WEDNESDAY, MARCH 8, 1933.

**T**HE election of L. Eugene Thayer to the office of mayor of Waterville brings another Colby man into that high office. The retiring mayor Dubord was in the class of 1914 while Mayor Thayer attended Colby in the class of 1903 and as far as that goes the mayor before Dubord was Dr. Libby, '02, so it seems that in recent years Colby men have been marked for the mayoralty.

In ward four two Colby professors gained office. Professor Webster Chester now sits in the city council as a result of Monday's balloting, while Dr. Wilkinson—endorsed by the ECHO—turned a trick which has not been duplicated in years if ever. Dr. Wilkinson who might be classed as a combination between a Jacksonian and a Jeffersonian Democrat, but nevertheless a Democrat carried the heretofore rock ribbed Republican ward four and is now an alderman.

**I**S there any reason why Colby, which has recently developed such fine dramatic organization, can not improve similarly in the line of music?

It is true we have a glee club, (and, by the way, let us remind you not to miss its concert Friday night), but why can't we have some orchestral accompaniment? A college orchestra would be a great addition. Surely there are students who would welcome such an organization. Mr. Thomas is doing his best to create interest in the idea, but very little can be done without better student response. An orchestra is an essential extra curricula activity which should find enthusiastic support from those students who play musical instruments as a hobby. At the next rehearsal we hope that Mr. Thomas will have a fine turnout of talented musicians who will be anxious to cooperate with him forming an all Colby orchestra.

### Ye Gladiator Column

Letters in the Gladiator Column are expressions of opinion by individual contributors to that column and the editor assumes no responsibility for any statements, allusions, or assertions made in them. The column is a free-for-all and student contributions are solicited.

Dear Gladiator:

It seems to me that the leading editorial of last week's ECHO was hardly a just statement of the facts of the situation in world affairs. The editor of the ECHO seemed to be in an explosive mood and for that reason it is hard to understand from his words just what he wants the United States to do. He wants world leadership it is true, but does he mean by that that we should mobilize our forces and dis-

patch them to China to fight Japan?

"The government of this nation has, to date, refused to take a definite position, thereby through her silence giving support to the dictatorial, militaristic policies of Japan, which are diametrically opposed to the ideals and principles on which this nation was founded." In these words the editor has gravely misrepresented the position of the United States. There has been only one nation in the world that has taken a definite stand and that nation is the United States of America. There has been but one country in the world with sufficient backbone to tell Japan that she is wrong and that country is the United States. It seems incredible that the ECHO'S editor could be ignorant of the very frank and definite stand taken by the recent administration at Washington and agreed to by President Roosevelt regarding the nefarious imperialism of Japan.

Does not the editor of the ECHO know that the United States will not recognize any government set up in

violation of the Pact of Paris? The government of the United States has not only given its support to the League of Nations in endeavoring to straighten out the tangle in the East, but it has dared to take individual steps without the concurrence of other nations.

Just what does the editorial of last week's ECHO mean? Should we declare war on Japan? Should we invade Asia and thereby make ourselves a voluntary police force for the world? The editor feels his oats and wants youth to join him "throughout the length and breadth of this great nation," but youth might reply by asking ye editor what its all about. I think that youth wants world peace and international good will, but we can not give the world that "mellowed statesmanship" of which the editor speaks if we tear blindly into things without some regard for the facts of the case and at least a degree of sanity.

Let's have youthful enthusiasm and feeling of responsibility, but the indiscrepancy and juggling of facts displayed by the leading editorial of last week's ECHO can have no place in any youth movement.

### Dr. Beaven To Address Society

Dr. Albert Beaven, formerly president of Northern Baptist Convention and now president of Rochester Colgate Theological Seminary, Hamilton, New York, is coming to Colby college, March 13th. He plans to be here between three and ten o'clock P. M. of that day and to speak during supper at the Boardman Society. Any interested student who would like to have a personal conference with Dr. Beaven can make an appointment through Professor Newman or through the Conference Chairman of the Boardman Society.

