No Woman Clinical Psychologist

Colby will have no woman clinical psychologist in September, Carol Houde, who is presently one of Colby’s two clinicians, finds it “painful to think that Colby women will be without help.” Houde is a temporary replacement for Dr. Paul Perez, who is on sabbatical.

According to Houde, “This is a time of real struggle for women students at Colby. The dissatisfaction with social roles, sexual identities, etc., is growing. I believe it is in this capacity that a woman clinician is most needed to meet the needs of this half of the student body at Colby.”

Recently, Houde finds that most of her clients have been women students; she reports that most of these women have spontaneously admitted that they would not go to a male clinician. These statements have led Houde to conclude that, without a woman clinician, the success of Colby would in effect be deprived of a valuable and necessary service.

Houde sees many instances where the services of a female clinician would be “definitely preferable” to those of a male clinician. These include cases where issues of pregnancy and abortion conflicts, sexuality and sex role conflicts are involved. Houde feels it is also important for a woman clinician “to be available to very timid, withdrawn women students who would be unable to relate to a male clinician.”

Houde feels that a woman clinician would be useful as a referral resource for the college physician, the faculty, the Dean of Students office, and the counseling staff in cases when the involved student would better relate to a woman. Also a woman clinician could be a “resource for the college community on issues pertaining to the psychology of women.”

Houde has contacted President Cotter with the hope that he will find funds to support at least a part-time woman clinical staff. Houde wishes to have the “permanent option” of seeing a woman clinician.

The site choice was made by the Building Committee as the best from among four recommended by a landscape architect. The lawn in front of Dana Hall and the space behind Roberts Union were considered by Small stated, “I don’t think there was any real sympathy for those sites, because they were not large enough and each took up a playing field. The other location considered was the parking lot next to Roberts Union. “Student opinion was almost unanimous for behind the chapel versus the parking lot,” however, Small said. In addition, he noted, the hillside is “a much more desirable site in terms of view. “That’s one of the prettiest views in the state of Maine.”

Some Building Committee members favored the energy-oriented presentation of Banwell, White and Arnold. That firm’s plan would have the building’s energy needs supplied 76-89 percent by solar power, stated committee member Jill Benedict. The design made “a sacrifice in traditional design,” such as having bedrooms on the darker north side, said Benedict, but she favored it because “the price of oil is not going to decrease.”

Chu’s proposal also included passive solar energy, she noted, but not to the extent White’s. “I see one system (White’s) as working well and the other as having a lot of problems (Chu’s),” because Chu is inexperienced in this field.

The Educational Policy Committee (EPC) presented its “Recommendations for Curriculum Revision” to the faculty at Wednesday’s meeting.

Culminating six months of extensive work, the recommendations include “both credit and non-credit options” for the January Program. Students would be “required to participate in three Jan Plans—one of which must be a full-plan.”

Faculty teaching “credit-bearing” Jan Plans would receive one-sixth of their course load credit.

The recommendations call for “a four day mid-semester break in the first semester to include a weekend plus two class days.” Also, “A four day pre-exam break to include two class days” each semester.

President Cotter said the “suggestions for change” in the recommendations “are extremely minor.” He said the “underlying message” was a reaffirmation of the present Colby curriculum, including its “rigor, quantity and basic commitment to core distribution.” “I came away very content with where we are,” said Cotter.

At the meeting, the faculty amended and adopted recommendations on the major, calling for advising students “to avoid over-concentration.” The recommendations also suggested that “in order to provide serious opportunities for generalization, interdisciplinary and/or collateral work be developed.”

Cotter noted, in response to faculty concerns over the ramifications of binding regulations, that the major recommendations were only “advisory.” He said there was “no consensus in the EPC to require any changes to the regulations.”

The faculty tabled recommendations concerning distribution requirements until they receive information on the number of “basic” (designated for non-majors) courses offered presently by each department.

Nader

Nationally known consumer advocate Ralph Nader will be the Commencement speaker and receive an honorary Doctorate of Law at Colby’s May 25 Graduation. President Cotter told THE ECHO that the contract was signed this week.
No Draft, No War, No Way!

by Jon Marcus

Jon Marcus is assistant editor of the Bates College student newspaper and covered the Washington rally for Maine newspapers.

Washington, DC — More than 15 Colby students and faculty members were among the estimated 30,000 protesters who converged on the capital Saturday, March 22, to voice their opposition to registration for the draft.

The protest, organized by the New York-based Mobilization Against the Draft, began early Saturday morning at the Ellipse by the Washington Monument and culminated in a march down Pennsylvania Avenue to a rally on the steps of the Capitol Building.

The 15 Colby students and faculty who attended the demonstration boarded chartered buses in Boston or traveled to Washington in the Bates contingent assigned to attend a hearing 'before Stu-J. "The rally began, the Bates contingent assigned to attend a hearing "before Stu-J. "The rally the store would not tolerate shoplifting. "My intent was not to be punitive," she stated. "I really expected the student to be brought to the (Student) Judiciary Board."

Around campus" that the store would not tolerate shoplifting. "My intent was not to be punitive," she stated. "I really expected the student to be brought to the (Student) Judiciary Board."

According to Student Judiciary Chief Justice Ted Reed, the student, "had the choice of coming before Stu-J or having the Dean (Smith) sanction it." Sending the offender to District Court was the sanction Smith chose, said Reed. Sometimes, he added, when indivi-

uals press charges, a student may be forced to both attend District Court and come before Stu-J. "That might have a bearing on what we decide as a board," if heavy fines are levied by the District Judge, he stated.

The student was arraigned on a charge of theft, Smith said, and "by agreement of the Chief Justice and myself, he was not required to attend a hearing" before Stu-J. "The college imposed no additional sanctions," Smith added, "except that he had to send a letter of apology to the manager of the bookstore and was placed on probation.

Shoplifting is not a major problem at the bookstore, according to Fair, although at other colleges it is a severe one. "Generally I think the kids at Colby are very honest ones," she said, adding, "our sales last year totalled $344,486-62" and "shrinkage," which includes loss due to such things as invoice errors and clerical errors, as well as shoplifting, totalled $14,000. "That is not a great problem," she declared.

Bookstore Theft: Student Sent Downtown

by Craig Ksynnausk

"This is the first time I've ever reported a shoplifting incident," declared Colby Bookstore Manager SueBeth Fair, "and I feel very badly about the way this whole thing has been dealt with."

The incident occurred in January when a student walked out of the bookstore with books he hadn't paid for and put them in his car. Fair reported this to Dean of Students Earl Smith, who had the offender arraigned in Waterville District Court, where he was fined $100.

According to Fair, she believes that, "One should deter and not penalize," and usually sits down and talks with apprehended shoplifters. "This was a failure," she said, and she decided to use it as an example because she wanted the word around campus that the store would not tolerate shoplifting. "My intent was not to be punitive," she stated. "I really expected the student to be brought to the (Student) Judiciary Board."

According to Student Judiciary Chief Justice Ted Reed, the student, "had the choice of coming before Stu-J or having the Dean (Smith) sanction it." Sending the offender to District Court was the sanction Smith chose, said Reed. Sometimes, he added, when indivi-

duals press charges, a student may be forced to both attend District Court and come before Stu-J. "That might have a bearing on what we decide as a board," if heavy fines are levied by the District Judge, he stated.

"That is not a great problem," she declared.

ADP

Off And Running

by Fran Mallia

Colby's first co-ed fraternity, Alpha Delta Phi, was instituted with the adoption of by-

laws and the election of officers at a meeting last Thursday, April 3. The new fraternity anticipates official approval at the April 16th meeting of the Board of Trustees.

The ADP chapter will not seek a house and emphasizes co-educational relationships, social life, and fun. Anyone interested in meeting the group is invited to a picnic on April 4th, a Sunday afternoon. Please contact, Charlie Gory, Roberts 205, ext. 2-9774.

ADP members elected five of the five officers at the meeting last Thursday. Lucy Nichols was chosen as President, Charlie Gory as Social Chairperson, Scott Sophon as Alpha Delta Phi, Rodger Johnson as Treasurer, and Sarah Robinson as Secretary. These essential positions were filled first to strengthen and speed up the organizational process. Other officers will be elected at later meetings.

Last Thursday's meeting also signified the split between Alpha Delta Phi and the New Coffeehouse planned for Mary Low dining hall. "We two groups have been associated because of a common interest in alternative social life," said Mike Federle, an ADP member who is also on the coffeehouse committee, "and we sent out an all-campus letter this week that explained the coffeehouse and its relation to ADP."

The Colby Coffeehouse, although still in the planning stages, is expected to open next fall. Aspiring to have a real nice atmosphere that is presently missing on campus, says Federle. Students organizing it envision a "place for coffee, food, and conviviality," a social club, and lots of art work, and lots of art. The New Coffeehouse Committee held a meeting Wednesday, April 11th, to elect officers.

Established in 1977, the Colby ECHO is published weekly, except during vacations and examination periods by the students of Colby College. All correspondence should be addressed to the Editor, Colby ECHO, Colby College, Waterville, Maine, 04901. The ECHO is represented by the college advertising service. Entered as second class mail at Waterville, Maine, 04901. Subscriptions are available at $0.50 per year.

J. Edlund, Editor

April 11, 1980

the State University of New York, the All African People's Revolutionary Party, Veterans for Peace and the American Federation of State, County and Municipal Employees.

Speakers ranged from Senator Mark Hatfield (R-Oregon) to Stokely Carmichael, Bella Abzug, the cast of "Hair," and a district president of the United Auto Workers.

At the front of the demonstration a group from the Unification Church waved signs expressing pro-registration sentiments. Three staves during the course of the rally individuals who appeared to be a part of this group ran through barriers shouting "KBG says anti-draft" and other pro-registration slogans. "If they can bring 50,000 people to Washington to demonstrate for the draft," praised organizer Patrick Landfield commenting, "then I say let them go ahead." The counter-demonstrators had no comment for reporters.

First to address the rally at the Capitol was folk singer Peter Yarrow of Peter, Paul and Mary. "I remember so clearly singing this same song against the Vietnam War with Paul and Mary," he said introducing "Blowing in the Wind." "If we don't answer these questions," he added, "if we don't put a stop to the draft..." Hands raised in the V-for-peace sign, the marchers joined in, linking hands and rocked back and forth as Yarrow sang...

Norma Becker, active in the feminist movement and chairperson of the War Resisters League, was one of a long series of speakers who represented a vast spectrum of political ideologies. "We welcome any new converts to the fight to ratify the Equal Rights Amendment, but we positively regret the fact that females along with males should become killers in order to satisfy the US corporate establishment."
The EPC: Rethinking The 32 Credits Per Year Rule

by Lucy Nichols

The EPC, the Educational Policy Committee of Colby College, has been working on a task that has been a point of contention for the college community for some time. The 32 credits per year rule, established many years ago, has been a sticking point for many students and faculty members. The EPC's recent proposal to modify this rule has sparked a lot of discussion and debate.

The EPC's proposal calls for a phased approach to increasing the number of credits allowed per year. The initial phase would allow students to take 36 credits per year, with the goal of eventually increasing this number to 40 credits. The committee believes that this phased approach will allow for a more gradual adjustment to the new rule, reducing the likelihood of causing too much disruption for the college community.

However, not everyone is on board with the EPC's proposal. Some faculty members and students worry that the phased approach will not go far enough, and that the college should take a more radical step by completely removing the 32 credits per year rule. Others argue that the proposal is too timid, and that the college should be more ambitious in its approach to increasing the number of credits allowed per year.

The EPC's proposal has also raised concerns about the impact on housing. Current housing regulations require that students live on campus for at least four years, and some faculty members are worried that the new rule will make it more difficult for students to meet this requirement. The EPC has acknowledged this concern, and has stated that it will work with the Housing Department to ensure that students have access to housing options that meet their needs.

In conclusion, the EPC's proposal to modify the 32 credits per year rule is a complex issue with many stakeholders involved. While some see it as a step in the right direction, others believe that more needs to be done. The college community will need to continue to work together to ensure that the new rule is implemented in a way that benefits all students and faculty members.

New Dorm

Continued from page one

According to Smith, Chu's proposal may not actually be used. "Now that we have an architect, we can begin the process," he said. This will involve meetings between Chu and the Building Committee to discuss the school's needs in concrete practical terms. The only definite decision so far, Smith continued, is that the building will have a combination of suites and single rooms.

Creatures comforts should be considered carefully in the final design, though, according to Dean of Housing, Janice Seitzinger, such as having a single tap for both hot and cold water in bathroom sinks. Further, she favors "built-in kinds of things" like desk tops that fold out "from the walls. Also, Seitzinger said, study rooms and lounge space are important.

Cost of the new dormitory, has not been determined yet, noted Smith, although "each architect was given a ballpark figure" within which to work. "Money was not talked about at the first meeting," he said, but "the architect assured us he was proposing a way to meet the specifications of the college."

