

Electrical Hookups and Service Providers in Maine

Universal Transverse Mercator Zone 19N Projection
North American Datum 1983

The electrical hookup layer was provided by the Maine State Planning Office and shows the number of commercial and residential electrical hookups in 2004. These data were provided by Central Maine Power Company and Bangor Hydro-Electric Company, and only shows data in their distribution area. All other layers were downloaded from the Maine Office of GIS.

This map was made for the Atlas of Maine Project using ESRI ArcGIS 9 software.