On Thursday evening of this week, the Society of the Sons and Daughters of Colby are to be the guests of President and Mrs. Johnson at a dinner to be held in the Alumnae Building. The dinner will be followed by an interesting program. There are fifty-two students whose parents attended Colby College, and it is hoped that all of them will be present.

The Editors of the ECHO are sorry that there was no room this week to print the Gladiator letter about track by the "Class of '36." It will appear in a future issue.

The ECHO next week will take the form of a special ALUMNI NUMBER.

## DOLAN-FULLER-JENKINS

There were several thrilling events in the track meet run off Saturday afternoon at the field house. In the three hundred, Johnny Dolan turned in his third first of the meet and in doing so gave the freshmen a win over Cony and Skowhegan high schools. Sol Fuller and Bob Jenkins were so close that it was a sort of mass formation at the finish with Dolan slightly in the lead. Leo of Cony drew the pole and was leading when the four of them passed behind the bleachers just after the gun, but when they emerged Dolan had taken his turn so neatly that he was out in front where he remained to the finish.

Dolan is a runner who knows his corners. He slows down as he approaches them and when about to be passed makes the would-be passer run his legs off on the outer edge of the cinders and when a gain on the stretch lengthens his lead with a killing sprint. By taking three firsts and one second "Shanty John" made himself the high point man of the afternoon and it looks as though three years of Ryanism would make him into a champion performer.

## DEVEBER RUNS GREAT MILE

Herb DeVeber, after winning the 1000, entered the mile run and gave a fine exhibition of heady running. His pace was even and unruffled and exceptionally fast for the amount of rest given between the 1000 and the mile. On the last lap Carter of Cony put on a drive and seemed about to pass the tiring Herb, but one final sprint and he had broken the tape scarcely an inch ahead of Carter falling exhausted into the arms of the men by the track.

## COACH MILLETT HOST TO HOCKEY MEN

Last Thursday evening Coach Bill Millett invited the hockey men of 1932-33 to his home and royally entertained them as host at as fine a banquet as might be had anywhere. In a brief speech Bill told the men that they had shown a great spirit of cooperation and that he would surely miss the men who graduate in June.

Speaking of hockey reminds us that there is a movement on foot to make the ice game a major sport here at Colby. While there may be two very

good sides to the question, it seems that hockey should have more and greater support.

## WALKER-YADWINSKI-ROBINSON

There is a close battle on in the field house these afternoons for the first base position on Eddie Roundy's ball club. The principals are the veteran Bob Walker, Emil Yadwinski and Al Robinson. Robinson and Yadwinski are freshmen and are shaping up well. Bob is in good form and it will take a good man to beat him.

## Girls' Basketball

The second round of the interclass basketball tournament, held on March 2 and 3, left the seniors and juniors in the lead for first place. Having previously defeated the freshmen in a strenuous contest, the junior team added another victory to their record by making a saving fourth period rally to defeat the sophomores, 25 to 17.

In the second game the seniors finished with a four-basket lead ahead of the freshmen. The total score was 43 to 35.

The present team standing is as follows:

	Lost	Won
Seniors	0	2
Juniors	0	2
Sophomores	2	0
Freshmen	2	0

## ZETES WIN

The Zetes beat the Tau Deltas, 41 to 36, in a hard fought game yesterday afternoon. The Tau Deltas led at the half 18 to 11, but the Zetes came back to be only two points down at the third quarter and five points ahead at the final whistle. Dyer and Alderman were high scorers with twelve points each.

The co-eds of Foss Hall enjoyed the presence of two of the professors at dinner, Friday evening, March 3. The guests were Mr. Alfred K. Chapman and Mr. Philip S. Bither. Following the dinner coffee was served to an informal group in the reception room.

## Frosh Win Close Meet

The Freshman - Cony - Skowhegan track meet, which took place at the Colby field house last Saturday afternoon, will go down in track history as being one of the closest meets which has taken place here for some time.