The selection of Chu by the Board of Trustees, and Buildings and Grounds Commission was actually a recommendation which has since been approved by President Peter Harris, representing the English Department, cited the professors' academic freedom to choose individual teaching methods, and professional competence in areas other than research writing as reasons against requiring a research paper in all English courses. Harris feels teaching a long research paper would be "detrimental to his areas other than research writing."

The EPC subsequently adopted the measure. "Disquiet" with satisifice's research and writing abilities, particularly documentation, and the reality of a language requirement were reaffirmed without modification.

The EPC further stated that the intent of the revised Jan Plan program is to require one less plan for graduation. All college rules concerning Jan Plan and students who travel abroad will be revised accordingly.

"I doubt that anything will happen this year," said Pawsels about the proposal's chances before the Faculty. "I doubt that anything will happen this year. My prediction is this will be talked to death."

Spring Carnival

Are you ready to Fly High? The Spring Carnival Committee hopes so. Kicking off with the first annual mixed doubles tennis tournament on Thursday, this year's carnival will include a concert featuring Johnny Winter and The Blend on Saturday night in the gym. Prizes will be awarded during the afternoon's fun and games.

Night-time activities begin Thursday with a dance in Fox. The music is live by the Overland Rock Band, and the dancing starts at 8:00. On Friday night, arrival at the all-camp dance in the gym immediately entitles you to a free raffle ticket for the hot air balloon ride on Saturday afternoon. Tickets are also available at $1 for $5. See Colby while

L.L. Bean's Secrets

The Colby Institute for Management held a workshop on a familiar theme to Colby students, the marketing strategies of L.L. Bean, Inc. on March 23 and 24.

The theme of the institute was "Management in Maine: Problems and Opportunities," and eight hours of workshops and addresses covered energy in Maine, employment discrimination, marketing strategies, health care costs of business and new management techniques.

Co-op At Middlebury?

A food co-op has been proposed at Middlebury by Beth Holtzman for the Jewett House and has "received conditional support from the administration" according to the Middlebury Campus.--Sufficient student support is in the condition.

According to Holtzman's plan, 12 of the 40 students now allowed off the board plan with a special rebate would live in Jewett and pool their rebate resources for the co-op's food.

Middlebury Rethinks Frats

The Middlebury Administration and the IFC "have reached a tentative agreement" on revisions to a "Document of Understanding Middlebury Campus." Under a subsection entitled "General College Expectation of Fraternities" the college states that "Middlebury College maintains fraternalism in the belief that they have been at many times in the past and can be in the future a positive addition to the liberal College whole of which they are a part and that they provide students with valuable opportunities for assuming responsibility for activities and programs that support and contribute to the life of the College community. To the end of realizing this potential of fraternity life each fraternity shall prepare a statement of purpose and program that shows how it will contribute to the life of the larger College community. This statement shall be prepared by the officers of the fraternity in consultation with the Dean of the College or the Dean of Students and at the beginning of each academic year each fraternity President shall review the statement of purpose and program with the Dean of the College or the Dean of Students."

Curriculum Review

Bowdoin seeks to answer the same tough question Colby's IFC has wrestled with all year. "What should the shape of the curriculum be for the next 20 years?"
The goals of Curriculum and Educational Policy Committee are to "discuss the philosophy of education here" and to "develop a procedure to evaluate that-involves the entire community."

Low Pay For Clericals

The real spending power of weekly wages of supervisory personnel in higher education today is about 75 percent of what it was in 1967, according to Working Women's Association, "becoming a Priority: The Status of University and College Office Staff." The report, based on a nationwide survey of the pay and working conditions of university clerical workers and extensive research, finds that 75 percent of the clerical workers surveyed make wages below $11,000. "Universities and colleges have to stop fighting inflation by paying substandard salaries to office workers," stated Karen Nussbaum, Director of Working Women, and a former university office worker. "Office staff must become more of a priority in the budgets of institutions of higher education."

Dance The Night Away

A Dance Marathon, open to the general public, will rock Wadsworth Gymnasium around the clock beginning at 6 p.m. on April 18. Until 1:00 a.m. on April 18, the floor will be open to all dancers. A portion of the money raised will be collected to buy food for the homeless. The WMHH staff will be present throughout the evening to accommodate all. Sunday's marathon set for April 15 at 1:00 p.m. in the lobby on 2nd Floor Roberts. Any groups interested in dancing should stop by the WMHH office to pick up pledge sheets and rules before Monday.

COC News

The annual meeting of the Maine Appalachian Trail Conference will be held at Colby this weekend. Anyone interested in our own 10-mile stretch or any part of the Appalachian Trail in Maine is urged to attend. Registration will be at 9:00 Saturday morning, April 12, in the Loveloy building.

An alternative for this weekend is our Medical College Clinic. If you sign up today in the Outing Club Room you may still learn some very important first aid and rescue techniques at the end of the weekend.

Finally, anyone who would like to use Outing Club equipment during Senior Week is advised to reserve it soon. A list has already started.

The survey showed increased organizing activity in the form of union, student constitutions, and departmental groups. Approximately 50 percent of union drives at universities and colleges were won in 1978 and 1979, despite increased use of university funds to pay anti-union consultants to defeat union drives.

Educational Spirit

The Georgetown Voice in an article entitled "G.U. Education: A Spirit" quoted Leona Fisher as saying, "I think the biggest problem is that which's profitable in America." A shift away from philosophy and theology, lack of an intellectual atmosphere on campus and emphasis on professionalism prompted the criticism.

"President's Lament"

Among the minority pre-freshmen were the final candidates for the Ralph Bunche Scholarship. Interviews of these candidates were held during their stay and were described as "very positive."

"Though they were 'shocked that there are only 8 Black students at Colby,' minority pre-freshmen viewed the campus favorably. According to a pre-freshman, even after he had learned of last semester's racist incidents, 'most of the positive feedback came from Black women.'"

Among the planned activities was a non-alcoholic dance held on Friday night which reactions were mixed. While some of the student hosts viewed it as a real success, others saw its main problem as being a lack of alcohol. A pre-freshman host said, "We knew the White students came and left. It was the Black students who stayed. They did not have the right atmosphere."

On the Hill

Over The Hill Softball

The Over the Hill Softball Team is holding tryouts for this fall. Anyone interested in trying out should call 30-589 for more information.

Professional Counters

United States Census Bureau enumerators will be maintaining their work on campus through next week. Each student will be receiving an Individual Census Report form which they are asked to fill out and return to Roberts Desk as soon as possible. Forms which are not returned will require a personal house visit from one of the enumerators.

Pre-Frosh

Formal faculty-student activities included a reception on Thursday and a dinner on Friday.

Continued from page one
The meeting will be held at 7:30 p.m. in the Robins Room on the 2nd floor Roberts. April 14, 1980 will include:

1. Discussion of EPC Proposals voted on by the faculty.
2. What is the future for WMHR?
3. Selection of a Parliamentary Stu-A member.
5. Discussion of Student Ambassador Program of Stu-A.
6. Stu-A Committee Reports.
7. Other Business

The meeting will be held at 7:30 p.m. in the Robins Room on 2nd floor Roberts.

Stu-A conditionally endorsed the EPC's recommendations to the Faculty on Curriculum revision. In a letter to the Faculty, Jay Otis, Executive Chairperson of Stu-A, stated that the Stu-A Executive board "resolved a general consensus on the positive nature of the direction and content of the recommendations as a whole."

By unanimous vote of all Stu-A members present, the recommendation that would set a maximum limit of 32 credits which could be applied per year was not endorsed.

The faculty letter stated the following reasons.

"It is the feeling of the Stu-A that such a limitation would be an unnecessarily binding and unwarranted restriction on the Colby student body. While realizing the reasoning behind such a recommendation we feel that there are other solutions available to deal with the possible acceleration of Colby students, thus allowing them to graduate early. Such available remedies include the present system whereby anyone who desires to take more than 18 credit hours in a semester must fulfill certain criteria to do so, or a limitation on the amount of credit hours which can be applied before the final limitation." (Final quotes are usually three to six sentences long.) But the resulting statement, "(although Colby is a small college, I've had a chance to do things here that I couldn't do at a large university. I know most of my professors and recognize almost everyone on campus. More importantly, I've had the opportunity to explore the community within which Colby exists. I've come to appreciate and better understand the people in Maine.)" had lost its original intent.

It wasn't accurate at all," Mary said. Ms. Venman agreed and decided not to put Mary's picture or the "revised" quote in the Colby. Mary's picture quote was then sent to the public relations office for the final editing for next fall's Colby. Ms. Venman said the "revised" quote was shortened to just three sentences "because of a basic space limitation." (Final quotes are usually three to six sentences long.) But the resulting statement, "(although Colby is a small college, I've had a chance to do things here that I couldn't do at a large university. I know most of my professors and recognize almost everyone on campus. More importantly, I've had the opportunity to explore the community within which Colby exists. I've come to appreciate and better understand the people in Maine.)" had lost its original intent.

Mary's picture quote was then sent to the public relations office for the final editing for next fall's Colby. Ms. Venman said the "revised" quote was shortened to just three sentences "because of a basic space limitation." (Final quotes are usually three to six sentences long.) But the resulting statement, "(although Colby is a small college, I've had a chance to do things here that I couldn't do at a large university. I know most of my professors and recognize almost everyone on campus. More importantly, I've had the opportunity to explore the community within which Colby exists. I've come to appreciate and better understand the people in Maine.)" had lost its original intent.

The recommendations give general criteria for "basic" courses and would require that each department "indicate which of its courses satisfy 'basic' requirements." The recommendations would require that half of the distribution requirements in a division be fulfilled by those "basic" courses.

The recommendations retain the current 120 credit hour graduation requirement. They would limit the total number of credits a student may count toward graduation after completing years of study. But various exemptions would be possible, including an automatic one for students with a 3.25 average in the previous two semesters.

The creation of a task force, by the President, "to study the advising system at Colby, particularly at the freshman level," is recommended.

In total, the recommendations represent the work of three separate EPC task forces on work load and Jan Plan, distribution requirements and the major, and all college requirements. The task forces conducted extensive studies and involved a number of faculty, students and administrators.

The faculty will consider the rest of the recommendations (all except those on the course catalogue) in a series of meetings during the course of the next month.
Natural Lighting A Success

Black Wednesday, March 19, was "Natural Lighting Day" at Colby College. Everyone was urged to refrain from using electric lights during class hours. The Energy Conservation Committee's (ECC) meter readings show that the Colby community saved as much as $64 through cooperation. 

Efforts by the Colby community saved between 1,100 and 1,800 kilowatt-hours on Natural Lighting Day. At 4:58 per kW, these savings range from $33 to $54 per day. On the previous Friday, members of the ECC posted signs, and wrote notes on blackboards of all classrooms asking people not to use electric lights on Black Wednesday. Most classrooms have sufficient window area to light the desks and blackboards. Those few rooms without windows, obviously, could not participate.

Energy Conservation Committee

The Colby College Energy Conservation Committee (ECC) was formed early this semester on student initiative and is made up of one or more representatives from each living unit and some interested faculty and staff members. Steve Harding (Colby '80) chairs the committee with technical advice from Jon Limn, Colby's Energy Conservation Engineer. The committee is promoting energy awareness programs.

A spot check of 38 classrooms was made at 10:00 A.M. Fourteen had lights out entirely; two had half the lights on (one student was lab class); and two had all lights on. (one in Lovejoy-100--no windows, the other was Arny 110--no excuse).

As an afternoon spot check showed less positive results. Of seven rooms checked two had all lights out two had half the lights out and three had all lights on. Of the three exteriors, one had a class in session, one was empty (Mudd 19) and one room (Mudd 483) had one student working at the desk, with all 1328 watts of lighting burning away.

Results of the spot checks showed that people were concerned with energy conservation. Some people, especially in Mudd, where there aren't many windows, were obviously making a sacrifice to help the occupants. They have been tabulating their observation of the condition of radiators, valves, windows, etc. The representatives have also been measuring the flow rate from each shower in their dorm to locate the energy gluttonous five gallon per minute shower heads which should be switched to two gallon per minute heads.

New signs have been posted around the campus which show the amount of energy used so far this year, in comparison with the amount used last year. The committee organized the successful "Natural Lighting Day" on Wednesday, March 19, and they have other projects being planned which will also serve to raise people's awareness of energy conservation. Their plans are numerous and limited only by time.

"We have a long way to go in saving energy," said Linn when asked about Colby's progress, "but there are a lot of people who want to do their part. Every week new people show up at the meetings. Said Linn, "This is a good sign, I hope it continues."

