning persons in the room that whatever they might say will be sent out to thousands of ears of an invisible audience, is within reach of the studio director at all times. Not until he throws a switch can anything reach the antenna. A telephone attached keeps him constantly informed just how the program is going out and allows him to change position of the artists or microphone if such is necessary to improve the tone quality of the entertainment.

With the exception of the small pick up devices or microphones and the switchboard, there is nothing in this room to indicate it as different from any musical studio.

In the apparatus room, the sound waves are put through a number of steps of amplification by means of vacuum tubes which increases their volume thousands of times. The amplified sounds are then put into a wire and sent to the broadcasting station, where they enter another bank of vacuum tubes, known as modulators or molders of the electric waves.

Direct current at a high voltage is necessary for the operation of a transmitting station. To obtain this, a 220 volt alternating current line, which is but little longer than the voltage used for lighting purposes in the home, is boosted to 30,000 volts by means of a transformer. This voltage is then applied to a number of vacuum tubes, acting as rectifiers, which change the voltage to direct current. Placed between the rectifier and the modulator or molding tubes, is a high power oscillator tube. The electric power entering this tube sets the other into vibration and upon these vibrations the electric waves, molded into shape in the modulator tubes, are sent to the antenna to go out into space.

RECORD SILK TRAIN.

Four million, eight hundred thousand dollars worth of silk, one of the most valuable single cargoes of

freight ever transported over an American railway, has just been sent over the electrified lines of the Chicago, Milwaukee & St. Paul Railway. This shipment was contained in the longest exclusively all-steel baggage train ever operated between Seattle and Chicago. The journey of 2174 miles was made on scheduled time.

The train contained fourteen baggage cars and one coach, the latter for employees. The weight of the train was 1325 tons. This is equivalent to 23 express refrigerators, and made it possible for the shipment to be made in one special train instead of two.

The "silk special" contained 448 cases of manufactured silk, and 4808 bales of raw silk.

This cargo was bound from the Orient to New York, and it reached Seattle on the Japanese steamer Arabia Maru. It was hauled up the Cascade Mountains without a helper by one of the powerful 3000 volt General Electric locomotives, and was lowered down the heavy grades on the other side by electric braking. With the electric locomotive the air brakes are held in reserve, and regenerative braking is used in descending grades.

ELECTRIC CLOCKS IN BIG HOTEL.

Installation has just been made by the General Electric Company of the Warren electric clock system in the annex to the Plaza hotel in New York. This represents the first hotel in New York in which this system of regulating clocks has been utilized. It is the second installation of the sort in any hotel, the first having been made last year in the Ritz-Carlton Hotel at Atlantic City, where the clocks have been thus regulated with much success for the last seven months.

In the Plaza installation there are about 50 clocks, located in the main rooms, in the foyers, salons, drawing rooms and dining rooms. They are operated by small generators which convert the direct current of the hotel's lighting circuit into alternating current for the purpose of the clock system. The converters, the master clock and the control panel are all located in the telephone exchange of the hotel, on the first floor.

Tiny motors, so small that one of them easily nestles in the palm of the hand, are geared to the dial hands of each of the secondary clocks connected with the system. These small motors, which take the place of the usual intricate clock mechanism and which are of the synchronous type, will operate the hands of clocks of any size. Big clocks with dials five feet in diameter and little clocks with dials whose diameters are only three inches are regulated equally well by these smallest of motors, none of the dimensions of which exceed three inches.

Absolutely uniform time is shown by every clock of the system at a given moment. The system is also self-regulating, and therefore independent of voltage or frequency fluctuations incident to the power lines from which it draws its current.

The master clock exercises constant control over the power generating apparatus which drives the individual motors of the secondary clocks. This control by the master clock enables all the secondary clocks to keep accurate time. They are never more than three seconds slower or faster than the master clock.

The reliability of this system, as revealed in actual service, is believed to bring prominently to the front this novel idea of thus electrically operating clocks for hotels, office buildings, manufacturing plants and institutions where it is desired to have a large number of clocks and to insure that they will all keep accurate and uniform time.

"Bobbie," said the teacher sternly, "where were you yesterday?" "I had a toothache." "Has it stopped aching?" "I don't know. The dentist kept it."

HOWARD BREAKS INTO LIMELIGHT WITH FOURTEEN-INNING BATTLE

Colby's Star Boxman Faces Three of Maine's Best in Thrilling Battle-Royal Gets His Second Home Run With Two on the Bags--Maine Has Edge in The Pinches and Osgood Wins in Fourteenth.

