Maine Lake Fish Densities

Map created on March 31, 2005 by Rich Crowley (Colby College) using ArcGIS

Data provided by:
- Maine office of GIS (http://apollo.gis.state.me.us/catalog/)
- PEARL (http://pearl.spatial.maine.edu/)
- Data compiled by Whitney King

Map Scale: Approx. 1:500,000
Projection UTM Zone19N

General Information
Maine GIS lakes data was connected to Department of Inland Fisheries and Wildlife fish species survey using state MIDAS numbers for each lake. In cases where lakes were MIDAS classified but there was no available data on fish species present lakes were included on the map. Lakes which contained no MIDAS number were not included in this map.