Colby Energy Conservation Committee Note: Logan contest extension to Tuesday, April 15 $50 award drop entries at Roberts desk

April 11, 1980

The Colby Environmental Council is gearing up for a celebration of Earth Day. April 22, 1980 marks the 10th anniversary of Earth Day. The focus of this event is on the positive educational initiative of citizens to improve environmental quality and to protect natural resources. The CEC is sponsoring a number of activities starting on Wednesday, April 16, and culminating on Earth Day, April 22. A hardy invitation to attend and participate in any or all of these events is extended to all the Colby community and residents of the greater Waterville area. A schedule of events will be posted around campus as soon as plans are finalized.

Activities during the week include:

Wed.: A workshop on residential energy and the use of solar panels. Panels will be on display for inspection.

Fri.: A campus-wide paper drive with a tour of Keyes recycling facilities to follow. Also, an evening of music and singing around the campfire.

Sat.: A walk with Dick Arbor on Runnals Hill with a discussion of the cuttings done there. Pruning of the Colby apple orchard—yes, there is an orchard on top of Runnals Hill. Tree or shrub planting in front of Roberts Union; and finally, a contra dance.

Sun.: A bird walk in the Arboretum, led by Dr. Cole of the Biology Department. Meet in front of Arey at 6:00 a.m. with binoculars. There will be a bike ride to Bonnie's for breakfast after the walk. Also on Sunday, a canoe cruise, and a new games festival in the afternoon.

Mon.: An open discussion on any environmental issues for faculty and students at 4:00 in Rose-Woodworth. Also, CEC can leave for Acadia National Park for those interested in the Earth Day Sunrise celebration on Mt. Cadillac.

Tues. — Earth Day: Films will be scheduled for afternoon and evening showings

- The Solar Frontier
- No Act of God (about nuclear power)
- Budworks (about the spruce budworm)
- Voices (documentary on citizen protests of environmental damage)

Other possible events during the week are: a talk and slide presentation on the New Alchemy Institute; a talk by Paul Koshko of the EPA and national coordinator of Earth Day on the Environmental Movement Past, Present, and Future; and a talk about what to do during the week. The CEC would like to emphasize the use of natural lighting on campus. So take the initiative and turn off all unnecessary lights.

Note: In preparation for the New Games Festival, there will be a workshop this Sunday afternoon from 4:00 to 6:00 open to all. We will meet at the Fieldhouse. All those familiar with or interested in learning about the New Games' philosophy and cooperative, competitive play are urged to attend this session led by Mary Schulman of Camden, Maine. This is an excellent opportunity for those who work in community recreation programs or summer camps.
Continued from page two.

The next speaker on the makeshift platform erected next to a statue of a lounging Chief Justice John Marshall on the Capitol steps was Beverley Berry Lynne, chairperson of the Committee Against Registration and the Draft. "It is impossible to claim that the system will not be racist," he said, discussing a theme central to the objections of the registration protest group, "when it is actually part of a racist and sexist society." Lynne was interrupted, as were many of the speakers, by chants of "No draft, no war!" and "Hell no, we won't go for Texaco.

"We can't allow the President to ignore the reality of nuclear war," commented Lynne (D-New York City) commented. "Registration would only bring us one step closer to such a nuclear war. Draft registration is an absolute menace." As Weiss finished, a man emerged from the crowd and rushed the stage, apparently to grab the microphone. Peace marchers apprehended him and led him off, while angry protesters ran up to help.

Wisconsin representative Kastenmeier was milder in his approach. "Please do not divide this community or this country," he said. "I'm against registration or the draft. You are not here to cause trouble. Peace marchers have a right to be heard.

"You are going to keep on protesting the cold here, my friends, but not as cold as it is in this country. I think it's important to continue the demonstration. The feeling that most in criticism of current policies. "I think it's time we march on the White House."

Among the Maine contingents of the rally was a leader of the draft resistance movement in the sixties, discussed the polities of the current administration in regard to the draft legislation now before Congress. "It's no secret to us that Jimmy Carter, thinks we're guilty of a severe misrepresentation. That shows how much he and his policymakers seem to care about human lives. Given a choice between saving gasoline and shedding blood, Jimmy Carter has chosen for us the alternative of shedding blood."

"I definitely think there is an interrelation with what happened during the sixties, but the people, the speakers, even the mood is much more sophisticated today," Below concludes. "We've learned a lot from the past, but we're moving toward the future."

Meanwhile, a House Appropriations subcommittee last month refused to approve the $13.3 million needed to begin registration by a vote of eight to three. The Appropriations Committee, however, has been asked by the White House to overrule that decision. Oregon's Hatfield, who spoke at the rally, has told the administration that he is convinced a peacetime registration is not needed. Oregon's Hatfield, who spoke at the rally, has told the administration that he is convinced a peacetime registration is not needed. Oregon's Hatfield, who spoke at the rally, has told the administration that he is convinced a peacetime registration is not needed. Oregon's Hatfield, who spoke at the rally, has told the administration that he is convinced a peacetime registration is not needed. Oregon's Hatfield, who spoke at the rally, has told the administration that he is convinced a peacetime registration is not needed.
Briggs To Speak

by Chih-Chien Hsu

Everett Ellis Briggs, a career diplomat with the United States State Department, will be speaking at Colby on Wednesday, April 16th, at 8:30 p.m. in the Roberts Room in Roberts. The topic of his lecture will be current U.S.-Mexican relations. (Briggs is currently the director of Mexican Affairs at the State Department).

A graduate of Dartmouth College, and receiving his Master's at George Washington University, Briggs entered the foreign service in 1956. His first assignment was in La Paz, Bolivia. His next assignment was in West Berlin, where he was stationed during the height of the blockade of the city by the Soviets (1961-63). Then he was moved to Lisbon, Portugal (1963-67). From 1967-71, Briggs held various posts at “taggy goons” (Department of State in Washington), including the Bureau of International Organizations and the Cyprus Desk.

His next foreign assignment was as United States Counsel General in the then Portuguese overseas Province of Angola, where he remained until the eve of the Portuguese pullout that signaled the start of the Angolan civil war.

In recent years, Briggs has concentrated on Latin American affairs, having been the deputy Chief of Mission in Asuncion, Paraguay (1974-78) and served as deputy to the now hostages American Ambassador to Colombia, Diego Asencio, until September of last year. Briggs is currently the Director of Mexican affairs at the State Department. He will be coming to Colby at the invitation of the International Relations Club.

The forty-fifth annual meeting of the Maine Appalachian Trail Club will convene at Colby on Saturday, April 28th. It will be held in Lovejoy Auditorium, and is sponsored by the Colby College Outing Club. Eight miles of Colby's 18-mile section is to be relocated, which is a part of a larger relocation, the theme of the conferences. Anyone interested is invited to attend the following events:

- 8:08-9:30 Registration and coffee, at Auditorium
- 9:30-9:45 Welcome, Colby College Opening remarks.
- 9:45-10:30 Status of the A.T. Protection Program in Maine. The May “Walk-through.”

1980 Club work trip plans, Management Planning Workshop
11:00-12:00 Lunch: Roberts Union, Colby College
1:00-2:30 Reports from the Trail Maintainers, led by Jim Mitchell, Overseer for Western Maine, Lester Kennay, Overseer for Central Maine, and John Neff, Overseer for Eastern Maine
2:30-3:30 Business Meeting. Reports from:
- Barbara Clark, Secretary
- Elsa Sandors, Treasurer (Presentation of 1981 budget)

Briggs With Bodyguard in Bogota, Colombia, January 1979.

Appalachia At Colby

Briggs is looking for an intern for one year in the Los Angeles area, the Spring Employment Guide for that area has just arrived (Lovejoy 110).

Science-Museum Internship Program - A nine month science center-museum internship program designed to provide in-depth training and general exposure to the traditional functions and activities of science centers and museums. Candidate should have an interdisciplinary science, education, or museology background, with a strong interest in public information. Find out more in the Career Planning Office.

Work in Los Angeles - If you are interested in the Los Angeles area, the Spring Employment Guide for that area has just arrived (Lovejoy 110).

Publishing - Prentice-Hall is looking for college and high school graduates. An interesting job involving travel and a good way to break into book publishing. Job descriptions and information in the Career Planning Office.

Deaf Education - The Governor Baxter School for the Deaf in Portland is having a career education day for anyone interested in the following professions: teaching of the deaf, speech therapist, administrator, audiologist, interpreter, and vocational instructor. The sessions will be on April 14th from 8:00 a.m. to noon. More information in Lovejoy 110.

Actuaries - ABE is desperately looking for students interested in actuarial work. Must have a GPA of 3.0 or better. If interested, contact Kathy in Lovejoy 110.

Elementary Teaching Internship Program - at Syracuse University. Designed for those without teaching backgrounds as well as those with certification. Teaching in the city schools as well as coursework at the university. Earn a masters and teaching certification. Information available in the Career Planning Office.

YMCA - the Oxford Hills, Maine YMCA is looking for an Assistant Director and a Counselor. Job announcements are in Lovejoy 110.

US and World Community Joint Intern Program - in Chicago or New York offers year-long internships for graduates interested in the field of world affairs. The work includes research and writing, public speaking, organizational management, fundraising etc. One day a week is devoted to seminars. Descriptions and information in Career Planning Office.

Rural Coalition Internship in Washington, DC - a non-profit organization in Washington, DC offers internships in those students interested in issues of national policy as they affect rural low-income and minority people.

Law School is your Future? Seniors thinking about law school in a few years should attend a meeting on applications procedures and the LSAT on Wednesday, April 16th at 4:00 p.m. in Lovejoy 101.

Career Watch

Marketing - Proctor and Gamble in Cincinnati is interested in receiving resumes of students contemplating a career in marketing. Contact Career Planning if you are interested.

Expedition Research - A placement service for college students interested in joining research and exploration expeditions throughout the world. Opportunities to work with professors in the field of anthropology, archaeology, biology, ecology, geology, glaciology, oceanography, and zoology. More information and applications available in Lovejoy 110.

Housing is New York - If you are planning to work in New York City next year, there is a housing service available to help you find a place to live. Find out more in Lovejoy 110.

HELP WANTED: Private swim club on ocean in New Hampshire is seeking male and female lifeguards for summer. Must have WSI, diving instructor also needed. Duties include guarding, lessons and special activities. Must enjoy children. Please write: Nancy Port, 65 Walls Road, Rye, N.H. 03870. Applications close April 21.
Sports
Mules Burn The Cross
by Chris Carmosino

Last Saturday the men's lacrosse team traveled down to Worcester Mass. and came away with an impressive 10-6 victory over Holy Cross. "A game," noted coach Bob Ewell, "that we had to be mentally prepared for, and we were." Not only were the Mules facing an unknown quantity (Holy Cross is a new addition to the schedule), but it was also only the second time Colby has played outdoors this year. Ewell and co-captain Charlie White both agreed that "In spite of the unfavorable conditions, we performed extremely well." A key to the victory was the exceptional play of the attack. Led by Pat Porsh, they proved to be opportunistic scorers, firing in 8 of the 10 Mule goals. Fortin had 4 of those himself along with one assist.

The midfielders played well on an overall basis. The line of Charlie White, Whit Symmes, and Chris Evans, played good defense, and got contributions offensively from Symmes (1 goal) and White (1 assist). The line of Shota Aki, Tony Lainez, and Josh Burns, did a good job of keeping the ball in the attack zone, constantly keeping the pressure on Holy Cross. Aki and Lainez demonstrated hustle all day, picking up ground balls everywhere, while Burns fired home a goal and 13 of 18 face-offs. Gaining possession on face-offs is important, and Josh is one of the best face-off men around.

Mens' Lacrosse

Overall it was a very solid effort by the Mules. The biggest thing that got the Mules was no easy victory. Colby shot out to a quick 3-0 lead after one period, but the 2nd and 3rd periods saw Holy Cross overtake the Mules 5-3, and after three periods Colby had a scant 6-5 lead. But the Mules kept their cool, regained the momentum and blew out the Crusaders 4-1 in the last stanza to make the final score 10-6.

The End Of An Era
by Jonathan Greenspan

Under Roger Staubach's bust at the Football Hall of Fame, the epitaph shall read "Under the banner of the football field there were none better." He was a defensive back's lament, a soothsayer's delight. The quarterback of America's self-proclaimed "team," Staubach's retirement this past week ended an era. The most stable position in all of sports became the largest void to fill.

In essence, Staubach's retirement is the final plug to be pulled from the most recent Cotton Bowl Champions. Along with Staubach, this past week, Cliff Harris called it career. Both of these all-pro join Ed "Too Tall" Jones, Jethro Pugh and Thomas Henderson on the sidelines, all starters for the Cowboys in their last two Superbowl performances.