The Colby baseball team with Howard in the points staged a surprise at Seaverns Field last Wednesday afternoon and forced the strong Maine aggregation to a fourteen inning game before the visitors were able to win the contest and go home on the long end of a 5 to 4 score. Howard was in rare form for Parent's team and travelled the whole distance keeping the hits of the opposition well scattered and having no difficulty in holding the up staters throughout the long grind of the exhibition. The game, the second of the season between the two teams was the best game that has been seen on the local field in years and was exciting and filled with spectacular plays throughout.

The Colby team played with precision that had been lacking throughout the season and gave the loyal supporters reason to think that the team may after all make a very creditable showing in the remaining games of the state series. Howard has been more or less of an unknown quantity throughout the season and it was feared that he would not win any games owing to a sore arm that has kept him on the bench during the early season games. The Colby hurler was not in shape for the duel with Bowdoin last week but showed in last Wednesday's contest that he may be depended upon for the remainder of the season. The veteran had his curve working perfectly and had the best of control in all the innings that he was on the slab. With Maine defeating Bowdoin last Saturday, the previous fight by the Colby baseballers seems especially significant.

The visitors used three pitchers in the attempt to annex the verdict and it was not until the shades of twilight had fallen over the field that the issue of the day was decided. Torsleff took the slab for Wilkie Clark in the first few innings of the game but was touched up rather freely by the Colby batsmen. Three runs were scored in the first inning when Lanpher, Williams, and Royal all scored on a long drive to right field which netted the Colby third baseman his second home run in as many games. Repsha took up the mound duty in the fourth and was in the best form of the day presented by the Maine pitchers. He held the Colby sluggers scoreless for the five innings that he worked and was sailing smoothly in the ninth inning when an unfortunate accident happened. Howard was at bat and when the bat slipped from his fingers after he had taken a particularly lusty swipe at the pill, the club sailed out over the diamond and connected with the features of the Maine hurler. It was at first thought that he must have sustained serious injury as the bat hit him fair on the head and shoulder. The game freshman from Orono refused to desert the ship however and managed to last

out the inning. Jowett, the ace of the Maine slabsters, was called to take up the burden in the tenth and he responded nobly. Colby batted in hard luck throughout the remainder of the contest.

The less said about the umpiring the better. It may be charitably be classed as fair. The man on the bases seemed to be off color on several occasions.

The fielding of Howard was one of the bright spots in the contest. The Colby veteran accepted eight assists and one putout without a slipup. On five occasions he cut off runs which had they scored would have settled the result at least six innings before the final verdict was rendered. Captain Williams in the center field garden showed that he possessed all the skill of former years by pulling down seven drives to his territory, all of which were of the difficult type.

In the first inning Maine went down in short order. In the Colby half, Haines was passed. Williams drew a life when A. Johnson kicked his bounder, Haines advancing to second. Haines was forced at the third sack when Lanpher hit to Johnson. Royal stepped to the plate and laced the ball far down the right field foul line. Williams and Lanpher set sail for the plate and were chased in by the Colby third baseman, who made the circuit on the thrilling smash. Maine counted once in the second inning when Lunge tripled to right with one gone. The drive would have been good for four sacks, but the Maine first baseman was the slowest man on the field and just crawled around the paths. Johnson got a life on an error by Royal, who threw the ball over first base to the stands, Lunge tallying on the misplay. Foster followed with a smash to left field, but was left on the base.

In the thirteenth Colby might have won the game, for Fransen hit the first ball pitched to him on the line for deep left center. Osgood who played a clever game throughout was in the path of the ball, however, and with a high leaping stab clutched the sphere as it was passing over his head and retired the Colby shortstop who had been giving him a great battle for the highest honors of the game.

In the fourteenth inning Jowett stepped to the plate and laced prettily to left where a fast play by Haines in fielding the drive held the Maine pitcher to one base. King sent him to second with a pretty sacrifice and a score seemed imminent. Osgood singled to left and the winning run of the game oozed across the plate.

Fransen at short was in rare form for Colby throughout the contest and made plays which gave further credence to the belief that he is the best short fielder in the state. The youngster scintillated with several sparkling plays and drew a big hand for his performance.

Royal proved his worth at the bat,

with two men on the sacks, by lacing out his home run and also fielded superbly at the hot corner.

HEBRON EDGES SECOND TEAM

Captain Curtis's Combination Not Fast Enough For Prep. School Aggregation.

The Colby second team lost to the Hebron nine at Seaverns field, Wednesday afternoon by the score of 7 to 6. Costly errors were the means of their defeat. The Colby catchers were off form and overthrows at second base were responsible for at least four of the Hebron runs. Coulman, the Colby pitcher, was in great form and deserved to win. His long three bagger in the second inning sent Niles across the plate for the run which tied the score. The three runs gathered by the prep school lads as a result of the wild pegs of the Colby backstops in the first two innings were responsible for the locals' defeat.