The mile runners were trailing by 5 1/2 points when Johnny Dolan, Sol Fuller, and Bob Jenkins, finished in 1, 2, 3, order to earn all of the points in the last event and thus win the meet.

Johnny Dolan scored 18 of the 45 points by winning the 45 yard low hurdles, the 300, and the broad jump. He finished second in the 40, by beating out Jenkins in an unexpected finish.

The most closely contested event of the afternoon was the mile run. Frosh Herbert DeVeber won the race and Dick Carter of Cony finished second.

DeVeber and Carter raced side by side when they nosed into a three foot lead in the lap proceeding the last. At the sound of the gun, DeVeber took a four yard lead over Carter, but as the boys neared the finish line, the Cony lad gave a burst of speed and both boys seemed to break the tape at the same time. The crowd was in an uproar. The judges went into a five minute conference and returned with a verdict in favor of DeVeber. It was the closest mile event ever run on the indoor track.

The meet was the fourth the Freshmen have won this season.

**GIRL DISAPPEARS IN THIN AIR**

### ILLUSION:

The Oriental girl reclines on a sheet of plate glass supported by two slaves. The magician waves a white sheet in front of the pretty maiden... pronounces a few magic words... Presto! She has disappeared in thin air.

### EXPLANATION:

"Disappearing" acts are among the most popular in the repertory of the magician. Dogs, horses, girls, whole rooms disappear—whisked into wings, dropped through trapdoors, hidden by mirrors. But this "disappearance" is a bit different. One of the "slaves" is a hollow dummy. When the magician holds up the sheet the little lady disappears completely—into the convenient figure of the dummy.

## IT'S FUN TO BE FOOLED ...IT'S MORE FUN TO KNOW

There is also a trick of cigarette advertising, whereby a few magic words are used to create the illusion of "Coolness." EXPLANATION: Coolness is determined by the speed of burning. Fresh cigarettes, retaining their full moisture, burn more slowly... smoke cooler. Parched, dry cigarettes burn fast. They taste hot. This makes the method of wrapping very important.

Improperly wrapped cigarettes begin to dry out as soon as packed.

Camels are cooler because they come in the famous Humidor Pack of welded, three-ply, MOISTURE-PROOF cellophane... and because they contain better tobaccos.

A cigarette that is fresh, full of natural moisture, and blended from choice, ripe tobaccos tastes cooler than one that is harsh and arid. For coolness, choose a fresh cigarette, made from costlier tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Try Camels... give your taste a chance to sense the difference. You'll appreciate it!

**Present Banking Situation**

(Continued from page 1)

closest advisers. The proposal which seems to meet with strongest official approval is that which recommends the formation of a special corporation, the stock of which is to be subscribed by all the banks of the country—all banks being compelled to participate—and the assets of which are to be used to guarantee the deposits of all banks. This latter is the familiar safety-fund device, which is in a sense a sort of mutual insurance plan. Until some legislation of this sort or of a different nature but having the same purpose is passed, the termination of the bank holiday is unthinkable. And even after the banks are reopened there will unquestionably be a period during which depositors will have only limited right to withdraw funds from their deposit accounts.

**Script To Be Used**

In the meantime, how are we going to meet the situation presented by the existing scarcity of money? To a considerable extent, of course, business will be carried on upon a credit basis, people receiving goods and services in exchange for a promise to pay or in exchange for checks which will be collectible when banking returns to its normal course. Then, too, there will probably be put into circulation considerable quantities of clearing house certificates, or scrip, secured by the deposits or by securities of the banks belonging to the various clearing house associations. This scrip will serve as a temporary medium of exchange.

The consensus of opinion is that the banking structure of the United States is fundamentally sound. Therefore, while the present situation in-

volves considerable inconvenience and serves to hamper the usual course of business, there is no need for alarm. The greatest need of the moment is that for rationality in thought and action and for confidence in the eventual restoration of normal banking business on a sound basis. To the thoughtful person the present situation suggests one more idea: the need for immediate consideration of the complete revision of the banking system of the country, possibly along the lines suggested in the Glass bill, so as to avoid future occurrences of a similar nature.