Seldom has there been a career as distinct as Staubach's. In 1963, as a Junior at Annapolis, he won the Heisman trophy. Drafted by both the Cowboys and the Chiefs, Staubach had to forego a football career for a four year stint in the Navy. In lieu of Cowboy Stadium, Lieutenant Staubach's aerials would grace the sky of Danang, Vietnam for the duration of his military duty. In 1969, he finally shed his Navy uniform and of the two other gifted quarterbacks behind him, Don Meredith and Craig Morton. Within two years, Meredith had retired and Morton clearly established himself as a nummber one in his final game against the Rams last December. It is ironic that within the same week that the NFL says goodbye to one of its most distinguished members for precautionary measures, that the New York Times runs a full page add for Jack Tatums ode to cruelty They Call Me Assassin.

But for Roger Staubach, there will be no more host to WP's! He will be tossing no more pins at the NLF. At 38, Staubach's retirement from professional ball comes at an age when most quarterbacks are either supporting pol bullets or doing time on Lite Beer commercials. At this point in his career, Roger the Dodger is neither supernumerous nor unimpressible. His talents would still very much be welcomed in any NFL training camp come this summer. No one is gladder to see Staubach go, than his former teammate, the Epic of Danang, Vietnam has ended, the era. -The most stable position in all of sports became the largest void to fill.

P.S. In the end Staubach was the recipient of six concussions including one in his final game against the Rams last December. It is ironic that within the same week that the NFL says goodbye to one of its most distinguished members for precautionary measures, that the New York Times runs a full page add for Jack Tatums ode to cruelty They Call Me Assassin.

Moscow Update

Moscow Update is intended to be factual rather than editorial commentary. If you have any comments or contributions please address them to Moscow Update - Box 1437.

Compiled by David M. Sturge

March 26, 1980
London-
The British Olympic Association (BOA) decided by a big majority to send a team to the Olympic Games in Moscow in July. Five sports voted for immediate acceptance of the invitation to Moscow, only one was opposed and four asked for the decision to be deferred.

The BOA stated that there will be "no pressure to participate on individual sportsmen and sportswomen who prefer not to be considered for the team." Sir Denis Poyles, Chairman of the BOA, said that despite government opposition, the association feels that sport should be a bridge, and not a destroyer.

March 20, 1980
Moscow-

Vladimir Pivov (First Vice-Chairman of the Moscow Games organizing committee) said that sport can be put under a glass cover and isolated from society and its problems. At the same time the main task today is to deliver sport from being used by politicians in their own subjective interests, and to bar it from political speculation.

"The first part of the Olympic Charter formulates the basic aims of the movement, as well as the IOC code of rules, stress that opportunities must be created for cooperation and contacts, which, in turn, contribute to creating a quieter world. The Olympic Games are an important factor for stability in the world of today — a world in which all ordinary people want to live and work in peace."

March 24, 1980
Los Angeles-

The organizing committee of the 1984 Olympics in Los Angeles has condemned attempts by the US government to stage so-called "alternative" games to the Moscow Olympics.

"The president of the organizing committee of the 1984 Olympics, Mr. P. Usher, told a press conference in Los Angeles that he hopes the US team would take part in the Moscow Olympics."

Co-captain Charlie White noted that "by keeping our poise we didn't lose control of the game which gave us a chance to win it in the end."

This Saturday at 2 pm the Mules will play host to WP's! It is a night to be another exciting contest.

Mules MUZZLE TERRIERS

Tri-captain Artie Sullivan's 4 RB1's and a strong pitching performance by Bill Collins paced Colby baseball team to an easy 12-2 victory in their home opener against neighboring Thomas College on Wednesday. Sullivan singled twice with the bases loaded, and Collins used just 51 pitches in five innings, while holding the hapless Terriers to one single career hit.

Reliever Chuck Rousseau pitched scoreless ball for the final four stanzas.

Outfielder Jay Donegan contributed with four stolen bases (including home twice) and some stellar defensive play.
**Shaffer Goes National**

This week the ECHO acknowledges swimmer Wendy Shaffer as one of Colby's outstanding athletes. Shaffer is the first woman in Colby history to participate in the NCAA championships.

At the New Englands held back on March 1 at SMU, Shaffer was superb, coming in 3rd in the 200 yd butterfly. Her efforts earned her qualification to go on to the March 15 NCAA Div. III competition which was to be held at Allegheny College in Meadville, Pennsylvania.

The sophomore from Norwalk, Conn. did not let this tremendous opportunity go by the boards. In each of the 4 events, Shaffer was between 27 and 30 out of a field of 80 swimmers.

When asked about the Pennsylvania visit Shaffer had these comments: "I was really impressed with the competition. There were 106 schools participating. It was a really good experience."

Shaffer holds several Colby women's swimming records, among which the 400 yd individual medley, which stands at 4:02.3.

---

**Victories, Losses**

**by Steven Nicholas**

The high-paid professionals may be on strike, but the season began as scheduled for the men's baseball team here at Colby. Well, almost. The season's opener against Holy Cross was postponed for a day, so the Mules commenced the 1980 campaign with a doubleheader against Clark University in Worcester, Mass. Instead. And a successful debut it was, as the tanned Mules swept both games by healthy margins, 10-0 and 9-0.

In the first game the Mules, unhampered by damp weather conditions, displayed a potent offensive attack—a good sign so early in the season—hammering out ten hits and stealing ten bases.

Jeff Paradis and Tom Conliffe were the big hitters; each with a double, a single, and two RBI. George Katz and Tom Haggerty each had a single and one RBI, and Jay Donagan, Paul Belanger, and Bruce Anacleto also banged out base hits.

Bill Collins and Ed Ludwig split the mound duties, holding Clark to just six hits. Collins, in relief of Ludwig, was the winner. The Mules were aided by seven Clark errors, which combined with their strong outing at the plate, earned Colby their first victory of the young season.

Their second victory was not long in waiting. After a short break, the Mules handed Clark their second defeat of the afternoon, an impressive 9-0 shutout. Their second offensive onslaught was even more potent than the first—11 hits and 8 stolen bases.

Jeff Davis led the Mules with two hits and 3 RBI. Seth Meldin had two RBI-singles, as did Paul Belanger. Jeff Paradis had another
good day at the plate, collecting two more hits and another RBI. Artie Sullivan, Tom Conliffe, and Tom McIlhinney also had
bases for the Mules.

Kaufman was the winner, allowing just two hits in five innings. Jamie O'Neill pitched the final two innings and preserved the shutout.

"We hit the ball very well," was O'Neill's postgame comment. "We had 27 hits and 18 bases in ten innings. That must be some kind of record."

The Mules carried their 2-0 record to nearby Babson, who won a game which had been postponed due to rain two days earlier. The Mules, however, were only prolonged as the Division I Crusaders broke into the Colby loss column with a 6-3 triumph.

---

**Baseball**

Holy Cross grabbed the lead in the second inning when third baseman Neil Solomon singled and eventually scored on two Colby throwing errors.

The Mules knotted the game in the third inning when Haggerty bunted his way to first base and moved to second on Davis' single. Davis was then forced out at third on a groundball, but broke up the doubleplay with a nice slide that opened the door for Solomon to score. The Mules almost took the lead in the later in the stanza, with Jay Donagan on third, and Bob Desmond on second. Belanger hit an hard grounder to third, but Donagan was caught in a rundown and the threat ended with the resulting tag.

The score remained at 1-1 for the next three innings, as Colby's Lloyd Hill stifled the usually productive Crusaders bats.

In the bottom of the sixth, however, those bats came alive. Solomon started things off with a flyball to right field that Belanger apparently lost in the sun, and it fell for a double. Bill Spillman drove in one just past Seth Meldin on the first base line for a double, Solomon scored, and it was 2-1 Holy Cross.

But, unfortunately for the Mules, it didn't end there. With two outs, two Colby errors in the lead to the Hill, the victim of poor support, was pulled in favor of Chuck Rousseau, who prevented further damage to the seventh anyway. Another Colby error proved costly in that inning, and the Crusaders added another, this time in their half of the eighth, off Colby reliever John Crowley, to make it 4-1.

The Mules threatened with a comeback in the top of the ninth and final stanza. With two outs, Haggerty beat his third single of the afternoon. Davis walked. Donagan reached an infielid hit to lead the bases. Anacleto's infield hit scored Haggerty, and Belanger singled home both Davis and Donagan to pull the Mules to within two, 6-4. The Crusaders changed pitchers after Colby had loaded the bases, but Paradis flyed out to right field to end the game.

If they could have liked to have beaten Holy Cross, lamented Colwell after the loss. "We scored enough runs to win, but the defense wasn't there."

The Mules are back home on Saturday for a doubleheader against Southern Maine. The action starts at noon.

---

**Social Life Meeting**

There will be an open Social Life meeting on Thursday, April 17, at 6:30, on second floor. All students who are interested are invited to attend. Discussions will focus on upcoming Spring Carnival activities and plans for next year. Please come if you are interested, get psyched and show up next Thursday.

---

**Tennis Drops Two**

**by Mo Pille**

The Men's Tennis team made their season debut this past weekend, traveling to MIT and Babson.

Friday's match pit the men against the formidable MIT team. Despite the 9-0 loss, the etter refused to give in to their opponents and persisted with sound performances. Doug Mears, seeded third in singles, went three sets with his opponent, Varian Pizioram, before losing 6-2, 7-6, 6-8. At 4th seed, Rich Dube got off to a good start but was overpowered by MIT's Joe Pasquale 6-4, 6-4.

In other singles competition, number one seed Bob Danson was defeated by Charlie Calkins 6-4, 6-1. Matt Lewis dropped two to Alex Hamza 6-3, 6-2, while 5th seed Jon Kaufman lost 6-4, 6-1 to Ted Epp. Rounded out the squad at 6th seed, Colby's Ken Wong was defeated by Jay Napolen 6-2, 6-2.

In the doubles match-up, Danson and Lewis were tough competition for Hamza and Pizioram, but went down 6-3, 4-6, 6-3. Mears and Kaufman also turned in strong performances but were defeated 7-5, 6-2 by Napolen and Pasquale. The pairing for the 3rd doubles match pit Colby's Bob Eber and Dave Mordecai against Calkins and Epp. Again MIT was successful, winning 6-2, 6-5.

Eager to rebound off the MIT disappointment, the men traveled to Babson on Saturday. Colby's performance improved from the previous day as Babson squeaked by with a close victory, 5-4.

Colby's Jon Kaufman contributed with both singles and doubles victories. Kaufman exhibited steady, consistent groundstrokes as he defeated Babson's Gerry Owen 6-4, 6-2. In the doubles competition, Kaufman and Mears combined forces to outlast their opponents Bill Goodman and Jace Rosenbluth 6-4, 6-7, 6-4.

Rich Dube gave Colby another point, beating Rosenbluth 6-4, 6-2. Colby's favorite point came off the raquets of doubles partners Matt Lewis, defeated Terry Whelan and Isaac Hakim, 6-4, 6-3.

The remaining singles matches were disappointments, as the etter dropped four contests to a hot Babson squad.

With their first competition behind them, Colby is looking forward to starting a winning streak as they take on Thomas College Saturday at 1 p.m. on the Colby courts.

**Peter Webber's SKI SHOPS**

52 MAIN STREET
WATERVILLE, MAINE
TEL 803-4696
Eller Tapper took the 100-meter hurdles in the Women’s Track meet held at Boston University, Harvard, and the Liberty Track Club. From BU, Colby, Northeastern, Lowell, and the University of Massachusetts captured the long jump by leaping 15’3”.

Laura Young took 3rd in the high jump, while junior Nancy Leland placed 3rd in the shot put by achieving a distance of 30 feet 3/4 inches.

New England’s best athletes will be there.

The London Welsh Colts, the touring side would however like to point out that the women’s next meet is at the UMass Millhills. The trip was a rewarding experience for all involved. Relative newcomers, notable Paul Goulet and ‘the desire to win.”

The Colby Ruggers will begin their spring season at Bates, Saturday all p.m. Anyone interested in becoming a spring Ruggers Gain ‘English Experience’

The 1980 Colby College Rugby team tour of England has to be considered a success despite the fact that the Ruggers were unable to achieve a victory during their 10-day visit. The team outscored the hand of the London Welsh Colts, the Old Millhills and the Old Meacons. Members of the tour side would however like to point out that the team was quite successful in all phases of their off-field activities.