Hebron scored in the sixth, seventh, and ninth and these scores together with their other three were just enough for a win. Churchill, the Hebron moundman, won his own game with a circuit clout in the ninth.

Colby scored in the first inning when Hunter reached first on a fielder's choice, moved to second when Menish failed to hold the ball thrown to catch him napping and tallied with Ratcliffe's single to left. Two more runs were added in the second frame as a result of two errors and timely hitting. From then until the ninth the collegians went scoreless. In the final inning the seconds staged a batting rally which looked like a win. The bases were filled by Huhn who singled, Curtis who drew a free ticket, and Coulman who reached first when Menish fumbled his hot drive. Snow went to the initial sack and two scores crossed the plate when his fly was neatly fozzled by the Hebron right fielder. Larrabee K. O'd but Hunter came through with a pretty single to right, scoring another run. He made second on the throw to the plate. This left the tying run on third and the winning scorer on second. The next man stopped to the bat with high hopes but failed to connect with the elusive sphere and the game ended.

PARENT'S CHARGES DEFEAT EASTERNS

(Continued from Page 1.)

certainly the student body has a right to expect great things of the team for the remaining games of the season. They seem to have struck their stride at last and the defeats of the early season games will be forgotten and forgiven if the nine can come through in the remaining games of the season as it is expected that they will.

Are You The Man?

We are looking for a particular type of man who is inherently honest; who has a good personality and who is willing to work. For such a man we have a summer position that will pay his college expenses for the coming year.

COLBY LOSES TO BOWDOIN IN THIRD CHAMPIONSHIP GAME

Playing on Home Grounds Brunswick Team
Defeats Home Team by 7-3 Score in Game
Featured by Extra-base Hitting.

Playing on their home grounds Bowdoin defeated Colby in the third game of the championship series, Wednesday, May 24. The game was featured by the pitching of Walker for Bowdoin and the large number of extra-base hits, three home runs being tallied in the course of the nine innings.

The visitors were somewhat hampered by the different fielding conditions, Bowdoin having a grass infield while Colby has a clay one. However, the game was singularly clean, both sides being credited with two errors apiece. In the third inning Millett had a bad time with a hot grounder off Davis' bat, and was credited with a misplay, although it was of an excusable nature. During infield practice before the game a grounder hit to Millett took a bad bound on a pebble and closed his eye, but with his usual gameness, he insisted that he was all right and played a good game.

It looks at last as though Freddy Parent has found an infield combination that would suit him. Fransen and Millett at short and second worked together like a charm yesterday, making the only double play of the game when Fransen pulled a liner out of the air and spoiled a hit for Handy in the fifth relaying the ball to Millett at second to catch Morrell flat-footed off the bag. There were two men on bases and one out at the time. Royal accepted five chances at third without an error, two of them being of the torrid variety known as "grass-cutters," besides making two fine catches, one a foul tip, after a long heart-breaking sprint. Callaghan at the keystone sack played his usual game, which is good enough for anybody.

Bowdoin started the scoring in the third. Davis reached first when Mil-

lett made a costly error. Walker fied out to right and Small smashed the first ball over the short right field fence for a home run, scoring Davis ahead of him. Jones fied out and Needleman completed the scoring for the inning when he drove the ball to the hundred yard straightaway in left field for the circuit.

Colby came back in their half of the fourth with two counters and it looked as though the game would be close. Lanpher got a hit and advanced to third when Royal clouted one to right for two bases. With runners on second and third, driving in two on second and third, Fransen hit between short and third, driving in two runs. Fransen was out at second when he slid wide trying to avoid spiking Davis who was blocking the baseline.

The White added three more in their half of the fourth when Morrell singled and tallied when Hill knocked the third circuit clout of the game over the right field barrier. Handy fied to Williams but successive singles by Davis and Walker drove another run across.

Colby got their final run in the fifth when Howard singled and scored on Haines' smash to left. In Bowdoin's half of the fifth a chance to score was cut off after Smith walked but was out at second on a fielders choice, Morrell going to second on a hit by Hill. Handy clouted one that looked good for extra bases but Fransen picked it out of the air and Millett doubled Morrell off second.

Bowdoin got their last run in the eighth when singles by Morrell and Hill coupled with a fielders choice placed a man on second and third and a passed ball by Lanpher let in a run.

The score:

CLASS OF 1882 TO HOLD REUNION

Large Class Coming Back
For Fortieth Anniversary.

Of the class which graduated in 1882 there are twenty-two still living and they have made themselves known in the various fields of life as is shown by the following list taken from the "General Catalogue of Colby College."