**"OUTWARD BOUND"**

(Continued from page 1)

The haughty and humorous role of Mrs. Cliveden-Banks was ably taken by Miss Helen Silberberg, '33. Robert Finch, '33, made an impressive debut into college dramas by playing the part of the Rev. Duke with exceptional finesse.

**Miss Chester Impressive**

Miss Rebecca Chester, '33, further displayed her ability to portray aged character parts in a realistic manner by playing Mrs. Midget, the meek charwoman. The bustling Mr. Lingley was enacted by Malcolm Stratton, '33, in his usual good form. John Webb, long connected with dramatics as actor and director, played the part of the Rev. Thomson.

The following members of the Dramatic Art Class staged the play: Stage manager, Nathan Alpers; assistants, Leon Bradbury, Peter Mills, Harold Plotkin, Francis Flaherty. Design, Norma Fuller; assistant, Ruth White. Electricians, Elis Anderson and Ford Grant. Properties, Anna Hannagan and Virginia Getchell. Prompters, Sybil Wolman and Ruth Atchley.

**TRACK MEN IN NEW YORK**

Another I. C. 4-A Meet has become history. Colby as in past years was represented in the annual games, held this year in New York. Dave Hilton and Ab Bevin were the lucky men to make the trip, and carried Colby colors in the two mile and mile. The boys didn't finish in the charmed circle but in view of the fact that the very best athletes in the country served as competition our runners turned in good performances.

Bevin although he has been handicapped more or less all season with a bad leg clocked very good time in his event, the mile. Hilton put up a strong fight in the longer distance and was in the running for the greater part of the race. He finished in the fast time of 9 min. 57 sec. Considering the fact that no one in college has been able to better 10 minutes in the two mile since Brudno of six years ago Hilton's running was very good. Coach Ryan expressed his satisfaction regarding the meet in general and the work of our boys in particular and declared the trip to be a complete success.

**Lyford Prize Speaking Contest**

Announcement has just been made concerning the twenty-fourth annual Lyford Interscholastic Prize Speaking Contest which is to be held under the auspices of the college on May 5, 1933. For this contest special prizes aggregating one hundred dollars, the gift of W. H. Lyford, are made available to the college. The contest is open to young men who are attending preparatory schools in Maine, New Hampshire, or Massachusetts. It is desired that these prizes stimulate an interest in public speaking, and the awards will be made for general excellence in declamation.

once in a while?

"MAYBE it's back to Nature. Maybe it's something else. I don't know just what it is, but somehow or other I've just got to slip out in the woods and sit down on a log. I always take the old pipe along. Thinking somehow seems easier when you are smoking a pipe. I can fill up my pipe with Granger, and somehow just seem to see things clearer than at any other time.

"Don't know what it is about Granger, but it must be made for pipes—real pipe tobacco.

"Somehow, there's a flavor and aroma about Granger I never found in any other tobacco. When I pack my old pipe tight and good with these big Granger flakes, it's about the coolest smoke I ever enjoyed. It makes me downright pipe hungry every time I look at the package."

Some years ago we made a painstaking,

scientific study to find out, if we could, the kind of tobacco best suited for pipes.

Down in the Blue Grass regions of Kentucky, we found a tobacco called White Burley. There is a grade of this tobacco between the kind used for chewing and the varieties suitable for cigarettes that is best suited for pipes. This tobacco is used in Granger.

This tobacco is prepared by a method worked out many years ago by Mr. J. N.

Wellman. It gives Granger a fragrance and mellowness that pipe smokers like, and makes it burn to a clean, dry ash. Granger never gums a pipe.

Granger has not been on sale very long, but it has come to be popular, and there is this much about it: We have yet to know of a man who started smoking it, who didn't keep on. Folks seem to like it.