Colby’s first match was against the highly-touted Colts of the London Welsh, a side which had suffered only one defeat at the English Rugby season was drawing to a close. For the first ten minutes Colby largely carried the play which had been so one-sided in the English Colby ran the ball well but was plagued by a missing, inability to translate superb individual runs and ball control into points. Colby also developed a manpower shortage at John Fleurlage, Rod Marshall, Keith Davis, and Brad Richards were bothered by injuries. Richards turned in a fine effort despite a bad ankle. Gary Devos was the outstanding player.

provided Colby’s only points. Despite the terribly lopsided score of 58-3, the Ruggers displayed an aggressive style of hitting which would continue to impress their opponents throughout the tour. Fortunately, Colby went into the Millhills game on Wednesday with a somewhat less than optimistic attitude. The Millhills capitalized on Colby’s lack of enthusiasm with four quick scores. Once Colby settled itself into the pace of the game, however, the Millhills became increasingly less effective, scoring only once in the second half. Colby ran the ball well but was plagued by a missing, inability to translate superb individual runs and ball control into points. Colby also developed a manpower shortage at John Fleurlage, Rod Marshall, Keith Davis, and Brad Richards were bothered by injuries. Richards turned in a fine effort despite a bad ankle. Gary Devos was the outstanding player.

on the tour, while Bob Davidson played exceptional games in the backfield. Dave Bucy and Marcus turned in another solid effort at fullback. The Ruggers faced the Old Meacons side with high hopes of victory. Unfortunately, close official working to the disadvantage of the less experienced Colby squad. The Meacons would score only by virtue of the referee’s whistle, booting 3 penalty kicks for their margin of victory, 0-0. This game in particular saw Colby deal out tremendous punishment, with 24 points in the backfield. Dave Bucy and Marcus turned in another solid effort at fullback. The Ruggers faced the Old Meacons side with high hopes of victory. Unfortunately, close official working to the disadvantage of the less experienced Colby squad. The Meacons would score only by virtue of the referee’s whistle, booting 3 penalty kicks for their margin of victory, 0-0. The following information has been prepared by the room draw committee and is important to all students whether they wish to reside on campus or off-campus, or to withdraw for the academic year 1980-81.

PLEASE NOTE THAT EVERYONE MUST DRAW A NUMBER, WHETHER YOU PLAN TO LIVE OFF CAMPUS OR WITH A PERSON FROM A DIFFERENT CLASS YEAR. STUDENTS MUST HAVE A LOTTERY NUMBER TO SELECT A ROOM.

Dates and Deadlines: It is crucial that students be mindful of the various dates and deadlines related to room draw. Failure to observe these deadlines can result in loss of priority or cancellation of room.

B. MALE/FEMALE DISTRIBUTION:

*Coed: Averill, Dana, Johnson, Leonard, Martiser, Taylor, Foss-Woodman
Non-Coed Male: Coburn, Robins, Chaplin, Pepper
Non-Coed Female: Mary Low, Mary Low Annex, Butler, Champlin, Small, Sturdivant

C. THE PROCEDURE:

Number Draw: Every student must draw a number, whether planning to live with a person from the same class or a different class.

There will be a number draw day for each class, on which every student who wants a room for '80-'81 must draw a number. This number will then determine the order of selection of rooms.

On Senior Room Selection night, when numbers are called seniors may:

a) Select a single, double, triple or quad - as long as there are enough roommate(s) to fill the room to capacity and everyone can fit in the quota.

b) Opt to draw in juniors or sophomores, as long as everyone can fit in the quota.

c) When drawing with underclassmen the students must use the seniors number to select a room. Seniors cannot use the underclassmen’s number and select a room on the upperclassmen’s number.

On Junior & Sophomore Selection nights, the same procedures hold true, except that underclassmen drawing with upperclassmen must use the upperclassmen’s number and select a room on the upperclassmen’s number.

The Quota: A strict quota will be in use. After students have drawn for off-campus, fraternities, and language floor, and dorm staff have been assigned, the number of students left will be divided into class years and slots will be reserved in every dormitory for each class year on the basis of this percentage. Please note that in Mary Low and Coburn the quota will be by floor.

Eligibility Requirements:

1. Eligible
   a) Only those Colby College students who have paid $100 room deposit to the Business Office by April 4, 1980.
   b) Students on approved leave of absence who have returned housing preference forms and have paid $100 room deposit. Note: Students who pay the $100 deposit after their class number draw day will automatically go to the bottom of the class list and will not draw a number.
   c) Students who have drawn a lottery number on specified class draw days.
   
2. Ineligible
   a) Those students who have signed fraternity agreements for 1980-81.
   b) Students who have been granted permission to live off-campus.
   c) Dorm staff and their roommates.
   d) Students who have elected to participate in the language floor.

Single Rooms: Students wishing to change from one single to another (after October 15) will be allowed to change ONLY by switching with other students who have singles and who will be in residence for a full year.

Waiting List for Single Rooms (after all students have selected rooms):

a) Students who are interested in placing their names on the waiting list for single rooms should report to Dean Selinger's Office (Eustis 203) between May 5 and June 1 to complete a single waiting list form and to choose a lottery number. The waiting list will be ordered by class year first, then lottery number. After June first, students may place their names on these lists on a first come, first served basis by class year.

b) As singles become available during the summer, the spaces will be filled by the first person on the list, with second semester seniors receiving singles first; then first semester seniors, etc.

c) Students who have elected to participate in the language floor will be excluded from the waiting list.

No Shows: Students must draw numbers or have their proxies draw numbers for them on the appropriate days. Neither lottery numbers nor rooms will be chosen for "no shows." Students who show up after the
number draw has taken place will NOT be able to draw numbers but
will be placed on the bottom of the number of the number list for their
class as long as they register by April 24th.

After April 24th, no shows go to the bottom of the waiting list
under sophomores, for housing placement over the summer. If on room
draw night, a person is not present when his/her number is called, then the
person will have fifteen minutes to show up and claim a room before going to
the bottom of the class list. During the fifteen-minute period, the selection
process will continue and the lottocmmer will draw when he/she arrives. When
fifteen minutes have passed, the students who fail to show up for Room Selection
Night will be placed at the bottom of the waiting list for summer placement
AFTER the sophomores who were closed out of rooms.

Off-Campus Living: One hundred and seventy-five students will be permitted
to live off-campus for the academic year 1980-81. No priority will be given to present
or former off-campus residents. Second semester seniors will be granted permission first,
then first semester seniors, then juniors, etc. Completed applications are due by April
11th. When completed applications are handed in, students will be asked to pick a
lottery number. The excess over 175 will automatically become the off-campus waiting
list for the summer. This list will dissolve in September and students wishing to live
off-campus second semester must go through a lottery in December 1980.

If we do not receive 175 applications by the deadline of April 11th, we will allow
students at the time of room draw to opt for off-campus living, until the maxi-
mum of 175 is reached.

Students who participate in the off-campus lottery and then change their minds
and wish to select a room - may draw a number as long as they make this change be-
fore their class is scheduled to draw numbers.

for Seniors before April 22
for Juniors before April 23
for Sophomores before April 24

After April 24th students changing their minds must go to the bottom of the
waiting list under sophomores.

Room Changes: After a student has chosen his/her room assignment for 1980-
81, he/she may not request a room change until October 15, 1980. Students making
unauthorized room changes will be fined $50.00 for each student moving.

Attendance Deposit: Occupancy for the Fall is contingent upon payment of
a non-refundable deposit of $200 on or before June 15, 1980. Room reservations and
places in class will not be held for students failing to make this deposit.

Sophomores and the Waiting List: Because of allowances for summer
attrition, rooms in the dormitories will be exhausted before all sophomores are placed.
These sophomores will be advised of their options regarding summer placement.

The sophomore waiting list will begin with those students who were unable to
draw rooms because no more rooms were available. Next on the waiting list will
be sophomores who were "no shows" or failed to pick rooms when their names
were called and rooms were available.

Board Plan: All students living on campus are required to subscribe to the
meal plan.

Students Without Roommates Who Do Not Get Singles: If a person has
no roommate when his/her number is called, he/she must make a decision to either:

a) The person can take five minutes to find a roommate without losing
his/her turn.
b) The person can leave to find a roommate and pick when he/she returns
that evening.
c) The person can draw for a double with the understanding that the next
person to select without a roommate will be assigned. The space will NOT
be assigned to a new student entering in fall, 1980.

Please note that before room selection night, students without roommates may
register in the Dean of Students Office for a self-service listing of people in need of
roommates.

Changes of Heart: Once students have drawn a room in the fraternity or
language floor draw, they cannot participate in the All-Campus Draw. Once
students have chosen numbers and/or rooms in the all-campus draw, they cannot
go into a fraternity or language floor. Room changes can only be requested in
October, 1980.

DOES YOUR HAIRSTYLIST MISUNDERSTAND YOU
WHEN YOU SAY "A LITTLE OFF THE TOP PLEASE"
Poet Charles Simic

Poet Charles Simic To Read

Charles Simic, author of Dismantling The Silence, Chaucer's Cosmology, and other major collections of poetry, will read from his poems on Sunday evening, April 11 at 8 P.M. in the Robinson Room of the Library.

Simic has been awarded several Fellowships, including the prestigious Guggenheim, has taught in several graduate writing programs, most notably Columbia University and the University of New Hampshire. He is also one of our most gifted translators: his versions of the Yugoslavian poet, Vasko Popa and Ivan Lalic are the standard editeps of their works. With Mark Strand, Simic co-edited the anthology of Latin American and European poetry, Another Republic. The one of the most important and original voices in the American neo-surrealist movement of the 1960's, Simic's new work is sparse, direct, and emotionally powerful. Admission Free.

Preview

World Premiere Of Play

"Helen At Home"

Performing arts will present the World Premier of John Gardner's new play "Helen At Home." It is a comedy about human responsibility, taking place in mythical Sparta ten years after the conclusion of the Trojan War.

In the words of the director, "the situations are sometimes as funny as parts of a Buster Keaton movie, and the dialogue is full of polished wit."

The show will take place on April 17, 18, and 19 at 8:00 p.m. in Strider Theatre. Directed by Irvine D. Suss and performed by Cathy Woody; Abbott Master; Douglas Mears Lisa McDcnough; Lila Duffy; Lisa Smith and Fred Froyer. Tickets: $1 for students - $2 General, are available in the activities office and at the door. Helen returns to Sparta and her husband Menelaus where they are visited by strangers. Odysseus, the Greek hero returning from the Trojan War, is pregnant with a baby by the goddess Athena, whom Helen plans to kill as an exercise of her personal freedom. The other stranger is the Goddess Athena in disguise. Athena points out the dangers involved in human beings who act only on the basis of their own will and conscious. Within this context, a love affair develops between Odysseus and a slave girl who cares for the family pig. The play parodies commercial comedy; boy eventually gets girl, and thanks to Helen, the Gods are forced to disappear from human affairs. Whether the human race wants to remain subject to the whims of someone like Helen is the question on which the play ends. It is a unique, technically demanding work, calling upon contemporary theatrical techniques and an array of special effects. But for all of the pop art effects, the play makes a vivid comment on individual and social morality.

Profile:

Student Artist Clay Hutchison

by Anne Phaneuf

While people may connect Clay Hutchison's name with a piece of sculpture or a photograph or a play they've seen, most people don't realize just how much he has accomplished in all of these arts.

Clay is a junior at Colby where he has created and exhibited pieces of sculpture and photography, and has been active directing and acting in plays.

In his sophomore year Clay began an acting course with no previous acting experience. He went on to hold small parts in "Columbus," "Our Town," and played the major role of the scoundrel in "Diary of a Scoundrel." Clay doesn't limit his theater activity to acting, however. This year he directed Frank Tempkin's play "Sham," a project Clay considers successful on the whole.

Aside from his Colby theater experience, Clay worked for Willow Productions, a small film company in New York, the summer before his sophomore year. Clay was hired as an assistant, and helped him his way up to associate producer in the filming of the major motion picture "Night Flowers" which has not yet been released. Clay believes that "Night Flowers" may possibly come to Waterville in the Spring. This past summer Clay worked again for Willow Productions on a film festival in Italy.

While in Europe, Clay visited Iceland and, with his photographs of Iceland appeared in the February Student Art Exhibit. By using 35 mm. slide film, and carefully underexposing the photographs Clay obtained a slightly muted tones. The ingenuity Clay demonstrates in photography carries through to his sculpture as well.

An administrative science-art major, Clay exhibited two sculptures in the show. This is his second year working with sculpture and his materials consist of laminated plywood and steel.

Clay describes his sculpture as a "learning process," and is aware of his need for more experience and work in the art. He considers his accomplishments in sculpture a result of

Folk & Bluegrass Festival

Folk and Bluegrass Musicians! The Colby Folk and Bluegrass Festival Band is sponsoring its tenth annual Folk and Bluegrass Festival and Competition on May 19 and 20. All folk and bluegrass musicians are welcome, but the contest will be limited to the first 30 performers to apply. For information and applications forms write to: Folk and Bluegrass Festival, Box 23540, Middlebury College, Middlebury Vermont 05753.

The encouragement of this professor, Harriet Matthews. Wood spirals, geometric shapes, and inverted pyramids compose Clay's sculpture, and there is a thematic cohesion throughout his pieces.

Clay admits this extracurricular activity is a lot of work, but he gives it a high priority. He sees his theater work, for example, as analogous to a team sport where many people work closely together towards a common goal. He is quick to recognize the valuable resource the faculty has been for him, particularly Dick Sewell and Steve Woody.

Clay is looking for a way to integrate his many efforts. He feels that if he can interrelate some, each pursuit will be more thorough, and his energy will not have to be pushed in different directions.