George Austin Andrews, A. B., A. M., 1866, was born at West Rockport, Me., Aug. 10, 1865. Positions held: Principal of Rockport High School; principal Normal Department, Atlanta, Ga.; principal Ashland High School (Mass.); Derby Academy, Vt. Last address Minneapolis, Minn.

William Wallace Andrews, A. B., was born in Paris, Me., July 13, 1858. Positions held: Principal of High Schools at Albion, Hartford and Canton, Me.; Principal of Grammar school at Portland since 1889. Present address Portland, Me.

Walter Sanger Bosworth, A. B. Born at Grafton, Mass., May 3, 1858. Positions held: Express messenger at Fitchburg, Mass.; teacher for two years; since 1884 with American Express Company, Boston, Mass. Present address, Boston, Mass.

William Campbell Crawford, A. B., A. M., 1886; L. H. D., 1914. Born at Warren, Me., January 19, 1862. Positions held: Master of common schools, Belfast, Me.; Principal of High School at Thomaston; Superintendent of schools at Waterville; Instructor of Pedagogy, Colby College; director of Boston Trade school since 1911; Trustee of Colby College since 1908. Present address, Allston, Mass.

Edward Mortimer Collins, A. B., was born at Georgetown, Colorado, February 2, 1860. Positions: Principle of Georgetown (Colorado) High School; since 1887 a lawyer. Present address Canon City, Colorado.

Hubert Artisan Dennison, A. B. Born at Lewiston, Me., May 31, 1859. Illustrator and engraver, Boston, Mass. Present address Needham Heights, Mass.

George Lora Dunham, A. B., A. M., 1886. Born in North Paris, Me., June 15, 1859. Positions: Principal Dixfield Academy, Grammar School, Portland; assistant at High School, Portland; since 1885 in business at Brattleboro, Vermont.

Ezra Franklin Elliott, A. B. Born at Skowhegan, Me., July 13, 1852. Positions: Teacher and farmer, Angus, Minn.; Principal of school, Spokane, Wash.; principal at Sprague; principal of Waterville High. Present address unknown.

Fred Nathaniel Fletcher, A. B. Born at China, Me., Sept. 15, 1856. Positions: Principal Castine High; Editor; Miner; member of Nevada Tax Commission since 1904. Present address Carson City, Nevada.

Robie Gale Frye, A. B., was born at Belfast, Me., Dec. 29, 1860. Positions: U. S. Vice and Dep'y Consul General at Halifax; chief clerk, First Division; Deputy Collector of Customs; Trustee of Colby College. Residence Sharon, Mass.

Bela Malcolm Lawrence, A. B., A. M., 1885. Born, Cherryfield, Me., Jan. 1, 1857. Positions: Instructor Pillsbury Academy; Principal Farmington High School; Principal Dakota College; graduate Student University of Chicago; City superintendent of Schools at Madison, South Dakota.

Alvin Penley Leighton, A. B. Born at Cumberland, Me., Nov. 25, 1857. Present address unknown.

Samuel Joshua Nowell, A. B., A. M., 1888. Born at Sanford, Me., July 12, 1858. Positions: Agent for Agricultural implements; in business at Sanford, Me.; Principal of Rockport High School; Hardware business at Sanford, Me.

Bertis Alvaro Pease, A. B., A. M., 1885. Born at Wilton, Me., Oct. 31, 1854. Positions: Principal Milford (N. H.) High School; Principal Mt. Pleasant School (N. H.); Lawyer at Nashua, N. H.

William Edgar Perry, A. B. Born at Hanover, Mass., May 10, 1857. Positions: Principal Cherryfield High School; sub-master Brockton High School; Master of school, Boston.

Warren Coffin Philbrook, A. B., L. D., 1910. Born, Sedgwick, Me., Nov. 30, 1857. Positions: Normal School, Farmington; Principal of Waterville High School; Lawyer; Judge, Mayor; assistant Attorney General; Attorney General; Justice Supreme Court since 1913. Residence Waterville, Me.

William Henry Robinson, A. B., A. M., 1887. Born at Windham, Me., April 15, 1856. Positions: Teacher; Pastor M. E. churches; Business Address, Los Angeles, Calif.

Edward Francis Thompson, A. B. Born, Portland, Me., July 30, 1860. Positions: Lawyer; Recorder, municipal court; Clerk of Courts. Address Portland, Me.

Charles Augustus True, A. B. Born, Portland, Me., Nov. 24, 1860. Admitted to the bar in 1885 and since then a lawyer. Address, 61 Broadway, New York.

Herbert Spurden Weaver, A. B., A. M., 1892; L. H. D., 1914. Born at Wadoboro, Me., Oct. 17, 1861. Positions: Principal of Grammar School, Chelsea, Mass.; Headmaster of High School, Boston, Mass. Present address, Allston, Mass.