Ferrigno Clay's statement is his belief that he needs more experience in his work. He holds that you can not go forward until you make many efforts, attempts, and mistakes. We wish Clay the best in all his undertakings and appreciate his many contributions to the Colby community.

Folk Guitarist

At Bowdoin

Best-selling women's music recording artist Chris Williamson will appear in concert Tuesday, April 19, at 8:30 p.m. in the Davis Yankee room of the University of Maine at Orono Memorial Union, sponsored by the Office of Women's Programs and Services.

Chris is another of the nation's first female musicians to take four years till spring to celebrate the release of her new album, Strange Paradise, on the Olivia label. This tour will include backup musician Jamie Millington of "Fanny" fame on guitar, Jackie Robbins on electric bass and cello, and Cam Davis on drums.

Chris' musical roots lie in the center of the Sioux Universe, the South Dakota hills of her birth, and the wildness of Wyoming where she lived as the daughter of a forest ranger. She took up the guitar and started performing as a folk artist in college and in 1969 she headed for the West Coast after graduating from the University of Denver.

Jamie Millington, one of the backup artists in the UNO concert, has toured extensively with Chris as well as appearing solo in concerts throughout the country. With the formation of Fanny, the first all-women rock band to rise to national prominence, June recorded with Richard Perry, Todd Rundgren and Barton Streisand. She has also produced a number of albums, including Williamson's Strange Paradise.

Jackie Robinson is a classically trained cellist who switched to electric bass and rock and roll and maintains a balance between the two, performing with symphony orchestras and with Williamson and Millington. Cam Davis has been a professional drummer for 13 years, playing everything from original material to Top 40. This is her first tour with Chris Williamson.

Tickets for the show are $5 in advance and $6.50 at the door. Advance tickets are available by mail from the Office of Women's Programs and Services at Fernald Hall, UMO: the Women's Association; Colby Women's Group, and the Women's Forum at USM.

Aerosmith: Nights In The Ruts

Aerosmith falls into the category of those groups that have followed the philosophy: if albums are selling at De'orsey's, and concerts are consistently passing out at your concerts, then increase output.

Unfortunately the quality is sometimes lacking if the path is followed. Nights in the Ruts, Smith's latest album is the standard material that they have delivered to a dwindling following of admirers.

Smith hit the craze American music scene with their "smash" single "Dream On" in 1979. Yet to win Roundtown boys, and all those who climb their way to the top in a town where many bands fail to the top, "Now, the struggle begins in the take its toll. Aerosmith is on its way down and groups that have followed the philosophy: if dwindling following of admirers."

Ruts, Smith's latest album is the standard line. The influence of Aerosmith is clearly the means in which the Joe Perry Project will become a household word. The gifted guitar playing of Joe Perry will continually be compared to Keith Richards, but it is quite difficult to see the resemblance if you aren't a writer for the Rolling Stone.

Joe Perry is, I mean was, the lead guitarist of Aerosmith. After the last fall of the Ruts, Perry called it quits with a band that he refers to as an "crashing all at its live pace, it wasn't like we were changing that much, it was that I was changing."

The Joe Perry Project first played in small clubs and bars around New England, before their outstanding stay at the Paradise, and the subsequent released Let the Music do the Talking. Joe has repeatedly been compared to Keith Richards, but it is quite difficult to see the resemblance if you aren't a writer for the Rolling Stone.

Joe does nearly half of the album's vocals, and his solos are scattered throughout the whole. The influence of Aerosmith is clearly the means in which the Joe Perry Project will become a household word. The gifted guitar playing of Joe Perry will continually be compared to the "Big F."

Give this one a listen:

The Rats Walk On Water

by Bob Hyman

Just who are these Boomtown Rats? Well, they're a bunch of rat boys, some rats, and even more rat to tickle your tongue.

Yielding to that Irish tradition of lyrics aimed at the heart and music for pure pleasure, the Rats pick up where such notable countrymen as Thin Lizzy and the Strawbs left off.

Surfacing is provocative; "I Don't Like Mondays" is a sharp stab at the press, the press, the press, and the so-called Establishment prototype.

The attitudes revealed in Surfacing show the band's hard facts as fact. Joe Perry and his solos are scattered throughout the whole. The influence of Aerosmith is clearly the means in which the Joe Perry Project will become a household word. The gifted guitar playing of Joe Perry will continually be compared to Keith Richards, but it is quite difficult to see the resemblance if you aren't a writer for the Rolling Stone.

Everything in sight earns their sneer. Still, the laidback vocals of Bob Geldof, imply that the Rats have put it all together yet another time. Mercury Radio's latest superstars have not only preserved the current, but the real issue is that of "reasonable;

Echo Chamber

Congrats to the Big Guy and Co. for lining up Johnny Winter and The Blend for Spring Carnival. The concerts are scheduled for April 25th at Wadsworth Gym. Sam says there's plenty more lined up for this years bash so be sure and check out... In your dormitory American Bandstand Engagement, Boomtown Rats: Bob Geldof got a little more than a minute out of the tune of "Goods and" what Geldof's piano antics cost him...the crowd loved it, but piano owner Lawrence Welch obviously wasn't too impressed...Genesis is due for yet another release soon. Atlantic Records and Tapes say the 14th album, "Duke", will be released any day now...Last Saturday night's Coffee House proved to be a disappointment for guitarist Chris Pitch. No more than 2 people were present at any time ever even though Brian strummed for over 2 hours. If great music can't draw people in, maybe the Coffee House crew should consider installing beer-pong tables and a tap system!!!!!!!

The MOOSEHEAD MINING BAND will make its first appearance at Colby College tonight at Foss. Jeff, Bob, Tom, and Brian have been in preparation for this festive dance for many a moon. They should be cockin' by eleven. The admission is free, and the beer is only half a buck. Should be a fine time, I'd better see you there...The Back Porch Blues Band made a go of it last Friday night at Fort Weird. They lacked an intact sound, and the lead singer was frequently at a loss for words. Bongo and Bob were sounding mighty fine but you can always turn the amp up enough before you get an ear buzz, and then anything sounds good...LAST TIDBIT: Oh yeah, the Blues Project performed at Phi Delt last Wednesday night. Too bad most of the audience was, shall we say, occupied in the bathroom. The punch was a killer, I wonder, is dry ice nice?...DON'T FORGET...tune your PM dial to 91.5 this evening at eleven, when Bob is on the waves playing the best of the best, and a bit of the rest. Next Week: look for Green the Clown, a mini-bliss on Skyknoon and some more Echo Chamber....

Jungle Book

Based on Rudyard Kipling's "Mowgli" stories, THE JUNGLE BOOK is a beautiful animated film with Disney's innovations in music that follows the adventures of a boy who wants to live his life in the jungle among animals he knows and loves.

Jungle Book

MUSIC REVIEW

The Good The Bad And The Ugly

Sergio Leone's THE GOOD, THE BAD AND THE UGLY is an Italian spaghetti western which is unlike any other.

Like other Leone westerns, there is no good guys vs. the bad guys, so wagon trains, no Indian camps or cattle drives. It is a western with reverse morality, where there are no good guys or bad guys.

Stu-A Presents

Twelve Angry Men

Although extensive trial scenes have long been a fixture of American movies, the dramatic raw material inherent in the deliberations of a jury has been generally overlooked. Taking this hiatus as a challenge, writer-producer Reginald Rose and director Sidney Lumet (Day Afternoon) collaborated to produce TWELVE ANGRY MEN, a film which explores the idea to its conventional sense. But it is an excellent, thoughtful film and in the realm of the mind, it has plenty of action.

Named by a pack young Mongol hobbits with an ape who really is the king of swing, a loveable bear, a bungle python, and a protective dwarf. And Mordor needs four friends to help his escape from the elegant but ferocious tiger who's stalking the elegantly one of War of the Worlds's most successful animated films. Don't miss it.

Shows Saturday, April 12, at 3:00, 6:30, 12:00 midnight. Also Sunday 2:00 p.m., L100, $1.00.
The six performances of the One-Act Festival must be viewed as one of the dramatic highlights of the year. The division of the six plays worked well; each set of three provided more than enough contrast and shift of mood to make an interesting and enjoyable evening. The depth and range of the cast was wonderful, and displayed the talent that Colby has to offer.

When one produces six different and individual plays ranging from mid-17th Century to the present there are certain technical problems that have to be solved. I felt that the subtle shifts from general to specific lighting worked very well in all the plays. The lighting changed the focus from Molière’s intricate language to the goings on of the domestic staff in “The Pretentious Young Ladies.” The shifts in “Waiting for Lefty” were effective; as was the use of the eye in “Doing a Good One for the Redman” and “Zoo Story.” The lighting in “Ille” gave the impression of confinement, something that the set lacked.

The set for “Ille” was not really very nautical, and everything seemed to be there because it was needed. Had there been more accumulated clutter from the preceding two years, it would have added more to the play.

The other sets managed to imply enough of what was missing so as to provide a good background for the play. The set for “Sham” was the most elaborate and conveyed realistically the impression of an English town house; the opening of “Redman” was also very effective; the simplicity of “Zoo Story” fit in well with the play, the openness socialite. She wavered between being bored by the whole thing and trying to impress her public esteem. Had she been less bored in the first part of the show, her nastiness at the end would have been more believable.

Rich Schwerner competently portrayed the amiable husband who means well, and he was perhaps the most lively member of the cast.

Rod Marshall was debonair, but he lacked the inner awareness and command of the situation which he had shown in rehearsal.

The costumes were adequate, but I didn’t feel that Schwerner and Geary belonged together—she was better dressed than he was. If Schwerner had had a nondescript gray suit, or Geary a less elegant dress, the costumes would have been more compatible.

The mood shifted from light comedy to intense domination with “Ille.” Doug Mears had no difficulty whatsoever in filling the role of the peevish Captain Keesey. His forcefulness and ability to maintain his will over others was the strong point of the play. Unfortunately, the conflict between him and his wife (Bridget Callahan) was never really developed. There was a stiffness in their dialogue which I didn’t like. The intimacy that one would expect to have developed between them after living for two years in cramped shipboard quarters was not there.

The direction was a little weak in that Callahan was not given enough to do; her feelings of loneliness, boredom and frustration did not come through to the audience. There was a serious imbalance in the development of the characters of Mears and Callahan while he was hard and forceful, executed magnificently. His movement could have been just a little bit more extended—for example, he could have scrunched himself over the corner of the beach when Bolonsky threatened him. “Zoo Story” was the most overpowering of the one-acts, due to the intensity produced by Bolonsky and Johnson.

The second set of plays opened with Molière’s “The Pretentious Young Ladies.” The gestures and anaces of the cast were well suited to the Molière style—upstaging, bawdy and whimsical.

The beginning on Thursday was a little ragged, on Saturday it was much more forceful. The only questionable moment was when it almost became hammed up during the scar exhibition scene.

Peter Asher was charming as a gruff father; while Sonya Thompson and Karen Zufonte were good as the pretentious young ladies, although I felt that Thompson was the stronger of the two.

James Verrilli could have walked in directly from Molière’s theater. His mannerisms and self-imposed importance added much to the interpretation of his role.

Johnson’s role as a sounding board for Bolonsky was just as difficult and was

of “Lefty” worked very well; while the set for “Pretentious Young Ladies” was successful, an addition it would have been more effective.

The first set of the one-acts provided a subtly different feeling than the second. On Friday night, neither “Sham” nor “Ille” seemed to be as solid as they had been in rehearsal. The cast of “Sham” lacked the inner sparkle that I had seen on Tuesday.

Rod Marshall’s entrance on Friday was not as smooth or as forceful as it could have been, and instead of getting all the enjoyment out of their lines, the cast seemed to rush through them.

I was bothered by Daphne Geary’s interpretation of her role as a would be she didn’t effectively exploit her madness. Had she challenged him, thrown things and shouted it would have made the play stronger. Had she challenged him, thrown things and shouted it would have made the play stronger.

The play is made up of episodes, interspersed with dialogues. John Yates and Laurelle Jacobs were good together.

I was impressed by the enthusiasm of the cast and the response they generated from the audience. These players showed the most group energy of any of the casts in the festival.

The technicians also deserve a round of applause for their work. The play produced was another example of the Colby stage. It was well suited to the action, and the entire cast was debonair, but he lacked the inner awareness and command of the situation which he had shown in rehearsal.

The costumes were adequate, but I didn’t feel that Schwerner and Geary belonged together—she was better dressed than he was. If Schwerner had had a nondescript gray suit, or Geary a less elegant dress, the costumes would have been more compatible.

Career Watch

CAMP COUNSELING - New York State has a placement service for students interested in working in New York camps. More information is available in the Career Planning Office, Lovejoy 110.

THE STUDENT GUIDE TO SUMMER EMPLOYMENT IN BUSINESS - an exceptional directory of summer jobs, has just arrived. Check it out in Lovejoy 110.

- MAINE AUDUBON SOCIETY - offers a well-paying internship to coordinate this summer's annual Loon and Tern survey for the last two years. Other New England colleges located south of Colby have been quicker to the frisbee fields. Tufts, Bowdoin and others have already organized intramural and intercollegiate teams. In the south, ultimate competition has reached an intense athletic level.

COMMUNITY ORGANIZATION - North Country Institute, a nonprofit training and resource center for rural areas, is coordinating an internship program this summer for students interested in community organizing. More information is available in the Career Planning Office.

INFINITE ODYSSEY - Offers summer student programs. Petoan Mountaineering and Rafting, Colorado Mountaineering and Kayaking, Maine Bicycling and Sailing, and the Kayakers and Volcani Wilderome. Also a great trip to the McKinley Expedition. Find out more in Lovejoy 110.

McKINLEY EXPEDITION - Students with some winter mountaineering and high altitude experience are asked to consider a position on a McKinley Expedition this summer. Trips last four weeks. They are seeking 4 more members for the party. For more information, see Pat Hickson in Career Planning.

SAN FRANCISCO BAY AREA THIS SUMMER? - United Neighbors in Action offers a variety of positions for students interested in a summer in San Francisco. Community Organizer, Newsletter Editor, Public Relations Officer, Grant Writer, Administrative Assistant, Legislative advocate, and Canvasser are all possible positions for you. Job descriptions are available in Lovejoy 110.

MAINE JOBSERVICE - Has registration for summer jobs going on now. If you are interested, contact the local Employment Office at 78 College Avenue, Waterville.

MUSICAL SUMMER - Four singers are wanted for singing waitresses and waiters in the "Show Room" of a famous Maine waterfront resort in Boothbay Harbor. Auditions are coming up soon! Contact the Career Planning Office for more information.

AMERICAN YOUTH HOSTEL TRIPS NEED LEADERS - Backpacking and bicycling through North America, Europe and the Mediterranean. All expenses paid, equipment, plus pay. A great way to see the world and gain valuable leadership experience. More information is Lovejoy 110!

WEST BEND - Cookware sales positions available for the summer. Well-paying, campus recruiting and interviewing will be on April 16. Sign-up in Lovejoy 110 if you would like an interview.

I-Play Ultimate

by J.M. Crip

Ultimate Frisbee, a disc-oriented sport will infiltrate Colby this spring in the form of a new I-Play Intramural league. Commissioners Doug Douglas and Rick Gilbert anticipate eight teams and encourage anyone who wants to play to pick up a roster from the Commissioners or at the I-Play Activities office.

"Despite problems with field use and the relative newness of ultimate Frisbee, you can look forward to an exciting game-filled season," Douglas said. Fields slated for use are the J.V. soccer field and a "spacious" area on the top of Burnum's Hill.

Although I-Play Ultimate is new to Colby, the airborne disc has been flying around the campus for the last ten years. Other New England colleges located south of Colby have been quicker to the frisbee fields. Tufts, Bowdoin and others have already organized intramural and intercollegiate teams. In the south, ultimate competition has reached an intense athletic level.

Ultimate competition on campus will be fairly informal to allow newcomers to enjoy the games. The league will be open to both men and women. Anyone interested in forming or joining a team should talk to Douglas or Gilbert. Rosters are available from them and are due today, April 11th, by 5:30 PM at the I-Play Activities office.

Ultimate Frisbee is a fast-paced sport played by 2 teams of 7 players. The teams attempt to score by advancing the frisbee downfield through a series of "coupons;" culminating in an end zone reception. A dropped or intercepted frisbee reverses the direction; so the rapid changes in movement resemble the action in increase.

The season starts this Monday and will run about four weeks. Any questions or requests for rosters should be directed to the commissioners, who live in the Woodard Basement, ext. 510.

If you are unable to be present at the time of a test due to an academic conflict, other arrangements must be made directly with the examiner PRIOR to the date of the test.
Announcements

East-West Wilderness School, a new approach to outdoor education, offers a unique blend of adventure and environmental studies on three to twenty-two day backpacking courses for all age groups from eight to sixty-eight. Based in Hebron, Maine and in its second year of operation, the school conducts programs from early January through the end of October in the Longlives Mountains of western Maine, Yellowstone National Park, and the C syndianzof southeastern Utah.

Most course time is spent learning and polishing low impact camping and hiking skills, studying the wildlife, plants, geology and ecology of the area, hiking to a new campsite nearly every day, cooking, and exploring the environment.

The school is now accepting applications for its summer programs. For further information write to East-West Wilderness, RFD, Hebron, Maine 04238.

Resolved: That the office of President of the United States should be legally restricted to one term.

Finals: Smith, Hurd, and Rohini Rooms, Roberts Union
Thursday, May 8th
Round I, 1:30 p.m.
Round II, 6:30
Round III, 7:45

Registration: English Department Desk
Deadline for Registration: Wednesday, April 30th

Please notice: No “teams.” Affirmative-negative competition one on one against one.

The Louise Cohran Prizes for reading: Prose, Poetry, Drama — 1:30 p.m. Monday afternoon, May 5th, Holmes Room, Roberts Union

Requirements: A well-balanced program, 10 to 12 minutes in length, consisting of at least two genres. Judges give consideration to the quality of the program as well as to the effectiveness of its presentation.

Registration: English Department Desk
Deadline for Registration: Wednesday, April 30th

Notice: Finals will be limited to six readers; therefore preliminaries may be required.

The deadline for submitting proposals for study abroad to the Foreign Study Committee is April 15. The Committee will not consider applications submitted after that date.

If you’re interested in summer study abroad, go to Rustis 205 for current information.

College students are invited to attend summer seminars in British Archaeology and Theatre which will be conducted in England during June and July by the Association for Cultural Exchange of Cambridge, England. The programs are also open to those with a serious interest in these fields.

The British Archaeology Summer Seminar and Excavations will be offered from June 27 - July 16. After 4 days of lectures and discussions at Christ’s College, Cambridge University, the participants will then spend the remainder of the program in practical excavations in different parts of England and Scotland.

The British Theatre Summer Seminar will be offered from July 15 - 30. The course will be devoted to contemporary trends in British drama, examining such areas as writing and directing, design, in the theatre, the National Theatre, repertory etc.

For further details, write to AAD Associates, P.O. Box 3027, Arvins Station, New Haven, Conn. 06515. Telephone: (203) 387-4461.

Bob Hope says: “Red Cross can teach you first aid. And first aid can be a life saver.”

You can gain a sense of the stresses on the U.S. political world, its effect on the career of government professionals, and the repercussions for you and the rest of the nation, at the Federal Forum, a government study program, sponsored by Presidential Classroom and offered in Washington, D.C. The course is composed of seminars with high ranking policymakers, workshops, and on-site briefings at such Washington centers of power as the Capitol Hill, the State Department, and CIA headquarters.

Tuition is $390 for the week which includes hotel accommodations and some meals. Three credits can be earned through the University of Virginia. The additional cost for three college credits is $69.

WMHB Or Not To Be?

by Jay Olins

We have a problem. When WMHB's license expires on April 1, 1981, the station could be forced off the air. The reason is a recently passed Federal Communication Commission (FCC) regulation which requires all stations operating on the FM educational band frequency to either increase their power or move off the air, or face the FCC's penalty.

The rationale behind this regulation makes sense for large metropolitan areas. In these heavily populated areas (such as Waterville), it is necessary for the FCC to keep the airwaves clear for the public's use. However, in the less crowded areas, it is less necessary for the airwaves to be cleared.

The impact of the regulation on the smaller radio stations is difficult to predict. But it is likely that in the near future, FM bands will be crowded with smaller stations broadcasting local news, sports, and music.

The FCC's decision may have been influenced by the popularity of local radio stations, which provide a valuable service to the community. However, the impact on the smaller stations is still uncertain. It is possible that some stations may be forced off the air, while others may be able to continue with their current programming.

This is a problem that warrants further investigation. It is important for the community to understand the implications of the FCC's decision and to take action if necessary. The ECHO can provide a forum for discussion and debate on this issue.

EPC: The Undermining Of A Consensus

by Dick Sinapi

The impact of each of the subcommittee recommendations taken alone may appear to fit the greater Waterville area or go off the campuses. However, it is important to understand how each recommendation interacts with the others.

The subcommittee on the Course Load and Jan Plan of the EPC, the Educational Policy Committee, proposed a number of changes to the current academic calendar at Colby. These changes were to be implemented as part of the 1979-80 academic year.

The subcommittee proposed a number of changes, including:

1. Increasing the number of class meetings from five to four.
2. Adding reading periods to the course load.
3. Allowing students to take classes for credit on a pass/fail basis.
4. Increasing the number of courses that can be taken for graduation.

The subcommittee's proposals were met with a mixed reaction from the student body. While some students supported the changes, others were concerned about the impact they might have on academic performance.

The subcommittee's proposals were also met with criticism from the administration. Some administrators were concerned about the potential for academic integrity and the impact on faculty workload.

Despite the mixed reaction, the subcommittee's proposals were eventually adopted by the Committee on Education.

The impact of the subcommittee's proposals on the academic calendar at Colby is still being evaluated. It is important for the student body and the administration to continue to work together to ensure that any changes are in the best interests of the students and the college community.
Radiation

As you sit reading this, you are being bombarded by literally thousands of nuclear particles per minute. While it is true that every particle of the "background" radiation has the potential to do damage to one or more of the molecules of which you are made, therefore ruling out an absolutely safe threshold level below which no damage occurs, the vast majority of radiation striking you is tolerated.

In the U.S. about half of the general background radiation is associated with man's activities, the rest being considered "natural." Of the non-natural about 90 percent is due to medical and radiological uses of radiation that we all receive occasionally, which are like nuclear radiations but of lower energy. Less than 10 percent is due to natural background radiation was due to nuclear power installations, including mines, and the projected amount was to have been less and 0.5 percent, anticipating a growth of nuclear power that is now in doubt.

Most radioactivity from nuclear wastes is relatively short lived. With the exception of Krypton-85, which has a half-life of about 11 years, the various gases and other radiations from the reactor core decay in less time than the present one, is therefore, small.

Nuclear Waste

Nuclear Wastes

Nuclear wastes in a reactor such as Maine Yankee is radioactive and has a volume sufficient to hold 80 million gallons. If current and future wastes are solidified, solidified high-level waste per year produced by a reactor like Maine Yankee is less than 50 cubic ft. The solidified annual output of 1000 plants of this kind would cover the Colby football field to a depth of one ft. Through the radiation levels of this amount of waste would be enormous, and I stress enormous. The liquid discharges from the reactor and other radiations striking you are tolerated. The last of these, the article on March 1980, "Nukes: Don't Overreact" by Karen Erdos, is representative of the anti-nuclear position this series has generally expressed. With a referendum on nuclear power for Maine about to be conducted, a few facts addressed to those who have not already adopted hardened positions would seem to be in order.

At the present time radioactive wastes are collected in liquid form, more than 80 million gallons of which are stored in the U.S. today. A single tank 250 ft. high sitting on Colby's football field has a volume sufficient to hold 20 million gallons of waste.

If current and future wastes are solidified, the volume may be reduced. The projected amount of high-level waste per reactor like a reactor like Maine Yankee is less than 50 cubic ft. The solidified annual output of 1000 plants of this kind would cover the Colby football field to a depth of one ft. Through the radiation levels of this amount of waste would be enormous, and I stress enormous. The liquid discharges from the reactor and other radiations striking you are tolerated. The last of these, the article on March 1980, "Nukes: Don't Overreact" by Karen Erdos, is representative of the anti-nuclear position this series has generally expressed. Accidents

We kill tens of thousands of people in automobiles and hundreds in airplanes every year. Fatal accidents in the home, the factory and on the farm are commonplace. In a sense, modern technology has allowed developed societies to replace adverse "acts of God" with fewer but ne less adverse acts of man. Although a great reduction in adversity has been possible, unlimited reductions are almost certainly not economically feasible. Nuclear power is no exception to this.

A technology cannot begin to claim maturity until it has demonstrated the ability to handle the unexpected. Three Mile Island was a significant test of the maturity of nuclear power that is still in progress. By no means has the test been failed as yet. If the plant had to be cemented up and left, perhaps the most serious test of Three Mile Island would be the reaction in the plant would be whether Pennsylvania utility could bear the financial cost. A less severe test would be whether society could bear the dedication of small parcels of land, effectively in perpetuity, to failed or decommissioned nuclear plants. This would not be entirely new. We regularly withdraw thousands of acres of land for hydro power water storage, although such land is recoverable sooner.

Two years ago, Dr. Haven Whitehead, a physicist working with Senator Muskie's committee on energy and environment told a Colby audience that the climate health of people in the Colby football field to a depth of one ft. Through the radiation levels of this amount of waste would be enormous, and I stress enormous. The liquid discharges from the reactor and other radiations striking you are tolerated. Editorial Do It

It's time for a merger.

On one hand, we have the emergence of solid student initiative this year, in speech and action. From the Colby Unite statement and meeting to the many quality letters-to-the-editor and commentaries in the ECHO, students have voiced their opinions and ideas. And in the revitalization of IFC, the creation of a new Coffee House and the ADP coed frat, and student work on the EPC, students have acted on their concerns.

On the other hand we have the relatively untapped resources of the Stu-A. It seems that we only think of Stu-A when it is budget time.

It is time to merge the growing student initiative with the great potentials of an active Student Association. It is time to form an initiative with the great potentials of an active Student Association. It is time to form an initiative with the great potentials of an active Student Association. It is time to form an initiative with the great potentials of an active Student Association.

Letters to the Editor

Runny Noses

To the Editor:

We think it's about time for us to respond to "one of the most bilious and witty commentaries" to be printed in the Colby ECHO to date. Indeed, Rachel Lavengood's "Identity for the Feeble" was a true milestone in "bilious" exposition.

Rachel told ECHO readers about all the fun we used to have some years ago, searching for the identity that would allow us to cope with the fripperies that the fraternity can impose on our academic life. Some of us paraded around naked while others laughed heartily and wore silly hats. After a few water fights, we threw bouquets, bobbles and card games, we had all the identity we needed to...pledge and promote sexual ideals!

Wrong, Rachel. The majority of us on the "T" that did pledge did so in pre-school September before you knew us or late December and January (well after we talked you out of holding your breath till blue after our Christmas party). When did we change, Rachel?

We would like you to know, that as card carrying "insurce, runny nosed little smuts" (eloquently put, Rachel) we were determined to act that way whether or not we had already kicked or sworn all of the house pots and joined one of those fun fraternities! So where does the sexism distinction between fraternal and those single-chip living lie? It seems to us that the same type of man and women use both.

We have trouble with the notion that our fraternity has so fettled the fabric of male-female relationships at Colby that no (warm) homework "Q" ever be made of that fabric. To all, except for the most shallow and socially ill equipped, a fraternity should be viewed as just one more dimension, or forum, within which to develop relationship more fully. Those who venture no further than the fraternity miss as much if not more, than those who misuse or fail to experience what the fraternity can offer. The view that men (and vice versa) is a product of relationships developed within all dimensions of today's (and yesterday's) society.

Let us not narrow ourselves by eliminating a dimension - the situation will only worsen.

In the same vein - more power to the quest to develop more alternate lifestyles at Colby. Though the Center for Coordinated Studies may with limited success, the time is clearly right for the administration to act upon reasonable and imaginative ideas presented by people like you, Rachel. Instead of undermining an alternate lifestyle that, even with its problems, is respected by well over 25 percent of the student body, build and develop a viable alternate lifestyle that everyone (possibly even frat men) can enjoy.

So move back on campus Rachel, Brother Dave, and Whit. Work alongside your friends living here from within us, not upon us from the frigates as if some banished Ayatollah. Colby needs constructive ideas.

And Rachel, now you've been labeled the "nudge" (a surely non-sexist honor). We have another accolade to lavish upon you. Back when we thought you were our "friend" you were the "tit.

The Guys of the "T"

Pack Your Bags

To the Editor:

We would like to respond to Michael Childers' "brilliant" letter.

Mike, what a revolution! You're so absolutely right! When are you leaving? We'll be right over to help you pack! Be sure to tell Brother Don to not to worry.

As soon as we're done, we'll be at Mary Low. Though your point is well-taken, you should have verified the "divinity" of sources. God read your letter and she's mad as hell!

To keep these kids happy for 12 hours, we had to keep the kids from getting bored during the 12 hour period. A number of hockey players were very helpful. In this aspect, Pat Murphy, Bobby Note, Dan O'Halloran, Myles Grady, Dan Baton and Joey Faulstich played "keep away" and towed the kids around for a large part of the day. Even Sandy Miesel gave us a glimpse of his former self when he came and skated with his son, Joshua.

B & G Supervisor, Ansel Grindel, was also helpful by reserving the ice time for us and providing the Zamboni to clean the ice every two hours.

In what would seem to be a time of tension on campus, it was interesting for me to see frat men, non-frat members, administrative and faculty members working together for the benefit of others. It took the skating marathon showed that, despite what the ECHO may present, the Colby community does and does work together in a constructive way.

On behalf of the brothers of Lambda Chi, I would like to thank all of you who helped.

Your efforts will make this summer a happier one for the crippled children of Maine.

Sincerely,

Matt Maley
President
Lambda Chi Alpha

Never Mind . . .

To the Editor:

What's all this I hear about Co-ed Frats?

Hey, I like a good hamburger. After all, just as much as the next guy, but having to do it in the presence of the opposite sex can get darn boring. It is an elitist nut, but I can't see sitting down with any woman and breaking simultaneous wind. No, I'm a bit of a traditionalist when it comes to these things. Come on Colby, get off your methane clouds and let's unite for some serious problems that are facing us.

Sincerely yours,

Christopher "Low Carbohydrate" Cameron

To the Editor:

By reading the recent issues of the ECHO, an outsider could easily think that the Colby community is a very divided one. Yes, like all communities, we are divided, but not to the extent that the ECHO would lead one to believe. This became evident to me at the skating marathon which raised $3,500 for the Pine Tree Camp for Crippled Children. We, the Brothers of Lambda Chi, sponsored the event, but we received a great deal of help from administrative and faculty members and especially, other students.

The vast majority of the participants in the skating were kids ranging from 8 to 15 years of age from the greater Waterville area. Keeping 80 such kids occupied for 12 hours was no easy task and the help we received was very much appreciated.

Though these were happy for 12 hours, we had to keep them well fed. Mr. Paul O'Connor and Hoss from Colby's food service were a big help in supplying hot dogs, hot chocolate, ketchup, etc. Also, the Sisters of Sigma Kappa baked and donated 600 cookies.

We also had to keep the kids from getting bored during the 12 hour period. A number of hockey players were very helpful. In this aspect, Pat Murphy, Bobby Notes, Dan O'Halloran, Myles Grady, Dan Baton and Joey Faulstich played "keep away" and towed the kids around for part of the day. Even Sandy Miesel gave us a glimpse of his former self when he came and skated with his son, Joshua.

B & G Supervisor, Ansel Grindel, was also helpful by reserving the ice time for us and providing the Zamboni to clean the ice every two hours.

In what would seem to be a time of tension on campus, it was interesting for me to see frat men, non-frat members, administrative and faculty members working together for the benefit of others. It took the skating marathon showed that, despite what the ECHO may present, the Colby community does and does work together in a constructive way.

On behalf of the brothers of Lambda Chi, I would like to thank all of you who helped.

Your efforts will make this summer a happier one for the crippled children of Maine.

Sincerely,

Matt Maley
President
Lambda Chi Alpha

To the Editor:

What's all this I hear about Co-ed Frats?

Hey, I like a good hamburger after all, just as much as the next guy, but having to do it in the presence of the opposite sex can get darn boring. It is an elitist nut, but I can't see sitting down with any woman and breaking simultaneous wind. No, I'm a bit of a traditionalist when it comes to these things. Come on Colby, get off your methane clouds and let's unite for some serious problems that are facing us.

Sincerely yours,

Christopher "Low Carbohydrate" Cameron
To the Editor:

Last spring the Student Association established the Strider Speakers Series. To select each year's committee members, a proposal by Student Association Chairperson H. S. Jackson resulted in a new committee being formed.

The committee will be responsible for recommendations and the approval of the Strider Speakers Series Committee members. The committee will be selected by the Student Association Chairperson. The committee will be responsible for selecting the new committee within a few weeks.

The committee will be responsible for making recommendations to the St.-A. about whom the current issue should be addressed and what nationally known speaker should be invited to Colby. There will be six committee positions. Committee members will be selected by the Student Association Chairperson. The committee will be responsible for selecting the new committee within a few weeks.

The committee will be responsible for making recommendations to the St.-A. about whom the current issue should be addressed and what nationally known speaker should be invited to Colby. There will be six committee positions. Committee members will be selected by the Student Association Chairperson. The committee will be responsible for selecting the new committee within a few weeks.

Comments:

Using the current issue, write a human-interest story about one of the students involved. This could be a story about a student's experience with the Strider Speakers Series Committee, or it could be a story about a student's experience with the Student Association Chairperson.

The point of this message should be obvious. When there is snow still on the ground, be careful and aware of your snowball's targets.

The Student Judicial Board

Thanks, Colby

To the Editor:

I would like to thank everyone who participated in the Pre-Freshman Welcome Weekend April 3-6 for making it a success. Eighty-nine students left campus on Saturday with a pleasant feeling about Colby.

For me it again proves that Colby College is the right place to be.

Sincerely,
Sherman A. Rossier, Jr.
Assistant to the Dean

Jesse Owens

To the Editor:

The recent death of Jesse Owens is a reminder that he did more for his color by going to the Olympic Games than he would ever have done by staying away.

Yours Faithfully,
C. P. Elias

Correction

In President Cotter's March 28th letter to the Student Body, the electricity bill for Colby was incorrectly stated. Colby spends $22,000 per month on electricity.

The editorial selected for the Student Body is as follows:

Snowballs

To the Student Body:

Recently the Student Judicary Board heard a case which involved the throwing of snowballs. In this particular case a snowball went through a window and the snow and glass hit someone square in the face. Luckily, the personal injury was minor.

Sincerely,
G. J. D. W.
Our School:
"A Real Alternative"

by Beth Przeski

Our school, no everyday kind of a place, is located in what used to be a lobster pound on JFK Memorial Drive. As there is no grading system the building is one large classroom with smaller partitions. There are a few scattered desks and several tables for schoolwork with a loft for reading.

Teacher Barbara Kennedy prefers this school to the experience she had teaching in a private school which she found "frustrating with the number of students" she had in her class. The important thing about Our School for her is the spirit and cooperation of working with all age groups together. Adding that the school tries to use community resources as often as possible, she noted that the children often take field trips to the State Museum or other local places of interest.

Students also made the scenery as part of their art class.

The students all seem to like the school. Cass Kennedy, age 9, whose mother is one of the teachers, says she "likes it," though "sometimes it gets on my nerves" that her mother is always around. Josh Maksik, age 6½, says he likes Our School better than nursery school and that after reading, the best thing is play. Josh West, age 12, is the oldest student at the school, and claims that being the oldest "doesn't bother him." Bronte Crosby, age 11, who was in public school before attending Our School, said she likes "more attention and more teachers" and added "it's fun to play with the little kids." But one nine year old complained, "It's unfair, the little kids get to do what they want."

This year Our School will break even financially. The school received a donation from Susan Seaford Hayes; the actress who plays Julie on the television soap opera "Days of Our Lives." She is grandmother to Professor DearrSamuels' children, who go to Our School. Her donation came from the money she won as a contestant on a television game. Professors Calvin MacKenzie decided to send his five year old son, Peter, to Our School. He wants them to have freedom of expression so that as years go on they will not be limited in their potential. He finds the teachers to be themselves.

Part of Our School's philosophy statement says the school is "to provide a sense of group and sharing among the children and staff, and to lessen competition while building on individual strengths." In keeping with this philosophy each student works at his or her own pace (though with some activities all students, regardless of their age, participate). The students call the teachers by their first names, allowing for a closer relationship between teacher and student.

A typical day at Our School starts at 8:30 with the reading period. All children have their own folders with lessons according to their own individual reading level. Every day the teachers meet with each child and discuss with them their reading skills, phonetics, and writing. At 10 a.m. the students take part in what is called sharing time. They discuss projects they are working on, or a book they may have read. Thirty is snack time and then recess. From 16:40-12, four days a week, is homework. On Friday the students have gym in Waterville. The afternoons vary. On Monday the kids go to the Waterville Public Library, where the younger children see films while the older ones do assignments. Tuesday, Wednesday, and Thursday are reserved for what is called thematic units. These are area subjects, such as building, the history of Maine, and the study of specific countries. The school has just finished studying Spain, China, and Africa, which was completed with a dinner with foods from all of these countries. On Friday afternoon an artist from Signs of the Sun art gallery comes to demonstrate his craft.

Teacher Brenda Lunt says the school is a unique one, in which "the environment allows for flexibility." She says the students have a lot of choice in what they can do. She likes the openness of the school and the individual attention that goes along with it. She sees herself as "an individual for the children, not an authoritarian."

Barbara Bowen, wife of Professor Roger Bowen, and current Treasurer of the school, sees Our School as "a real alternative." Their seven year old daughter, Jessica, "can move at her own speed." Bowen felt her daughter "needed encouragement" at school and Our School provided it. She has "built up her own self-confidence so she loves what she is doing."
